

# AGENDA SPECIAL GOVERNANCE & PRIORITIES COMMITTEE MEETING OF NOVEMBER 20, 2015, AT 9:00 A.M. COUNCIL CHAMBERS CITY HALL, 1 CENTENNIAL SQUARE

Page

#### **CALL TO ORDER**

# APPROVAL OF THE AGENDA

#### **BUDGET PRESENTATIONS**

1. Draft 2016-2020 Financial Plan --S. Thompson, Director of Finance

3 - 1040

Departmental presentations on the Draft 2016-2020 Financial Plan for consideration on November 26, 2015.

#### **Presentations:**

#### Engineering & Public Works - Continued from Nov 12

- Operating, Pages 243 518
- Capital, Pages 811 822, 825 830, 832 833, 843 868, 904 911, 915 936

#### Parks, Recreation, & Facilities

- Operating, Pages 559 660
- Capital, Pages 823 824, 836 842, 880, 890 891, 913 914

# Citizen Engagement & Strategic Planning

- Operating, Pages 189 242
- Capital, Page 831

#### Legal Services

- Operating, Pages 553 - 558

#### Corporate

- Operating, Pages 761 - 803

# **RECESS**

At 12 noon there will be a recess to a raise the flag for 'Movember'

# **ADJOURNMENT**

# **Governance and Priorities Committee Report**

For the meeting of October 22, 2015

**To:** Governance and Priorities Committee **Date:** October 9, 2015

From: Susanne Thompson, Director, Finance

**Subject:** Draft 2016-2020 Financial Plan

#### RECOMMENDATIONS

#### That Council:

- 1. Receive this report for information and consideration on November 26, 2015
- 2. Direct staff to bring forward bylaws outlining solid waste and water utility user fee increases to the November 26 Council meeting for consideration of first, second and third readings.

On November 26, 2015 staff will recommend that Council:

- 1. Direct staff to bring forward the Five-year Financial Plan Bylaw, 2016 for first reading prior to commencing public consultation.
- 2. Approve transferring \$500,000 of assessment growth (non-market change) revenue to the Buildings and Infrastructure Reserve and direct staff to bring forward options for the use of the remainder once public consultation has been completed.
- 3. Direct staff to bring forward options for the use of 2015 surplus once public consultation has been completed.
- 4. Direct staff to bring forward options for funding supplementary budget requests once public consultation has been completed.
- 5. Approve an additional tax increase for capital, if any, and outline for which projects in Appendix A
- 6. Allocate \$2,818,000 of the annual gas tax funding to the Storm Drain Brick Main project and direct staff to bring forward options for the allocation of the remainder once public consultation has been completed.
- 7. Approve the direct-award grants as outlined in this report.

#### **EXECUTIVE SUMMARY**

The draft 2016 Financial Plan was developed based on Council's direction for a maximum tax increase of inflation plus 1% as well as the City's Financial Sustainability Policy as the guiding document for budget development. Inflation for Victoria is currently 1.2% (August). Budgets were developed to maintain existing services and service levels; staff's recommendations to Council on service level changes are presented as supplementary budget requests for Council's

consideration.

Council sets objectives for the City through the Strategic Plan and aligns service levels and allocates funding through the annual financial planning process to achieve those objectives. The purpose of this report is to introduce the draft 2016 Financial Plan for Council's review and fulsome discussion.

The second year of the implementation of the new financial planning process focussed on improving metrics, shifting the timeline to have a substantially completed financial plan before the beginning of the year, and further aligning with the 2015-2018 Strategic Plan. Furthermore, added to the financial plan are metric summary sheets for each department showing "how much we do", "how well we do it" and "is anyone better off". In addition, there are new summary sheets for each capital project area outlining guiding principles and documents, current status of assets, and proposed investments. The intent of these summaries is to provide a snap-shot overview of the number of assets in each area, what investments have already taken place, as well as the condition of the assets. These will continue to be improved upon as more information is gathered and metrics are refined.

The draft Financial Plan outlines the budgets for approximately 200 services and over 200 capital projects as well as key initiatives for each department. From the provision of clean water, garbage collection and emergency services to parks and recreation programs, community planning and land use development, first rate City services are the foundation for building a safe, healthy and sustainable community. Among the key initiatives is a review of the City's development cost charges (DCCs), which have not been updated since 2005. DCCs provide a funding source for capital projects relating to development. The capital plan proposes:

- Active Transportation projects such as Pandora Avenue and Johnson Street corridor bike lanes, and Heron Cove and Raymur Point Bridges along the David Foster Harbour Pathway;
- Complete Streets projects including rehabilitation of four residential streets;
- A number of park and playground upgrades including Vic West Park and Stevenson Park;
- facility upgrades for City facilities such as Victoria Conference Centre, parkades and VicPD headquarters; and
- Underground infrastructure upgrades for the City's water, sewer and stormwater systems.

The capital plan also proposed a neighbourhoods budget of \$185,000 for placemaking projects, with a potential for a participatory budgeting opportunity for a portion of this budget.

Council's review and discussion of all the proposed budgets is still required. As presented to Council, the draft operating budget totals \$221 million and the draft capital budget totals \$51 million for 2016. The proposed budgets would result in the following increases:

- A property tax increase of \$2.8 million or 2.31% (1.03% for operating, 0.14% for Greater Victoria Public Library, and 1.14% for Victoria Police based on what was submitted in the 2015 financial plan for 2016)
- A water utility user fee increase of \$333,000 or 2.16%; the majority of this increase (1.10%) is due to the Capital Regional District's bulk water rate.
- A solid waste user fee increase of \$47,700 or 1.67%; this increase is due to an increase in the CRD's tipping fee as well as inflationary cost increases.

The proposed public consultation will build on the tools used during the 2015 financial planning process. The new financial plan format will continue to be the foundation for meaningful engagement and community feedback. Improved budget information, using visuals and plain

Page 4 of 1040

language, will be provided to the community through a variety of tools aimed to increase reach and understanding of the financial planning process. Through the Financial Plan, Council will be able to articulate the value the community receives for their tax dollars.

The draft Financial Plan is being introduced to Council at today's meeting and will provide an overview of the overall budget. The Financial Plan is scheduled to be presented in detail to Council for review and consideration throughout November. Following the completion of the detailed presentations, Council direction is sought on assessment growth (non-market change) revenue, 2015 surplus, supplementary requests, allocation of gas tax funding, and direct-award grants. To enable rate increases for the water and solid waste utilities to be in place for January 1, 2016, it is recommended that those rate bylaws be brought to Council on November 26, 2015 for first three readings.

Once Council's initial review is complete, and before commencing public consultation, it is recommended that first reading of the financial plan bylaw be given, signalling to the public that Council has reviewed the plan and given preliminary approval. A separate report will be brought to Council in November outlining participatory budgeting opportunities for the 2016 budget.

Upon completion of the public consultation, Council will have an opportunity to consider the feedback and make changes to the financial plan before giving final approval prior to May 15 as required by legislation. A summary of the public input will be included in the final financial plan itself. Tax notices will be sent out once the financial plan and tax rate bylaws have been adopted by Council.

#### **PURPOSE**

The purpose of this report is to introduce the draft 2016 Financial Plan for Council's consideration and recommend first reading of the 2016 Five Year Financial Plan Bylaw prior to commencing public consultation.

#### **BACKGROUND**

Section 165 of the *Community Charter* requires that a financial plan be approved annually following public consultation as required by section 166. The financial plan must be approved before the tax rate bylaw is approved, and before May 15 as required by section 197.

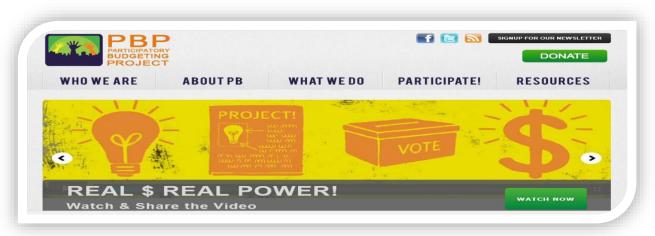

Three policies guide the financial planning process: Financial Sustainability Policy; Reserve Fund Policy; and Revenue and Tax Policy.

This is the second year of the implementation of a new financial planning process moving from an expense based budget that focused primarily on the dollars allocated to each department toward one with an emphasis on priorities, outlining services and capital projects including costs, revenues and benefits of each. The new format enables the City to better demonstrate the value tax and rate payers receive for their dollars. Greater emphasis is also being placed on staff and community involvement in the planning process.

At the June 18, 2015 Governance and Priorities Committee meeting, staff outlined the lessons learned developing and implementing the new financial planning process for 2015 and sought Council direction on the 2016 financial planning process. Building upon the foundational information developed for the 2015 financial plan, the approved focus for the 2016 financial planning process is to improve the metrics, further align the Financial Plan with the Strategic Plan, and change the timeline with a goal to have an substantially complete financial plan before the end of 2015 to enable staff to start implementing Council's direction at the beginning of 2016.

The public consultation for the 2016 financial plan will use a similar approach to 2015 involving a survey and a Town Hall/e-Town Hall meeting. The process will build upon the tools and information now in place.

In November, a separate report to the Governance and Priorities will outline participatory budgeting opportunities.

Approximately 70 staff from across the organization continued to be involved in compiling the information for the financial plan and detailed reviews of all departmental budget submissions have been completed by staff.

Work continued on implementing the "Great Ideas" identified by staff during the 2015 financial planning process. Some examples include: providing all employees with email accounts, implementing the Development Tracker, improving public hearing notices, and implementing online payments for dog licencing. This is an ongoing dialogue and staff will be encouraged to provide continuous feedback where "Better is Possible" and how we can provide better value and service to the community.

The budget process is one of continuous improvement and will be enhanced each year. Through the financial planning process, Council will set service levels and allocate funding based on input from staff across the organization as well as input from the community. Staff will seek Council's feedback to ensure the financial plan and process meet Council's expectations.

Council passing 1<sup>st</sup> reading to the financial plan bylaw indicates preliminary approval of the financial plan and signals to the public that Council has had an opportunity to review the draft. Once the public feedback has been considered, Council can make adjustments to the financial plan before final approval and adoption of the bylaw in April 2016.

#### **ISSUES & ANALYSIS**

#### **Operating Budget**

# **Overview**

The draft 2016 operating budget totals \$221 million, which is a net increase of \$2.8 million over the 2015 budget resulting in a proposed overall tax increase of 2.31%: 1.02% for City operating, 0.14% for Greater Victoria Public Library, and 1.14% for Police.

As part of the 2015-2018 Strategic Plan, Council set a target maximum tax increase of inflation plus one percent. Inflation is currently (August) 1.2% for Victoria, which means that the draft increase is slightly higher (0.11% or \$129,000) than this target. Should Council wish to reduce this increase to the target 2.1%, it is recommended that assessment growth property tax revenue be used.

This draft assumes that the budget request from VicPD is at the same level as submitted for the 2016 year in the 2015-2019 Financial Plan. The Police Board is scheduled to approve the police budget on October 20, 2015 and a joint meeting for the Board, Township of Esquimalt and City of Victoria is scheduled for November 4, 2015.

The draft financial plan maintains services at current services levels. The main cost drivers are salary increases, hydro rate increases, water costs (assuming the CRD bulk water rate increase is 2%), and software maintenance agreements. These increases have been offset in part by increased development and construction permit revenues, recreation revenues, a new revenue for operating fees from Fortis BC, and increased Provincial Government payments-in-lieu of taxes.

No tax increase for the capital budget has been factored in at this point. As per the Financial Sustainability Policy, staff will outline potential projects for Council's consideration should Council

wish to levy an additional tax increase for capital budget funding. These potential projects are outlined in Appendix A.

The following table outlines the full-time equivalent (FTE) position count for 2014 to 2016:

|  | Restated | Restated | Approved | Final    | Draft    | 2015 to 2016 |
|--|----------|----------|----------|----------|----------|--------------|
|  | 2014 FTE | 2015 FTE | Changes  | 2015 FTE | 2016 FTE | Change       |
| Citizen Engagement and Strategic Planning      | 39.65    | 39.65    | 20.00    | 59.65    | 59.65    | 0.00         |
| City Manager's Office                          | 1.00     | 1.00     |          | 1.00     | 1.00     | 0.00         |
| Deputy City Manager                            | -        | 2.00     |          | 2.00     | 2.00     | 0.00         |
| Arts, Culture & Events                         | 7.00     | 7.00     |          | 7.00     | 7.00     | 0.00         |
| Human Resources                                | 11.00    | 10.00    |          | 10.00    | 10.00    | 0.00         |
| Legislative and Regulatory Services            | 24.28    | 21.28    |          | 21.28    | 21.28    | 0.00         |
| Real Estate                                    | 1.00     | 1.00     | 1.00     | 2.00     | 2.00     | 0.00         |
| Engineering                                    | 294.97   | 294.97   | 1.75     | 296.72   | 296.72   | 0.00         |
| Finance  | 63.21    | 63.21    |          | 63.21    | 63.21    | 0.00         |
| Legal Services                                 | 4.00     | 4.00     |          | 4.00     | 4.00     | 0.00         |
| Parks, Recreation and Facilities               | 149.48   | 149.48   |          | 149.48   | 149.48   | 0.00         |
| Sustainable Planning and Community Development | 42.43    | 42.43    |          | 42.43    | 42.43    | 0.00         |
| Victoria Conference Centre                     | 16.62    | 14.62    |          | 14.62    | 14.62    | 0.00         |
| Victoria Fire Department                       | 123.09   | 123.09   |          | 123.09   | 123.09   | 0.00         |
| Total  | 777.73   | 773.73   | 22.75    | 796.48   | 796.48   | -            |

Note: 2014 and 2015 FTEs have been restated to reflect departmental reorganizations where employees shifted between departments

The 2015 financial planning process resulted in a reduction of four FTEs.

During 2015, Council approved the following new positions resulting in the addition of 22.75 FTEs:

- An inter-disciplinary team of 3 FTEs to assist in delivering the City's Strategic Plan;
- An additional 1.75 FTEs to increase sidewalk maintenance
- · A new parking ambassador model of 17 FTEs; and
- A real estate function of 1 FTE

A Business Hub will also require an additional FTE funded from the \$250,000 allocation for Economic Development.

With the addition of these positions, the full-time employee equivalent count, excluding VicPD, is 796.48. The City has numerous part-time and casual employees in addition to those who are full-time, resulting in a headcount of approximately 1,000.

It is anticipated that future years will require additional resources as a result of additional inventory related to capital projects, developer amenity contributions, as well as expected growth. Proposed 2016 capital projects are estimated to result in a need for approximately one additional FTE in 2017. As longer-term planning is improved upon, staff will be able to provide better future estimates to inform Council's decision-making and are including these considerations in reports to Council.

The following table summarizes the property tax increase for 2016:

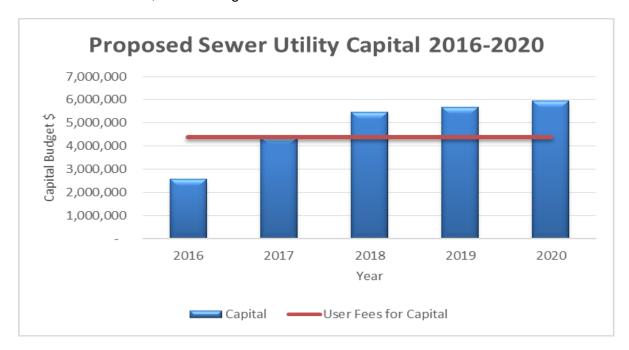

|  |                 | Tax Increas     | se    |
|--|-----------------|-----------------|-------|
| City Operations  |                 | \$              | %     |
| Salaries and benefits                                      | \$<br>1,900,000 |                 |       |
| Water and hydro  | 148,900         |                 |       |
| Software licences and maintenance                          | 133,300         |                 |       |
| Reduced traffic fine revenue                               | 121,000         |                 |       |
| New revenue - Fortis operating fees                        | (192,000)       |                 |       |
| Increased payments in lieu of taxes                        | (431,600)       |                 |       |
| Increased property lease revenue                           | (60,000)        |                 |       |
| Increased builidng, electrical and plumbing permit revenue | (240,000)       |                 |       |
| Increased development permit revenue                       | (120,000)       |                 |       |
| Increase recreation revenues                               | (151,000)       |                 |       |
| Other changes  | <br>135,566     | \$<br>1,244,166 | 1.02% |
| Library (2016 estimate in 2015 Financial Plan)             |                 | 168,519         | 0.14% |
| Police (2016 estimate in 2015 Financial Plan)              |                 | 1,392,214       | 1.14% |
| Total draft property tax increase                          |                 | \$<br>2,804,899 | 2.31% |
|  |                 |                 |       |

#### Utilities

The proposed Water Utility budget results in a user fee revenue increase of 333,000 or 2.16% as outlined in the following table:

| Cost Driver                       | Amount |         | % Increase |
|-----------------------------------|--------|---------|------------|
| CRD Bulk Water                    | \$     | 170,000 | 1.10%      |
| Salaries, materials and equipment |        | 123,000 | 0.80%      |
| Capital investment                |        | 40,000  | 0.26%      |
|                                   | \$     | 333,000 | 2.16%      |
|                                   |        |         |            |

The proposed Sewer Utility budget focuses on investment in areas that are not impacted by the Capital Regional District's sewage treatment project. Some of the sewer infrastructure investment is dependent on the location of a treatment facility; these projects total approximately \$34.6 million and are anticipated to be implemented over a 15-year period starting in 2017. This work will be delayed until a decision has been made on that facility. As a result, no revenue increase is proposed. The budget proposes putting aside funding (approximately \$1.4 million for 2016) in the sewer utility reserve for the projects that are being delayed. Should Council not wish to do so, the revenue budget could be reduced by approximately 20%. However, the recommendation is to transfer that revenue into reserve to smooth out the impact of these projects in later years. The following graph shows the capital spending amounts as bars and the funding line, if funding is transferred to reserves, as the straight line:

The Solid Waste program proposes a user fee revenue increase of \$47,700 or 1.67% as outlined in the following table:

| Cost Driver                       | Amount  | % Increase |
|-----------------------------------|---------|------------|
| Salaries, materials and equipment | 45,000  | 1.57%      |
| CRD Tipping Fees                  | 9,700   | 0.34%      |
| Other revenues                    | (7,000) | -0.24%     |
|                                   | 47,700  | 1.67%      |
|                                   |         |            |

2016 is the first year for the City's Stormwater Utility. The funding for majority of the Utility's costs are covered by a stormwater user fee. However, \$1.25 million, representing the cost of City rights-of-way, continues to be funded by property taxes. The user fee funding is approximately \$4.7 million and is simply a shift from property taxes to a user fee; there is no overall increase in revenue as a result of this shift. A separate report on rate adjustments will be brought to Council for consideration. These adjustments do not result in increased revenue for the Stormwater Utility as they simply reallocate the local frontage component within the overall fee.

|                 | 2015        | 2016        | Change      |
|-----------------|-------------|-------------|-------------|
| Stormwater Fees | 10,333      | 4,735,878   | 4,725,545   |
| Property taxes  | 121,635,023 | 116,909,478 | (4,725,545) |
|                 | 121,645,356 | 121,645,356 | -           |
|                 |             | _           |             |

# Greater Victoria Public Library (GVPL)

The City's share of the GVPL's operating and facility maintenance budget request, as submitted as part of their five-year plan in 2015, is \$4.7 million, which is an increase of approximately \$168,000 over 2015. The 2016 budget request is anticipated to be slightly less than what was submitted in the five-year plan and the new numbers will be incorporated into the City's financial plan once the Library Board has given approval. The Library Board will consider the 2016 provisional budget request on October 20, 2015 and the budget will be submitted to each municipality by October 31, 2015. The final budget will be submitted in March 2016.

On June 18, 2015 Council requested that the Library Board notify the City of their preferred option for a library branch in James Bay upon completion of their strategic planning process scheduled for September. This process has concluded and the Library Board will receive the results at their October 20, 2015 meeting. It is anticipated that the City will be notified subsequent to that meeting. Once, the preferred option is known, the intention is to include this information as part of the public consultation on the City's draft financial plan.

The City has the option to lease space in the Capital Park development and this potential new branch could be opened in 2017. The City would be responsible for all capital costs associated with a new branch as well as ongoing lease payments. The operating costs would be shared among all member municipalities based on the operating agreement formula; the City's share is approximately 30%.

A new branch could be between 3,500 and 7,500 square feet. The following table outlines the range of budget impact to the City:

| Type of Cost              | Range of Cost           |
|---------------------------|-------------------------|
| Capital Cost - one-time   | \$850,000 - \$1,600,000 |
| Lease costs - ongoing     | \$120,000 - \$300,000   |
| Operating costs - ongoing | Approximately \$110,000 |

The capital improvements are equivalent to a 0.7%-1.3% tax increase and the ongoing operating costs are equivalent to a tax increase of 0.2%-0.35%. In addition to the forthcoming request from the Library Board, the City is facing a number of significant capital funding needs including Fire Station No. 1, Crystal Pool and Fitness Centre, and Point Ellice Bridge.

# Assessment Growth (Non-Market Change)

As per the Financial Sustainability Policy, the first \$500,000 of new property tax revenue resulting from new construction is transferred to reserve. The draft financial plan includes this amount plus \$60,000 previously approved by Council for the real estate function. However, any assessment growth revenue above \$560,000 has not been factored in. A conservative early estimate, based on information provided by BC Assessment, is \$650,000. However, this is based on incomplete information this early in the year and this amount will likely change before it is finalized in March 2016. In 2015, Council approved transferring \$500,000 into the Buildings and Infrastructure Reserve, funded a number of items related to the strategic plan and public feedback, and used the remaining \$1 million to lower the overall property tax increase. For 2016, Council could consider using this revenue to fund supplementary requests, fund additional capital projects or other strategic plan items, address feedback from public consultation, transfer additional funds to reserve, or reduce taxes. The current reserve contribution to the Buildings and Infrastructure Reserve is \$5.3M plus the proposed addition of \$500,000 for a total of \$5.8 million in 2016; the estimated balance at the end of 2015 is \$28 million. The preliminary non-market change amount is equivalent to an approximate 0.53% tax reduction.

The following table outlines the uses of assessment growth revenue for the last four years:

| 2012                            |           | 2013                                 |           | 2014                   |             | 2015                     |             |

# 2015 Surplus

Per the Financial Sustainability Policy, prior year surplus can be used for one-time expenditures and/or be transferred to infrastructure reserves. Since the 2015 year is not yet complete and the amount of the 2015 surplus is not finalized, no surplus has been included in the draft financial plan. It is proposed that a decision on the use of the 2015 surplus be made once the consultation on the draft Financial Plan is complete. The following table outlines the surplus allocation for the past four years:

| 2011                   |             | 2012                   |             | 2013                   |             | 2014                    |           |

|                        |             |                        |             |                        |             | Strategic Plan Grants - |           |
|                        |             |                        |             |                        |             | additional funding      | \$36,164  |
|                        |             |                        |             |                        |             | Strategic Objectives    |           |
|                        |             |                        |             |                        |             | Account (unallocated)   | \$109,318 |

A conservative early estimate of the 2015 surplus is \$1 million. The final number is likely to be different than this estimate.

#### Five-Year Operating Budget

To develop the future years of the five-year operating budget a number of assumptions have been incorporated including: no changes to services or service levels; collective agreement increases; known cost increases, such as hydro, at already announced rates; and unknown cost increases (the majority) at an inflationary factor of 2%.

The following table outlines the estimated impact to tax and rate payers. These estimates do not include any tax increases for the capital budget; per the Financial Sustainability Policy, Council

\$2,888,482

Total

will consider such increases each year based on proposed projects. These estimates were calculated based on 2015 assessed property values and 2015 estimated water usage.

|   | 2016  | 2017  | 2018  | 2019  | 2020  |

# **Supplementary Operating Budget Requests**

The following table summarizes the supplementary budget requests; additional details on each are attached as Appendix B:

| Description                            | 2016      | 2016 One- | 2017 One- |
|--|-----------|-----------|-----------|
|  | Ongoing   | time      | time      |
| Cultural Plan                          |           | \$116,000 |           |
| Additional Sidewalk Power-washing      | \$15,000  |           |           |
| Traffic Orders                         | \$8,000   |           |           |
| Broad Street Mall Repairs              |           | \$15,000  | \$20,000  |
| Parks Overnight Sheltering Support and | \$313,000 |           |           |
| Clean-up                               |           |           |           |
| Senior Parks Planner                   | \$103,000 |           |           |
| Arboriculture                          | \$128,500 |           |           |
| Real Estate – consulting studies       |           | \$100,000 |           |
| Total                                  | \$567,500 | \$191,000 |           |

The public consultation process may result in additional funding needs. Possible funding sources are 2015 surplus, non-market change revenue or an additional tax increase. It is recommended that Council consider these requests along with feedback from public consultation on the draft Financial Plan.

#### **Capital Budget**

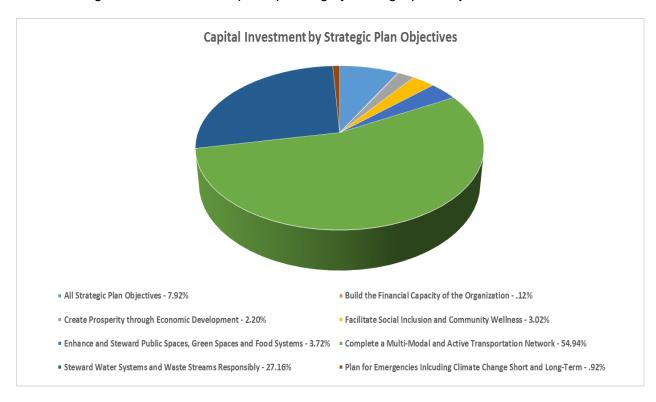

#### Overview

The draft capital budget for 2016 totals \$51 million, which is larger than the typical \$30-35 million primarily due to the Johnson Street Bridge replacement (\$16.3 million).

For 2016, each capital project has been aligned with the 2015-2018 Strategic Plan as follows:

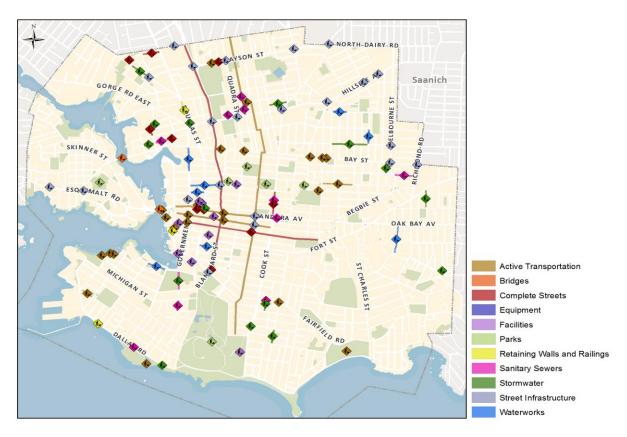

- Complete a Multi-Modal and Active Transportation Network: Infrastructure for all active modes of transportation including bike lanes, crosswalks, bus shelters, sidewalks, pathways, roads, bridges, retaining walls, street and traffic lights
- Facilitate Social Inclusion and Community Wellness: Recreation and community centre buildings and infrastructure and "Great Neighbourhoods" funding
- Enhance and Steward Public Spaces, Green Spaces and Food Systems: Park upgrades and infrastructure, playgrounds, upgrades to City facilities and street infrastructure such as benches, cluster lamps and railings
- Steward Water Systems and Waste Streams Responsibly: Water, Sewer and Stormwater Infrastructure projects
- Plan for Emergencies Including Climate Change Short and Long-term: Energy conservation projects, and emergency management equipment
- Create Prosperity through Economic Development: Parkade upgrades, Victoria Conference Centre upgrades, and seasonal animation
- **Build the Financial Capacity of the Organization:** Strategic review of City facility use and public program delivery
- All Strategic Plan Objectives: Equipment, which includes vehicles, information technology and various equipment replacements

The following chart outlines the capital spending by strategic plan objective:

Each project has also been mapped to provide a geographic picture of where the planned capital investment is proposed to take place.

# 2016 Draft Capital Projects:

Each budget request includes both the capital cost and the ongoing additional operating costs and FTE requirement. The ongoing operating costs have been incorporated into the appropriate future years in the operating budget.

The annual capital investment needs are determined through asset master plans and condition assessments. Asset master plans outline the level of funding that is considered sustainable to maintain current service levels and the priorities for infrastructure investment.

The capital budget funding levels have reached sustainable levels for some assets (water), some are close to sustainable levels (storm drains), some projects are shaped through consultation with the community (park upgrades), some have funding levels that fall short of industry-recommended replacement schedules (playgrounds) and some require additional analysis to determine the required funding levels (facilities, sewer, and street infrastructure such as street and traffic lights).

Identified as a priority in the 2015-2018 Strategic Plan, a Parks Master Plan will be developed in 2016. This plan will identify priority areas for parks investment and will inform future capital plans.

A facilities condition assessment was completed in 2015 and a report will be brought to Council in October that outlines the full scope of City-owned facilities, as well as estimated future

investment costs. This assessment will be used to inform priorities for facility upgrades, which will be incorporated into future financial plans. The 2016 capital plan only includes the "must-do" projects as identified through the facilities assessment process.

The sewer master plan was put on hold by staff until a decision is made regarding sewage treatment, however it is scheduled to take place in 2016. The City continues to upgrade its aging sewer infrastructure that is not impacted by a future sewage treatment facility; however, it is anticipated that additional annual funding will be required.

The pavement management plan indicates that additional funding is needed to maintain existing service levels. Over the last number of years, funding has increased for this asset group and Appendix A outlines a number of projects for Council's consideration should Council wish to implement a tax increase for the capital budget. Staff continue to investigate alternative rehabilitation strategies, such as thin asphalt overlays, and mill and fill replacements, to achieve more upgrades within available funding.

Capital plan funding levels are determined through policy decisions, taking into account the City's risk tolerance. Historically, Council has increased property taxes for capital projects that address deferred maintenance for roads, facilities and storm drains. Since 1999, Council has increased annual capital budget funding through property taxes from \$2.5 million to over \$10 million. As per the Financial Sustainability Policy, additional funding decisions through an increase in property taxes, will be considered by Council based on proposed projects identified by staff. For 2016, potential deferred maintenance projects are outlined in Appendix A. Each year from 2013 to 2015 a 1.25% property tax increases was levied for the capital budget. This level of increase takes a conservative approach in reaching sustainable funding levels; an alternate option for Council's consideration would be to spread the increases over a longer time-period to balance taxpayer affordability while being aware of the risk.

Historically, the City's capital plan has been funded by a combination of property taxes, utility user fees, grants, debt and reserves. Approximately one third of the City's typical \$30-\$35 million capital budget is funded from reserves for investments such as vehicle and equipment replacements, remediation of City properties, and some building upgrades. Larger projects, such as a bridge replacement or construction of an arena, have primarily been funded through debt and grants.

The proposed capital budget includes projects that are underway but will not be completed before year-end. The funding for these projects must be carried forward from 2015. The budgets for these projects will be updated to reflect remaining amounts once year-end has been completed.

#### Reserves and Debt

The City's Reserve Fund Policy was updated in 2015, including a methodology for determining target balances. Work is currently underway to determine funding needs for facilities, fleet and street infrastructure. Upon completion of this work, target balances for each reserve will be calculated according to the approved methodology and will inform future capital budgets. The following table outlines the estimated year-end reserve fund balances.

The City currently has \$65.3 million in outstanding debt, with additional authorized but yet to be issued debt of approximately \$15.8 million for the Johnson Street Bridge. According to the Financial Sustainability Policy, debt servicing charges should be kept at a maximum of 7% of the prior year's property tax levy. Currently, there is approximately \$3.4 million of budget room for debt servicing, which is transferred to the Debt Reduction Reserve. There are some smaller debt

Page 18 of 1040

issuing falling off in 2023; however, the next significant debt issue to retire is in 2032. The following table outlines the current debt issues, year of retirement and the annual debt servicing costs.

| Final Year | Issue | Description                              | Total     |
|------------|-------|--|-----------|
| 2022       | 102   | Burnside Gorge Community Centre          | 221,701   |
|            | 102   | City Hall Accessibility                  | 220,817   |

| 2034       | 130   | Johnson Street Bridge Replacement        | 1,475,097 |

# Allocation of Annual Gas Tax Funding

The City receives annual funding from the Federal Government through their gas tax program. The expected amount for 2016 is \$3.4 million. Each year, amounts received are transferred to the City's Gas Tax Reserve which Council approves allocations from through the annual capital plan. The majority of the projects funded through the gas tax reserve to-date have been storm drain infrastructure projects. In 2015, Council allocated \$7.75 million over five years to implement new bike lanes in five priority areas as well as \$1 million for the David Foster Harbour Pathway implementation and \$2.2 million for the LED streetlight replacement project. With the expected amount for 2016, the gas tax funding available is \$6.5 million.

The City is required to report annually through the Union of BC Municipalities on which projects have been funded using gas tax and the agreement outlines which types of projects are eligible.

There are a number of capital projects that would qualify for this funding including storm drain projects and David Foster Harbour Pathway. It is proposed that the Storm Drain Brick Main project continues to be funded through gas tax and that the remaining funding be allocated upon completion of the public consultation process.

# 20-Year Capital Plan

In the development of the capital plan and as a result of a detailed review of all capital budget submissions, it came to light that there was a lack of information about the future year deliverables for a number of projects; examples of those are discussed below. The focus for the 2017-2036 Capital Plan will be to incorporate new information gathered throughout 2016 to address this information gap.

For many capital investments, such as water, stormwater, sidewalks and complete streets projects, longer-term asset master plans identify the priority order of renewals for a number of years. Those plans also indicate the estimated funding for those renewals. For these investments, ongoing budgets have been included in the 20-year capital plan.

For facilities, the future years show as "TBD" (to-be-determined) because a long-term plan that accounts for the strategic opportunities and functional requirements relating to City-owned

buildings does not yet exist. Work on this plan is underway and upon completion will inform the 2017 capital plan.

The City is embarking on a Parks Master Plan which will inform future priority setting for parks projects. Therefore, budgets for future year park projects are labeled "TBD".

For others, such as Gate of Harmonious Interest and Ship Point retaining wall, condition assessments and design work taking place in 2015 will determine the extent of the work required and budgets for the renewal investments can be developed once the condition assessments have been completed and will be incorporated into the capital plan at that point.

It can be difficult to determine the exact funding needs far into the future; therefore all future year amounts are best estimates only. The goal for 2017 is to improve upon these estimates using information gathered during 2016.

#### **Outstanding Council Motions**

Earlier in 2015, Council requested information regarding the net proceeds for business licencing. The total revenue generated from business licences is approximately \$1.36 million. The costs, including overhead, are approximately \$400,000 leaving a net of approximately \$950,000. Policing costs have not been factored into the City's costs.

Council also passed the following motion in relation to Vic High School sports facility refurbishment:

Matching grant of up to \$250,000 subject to:

- a. Community consultation for the project by School District 61 or its designate
- b. Council approval of the final design of the project
- c. Entering into a joint use agreement between the City and School District 61

This grant has not yet been factored into the 2016-2020 Financial Plan. As per Council direction, the funding for this project will be considered once all terms of the Council motions have been addressed.

# 2015-2018 Strategic Plan Funding

The majority of action items within the Strategic Plan are fully funded. However, a number of items still require funding as follows:

| Action Year | Action   | Funding Need  |
|-------------|--|---|
| 2015        | Work with partner agencies and street-involved people to establish increased options for safe and secure storage of the belongings of street-involved people in an area that will not have negative impacts on surrounding neighbours and land uses. | Council allocated \$45,000. Separate report coming to Council identifying additional funding needs. |

| Action Year | Action   | Funding Need  |
|-------------|--|---|
| 2016        | Working toward establishing supervised consumption services, in collaboration with Island Health, VicPD and YES2SCS.               | City's funding needs unclear at this point.   |
| 2015        | Complete and implement Municipal Property Acquisition and Management Strategy.   | Council has approved and funded real estate arm. As identified in the report brought to Council approximately \$100,000 of funding for consulting support is needed and has been added as a supplementary request for 2016 for Council's consideration. |
| 2015        | Initiate Parks Master Planning process.  | Funding has been allocated for the plan. Funding for capital improvements to be determined once plan is complete.   |
| 2015        | Prioritize "special places" along the David Foster Harbour Pathway and identify funding opportunities                              | Possible funding source is annual gas tax.  |
| 2016        | Complete two of the "special places" at Heron Cove and Ship Point, along the David Foster Harbour Pathway corridor.                | Possible funding source is annual gas tax.  |
| 2015        | Identify resources required to develop Arts and Culture Plan, including identifying objectives and purposes of the plan.           | A supplementary request of \$76,000 for 2016 is being put forward for Council's consideration.  |
| 2016        | Complete the Douglas/Blanshard Corridor<br>Master Plan and allocate funds in Financial<br>Plan for quality-of-life infrastructure. | This is part of the Burnside/Gorge local area plan. Funding for quality-of-life infrastructure will be identified once the plan is complete.  |

| Action Year | Action   | Funding Need   |
|-------------|--|--|
| 2016        | Build upon input from Parks Master Plan process and hold a placemaking activity at Ship Point to advance a site plan in the Harbour Principles. Consult public on specific design, and allocate money in 2018 capital budget to complete | Funding for capital improvements to be determined once plan is complete.   |
| 2016        | Identify scope and develop budget strategy for a new Central Library and for a library branch at Capital Park in James Bay.  | GVPL Board has just concluded a strategic planning process and is expected to inform the City with the preferred option for a James Bay branch later this fall. Funding for both facilities is yet to be determined. |
| 2016        | Move forward with plans for a new fire station.  | Cost estimates for the various options are being updated before a report is brought to Council for consideration.  |

The largest funding needs are expected to relate to facilities, and it is recommended that decisions on these be made once the facilities assessment report including estimated investment needs has been received by Council.

#### **Grants**

As directed by Council, grants have been grouped into four categories: direct-award grants, festival investment grants, community garden volunteer coordinator grants, and Strategic Plan grants which include micro-grants.

Council directed staff to include inflationary increases for community and seniors centres operating and youth programming grants. The Victoria Heritage Foundation has requested an 8.25% or \$15,632 increase in funding (letter attached as Appendix C) and the Victoria Civic Heritage Trust is requesting a 2% or \$2,111 increase. All other grant funding is proposed to remain at the 2015 budget level.

In addition to operating and youth programming grants, the City also provides support to community and seniors centres for facility-related costs such as janitorial, lease payments and strata fees. The proposed budgets are the same as the 2015 level. A separate report on support for neighbourhoods, including community and seniors centres, will be brought to Council this fall.

Council also directed staff to consult with impacted organizations regarding proposed changes to the Strategic Plan grants as outlined in a staff report dated September 17, 2015. Upon completion

of the consultation, Council is scheduled to make a decision on potential limits and the grant intake period for Strategic Plan grants will open.

The proposed funding for the direct-award grants is as follows:

|   |   | 2015 Amount | 2016            |        |
|---|---|-------------|-----------------|--------|
| Organization                                    | Type of Grant   | Paid        | Requests        | Change |
| Victoria Civic Heritage Trust                   | Building Incentive                                    | 420,000     | 420,000         | 0      |
| Victoria Civic Heritage Trust                   | Operating   | 105,550     | 107,661         | 2,111  |
| Victoria Heritage Foundation                    | Operating   | 189,368     | 205,000         | 15,632 |
| Recreation Integration Victoria                 | Operating   | 29,435      | 30,055          | 620    |
| Victoria Youth Council                          | Operating   | 20,000      | 20,000          | 0      |
| Quadra Village Community Centre                 | Operating   | 50,000      | 50,600          | 600    |
| Quadra Village Community Centre                 | Youth Programming                                     | 8,063       | 8,160           | 97     |

<sup>\*</sup> Note the City provides janitorial services to Quadra Village Community Centre and Fernwood Community Centre and Cook Street Village Activity Centre; no support is provided to Burnside Gorge Community Centre

It is recommended that Council approve the direct-award grants as outlined in the table above.

# **Public Information and Consultation**

The 2015 budget was a big departure from previous years. Many lessons were learned and the City benefited from a lot of feedback and greater involvement from the community in the process. Quality information is the foundation for meaningful engagement and community feedback has identified that it has been the greatest weakness in previous budget consultation activities. To foster meaningful participation in the budget process in the future, clear, accessible information will continue to be generated and shared with the community through a variety of tools aimed to increase reach and understanding of the financial planning process.

Guided by the City's and the International Association of Public Participation's Core Values, the public will be engaged earlier on in the engagement process and will have more time to provide input. Information will be provided in advance of consultation to ensure the community has the information and notice required to provide informed input. Through recent neighbourhood meetings, a number of improved tools for understanding impacts and investment in neighbourhoods, will be introduced. The draft Financial Plan itself will be more accessible to the public through the use of visuals and plain language. Direct impacts of the budget and services provided will be highlighted to ensure the Plan resonates with community members and that the value the community receives for their tax dollars is evident.

Throughout October and November 2016, clear, accessible information on the budget will be shared to provide improved information about the budget, services and the budget process. Infographics will be used to help breakdown complex information into visuals that are more easily understandable and engaging. The current website information will be completely redeveloped to provide budget information in a way in which it resonates with the broad public.

Continuing in 2016, the new tools introduced in 2015 will be used, including an online budget toolkit explaining operating and capital budgets, where funds come from, how they are allocated and what the community receives for their collective investment. The budget toolkit will be available on the City's website in November for community members to print off and use.

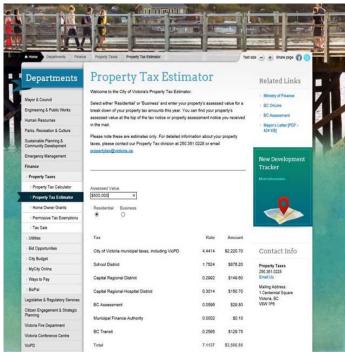

A video providing an overview the financial planning process, budget highlights and the services offered will also be created to broaden awareness and understanding around the budget.

An e-town hall will also be offered in January, providing multiple ways for the public to engage in the budget discussion, in both traditional and electronic mediums, and in real-time. Based on our own experience for the 2015 financial planning process, and building on experiences in other municipalities, the e-town hall can make the budget process more accessible by removing barriers to participation and creating opportunities to draw new people into the budget discussions.

Upon conclusion of the consultation period, the process, all feedback and any subsequent changes, will be summarized and included in the financial plan itself to demonstrate the opportunities for public input and the public input received.

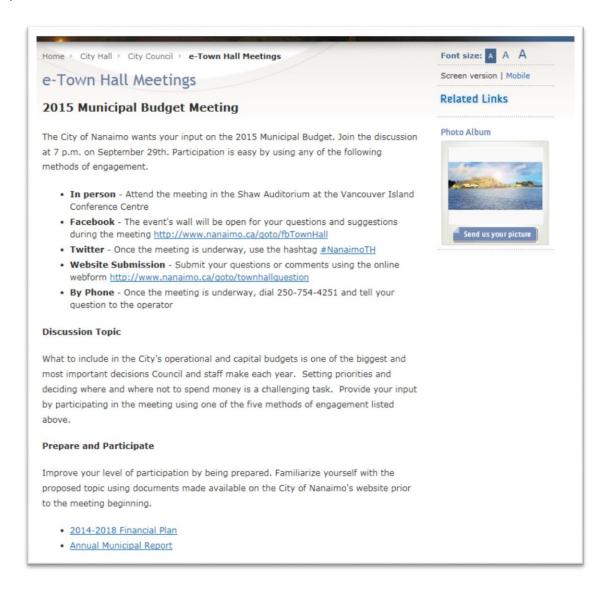

The online tax estimator and calculator (example below), launched in the spring of 2015, will continue to enable taxpayers to input their assessed value and see an estimate of what their taxes will be. The calculator will be tailored to both residential and business properties to assist individuals purchasing property to estimate their taxes.

Building on improved information, community members will also be asked to comment on the draft Financial Plan. An online survey and a Town Hall will be used to collect community feedback. An E-Town Hall (example below) will be added to the Town Hall meeting enabling the public to remotely participate in a Town Hall meeting by submitting questions and feedback via email prior to the event as well as live through social media and the City's website. Comments and questions will be read out by a moderator as they come in and individually addressed by subject matter experts.

To ensure community members have an opportunity to review the draft Financial Plan prior to the Town Hall and launch of the survey, electronic copies of the draft Financial Plan will be available online and hard copies will be available for the public to pick up at City Hall and other City facilities. All public feedback will be presented to Council for consideration in February 2016.

During 2015, options for a participatory budgeting process were developed and a separate report will be brought to Council in November for consideration. The approved engagement strategy for the 2015 and 2016 financial planning processes is attached as Appendix D.

# **Timeline**

Council direction on the 2016 financial planning process was provided in June. The following table outlines the remaining timeline for this year's process.

| Tentative Dates                            | Task   |  |  |
|--|--|--|--|
| Four meetings in November, 2015            | Detailed presentations of draft financial plan.    |  |  |
| December 10, 2015 Council                  | First reading of financial plan bylaw.             |  |  |
| December/January                           | Public consultation begins and continues until the |  |  |
|  | third week of January.                             |  |  |
| Third week of January 2016                 | Town Hall and e-Town Hall meeting.                 |  |  |
| February 4, 2016 Governance and Priorities | Present consultation results and seek direction    |  |  |
| Committee                                  | on changes to financial plan.                      |  |  |
| April 7, 2016 Governance and Priorities    | Final report on financial plan including           |  |  |
| Committee                                  | incorporated changes; report on 2015 tax rates.    |  |  |
|  | Second and third reading of financial plan bylaw;  |  |  |
|  | first, second and third reading of tax bylaw.      |  |  |
| April 14, 2016 Council                     | Second and third reading of financial plan bylaw;  |  |  |
|  | first, second and third reading of tax bylaw.      |  |  |
| April 28, 2016 Council                     | Adoption of financial plan bylaw and tax bylaw     |  |  |
| May 2016                                   | Seek Council direction on 2017 financial planning  |  |  |
|  | process.   |  |  |

# 2017 Financial Plan

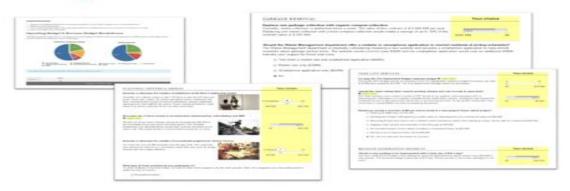

Council direction will be sought in May 2016 on the 2017 financial planning process.

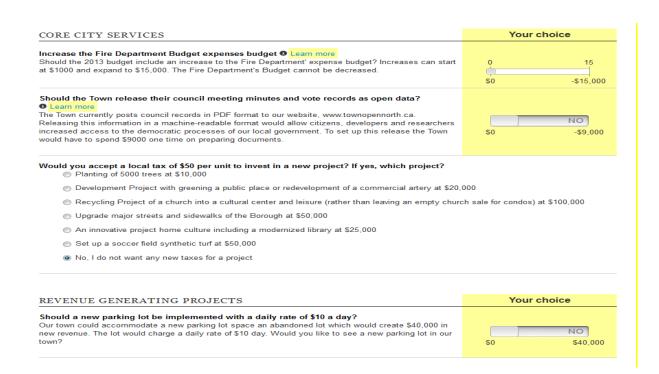

The focus for the 2017 plan will be to improve upon the information provided in the 2016 Financial Plan, specifically the metrics and the capital budget summary sheets. As the asset management software implementation continues, additional inventory and condition assessment information will become available and will be incorporated into future financial plans.

The capital plan will also be informed by the master planning activities for facilities, parks and sewer as well as ongoing condition assessment for assets across the organization.

In addition, further development of the City's budget simulator will take place to expand the use (example below).

# **Budget Simulator for 2016**

# 2015 - 2018 Strategic Plan

The draft Financial Plan was developed in alignment with the 2015-2018 Strategic Plan. This report outlines a number of action items in the strategic plan that require further analysis before funding options can be developed and brought to Council for consideration and inclusion in the financial plan.

Impacts to 2015 - 2018 Financial Plan

The 2016-2020 Financial Plan will replace the current year's plan.

Official Community Plan Consistency Statement

Not applicable.

# CONCLUSION

The draft Financial Plan aims to balance high quality service provision with taxpayer affordability. Council's review as well as feedback from the public will further shape the financial plan and will set the service levels for staff to implement.

# Attachments:

Appendix A: List of Deferred Maintenance Projects for Potential Capital Budget Tax Increase

Appendix B: Supplementary Operating Budget Requests

Appendix C: Grant Request from Victoria Heritage Foundation

Appendix D: Engagement Strategy

# Appendix A: List of Deferred Maintenance Projects for Potential Capital Budget Tax Increase

Historically, capital budget tax increases have funded deferred maintenance projects for storm drains, streets and facilities. For this year, the proposed list only includes streets projects since the pavement management plan indicates that additional funding for streets is necessary to maintain standards. No facilities or storm drain projects are proposed this year; additional information is being gathered to inform future financial plans.

# **Residential Streets**

| Description  | Amount      | Tax Impact |
|--|-------------|------------|
| Alpha Street – Beta to Gamma (Burnside Neighbourhood)      | \$450,000   | 0.37%      |
| Ludgate Street – Bay to John (Burnside Neighbourhood)      | \$300,000   | 0.25%      |
| Meares Street - Cook to east end (Fairfield Neighbourhood) | \$390,000   | 0.32%      |
| Total  | \$1,140,000 | 0.94%      |

# **Major Streets**

| Description   | Amount    | Tax Impact |
|---|-----------|------------|
| Vancouver Street – Pandora to Balmoral (North Park Neighbourhood)   | \$200,000 | 0.16%      |
| Blanshard/Hillside intersection (Burnside Neighbourhood)            | \$200,000 | 0.16%      |
| Vancouver Street – Southgate to Fairfield (Fairfield Neighbourhood) | \$250,000 | 0.21%      |
| Southgate Street – Quadra to Vancouver (Fairfield Neighbourhood)    | \$250,000 | 0.21%      |
| Total   | \$900,000 | 0.74%      |

# **Cultural Plan**

#### Overview:

This request will enable fulfillment of Council's strategic plan objective to deliver a Cultural Plan.

|                     | 2016    | 2017      | 2018  | 2019  | 2020  |

| Contracted Services | 116,000 | 0         | 0     | 0     | 0     |
| Total Expenditures  | 116,000 | 0         | 0     | 0     | 0     |
| % Increase          |         | (100.00%) | 0.00% | 0.00% | 0.00% |
| Net Request         | 116,000 | 0         | 0     | 0     | 0     |

# Additional Sidewalks Power-washing During Dry Season

#### Overview:

Long dry spells without significant rainfall is resulting is dirty sidewalks downtown with lots of bird droppings and resulting smell. It affects the cleanliness and appearance of city's sidewalks. This proactive response will provide extra power wash cleaning when it is needed (June to September).

|                    | 2016   | 2017   | 2018   | 2019   | 2020   |

| Net Request        | 15,000 | 15,000 | 15,000 | 15,000 | 15,000 |

#### **Traffic Orders**

#### Overview:

This budget is used to fund costs of changes to on-street parking regulations (signs/painting) on an annual basis.

Changes in land use can impact traffic patterns, and demands for on-street parking. Having the ability to respond to public requests/inquiries ensures the ongoing safe operation of traffic for all road users (traffic control devices such as stop signs); helps contribute to successful commercial areas/urban villages (on-street parking turnover for customers); and respects/protects the residential integrity of neighbourhood residential areas (providing Residential Parking Only restrictions on low-density residential streets adjacent

Approximately 80 traffic orders were processed in 2015, as well as the reduced speed zones on arterial and downtown streets in Victoria. The five year average spending for traffic orders is \$34,500, however the annual budget for traffic orders is \$26,000. This request is to add \$8000 to the budget to align the budget with the cost requirements for the program.

# **Broad Street Mall Repairs**

#### Overview:

The Broad Street Mall, from View Street to Pandora Avenue was constructed in 2000. Sections of the inset concrete and glass design have settled, and bricks are also settling, creating tripping hazards. These sections need to be removed and replaced to restore the original look.

|                      | 2016   | 2017   | 2018      | 2019  | 2020  |

# Parks Overnight Sheltering Support and Clean-up

#### Overview:

Continue with the program that started in July, 2015 of extending the hours of Beacon Hill Park public washrooms and Stadacona Park public washrooms until 2.30 am every morning year round. Static security services will be at each location from 9.30pm to 2.30am to assist with smooth operations and any minor situations that may arise. Port-a-toilets are placed at Topaz Park for use by persons seeking overnight shelter in the park. This request would also fund site clean-up of locations where persons are seeking shelter in parks on a daily basis. Debris and discarded chattels will be cleaned up and disposed of. Two employees will be deployed daily.

#### **Senior Parks Planner**

#### Overview:

The Parks Planning and Design service area delivers design, consultation and project management for an annual average of \$2.3 million in capital expenditures (based on capital budgets from 2010-2015); is responsible for developing plans, strategies and policies to guide investment into and the use of the park and open spaces in the City of Victoria; and, provides comment on all development and other permit applications that impact greenspace, urban forest and other areas of the public realm.

With the growing pressure to reduce the timeline for delivery of development reviews and the growing need to invest in our parks spaces, adding a second Senior Parks Planner will help deliver projects on time and on budget. Approximately 70% of the position's workload is anticipated to be related to permit application review, with the remaining 30% of the time available to undertake projects.

The addition of 1 FTE will allow us to better administer our service delivery to ensure that we assist in meeting the strategic objective of enhancing and stewarding our parks and greenspaces.

From 2012-2014, the average number of development related applications reviewed was approximately 320. This is broken out into several different types of permits.

#### **Appendix B – Supplementary Operating Budget Requests**

#### **Arboriculture**

#### Overview:

The Urban Forest Management plan was approved in 2013. Key actions from the management plan included a full inventory of the urban forest. Priority tree removals and pruning will allow for achieving management plan direction, minimize risk of tree failures and maintain and/or increase canopy cover recommendations.

#### Deliverables include:

- Forest inventory update kept to standard or 17% per year
- Tree assessments on sensitive tree removals
- Emergency response to tree/limb failures
- Pro-active removal and pruning as per inventory recommendations

#### 5 Year Forecast:

#### Appendix C – Grant Request from Victoria Heritage Foundation

September 22, 2015

Susanne Thompson Director of Finance City of Victoria #1 Centennial Square Victoria, BC V8W 1P6

Re: 2016 Grant Funding Request

Dear Ms. Thompson,

The Victoria Heritage Foundation (VHF) was instituted by the City of Victoria in 1983 to manage the City's funding program for Heritage-Designated houses, and it continues to be an important component of the City's Heritage Program. In 36 years, the City of Victoria and VHF have helped to fund over 1,200 projects to stimulate and promote the conservation and maintenance of 364 Heritage-Designated houses.

VHF also undertakes education and outreach projects such as workshops, lectures, our website, walking tour brochures and the award-winning four-volume series *This Old House: Victoria's Heritage Neighbourhoods* in order to further knowledge and awareness of Victoria's built heritage. VHF is able to accomplish much of this work thanks to the contribution of over 1,000 annual volunteer hours. VHF's 2014 Annual Report documents in detail our yearly expenditures and budget allocations. The report was distributed to Mayor and Council and City staff in July. It can also be viewed on our website.

VHF's annual operating grant has remained unchanged at \$189,368 since 2010. As of 2016, demand for grants is expected to exceed our capacity. For 2016 the Victoria Heritage Foundation is requesting **\$205,000**. Factors contributing to the expected shortfall include:

- VHF average project costs have increased 16% (2010-14)
- VHF operating costs (insurance, auditor, office) have increased 11% (2010-14)
- Increased grants for seismic upgrades
- Five Capital Park heritage houses are expected to apply for grants

VHF's work makes a significant contribution to the goals and objectives set out in Victoria's 2015 Strategic Plan 2015-18. Relevant goals and objectives relating to the Strategic Plan are appended for reference. The VHF Board is currently developing a Strategic Plan that further advances its work consistent with City's Strategic Plan.

We would be happy to answer any questions that you may have. Thank you for your consideration.

Respectfully,

Doug Koch, Board President Tara Kaehne, CPA, CA

Treasurer

Brigitte Clark, Executive Director

Andrea Hudson, Assistant Director, Sustainable Planning & Community Development

Andrea Hudson, Assistant Director, Sustainable Planning & Community Development

Murray Miller, Senior Heritage Planner, non-voting member of VHF Pamela Madoff, Council liaison to VHF

Victoria Heritage Foundation c/o Victoria City Hall #1 Centennial Square Victoria, BC V8W 1P6

#### **Appendix**

The work of the Victoria Heritage Foundation contributes to the priorities of Victoria's Strategic Plan 2015-2018 as follows:

#### Innovate & Lead

- · Heritage honours the past, while allowing the future to evolve
- · VHF enjoys a high profile and often serves as the first point of contact for heritage-related inquiries
- VHF's award-winning website and GIS map extend the reach of the City's heritage program
- VHF collaborates with neighbourhood groups and other heritage organizations

#### Engage and Empower the Community

 VHF grants encourage heritage homeowners to undertake appropriate rehabilitation and inspire neighbours to do the same

#### Strive for Excellence in Planning & Land Use

- · Existing historic neighbourhoods make for compact and sustainable land use patterns
- · Heritage houses contribute to placemaking in Victoria's distinctive neighbourhoods
- VHF assists City Planners in identifying and researching potential heritage houses

#### Create Prosperity through Economic Development

- VHF grants leverage significant private investment
- Rehabilitation creates twice as many local skilled jobs as new construction
- Heritage is a cornerstone of sustainable cultural tourism
- · Heritage supports tourism historic hotels and B&Bs, carriage and walking tours
- · Heritage houses and streetscapes are desirable locations for film productions

#### Make Victoria More Affordable

- · Heritage houses often include affordable rental units
- Heritage houses may lend themselves to the addition of garden and secondary suites, adding density without destroying the heritage value of the house and neighbourhood
- VHF grants add to the affordability of heritage houses

#### Facilitate Social Inclusion and Community Wellness

- Heritage contributes to social and cultural well-being
- Attractive pedestrian-friendly streets improve quality of life and promote socialization

#### Enhance and Steward Public Spaces, Green Spaces and Food Systems

Heritage neighbourhoods include mature gardens and trees, reinforcing Victoria's reputation as the City
of Gardens

#### Complete a Multi-Modal and Active Transportation Network

Attractive, walkable neighbourhoods close to town and amenities minimize vehicle use

#### Nurture Our Arts, Culture and Learning Capital

- · Heritage neighbourhoods preserve the valuable legacy of the past
- VHF walking tour brochures promote awareness and appreciation of Victoria's architecture and history

#### Plan for Emergencies Including Climate Change Short and Long-Term

- · The greenest building is the one already built
- VHF promotes educational events on seismic upgrades for heritage houses
- VHF promotes seismic upgrades through increased grant percentage

#### Appendix D – Approved 2015-2016 Engagement Strategy

The community engagement planned for the 2015 and 2016 budget places significant focus on public awareness, education and involvement around the City's budget more so than in previous years.

Beginning in 2015, a two-phased engagement approach has been approved by Council. The first phase will focus on providing the community clear, accessible information to generate greater awareness and education on the budget. 2015 also includes community involvement in designing and exploring participatory budgeting options for the following year. A substantially improved Financial Plan document and new online tools will better equip community members with the information required to participate in a more collaborative budgeting process during the second phase in 2016.

#### Our Budget. Shaping the Future Together - Proposed Phase One: 2015

Throughout January and February 2015, clear, accessible information on the budget will be shared to provide improved information about the budget, services and the budget process. The new Financial Plan will outline service levels, actuals and value received for financial investment. Quality information is the foundation for meaningful engagement and has been the greatest weakness in previous consultation activities. To foster meaningful participation in the budget process in future, it is important that greater focus on the information is placed and improved access, through better tools, is provided for greater reach and understanding.

As budget decisions have a profound impact on the daily lives of tax and ratepayers, ranging from garbage collection to parks, to emergency services, engagement will be extensive to ensure all those affected by the conversations are aware of the various opportunities to provide input into the process. Staff will seek out opportunities to go to where the people are to ensure the greatest amount of individuals are engaged and informed.

Several new tools will be introduced in February 2015 including an online budget toolkit explaining operating and capital budgets, where funds come from, how they are allocated and what the community receives for their communal investment. An E-town hall opportunity is proposed for the first time enabling the public to submit questions and feedback through a variety of channels including in person, through the website and using social media. An online tax calculator (example below) will enable taxpayers to input their assessed value and see what their taxes will be is another useful new tool proposed for the coming year. The calculator will be tailored to both residential and business properties to assist individuals purchasing property to determine the difference in taxes.

These new tools will deliver information in a clear and accessible manner as well as encourage interaction through new, innovative channels with diverse audiences. The input solicited from the public about the draft financial plan will be used to inform the 2015 Financial Plan.

In 2015, it is also proposed that the City commence dialogue with the residents and business representatives to explore potential participatory models together and identify what additional information community members feel they require to provide greater input and involvement into the budget process. Based on best practice research being completed now, there are several options that can be explored in 2015 for 2016, including public participation in specific grant fund allocation, investment by neighbourhood or investment by topic areas, such as beautification or active transportation.

Improved budget information and greater exploration of options for participatory budgeting will build a strong foundation on which to introduce participatory elements and process for 2016.

#### Shape Your City Budget - Proposed Phase Two: 2016

In 2016, the City will be in a position move towards a more collaborative budget process through the introduction of participatory budgeting for a portion of the City's budget.

As a principle of the City's civic engagement strategy, the City's budget is a foundational topic for greater levels of public participation due to its breadth and impact. Involving the public in 2015, to explore and design a participatory process is consistent with the City's Core Values for Public Participation. This in combination with significantly improved budget information and tools has potential for building greater community capacity and understanding of participatory processes, together.

Opportunities for face-to-face workshops and online engagement will be facilitated in order to reach the wide-ranging stakeholders impacted by the decisions being made. The tools introduced in 2015 will be further developed and new tools will continue to be introduced in order to engage the largest amount of the diverse stakeholders impacted by the decisions being made. Best practices from other municipalities will be applied to Victoria such as the introduction of an online budget simulator which has been used in Coquitlam, Regina, Edmonton, Toronto and Montreal. This innovative tool will offer citizens a way to participate in the budget process from the convenience of their homes.

The two-phased engagement strategy will set a new precedent for involving the community in the budget process through clear, accessible information, innovative tools and greater collaboration in the budgeting process.

# Community Overview

Located on the southern tip of Vancouver Island, the City of Victoria is home to 80,000 people, and is the economic and entertainment centre for the 345,000 residents of Greater Victoria. The Capital City of British Columbia, Victoria is a community of choice for its temperate climate, natural beauty, recreational sites and superior economic opportunities.

Anchored by the spectacular Inner Harbour, downtown Victoria is the economic heart of the region that includes 13 municipalities. The region's strategic location as a gateway to the Pacific Rim, its proximity to American markets, and its many sea and air links, make Victoria a hub for tourism, business development and economic investment.

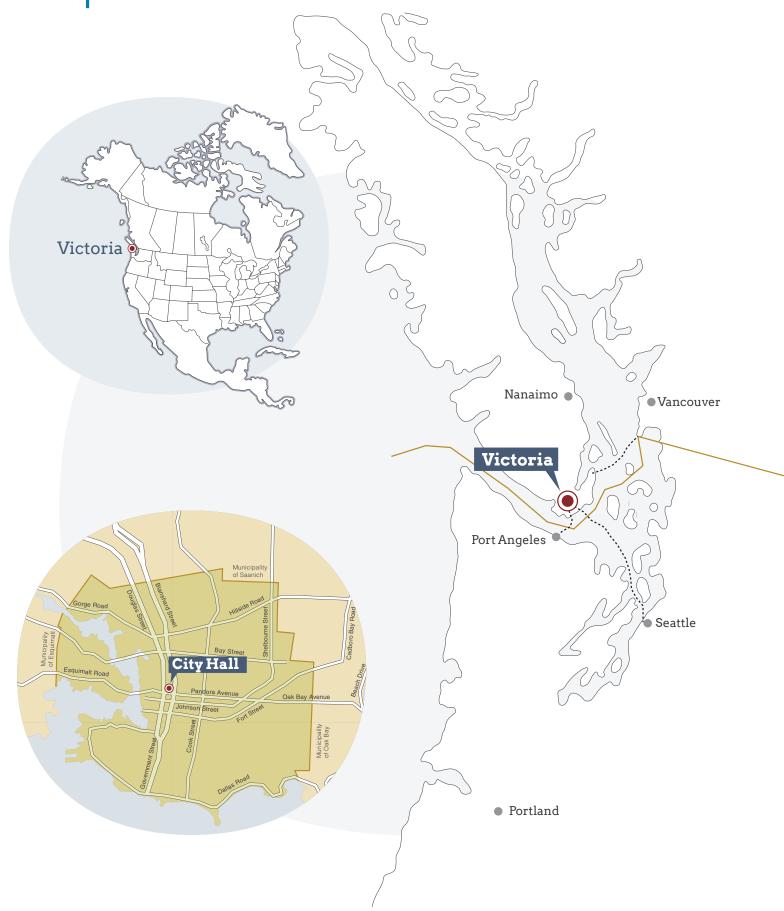

Located in a sub-Mediterranean zone, Victoria enjoys the mildest climate in Canada. This, combined with spectacular outdoor settings adorned with ocean views and mountain vistas, encourage year round recreational opportunities including hiking, golfing, cycling, gardening and kayaking.

Victoria is home to a vibrant and eclectic arts and culture community, from world class performing arts, museums and festivals to local authors and artisans. The juxtaposition of heritage charm and modern urban living is part of what makes Victoria one of the most uniquely special places in Canada.

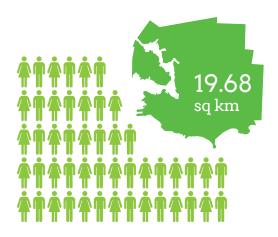

#### Victoria at a glance:

- Incorporated on August 2, 1862
- Population: 80,000
- Serves as the metropolitan core for a region of 345,000
- · Capital City of British Columbia
- Over 3 million visitors annually
- Average of 2,183 hours of sunshine each year
- Average rainfall is 66.5 centimetres per year

### CITY OF VICTORIA

# Mayor and Council

Standing Committee.

The Mayor and Council of the City of Victoria were each elected for a four-year term in the municipal election held in November 2014. Each member is appointed to specific portfolios, City standing committees and is responsible for a particular Victoria neighbourhood. Some members of Council are also appointed to the Board of the Capital Regional District (CRD). Appointments are made by the City to internal committees as well as external boards and committees - this does not include the external sub-committees or other groups to which members are appointed by those external bodies.

Council has four committees: Governance and Priorities, Planning and Land Use, Corporate and Strategic Services Standing Committee, and Community Services

Marianne Alto Neighbourhood: Oaklands

Chris Coleman Neighbourhood: Fairfield

Ben Isitt Neighbourhoods: Hillside-Quadra

Jeremy Loveday Neighbourhoods: North Park, Victoria West

Margaret Lucas Neighbourhoods: James Bay, Downtown/Harris Green

Pamela Madoff Neighbourhood: South Jubilee, North Jubilee, Rockland

Charlayne Thornton-Joe Neighbourhood: Fernwood, Downtown/Harris Green

Geoff Young Neighbourhood: Burnside-Gorge

### MESSAGE FROM

# City Manager

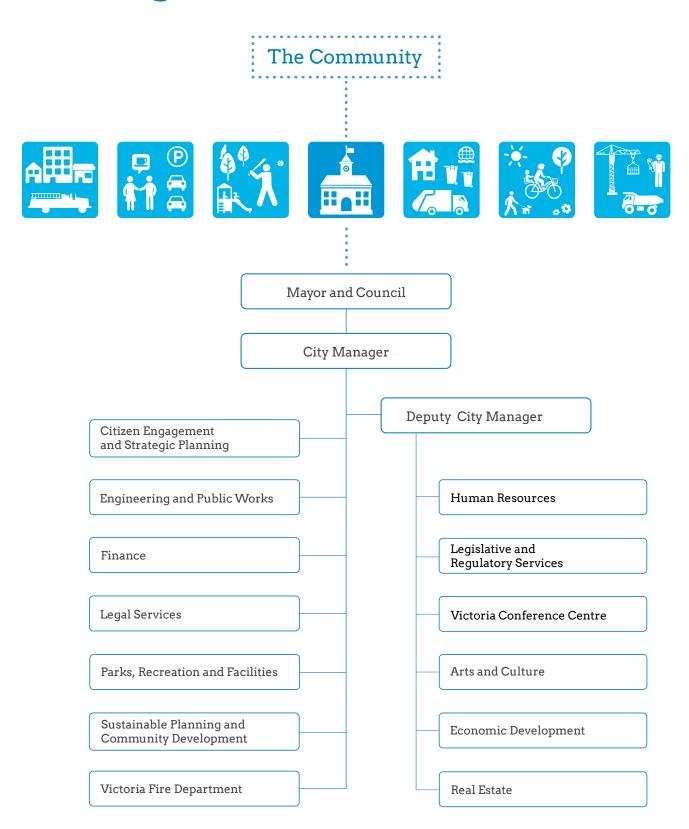

To be included in final document

### **MESSAGE FROM**

### Director of Finance

To be included in final document

# City of Victoria Organizational Chart

# Strategic Priorities

### Our Goal:

"Victoria is a leading edge capital city that embraces the future and builds on the past, where human well-being and the environment are priorities, where the community feels valued, heard and understood and where City Hall is trusted. Victoria is a city that is liveable, affordable, prosperous and vibrant, where we all work in partnership to create and seize opportunities and get things done."

# Council's Principles for Strategic Planning

#### In the planning process we are committed to:

- 1. Starting with an open heart and an open mind
- 2. Being honest, frank and respectful in our discussions
- 3. Participating with active listening and respectful challenging
- 4. Keeping a sense of humour
- 5. Believing in the process and the outcome
- 6. Allowing for differences
- 7. Strong facilitation
- 8. Learning from the past
- 9. Making the process visible
- 10. Making sure that we're starting with a blank slate but also with transparency around priorities
- 11. Engaging the public

#### In the plan we are committed to:

- 1. Creating a clear plan with agreed upon purposes
- 2. Making sure our stated values are clear
- 3. Making defining, concrete statements
- 4. Including timelines, measurables, and budgets for all items
- 5. Making the plan accessible

#### In implementation we are committed to:

- 1. Doing what we say
- 2. Remaining open to new information, new ideas and public input
- 3. Scheduling quarterly check in updates with Council on strategic plan execution
- 4. Creating mechanisms to consider emerging issues
- 5. Aligning our governance structure with our priorities

### **Our Strategic Objectives**

- 1. Innovate and Lead
- 2. Engage and Empower the Community
- **3.** Strive for Excellence in Planning and Land Use
- 4. Build the Financial Capacity of the Organization
- 5. Create Prosperity Through Economic Development
- 6. Make Victoria More Affordable
- 7. Facilitate Social Inclusion and Community Wellness
- 8. Enhance and Steward Public Spaces, Green Spaces and Food Systems
- 9. Complete a Multi-Modal and Active Transportation Network
- 10. Nurture Our Arts, Culture and Learning Capital
- 11. Steward Water Systems and Waste Streams Responsibly
- 12. Plan for Emergencies Including Climate Change Short and Long-Term
- **13.** Demonstrate Regional Leadership

### Objective 1: Innovate and Lead

#### 2015-2018 OUTCOMES:

- Council's governance structure reflects its strategic objectives.
- Staff is organized into cross-departmental project teams with strong project management capacity.
- Organizational culture is collaborative, supportive and empowering.

#### 2015 ACTIONS:

- Be bold.
- To enable bold, innovative leadership, invest in City Hall's capacity by creating an interdisciplinary project team to support collaborative, holistic planning and execution, and public engagement. This approach introduces new expertise, project management support and capacity for meeting strategic objectives and delivering within Financial Plan.
- Introduce focused advisory committees and task forces to build capacity and include public input within specific projects and timelines. Focus mandate and meeting frequency of broad topical advisory committees.

#### 2015-2018 ACTION:

 Support the City Manager in developing an organizational culture of collaboration, continuous learning, and employee empowerment.

### **Objective 2:** Engage and Empower the Community

#### 2015 OUTCOME:

 Improved relationship with nearby First Nations. (Ongoing)

#### 2016 OUTCOMES:

- Build capacity of neighbourhood/community associations. (Ongoing)
- Empower neighbourhood residents, place makers and others to lead and implement projects.

#### 2017 OUTCOME:

 More youth are engaged in City programs, civic issues, and the broader community. (Ongoing)

#### 2018 OUTCOMES:

- Transparent government.
- Rebuilt trust with the public in terms of meaningful public engagement.
- Regional leader in Open and Transparent Government.
- City Hall is engaged in a meaningful, two-way conversation with the public.

- Create Councillor Liaison position to support the Mayor in reaching out and working with Esquimalt and Songhees Nations.
- Identify dedicated staff to work with community/ neighbourhood associations to inform and collaborate with community association/ neighbourhood boards and staff on City processes, expectations and opportunities.
- Make open government actions routine require automatic posting of reports, plans, budgets etc. (Create and implement a plan and timeline for open government enhancements.)
- Create a "great neighbourhoods initiative" based on Edmonton's model; amend to fit our local circumstances.
- Utilize online tools, established youth networks, and learn from other cities, to improve the City's youth engagement.
- Work with community to design participatory budgeting opportunities.
- Be engaged in a meaningful two-way conversation with the public.

### Objective 3: Strive for Excellence in Planning and Land Use

#### 2016 OUTCOMES:

- Reduced processing time for all types of applications from building permits to rezoning.
- Planning for Phase One of Capital Park is complete.
- Streamlined land use policies.
- Local Area Planning focused on urban villages and transportation corridors.
- Create a Development Permit/Heritage
   Conservation Area on Dallas Road between
   Cook Street and Clover Point.

#### 2018 OUTCOMES:

- Housing, employment and economic boom in Douglas/Blanshard Corridor through implementation of Master Plan, with substantial new low-cost units, mixed use, and quality-of-life infrastructure.
- Enlivened public spaces. Victoria is a peoplecentered place i.e. Centennial Square, Harbour front.

#### 2015 ACTIONS:

- Hire City planner to lead our Sustainable Planning and Community Development Department.
- Identify as staff priority in Planning Department: Local Area Planning focused on urban villages and transportation corridors.
- Identify as a staff priority: Work through planning process to deliver acceptable form and density for proponent and community at Capital Park.
- Establish predictable flat fee per square metre for bonus density.
- Make a decision with regard to whether we are going to delegate more decision-making authority to staff
- Empower the City Manager to lead the changes required to streamline our residential and commercial land use processes at City Hall.
- Increase emphasis on placemaking in our planning and support the Greater Victoria Placemaking Network and other citizen-led placemaking initiatives.
- Include active transportation and public realm impacts and opportunities listed in all planning and land use reports.

- Work through planning process to deliver acceptable form and density for Capital Park for proponent and community.
- Complete the Douglas/Blanshard Corridor Master Plan and allocate funds in Financial Plan for quality-of-life infrastructure.
- Commence three new urban village centre plans upon completion of Burnside-Gorge/Douglas Street Corridor Plan.

### Objective 4: Build the Financial Capacity of the Organization

#### 2015 OUTCOMES:

- A business case for a property acquisitions/real estate management office.
- More revenue and strategic influence for City with implementation of Municipal Property Acquisition and Management Strategy.

#### 2018 OUTCOMES:

- Maximized and where possible (e.g. School Districts and City lands) consolidated City-owned assets, put to best and highest use including market rate commercial leases.
- Full catalogue and list of long-term investment costs/profits for infrastructure and facilities.
   Increased revenue from property.

#### 2015 ACTIONS:

- Create an integrated facilities and real estate arm at City Hall or in Economic Development Office staffed by people who understand business and the real estate market and respond to the market and the short and long-term economic outlook of the City.
- Complete and implement Municipal Property Acquisition and Management Strategy.
- Complete a full long-term infrastructure and facilities assessment.

### **Objective 5:** Create Prosperity Through Economic Development

#### 2015 OUTCOME:

 City "Economic Development Office" or "Office of Small Business Services" or something along these lines is set up.

#### 2016 OUTCOMES:

- Downtown is the hub of both large and small business.
- Reduced retail and commercial vacancies downtown.
- Improved health, consumer purchasing power, and social solidarity with implementation of Municipal Incomes Strategy.
- Victoria's two largest private sector industries

   tech and tourism have grown and Victoria's social enterprise sector has grown.

#### 2017 OUTCOMES:

- Downtown is vibrant and is a draw for residents and visitors alike.
- Victoria has hosted delegations from each of our Twin City partners.

#### 2018 OUTCOMES:

- Victoria is the heart of commerce and business in the Region and Vancouver Island.
- Taxpayers and businesses perceive tax levels to be fair and reasonable.
- Increase household median income.

#### **2015 ACTION:**

 Create an Economic Development and Downtown Prosperity Task Force led by the Mayor, of up to 15 diverse individuals, to advise on how the City can best deliver an economic development function, support small businesses – including social enterprises – and fill downtown vacancies with the aim of creating local and regional prosperity.

- Create and implement a plan to revitalize and brand Douglas Street as our "Main Street".
- Develop a Municipal Incomes Strategy.
- Invite Twin City delegations for 2017 "Canada 150" events.
- Investigate a living wage policy for City of Victoria employees.

### Objective 6: Make Victoria More Affordable

#### 2016 OUTCOMES:

- Substantial increase in construction of new low-cost housing units with implementation of income-mixed zoning.
- Complete Municipal Housing Strategy; include income mixed zoning.

#### 2017/2018 OUTCOME:

 Increased the range of affordable housing not only for those in need of supports but also for working people, families and youth.

#### 2018 OUTCOMES:

- There are more affordable and supportive rental units available.
- New garden and secondary suites are in process. (Target TBD)

#### 2015 ACTIONS:

- Increase City contribution to Victoria Housing Reserve. Lobby other municipalities in the Capital Region to do the same.
- Review Victoria Housing Reserve to consider increasing the amount per door and building family housing and creating guidelines to allow Housing Reserve monies to be used for properties outside the City.
- Initiate Municipal Housing Strategy; include income mixed zoning.
- Form an Affordable Housing Task Force to research, analyze and implement innovative housing policy solutions. Look at zoning, bylaws and specifically at inclusionary zoning.
- Work with developers, BC Housing, and private sector landlords. Think and act outside the box.
   Be willing to pilot new ideas.
- Limit annual property tax increases to maximum of rate of inflation plus 1%.
- Drive more garden suites and secondary suites through an incentive program.
- Consider re-instituting incentives for suites.

- Continue to push for a National Housing Strategy.
- · Consider a CRD Housing Levy.

## **Objective 7:** Facilitate Social Inclusion and Community Wellness

#### 2017 OUTCOMES:

- Crystal Pool issues are resolved by replacing or renovating the facility. Victoria has a modern, inclusive public pool and fitness facility in a central location, with increased revenue.
- Accessible health services are available for Victoria's most marginalized people.
- Enhanced quality of life.
- Victoria is closer to ending chronic homelessness.
- Opportunities for accessible sports and fitness by children and adults.

#### 2018 OUTCOMES:

- Public recreation and cultural facilities are first rate.
- Coalition to End Homelessness completes its mandate to end homelessness.
- City's seniors' facilities have grown their memberships by 50%.
- City infrastructure and facilities are more accessible for everyone.
- Seniors centres have increased programming options.

#### 2015 ACTIONS:

- Commit to facilitating collaboration among Island Health, VicPD, YES2SCS, and City of Victoria to create supervised consumption services embedded in a continuum of health services, including harm reduction.
- Develop plan for public engagement on Crystal Pool and Fitness Centre, to be implemented in late 2015 or early 2016.
- Initiate discussions with YMCA to explore possibility of a common downtown pool and recreation facility delivering many programs.
- Increase number of subsidized housing units.
   Deepen partnerships. Lobby upper levels of government and increase investment in the Victoria Housing Reserve.
- Continue to keep subsidized housing units a focus and work with partners to create/identify new opportunities.
- Create an Accessibility Capital Fund and Accessibility Advisory Committee to ensure City infrastructure and facilities are accessible to everyone.
- Work with partner agencies and street-involved people to establish increased options for safe and secure storage of the belongings of street-involved people in an area that will not have negative impacts on surrounding neighbours or land uses.

- Work toward establishing supervised consumption services, in collaboration with Island Health, VicPD, and YES2SCS,
- Work through Facilities Assessment and community engagement plan, and seek out possible funding partners.
- Tender required upgrades and invest in public pool and fitness facility.
- Continue collaborating with Vic High on new/ upgraded school and community sports facility at Vic High. Expect \$ expenditure in 2016/2017.

### **Objective 8:** Enhance and Steward Public Spaces, Green Spaces and Food Systems

#### 2016 OUTCOME:

 Complete three projects, identified through consultation in Parks Master Plan and food security discussions.

#### 2017 OUTCOMES:

- Boulevard gardens exist in all neighbourhoods.
- Increased waterfront park space at Ship Point resulting in community wellness and economic vitality.
- David Foster Harbour Pathway is celebrated for its wayfinding that links all harbour front developments.
- School lands and facilities are enhanced for benefits such as community wellness and recreation, greenspace, and food systems etc.

#### 2018 OUTCOME:

 Greenspace, parks and food systems that are enhanced, well-maintained and fully utilized.

#### 2015 ACTIONS:

- Initiate Parks Master Planning process, including:
  - City greenspace opportunities for "have not" park neighbourhoods.
  - Commitment to a high-quality park and festival site at Ship Point.
  - Include public dialogue on waterfront park at Ship Point and festival sites.
  - Discuss dogs in parks, with eye to identify locations, best practices, and plan for fenced dog parks in 2016.
  - Identify three high-profile projects to advance in 2016.
- Develop, design and make investment to improve Begbie Green in the North Jubilee Neighbourhood.
- Create a micro-grant for volunteer coordination of commons and community gardens.
- Develop long-term policies for food security and boulevard gardening including an inventory of City-owned land for food production and improved coordination of food systems resources and initiatives in the city.
- Learn from Vancouver's success in creating a community garden on Davie Street private property and replicate model on available private properties in Victoria, including downtown.
- Allocate existing resources in Parks and other departments to implement food security initiatives.
- Strengthen the relationship between the City of Victoria and School District 61 in order to maximize the benefit of School lands and facilities.

#### **2016 ACTIONS:**

- Introduce new partnerships with citizens and groups to increase food cultivation on public and private land.
- Monitor efforts in neighbouring municipalities regarding urban deer.
- Build upon input from Parks Master Plan process and hold a placemaking activity at Ship Point to advance a site plan in the Harbour Principles. Consult public on specific design, and allocate money in 2018 capital budget to complete.

#### **2017 ACTION:**

 Complete two of the "special sites" at Heron Cove and Ship Point, along the David Foster Harbour Pathway corridor.

## **Objective 9:** Complete a Multi-Modal and Active Transportation Network

#### 2016 OUTCOMES:

- Improved quality of life, public safety, air quality, placemaking, and pedestrian and cycling trips through implementation of neighbourhood-led transportation planning and "complete streets" lens for all transportation projects.
- Public transit is accessible to all and rivals private automobile trip duration.
- Substantial increase in the number of trips by bicycles, with the completion of a skeletal cycling network.
- · Bus terminal is replaced.
- Train is running between Victoria and Langford.

#### 2017 OUTCOMES:

- Extend Government Street Mall, including periodic closures to vehicle traffic.
- David Foster Harbour Pathway almost completed.
- Johnson Street Bridge is complete.

#### 2018 OUTCOMES:

- Victoria is a national leader for cycling infrastructure and complete streets planning, with completed all-ages and abilities cycling network connecting all neighbourhoods and village centres.
- Completed Phase Two of the Belleville Terminal Project. (Phase Two is David Foster Harbour Pathway improvements to Belleville Street public realm.)
- Walking is safe, comfortable and enjoyable.

#### 2015 ACTIONS:

- Mandate and create a collaborative neighbourhood process and "complete streets" lens for all projects.
- Designate location for E&N station as close as possible to the new bridge.
- Collaborative design and completion of network of 4–8 high quality cycling corridors by 2016.
- Build protected cycling facilities, more bike parking, and start an Active Transportation Advisory Committee.
   Begin to see all planning and engineering through multi-modal lens.
- Designate money in 2015, 2016, 2017 and build it (cycling network).
- Sign pedestrian-only lanes just as prominently as streets. Distinguish between "No Exit" and "No Exit for Motor Vehicles".
- Review policy for desired right of way widths for road dedications and statutory right of ways.
- Explore opportunities for increased safe cycling training in schools.
- Keep the Johnson Street Bridge replacement project moving forward.

#### LATE 2015 ACTION:

 Develop task force including Government Street property owners and the DVBA to consider a Local Area Improvement Project.

#### 2016 ACTIONS:

- Move to full-time bus lanes on Douglas and fewer stops (in accordance with Rapid Bus plans).
- · Support replacement of bus terminal.
- Work in partnership with First Nations, Province, ferry operators and others to identify financial opportunities for the Belleville Terminal. Allocate money in 2017 Capital Budget for Belleville Street.
- Based on report funded through 2015 budget allocation to Island Transformations, repair rail crossings within the City of Victoria.

#### 2017 ACTION:

 Prioritize "special places" along the David Foster Harbour Pathway and identify funding opportunities.

### Objective 10: Nurture Our Arts, Culture and Learning Capital

#### 2015 OUTCOME:

 Increased number of funding partners for the McPherson Theatre.

#### 2017 OUTCOMES:

- Victoria has an Arts and Culture Master Plan.
- A new Arts Centre serves as a cultural hub.
- · A new James Bay Library branch is opened.

#### 2018 OUTCOMES:

- Support for arts and culture is increased, inclusive and strategic.
- Successful Western Canada Music Awards/ BreakOut West event with Rifflandia sees Region being asked to bid for the JUNOS.
- A new Central Library serves the community.

#### 2015 ACTIONS:

- Support the 2015 event Western Canada Music Awards/BreakOut West with Rifflandia.
- Work with the CRD to increase number of funding partners for McPherson Theatre by making it more financially viable.
- Identify resources required to develop Arts and Culture Plan, including identifying objectives and purposes of the plan.
- Provide the public with background on arts and cultural mapping.

#### 2016 ACTIONS:

- Develop Arts and Culture Master Plan.
- Fund an Economic Impact Study linked to an Arts and Culture Master Plan.
- Identify scope and develop budget strategy for a new Central Library and for a library branch at Capital Park in James Bay.

### **Objective 11:** Steward Water Systems and Waste Streams Responsibly

#### 2018 OUTCOMES:

- A sewage treatment plan is underway.
- The City handles waste in a more responsible way.

- · Continue discussion on sewage treatment options.
- Begin the discussion of sewage treatment sites for different treatment options.
- Communicate to CRD desire to see single stream collection of recyclables in closed wheeled totes. Make garbage disposal less convenient than recycling.

## **Objective 12:** Plan for Emergencies Including Climate Change Short and Long-Term

#### 2016 OUTCOME:

· City has increased the capacity of VEMA.

#### 2018 OUTCOMES:

- City heritage buildings can survive a major earthquake. (Ongoing)
- · Fire Station issues are resolved.

#### 2075 OUTCOME:

Low-lying areas are protected from flooding.

#### 2015 ACTIONS:

- Begin seismic analysis of privately-owned properties and infrastructure.
- Explore potential for City to require upgrades to heritage buildings for seismic protection even where use is not changed, combined with subsidy program.
- Align Victoria Emergency Management Agency's budget through Victoria Fire Department and work with Sustainable Planning and Community Development Department.
- Initiate public dialogue and market sounding on fire station options.

#### **2016 ACTION:**

Move forward with plans for a new fire station.

#### **2017 ACTION:**

 Review drainage systems in low-lying areas of City in light of ocean rise. Adjust base building elevations as needed.

### **Objective 13:** Demonstrate Regional Leadership

#### 2018 OUTCOME:

 Put a recommendation about amalgamation in front of the public in the 2018 Election.

#### 2015 - 2018 ACTION:

 Support and work with the Provincial government in the study of the potential for amalgamation in the Region.

|   |

# Public Input on Financial Planning Process

To be included in final document

| Governance and Priorities Committee - 20 Nov 2015 |
|---|
|   |

# Financial Plan Policies and Framework

The City of Victoria's financial plan process framework consists of the following:

#### Legislative Requirements

The Community Charter requires municipalities to prepare Five Year Financial Plans each year that identify the expenditures, funding sources and transfers to or between funds for both operating and capital expenditures. The City's five year plan must be balanced; therefore the total of expenditures and transfers to other funds must not exceed the total of revenues, funding sources and transfers from other funds for that year. This plan must be adopted before the tax rate bylaw is approved, and before May 15th of each year.

In addition, the Community Charter directs municipalities to consult with the public prior to adoption of the Financial Plan.

### City Policies

#### Financial Sustainability Policy

#### Purpose

The purpose of the Financial Sustainability Policy is to guide the City's financial planning to meet financial obligations while providing high quality services.

#### Primary Objective

The policies shall be designed and structured to develop principles that guide, support and respect the direction of the community so that tax payers can benefit from stable, equitable and affordable property taxation.

#### Reserve Fund Policy

#### Purpose

The purpose of the Reserve Fund Policy is to provide guidance with respect to the development, maintenance, and use of City Reserve Funds.

#### Primary Objective

To ensure stable and predictable tax levies to buffer the impact of unusual or unplanned cost increases and revenue reductions over multiple budget cycles. The City will maintain adequate reserves to provide for operating emergencies resulting from inclement weather, catastrophic events, law enforcement issues and environmental hazards to reduce the risk of extensive service interruptions and prevent risks to infrastructure and public safety. Establishing reserves to finance new capital

assets to respond quickly to alternative service delivery methods and safeguarding and maximizing existing assets are further primary objectives.

#### Revenue and Tax Policy

#### Purpose

The purpose of the Revenue and Tax Policy is to outline the proportions of revenue sources, the distribution of property taxes among property classes and the use of permissive property tax exemptions.

#### **Primary Objectives**

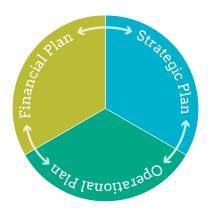

To provide tax payers with stable, equitable and affordable property taxation while at the same time providing high quality services.

To support the Official Community Plan and other City plans, as well as complement the Regional Context Statement.

#### Financial Planning Framework

The Financial Planning Framework is developed in alignment with the following plans to organize and coordinate the activities necessary to bring the City's vision to life:

- 1. The Strategic Plan
- 2. The Operational Plan
- 3. The Financial Plan

#### The Strategic Plan

The Strategic Plan is the road map for Council's decision-making and provides the guiding framework for the Financial Plan. It defines the vision and includes 13 strategic objectives and associated actions that guide the City. The Strategic Plan is updated every four years following the municipal election. This plan will be used to assess performance on a quarterly basis and to update operational plans according to emerging priorities and the will of Council.

#### The Operational Plan

The Operational Plan identifies the strategies and tasks for each strategic objective to achieve the desired annual outcomes. Work plans are aligned within the 13 strategic objectives. This aims to shift quarterly reporting to objective-based performance reporting, from one based on departmental responsibility. Over the long term this will assist in guiding the re-organization of the City's financial plan to better articulate the funding allocations for each strategic objective, but is also key to establishing a more inter-disciplinary approach to measuring and communicating progress towards objectives.

There are both internal and external benefits to develop one operational plan. It serves as an important communication tool with both City Council and the community about how the City is delivering on the approved projects and funding, and where challenges have been identified. This plan also assists in measuring the performance of departments in achieving intended results.

#### The Financial Plan

The Financial Plan provides the resources, both financial and human, and connects the day to day work required to achieve the goals of the Operational Plan and the Strategic Plan. This plan is updated annually to ensure alignment and that objectives are achieved. The City's performance is reviewed monthly and is presented to Council quarterly.

For 2016, the City continued the new financial planning process that focuses on budgeting by priorities, outlining services and projects including the costs, revenues and benefits of each. This new focus will enable the City to better demonstrate the value residents and businesses receive for their tax dollars.

Financial Planning is comprised of the following:

#### 1) Align with the Strategic Plan

City department operational plans are developed according to the Strategic Plan as well as emerging priorities, input from the community and the will of Council.

#### 2) Review Budget Priorities

#### Operating

Departments review their base service levels and deliverables, who they deliver the service to, why they provide the service and what is the benefit of this service annually.

#### Governance and Priorities Committee - 20 Nov 2015

#### Capital

Departments review their capital projects to determine investment needs based on asset master plans and condition assessments. Master plans outline the level of funding that is considered sustainable to maintain current service levels and the priorities for infrastructure investment.

For both operating and capital a review of the operational plan will ensure all priorities will be accounted for and align with the City's objectives. Departments will also review all processes to be bold and innovative, identify efficiencies, and if necessary reallocate both financial and human resources to ensure delivery of the project or service.

#### Supplemental Budget Requests:

Departments that wish to increase service levels and/or employees (FTE) are required to submit a supplemental budget request. Each request will require a business case outlining how they support the City's goals and objectives, the operating and capital impacts and return on investment. Evaluation of the requests are based on the alignment of the operational and strategic plans.

#### 3) Community Engagement and Identify Citizen Priorities

A variety of engagement tools were used to develop participatory budgeting, focusing on improved financial information and public participation. The new practices, tools and techniques included a Town Hall and E-Town Hall meeting, online surveys and property tax calculator.

#### 4) Performance Metrics

Identification of key performance metrics to measure City operations to expected deliverables.

#### Monitoring and Variance Reporting

The City performs monthly variance analysis of the revenues and expenditures as they compare to the approved financial plan and reports the progress quarterly to Council. Quarterly updates on the operational plan is also completed that provide a status update on the progress of each action item identified under the strategic objectives. The status updates are colour coded to indicate the status of each action item.

The quarterly report is a comparison of actual revenues and expenditures for city operations and capital projects as well as staffing levels. The purpose of the quarterly financial report is to provide Council, the community and staff with a continual overview of financial information and staffing levels. Each report highlights any actual to budget variances and recommends adjustments, if any, to the five-year financial plan bylaw. Consistent monitoring identifies issues in a timely manner allowing staff and Council time to make the appropriate decisions to ensure the City is on budget and in alignment with the Strategic Plan.

#### Governance and Priorities Committee - 20 Nov 2015

#### Performance Metrics and Evaluation

Financial planning is a system of continuous improvement. Performance evaluations exist at multiple levels of the City. Performance metrics demonstrate something important about our services and the processes that produce them. They are a tool to help us understand, manage and improve what our organization does. Performance measures let us know:

- How much did we do?
- How well did we do it?
- Is anyone better off?

They provide us with the information necessary to make informed decisions about what we do. A performance metric is composed of a number and a unit of measure. The number gives us a magnitude (how much) and the unit gives the number a meaning (what). Performance metrics are always tied to a goal or an objective (the target).

#### **Budget Bylaw Amendments**

If unanticipated events occur during the year that impact the approved five-year financial plan, staff recommend amendments to the financial plan bylaw to authorize the changes. All budgetary amendments require Council's approval.

|   |
|   |
|   |
|   |
|   |
|   |

# **Fund Structure**

The City of Victoria's financial structure is separated into four funds; General, Water Utility, Sewer Utility and Stormwater Utility. Each fund has to balance all the revenues and expenditures to ensure that there is no budgeted deficit or surplus.

#### General Fund

The General Fund is funded in part through various user fees, fines and penalties, though the main source of funding is property taxes. This fund is comprised of a diverse range of services to the community. Services include garbage collection and emergency services to parks and recreation programs, community planning and land use development. Parking and Solid Waste and Recycling are self-financing entities within the General Fund as they are funded by user fees rather than property taxes.

### Water Utility

The City of Victoria's Water Utility is a self-funded program that delivers safe drinking water to the public and sufficient pressure and flow for fire protection. The water service is provided to all property owners in the City of Victoria and the Township of Esquimalt. User fees are the primary source of revenue for this fund.

### Sewer Utility

The City of Victoria's Sewer Utility is a self-funded entity that operates, maintains and constructs the sanitary sewer system. An efficient sanitary sewer system provides a foundation for public health and community well-being. User fees are the primary source of revenue for this fund.

### Stormwater Utility

The City of Victoria's Stormwater Utility is a self-funded entity that operates, maintains and constructs the City's stormwater system. An efficient stormwater system manages run off to reduce contamination and pollution of waters to minimize impacts to marine life. Stormwater management is required by provincial and environmental regulation. The funding for the majority of the Utility's cost are covered by a stormwater user fee. However, a portion representing the cost of City rights-of-way, continues to be funded by property taxes.

Business Unit: 2000 - Council

**Department:** Council **Budget Year:** 2016

#### Overview:

Victoria City Council consists of one Mayor and eight Councillors. Members of Council are elected to a four year term of office.

City Council as a whole acts as the executive board of the municipal corporation, developing and overseeing policy and the finances of the City of Victoria.

This budget funds Council related costs including salaries and benefits, as well as membership fees, Council approved travel, and office supplies.

Business Unit: 2000 - Council

- City Vibe festivals program
- First Nations Art Forum
- Centennial Square programming and permits
- Remedial work to Glass Half Full art installation at Harrison Yacht Pond
- Cleaning Centennial Square Spirit Poles
- Three neighbourhood art projects
- Integration of art in capital projects

| Measuring Success – Community Led Specials Event and Film Permits   |   |                  |               |  |  |  |  |
|---|---|------------------|---------------|--|--|--|--|
| Performance Measurements  | 2014 Actuals  | 2015 Projections | 2016 Forecast |  |  |  |  |
| 1. How much did we do?  |   |                  |               |  |  |  |  |
| # of Community led special events and film permits  | 263   | 299              | 320           |  |  |  |  |
| 2. How well did we do it?   |   |                  |               |  |  |  |  |
| Event investment per capital  | \$7.59  | \$7.63           | \$8.38        |  |  |  |  |
| The City of Victoria recognizes that local, regional, national and international events of all types have an important role to play in contributing to improved quality of life of Victoria residents. Community-based festivals and celebrations reflect the vibrant, distinct and diverse character of Victoria and its residents. Events offer opportunities to create economic, social, health and community benefits. The Festival Investment Grant program is designed to provide support to organizations producing festivals and celebrations that will deliver significant economic impact, vitality and vibrancy within the City of Victoria, particularly the downtown core. The data reflects investment in special event support including Festival Investment Grant allocations, city in kind support such as police, traffic control, garbage pick-up and festival equipment labour. |   |                  |               |  |  |  |  |
| 3. Is anyone better off?  |   |                  |               |  |  |  |  |
| Story behind the data   | High quality festivals and celebrations contribute to the community's well being and economic health. The City places the pursuit of arts, culture and tourism opportunities as one of its primary objectives as a means to strengthen it's downtown and enhance the City's liveablility. |                  |               |  |  |  |  |
| Where do we want to go?   | Be a leader in high quality event service delivery for outdoor events, films and festivals to support economic vibrancy and prosperity. The City will embark on an Arts and Culture Master Plan to identify comprehensive objectives and direction that is complete and strategic.        |                  |               |  |  |  |  |

| Measuring Success – City-organized Arts and Culture programs and events   |   |                  |               |  |  |  |  |
|---|---|------------------|---------------|--|--|--|--|
| Performance Measurements  | 2014 Actuals  | 2015 Projections | 2016 Forecast |  |  |  |  |
| 1. How much did we do?  |   |                  |               |  |  |  |  |
| Number of free city-organized arts and culture programs and events        | 138   | 152              | 160           |  |  |  |  |
| 2. How well did we do it?   |   |                  |               |  |  |  |  |
| Number of participants and attendees at city produced events and programs | 25,575  | 31,800           | 33,000        |  |  |  |  |
| Story behind the data   | The City of Victoria provides leadership and support to initiatives related to arts and culture including free events, concerts and programs in Centennial Square and Cameron Bandshell as well as literary events through the poet laureate positions provide a diversity of programs to participate in. |                  |               |  |  |  |  |
| 3. Is anyone better off?  |   |                  |               |  |  |  |  |
| Story behind the data   | Victoria is the regional centre for arts and culture. We lead efforts to enhance our neighbourhoods, foster arts and culture and work to create a City that is vibrant and people centered.   |                  |               |  |  |  |  |
| Where do we want to go?   | The City's Strategic Plan outcome states the support for arts and culture is increased, inclusive and strategic. The City will embark on an Arts and Culture Master Plan to identify comprehensive objectives and direction that is complete and strategic.   |                  |               |  |  |  |  |

### **Performance Metrics – Arts, Culture and Events**

| Measuring Success – Number of Public Art Objects Maintained by the City |   |   |                |  |  |  |  |  |
|---|---|---|----------------|--|--|--|--|--|
| Performance Measurements  | 2014 Actuals  | 2015 Projections  | 2016 Forecast  |  |  |  |  |  |
| 1. How much did we do?  |   |   |                |  |  |  |  |  |
| Number of public art objects  | 80  | 85  | 90             |  |  |  |  |  |
| 2. How well did we do it?   |   |   |                |  |  |  |  |  |
| Number of public art applicants applying to competitions                | 9   | 148   | 177            |  |  |  |  |  |
| Dollar \$ value of public art   | \$4.3 million   | \$4.46 million  | \$4.64 million |  |  |  |  |  |
| Story behind the data   | Refreshed in 2010, the Art in Public Places Policy commits \$135,000 annually to public art which is placed in a reserve fund. Construction projects will include public art for up to one per cent of the construction costs. The City of Victoria's Art in Public Places Policy reflects current best practices and creates a broad range of opportunities for citizen participation and opportunities for artists. Art in Public Places is a vital ingredient in the cultural fabric and streetscape of a creative city. Every five years the City has the public art professional appraised. The last appraisal was completed in December 2013. |   |                |  |  |  |  |  |
| 3. Is anyone better off?  |   |   |                |  |  |  |  |  |
| Story behind the data   | Greater accessibility to the City's art collection through the public realm and the City's website. Art in its many forms has the power to energize public spaces, make us think and transform where we work, live and play. Artworks in public places increase the liveability and artistic richness of our city, by making art a part of our environment and creating a legacy for future generations.  |   |                |  |  |  |  |  |
| Where do we want to go?   | The City continues to in<br>emerging and establish<br>an Arts and Culture Mas   | creating a legacy for future generations.  The City continues to invest in public art commissions attracting emerging and establish artists across Canada. The City will embark on an Arts and Culture Master Plan to identify comprehensive objectives and direction that is complete and strategic. |                |  |  |  |  |  |

Business Unit: 5245 - Public Art - Maintenance

Business Unit: 5246 - Public Art - Creation

**Department:** Arts, Culture & Events **Budget Year:** 2016

#### Overview:

This business unit is used to fund contracts for the design, production and installation of art in the public realm in accordance with the Art in Public Places Policy (2010). Funding can be used to incorporate public art into project design elements, to create stand-alone pieces on-site or for public art in other appropriate locations.

#### **Deliverables:**

Number of projects in any year is variable, depending upon needs identified by Art in Public Places Committee and staff. Planned projects for 2016 include:

- 3 Neighbourhood projects \$175K
- 2 artists embedded in City parks & Public Works projects \$150K

Business Unit: 5246 - Public Art - Creation

#### Revenues

#### Expenditures

Business Unit: 5270 - Special Events

**Department:** Arts, Culture & Events **Budget Year:** 2016

#### Overview:

Victoria hosts a range of events, from world-class competitions and festivals to neighbourhood block parties and weddings.

This business unit reflects the provision of the special event permit function including City services in support of special events, festivals and filming, other than those provided in Centennial Square, including police, fire, public works, barricades, signage, etc.

Signature events supported by this business unit include Canada Day, the Highland Games, Symphony Splash and many others including large and small community events.

#### **Deliverables:**

The work is driven by demand, which has been increasing for special event and film permits consistently over the previous 3 to 5 years. Historical data shows that 250-350 special event permits per year including:

- noise bylaw exemption permits
- block party permits
- special event permits
- filming permits
- wedding permits
- special occasion licenses

|   | Open, timely and topical discussions with employees and their union representatives support of culture of open communication.  |   |                      |  |  |  |  |
|   |  | lding a stronger relationsh are generating the most g | •                    |  |  |  |  |
| Where do we want to go?                             | All HR staff to grow their relationship with union representatives.  |   |                      |  |  |  |  |
|   | Target 0 promotion-related grievances for 2016.  |   |                      |  |  |  |  |

#### **Performance Metrics – Human Resources**

| Measuring Success – Sick Leave/WSBC   |  |                  |               |  |  |  |  |
|---|--|------------------|---------------|--|--|--|--|
| Performance Measurements  | 2014 Actuals   | 2015 Projections | 2016 Forecast |  |  |  |  |
| 1. How much did we do?  |  |                  |               |  |  |  |  |
| Total number of Sick Leave / WorkSafeBC absence hours         39,354 / 13,610 hrs         39,000 / 9,000 hrs         35,000 / 8,100 l |  |                  |               |  |  |  |  |
| 2. How well did we do it?   |  |                  |               |  |  |  |  |
| Reduction in total number of<br>Sick Leave / WorkSafeBC<br>absence hours  | 11% reduction / Maintenance* / 33% 10% reduction / 10% 22.5% reduction reduction   |                  |               |  |  |  |  |
| Story behind the data   | With the addition of the Return to Work Coordinator position the City has seen a revitalization of the Attendance Improvement Program and has the capacity for a greater efficiency in return to work in both sick leave and WorkSafeBC absence hours.  (*potential for significant reduction in Public Works usage will likely not be realized until 2016). |                  |               |  |  |  |  |
| 3. Is anyone better off?  |  |                  |               |  |  |  |  |
| Story behind the data   | Increase # of hours providing service to the public as staff are present in the workplace. Less downtime for crews as all staff are present. Less coordination of crews as staffing levels are more consistent and predictable.  |                  |               |  |  |  |  |
| Where do we want to go?   | Continue to prevent injuries and provide early and safe return to work options.  Targeting a further 10% reduction for both sick leave / WorkSafeBC total hours for 2016.  |                  |               |  |  |  |  |

Business Unit: 2100 - Human Resources Administration

**Department:** Human Resources **Budget Year:** 2016

#### Overview:

The Human Resources Department applies innovative human resource practices to support the City as a high-performing organization. Human Resources staff provide strategic and tactical advice in the following areas: recruitment, organizational development, job evaluation, labour and employee relations and related programs.

The Human Resources Department supports the organization to achieve strategic business goals and build an environment that recognizes collective agreements, legislation and best practice in human resources.

#### **Deliverables:**

#### Recruitment

- · 216 vacancies in 2013; 50% filled internally
- · 279 vacancies in 2014; 60% filled internally
- 2015 focus will be on revamping City's recruitment program to align with best practice with a focus on internal development.

#### Learning

- 77% of learning delivered by internal staff in 2013; 85% in 2014 with focus being on customer service and bullying and harassment awareness sessions.
- 8.5/10 average participant feedback rating for learning courses in 2013; 8.6/10 in 2014
- Focus will be on more individual performance support to grow from within; innovative methods of learning delivery (for ex. online services); management development and building an internal community of practice

#### Job Evaluation Reviews

- 20 reviews conducted in 2013; 26 in 2014
- · Corporate committee dissolved in 2014, leading more efficient process and turnaround time
- Discussions with CUPE continue on streamlining jointly-negotiated processes

#### Grievances

- 4 grievances moved forward to arbitration in 2013; 1 in 2014
- Reinstatement of City/CUPE labour management meetings
- Focus on pro-active and early resolution on issues to avoid formal grievances

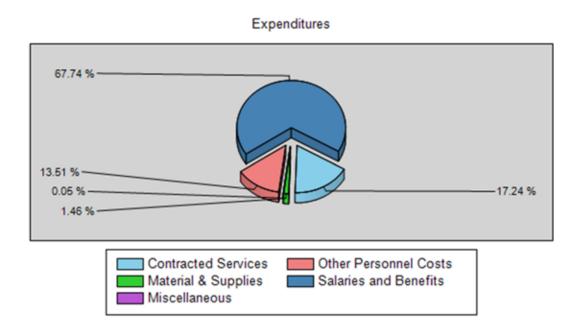

Business Unit: 2100 - Human Resources Administration

Business Unit: 2110 - Health, Safety and Rehab Admin

**Department:** Human Resources **Budget Year:** 2016

#### Overview:

The City of Victoria is committed to ensuring a safe and healthy work environment for all staff. As part of the Human Resources team, the occupational safety, rehabilitation and disability and related programs focus on developing and implementing safety management, returning staff to work as soon as medically possible and researching ideas for job modifications to allow employees to stay at work. Key program areas are safety inspections, employee wellness, WorkSafe BC claims management, return work/stay at work programs, accident investigations, and attendance management.

The overarching goal is to reduce accidents in the workplace. From this there is a reduction in worker injuries, improved staff pride and morale, improved workplace safety culture, reduced time away from work with improved productivity, increased service for taxpayer funding, healthier employees, reduced WorkSafe insurance premiums and potential rebate.

#### **Deliverables:**

#### Sick leave

• Based on 2015 projections, sick leave usage is likely to remain consistent with 2014 usage. Potential for significant reduction in Engineering / Public Works usage will likely be realized in 2016. Forecast for 2016 is a 10% reduction.

#### WorkSafe BC

- Continued reduction in usage over last three years, estimated insurance savings for 2016 to 2018 is more than \$400,000
- Based on 2015 projections, WorkSafeBC usage is likely to reduce an additional ##%. This reduction if realized will be equivalent to an estimated \$138,000 gain in productivity.

Combined usage (Sick leave and WorkSafe BC)

- Return-to-work Coordinator position continues to see a revitalization of the Attendance Improvement Program. Review and revamping of the return-to-work program conducted in 2015 has also contributed to reductions.
- Projected productivity increase for 2015 equates to an additional 2.2 staff working full time.

#### Wellness

• Implementation of the revised services offered under the City's Employee and Family Assistance program (EFAP). Improved services for employee mental health

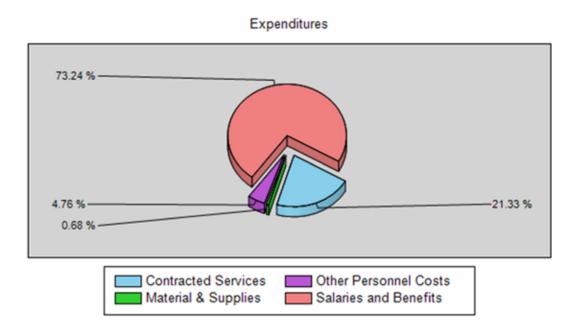

Business Unit: 2110 - Health, Safety and Rehab Admin

Business Unit: 2116 - Rehabilitation

**Department:** Human Resources **Budget Year:** 2016

#### Overview:

This business unit aims to return employees back to meaningful and productive work safely and quickly.

This is accomplished through rehabilitation programs and effective communication with employees and their physicians to understand workplace modifications that may be needed to return employees to work.

#### **Deliverables:**

Successful transitions of employees back in the workplace through accommodation or modified duties

Business Unit: 2116 - Rehabilitation

Business Unit: 2116 - Rehabilitation

Business Unit: 2120 - Union Leave

**Department:** Human Resources **Budget Year:** 2016

#### Overview:

This business unit administers City paid union leave, in accordance with collective agreements. This approach supports a solutions-oriented labour relations environment.

This includes paid union leave for union executives to attend meetings, and allows for discussion between the City and its partner unions. These meetings create opportunities for joint partnerships for enhancement of City programs, such as safety, return to work, avoiding grievances and employee relations. Further, discussion at such meetings assists the City in hearing messages directly from employees and their union stewards allowing for early intervention and simple solutions. Union leave is required under collective agreement provisions and legislation.

#### **Deliverables:**

- Collective bargaining successful negotiation of new CUPE and IAFF collective agreements
- Joint Health & Safety committee meetings

Business Unit: 2120 - Union Leave

## SUMMARY

# Legislative and Regulatory Services

The Legislative and Regulatory Services Department provides legislative, policy, administrative and regulatory expertise and services to Council and City departments to ensure that the City conducts its business in a manner consistent with City bylaws and Provincial legislation.

The Department also coordinates records management services, public records access requests and operates the City Archives, all of which provide access to important City records. Bylaw enforcement services, including animal control, provide community patrols and response to bylaw complaints to the community to ensure compliance with expected community standards.

The City Clerk also performs a variety of Corporate Officer functions, including maintaining and providing access to official records, executing documents and accepting service.

#### Core Services/Service Areas

- Archives and Records Management: Records management; Coordinate and assist with FOI requests and privacy impact assessments as required under the Freedom of Information and Protection of Privacy Act; printing facility and mail room; City Archives
- Bylaw and Licensing Services: bylaw enforcement, compliance and investigations; licence application review; Business Licence reviews and compliance checks
- Legislative Services: administrative support and governance advice to Council and Council Committees; official records of Council and Committees of Council; policy analysis; Maintain, consolidate and revise City bylaws; Administer civic elections
- Property Management: Market, manage and lease City property; Negotiate leases of third party property

## Proposed Initiatives for 2016

- Conduct policy and bylaw reviews
- Implement recommendations of bylaw audit
- Implement Gorge Waterway Plan
- Implement Governance improvements, as directed by Council

| Measuring Success – Publication of Electronic Meeting Agendas   |   |                  |               |  |  |  |
|---|---|------------------|---------------|--|--|--|
| Performance Measurements  | 2014 Actuals  | 2015 Projections | 2016 Forecast |  |  |  |
| 1. How much did we do?  |   |                  |               |  |  |  |
| Meeting Agendas Published   | 74  | 94               | TBD           |  |  |  |
| 2. How well did we do it?   | 2. How well did we do it?   |                  |               |  |  |  |
| Agendas published by 3 p.m.<br>Friday   | Not tracked   | 85%              | 90%           |  |  |  |
| Story behind the data   | It is the City's goal to publish electronic meeting agendas by 3:00 p.m. each Friday afternoon, in order to give the public and members of Council adequate time to review the agenda materials prior to the meeting. |                  |               |  |  |  |
| 3. Is anyone better off?  |   |                  |               |  |  |  |
| The introduction of electronic agenda technology to Council in Feb 2015 provided the opportunity to discontinue producing paper copies of all agendas and minutes. This innovation reduced the amount of paper, supplies and staff time to produce the meeting agendas. As a result, electronic agendas can be produced and distributed in a shorter timeframe. |   |                  |               |  |  |  |
| Where do we want to go?   | The objective is to produce 100% of electronic agendas by the Friday deadline.  |                  |               |  |  |  |

| Measuring Success – Virtual Ac  | cess to Public City Mee  | tings            |               |  |  |
|---|--|------------------|---------------|--|--|
| Performance Measurements  | 2014 Actuals   | 2015 Projections | 2016 Forecast |  |  |
| 1. How much did we do?  |  |                  |               |  |  |
| Number of Council and Committee meetings  | 74   | 94               | TBD           |  |  |
| 2. How well did we do it?   |  |                  |               |  |  |
| Public meetings webcast   | 94%  | 98%              | 95%           |  |  |
| Story behind the data   | Story behind the data  Public and accessible Council and Committee meetings are hallmarks of Open Government. Live webcasting of these meetings and publishin video records on the City's website enhances public access to the Council's decision-making process. |                  |               |  |  |
| 3. Is anyone better off?  |  |                  |               |  |  |
| When the City began webcasting, it was focused exclusively on Council and Council Committee meetings. Now that the technology is in place, the City has the capability to webcast any meeting or event that takes place in the Council Chambers.  Story behind the data  Council is also utilizing new meeting formats that are less formal and |  |                  |               |  |  |
|   | more accessible for the public, such as Open Houses, Idea Forums and Town Hall meetings. Ensuring these new types of meetings are webcast increases their reach into the community.  |                  |               |  |  |
| Where do we want to go?   | Utilize webcasting for all types of Council, Council Committee and other public City meetings to improve accessibility and the reach of public engagement. We would like to see an increase in viewers each year.  |                  |               |  |  |

| Measuring Success – Complaint Response - Bylaw & Licensing Services |   |  |               |  |  |
|---|---|--|---------------|--|--|
| Performance Measurements  | 2014 Actuals  | 2015 Projections   | 2016 Forecast |  |  |
| 1. How much did we do?  |   |  |               |  |  |
| Public complaints received  | 2,103   | 2,200  | 2,300         |  |  |
| 2. How well did we do it?   |   |  |               |  |  |
| Bylaw complaints investigated and concluded within 30 days          | 75%   | 80%  | 85%           |  |  |
| Story behind the data   | When a bylaw complaint is received the person filing the complaint has an expectation for service response. The timeliness of service response is important because most complaints reflect a person's dissatisfaction with an activity in their neighbourhood. Verifying a bylaw complaint, investigating the complaint and resolving the complaint in a timely manner are important factors that drive service effectiveness and customer satisfaction. |  |               |  |  |
| 3. Is anyone better off?  |   |  |               |  |  |
| Ctom, bobined the electe  | The City's first goal is to ensure that valid complaints are investigated and responded to in an effective and timely manner to satisfy the complainant's expectations for service.   |  |               |  |  |
| Story behind the data   | The second goal is to ensure that the investigation and compliance action undertaken against a person or business that commits a bylaw offence is reasonable and proportionate to the circumstance.   |  |               |  |  |
| Where do we want to go?   |   | sonable outcome to a byla<br>y days is the City's objectiv |               |  |  |

| Measuring Success – Liquor Lic                          | ence Application Revie  | w                |               |  |  |
|---|---|------------------|---------------|--|--|
| Performance Measurements                                | 2014 Actuals  | 2015 Projections | 2016 Forecast |  |  |
| 1. How much did we do?                                  |   |                  |               |  |  |

| 2. How well did we do it?                               |   |                  |               |  |  |
| Average processing time for liquor licence applications | 60 days   | 60 days          | 60 days       |  |  |
| Story behind the data                                   | Under the Provincial <i>Liquor Control &amp; Licensing Act</i> certain liquor licence applications are referred to the City for public consultation and Council input. The Province sets a ninety-day timeframe to complete this process. Since the City's review is only one part of the Provincial licensing process all efforts should be made to process these applications in a timely manner. |                  |               |  |  |
| 3. Is anyone better off?                                |   |                  |               |  |  |
| Story behind the data                                   | An efficient application review process helps new food & beverage businesses get established quicker and enables existing businesses to adjust their service model to remain competitive.   |                  |               |  |  |
| Where do we want to go?                                 | The objective is to consistently process a liquor licensing application in 60 days or less.   |                  |               |  |  |

| 2. How well did we do it?                                 |  |                  |               |  |  |
| Privacy Impact Assessments completed  existing programs   | 100%   | 80%              | 80%           |  |  |
| Privacy Impact Assessments completed  new programs        | 83%  | 80%              | 80%           |  |  |
| Story behind the data                                     | A Privacy Impact Assessment is a statutory requirement of the Freedom of Information and Protection of Privacy Act (the Act) for all City programs, activities, systems, bylaws or projects.  A PIA is intended to ensure that personal information collected by the City complies with the Act before a system, program, bylaw etc. is implemented.  PIAs assist the City to meet its obligations under the Act by:  assessing the need to collect personal information; and securing the personal information collected. |                  |               |  |  |
| 3. Is anyone better off?                                  |  |                  |               |  |  |
| Story behind the data                                     | PIAs provide transparency and accountability to the public as to why personal information is collected and how it is protected. Timely completion of PIAs provide a number of benefits:  • Privacy breaches are minimized  • Public has confidence that City is effectively managing personal information  • City staff learn privacy awareness and privacy management skills  The Office of the Information & Privacy Commissioner provides third   |                  |               |  |  |
| Where do we want to go?                                   | party oversight to this process.  The objective is to complete a PIA for every new City service prior to its implementation. As well, the goal is to conduct 10 PIAs each year for existing programs and services, starting with those programs and services that collect the most sensitive types of personal information.  |                  |               |  |  |

| Measuring Success – Record Access Requests                        |   |  |   |  |  |
|---|---|--|---|--|--|
|   |   |  |   |  |  |
| Performance Measurements  | 2014 Actuals  | 2015 Projections   | 2016 Forecast   |  |  |
| 1. How much did we do?  |   |  |   |  |  |
| Record access requests <ul><li>completed under FIPPA</li></ul>    | 86  | 125  | 125   |  |  |
| 2. How well did we do it?   |   |  |   |  |  |
| Record access requests <ul><li>completed within 30 days</li></ul> | 91%   | 95%  | 95%   |  |  |
| Story behind the data   | Members of the public make requests to access City records in writing, and the City must respond to the access request within thirty (30) business days. If this deadline is not possible to achieve, the City can extend the request for an additional thirty days.  |  |   |  |  |
| 3. Is anyone better off?  | •   |  |   |  |  |
| Story behind the data   | Access to City records is a right conveyed to the public under the <i>Freedom of Information &amp; Protection of Privacy Act</i> (the Act). The City is authorized by the <i>Act</i> to withhold all or parts of records where the release of such information may harm City interests or other specified third party interests.  The City is obligated to respond to all access requests within thirty (30) days. Where there are City records responsive to an access request, the City must provide access to the records, or explain the reasons why access is not being given.  The Office of the Information & Privacy Commissioner provides third party oversight to this process. |  |   |  |  |
| Where do we want to go?   | Under the City's Open Considers the records for routine discharge The City will continue to records. The City will a within 30 days. | 1. How much did we do?   |   |                  |               |  |  |
| Archives Customers • in person visits                          | 1,587   | 1,920            | 1,900         |  |  |
| Archives Customers • virtual visits                            | 28,174  | 30,296           | 32,300        |  |  |
| 2. How well did we do it?                                      |   |                  |               |  |  |
| Variance from previous year <ul><li>in person visits</li></ul> | +118  | +333             | -20           |  |  |
| Variance from previous year  virtual visits                    | Data not available in<br>current format   | 2,122            | 2,004         |  |  |
| Story behind the data  | Customers seek access to City services through the most convenient and useful ways to the customer.  City Archives is a repository of historical records about the City and the   |                  |               |  |  |
| 3. Is anyone better off?                                       |   |                  |               |  |  |
| Story behind the data  | Increasing the scope of the Archives' records collection accessible to the public online should increase the number virtual visits.  An increase in the number virtual visits overall, and a decrease in the number of in person visits would be a success indicator. |                  |               |  |  |
| Where do we want to go?  | Increasing virtual access to City Archives record holdings is a primary operational objective. Improving online access to a catalogue of City Archives record holdings is another objective.  |                  |               |  |  |

Business Unit: 2085 - Elections

**Department:** Legislative & Regulatory **Budget Year:** 2016

Serv.

#### Overview:

This business unit oversees the local general election on a four-year cycle, as well as by-elections and referenda as required by statute. This is an off- year for general elections, so expenditures in 2016 will be limited to maintenance of contracts with service providers.

This function supports the democratic election process, maintains confidentiality of election materials, and concludes legislated requirements for elections.

#### **Deliverables:**

- maintain service agreements and licences with election service providers

Serv.

#### Overview:

City bylaws are enacted to establish community standards and to regulate activities on public and private lands.

The Bylaw & Licensing Services Division oversees the enforcement of most City bylaws and manages the contract for animal control services.

Staff provide the following services:

- Proactive parks and public space patrols (teams of 2 Bylaw Officers) to monitor bylaw compliance sevens days a week (May to October).
- Response to all recorded complaints about potential bylaw contraventions (year round).
- Management of the contracted service provider for compliance and enforcement services under the City's Animal Control Bylaw (including City pound operation, dog licence sales and Animal Control Bylaw monitoring and compliance duties).
- Business Licence review and compliance monitoring (licence approvals, inspections and compliance actions).
- Liquor licence application review and reporting to Council, as well as administrative approvals.
- Policy oversight and management for Business Licensing Program (other than financial).
- Coordinate the City's RESPOND Team, which undertakes a coordinated team approach to address problem properties and businesses.
- Review new regulatory bylaws and bylaw amendments to ensure compliance monitoring and enforcement issues are incorporated.

#### **Deliverables:**

- Annual number of calls for service about alleged bylaw contraventions (2014 = 1124)
- Annual Number of valid bylaw calls for service investigated
- Annual number of public contacts while conducting proactive patrols in the City Parks and other public spaces (2014 = 3065)
- Annual number of illegal shelters found in City Parks and removed by City staff (2014 = 555)
- Annual number of new business licence applications reviewed
- Annual number of liquor licence applications reviewed
- Annual number of dog licences sold and value
- Annual number of animals impounded for bylaw contraventions
- Annual number of Animal Control Bylaw calls for service
- Annual number of Animal Control Bylaw investigations

#### Revenues

#### Expenditures

Service Area: Legislative Services

**Department:** Legislative & Regulatory **Budget Year:** 2016

Serv.

#### Overview:

Legislative Services provides support to Council and staff in order to facilitate effective Council and committee meetings and informed and timely decision making. This area includes the Print Shop, Archives, and the Freedom of Information and Protection of Privacy Act (FIPPA) legislation function.

#### **Deliverables:**

- prepare meeting agendas and minutes for every regular meeting of Council and its committees (approx. 24 per year for each of Council, GPC and PLUC)
- support Task Forces and other committees established by the Mayor or Council
- administer recruitment process for Council appointees to internal and external boards and committees
- conduct policy and bylaw reviews / development, based on approved priorities
- provide policy advice to Council and staff on a range of matters

Service Area: Legislative Services

The Property Management business unit funds administrating the City's portfolio of commercial properties; in particular, negotiate leases and lease renewals with tenants (lease-outs) and landlords (lease-ins).

#### Core Services:

- Enter into and manage licences of use, easements, statutory rights of way and other property related agreements, as directed by Council.
- Conduct investigations and obtain appraisals on proposed acquisitions and sales, and implement those transactions approved by Council.
- Respond to enquiries from applicants, their agents and City departments about City property.
- The City obtains revenue from leasing City properties, this provides a financial benefit to the taxpayer as it provides revenue from sources other than taxation.

## **SUMMARY**

## Real Estate

#### Proposed Initiatives for 2016

- Develop a land inventory and strategies for acquisition and disposal
- Identify upcoming capital projects and work with other departments to review real estate implications and opportunities
- Develop tools and resources to liaise on real estate and land development needs
- Lead all acquisitions, disposals, lease agreements, and land tenure initiatives

Business Unit: 2360 - Property Management

**Department:** Real Estate Department **Budget Year:** 2016

#### Overview:

The Property Management business unit funds administrating the City's portfolio of commercial properties; in particular, negotiate leases and lease renewals with tenants (lease-outs) and landlords (lease-ins).

This business unit:

Enters into and manage licences of use, easements, statutory rights of way and other property related agreements, as directed by Council motion

Conduct investigations and obtain appraisals on proposed acquisitions and sales, and implement those transactions approved by Council.

Prepare reports to Council and compose correspondence regarding land matters.

Respond to enquiries from applicants, their agents and City departments about City property.

The City obtains revenue from leasing City properties, this provides a financial benefit to the taxpayer as it provides revenue from sources other than taxation.

Business Unit: 2360 - Property Management

| 2. How well did we do it?                                       |  |                               |                            |  |  |  |  |  |
| Delegate Days   | 97,827   | 96,047                        | 98,578                     |  |  |  |  |  |
| Story behind the data   | The mandate of convention and conference centres is to generate economic impact to their destination. That economic impact is created by conference delegates staying in the city overnight at hotels, eating in local restaurants and shopping downtown while they are in the city. The measure of this activity is the delegate day. Delegate day numbers are the numbers of delegates multiplied by the number of nights that they stay in the city.  |                               |                            |  |  |  |  |  |
| Where do we want to go  | We will continue to emphasize increased delegate attendance  |                               | ition which will result in |  |  |  |  |  |
| 3. Is anyone better off?  |  |                               |                            |  |  |  |  |  |
| Economic Impact – increase economic econferences and delegates. | onomic impact for the City of  | Victoria from \$44 million in | 1 2014 with more           |  |  |  |  |  |
| Story behind the data   | The average conference size is 552 and each non-resident delegate spends an average of \$450 per day. This economic impact captures the spend related to hotel stays, restaurants, and retail as well as the "production spend" which is the money spent by the event planner through the event on behalf of the delegate (food and beverage, décor and AV). A study was conducted in 2005 by Synovate which sample spending over a one year period for delegates at the VCC. The spend identified through that work was \$450 per delegate per day. This number is used as the multiplier (with the number of delegate days) to determine the overall economic impact of the centre on an annual basis. |                               |                            |  |  |  |  |  |
| Where do we want to go  | of the centre on an annual basis.  To continue working collaboratively with our industry colleagues and the Victoria Conference Optimization Network and develop strategic sales & marketing initiatives to bring more conference business to Victoria.  Victoria Conference Optimization Network (VCON) has committed to:  Continue to collaborate and leverage synergies within sales and marketing activities between the hotels, TVIC and VCC to increase hotel room nights to the destination through increased conference and meeting business.  A focus on performance measures and return on investment are key elements of the VCON initiative moving forward.                                  |                               |                            |  |  |  |  |  |

# Measuring Success – Operations: Manage the ongoing operation & maintenance of building systems.

| Performance Measurements                             | 2014 Actuals | 2015 Projections | 2016 Forecast |
|--|--------------|------------------|---------------|
| 1. How much did we do?                               |              |                  |               |
| Level of BOMA Accreditation (Level 4 is the highest) | Level 4      | Level 4          | Level 4       |

#### 2. How well did we do it?

Building Owners & Managers Association of Canada (BOMA CANADA) building environmental standards is Canadian industry standard for commercial building sustainability certification. VCC has highest Level of BOMA Canada Accreditation 7 out of 1790 buildings in BC have this level 4. Only one on Vancouver Island.

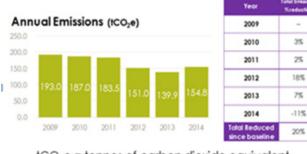

#### Story behind the data

As part of the BOMA BES $\underline{t}$  program, it is a requirement to facilitate an annual Sustainability Report which the emissions factors are reviewed and approved by Offsetters.

Since 2009 the VCC has completed an annual sustainability report with a total reduced baseline from 2009 to 2014 148.8 tCO2e (tonnes of carbon dioxide equivalent. A standard measure of greenhouse gases relative to the warming potential of one unit of C02.)

Two charts show the reduction of Emissions, energy, water, paper, landfill for the VCC.

#### Reduction in tCO2e

tCO<sub>2</sub>e = tonnes of carbon dioxide equivalent.
A standard measure of greenhouse gases relative to the warming potential of one unit of CO2.

#### **VCC Reduction Summary**

| Year                            | Total Emissions<br>ICO <sub>2</sub> e | Total Emissions<br>% reduction | Secticity<br>% reduction | Water<br>% reduction | Faper<br>% reduction | Landfill<br>% reduction |

#### 3 Is anyone better off?

Continue to manage a safe, clean, cost efficient facility which maintains the level of the event industry standard.

#### **Governance and Priorities Committee - 20 Nov 2015**

| Story behind the data   | The VCC has identified energy, water and waste as a focus area for monitoring and reducing use. The VCC has installed real-time energy monitoring systems and has installed sub meters for water. Lighting upgrades and demand monitoring have helped significantly reduce energy use. Significant reductions have been realized and VCC received a BC Hydro rebate of \$31,000 for reducing energy cost. |
|-------------------------|---|
| Where do we want to go? | Continue to manage the building based on best practices with BOMA BESt and having the Annual Sustainability Performance Measure completed showing the results at the national highest level 4.  |

Business Unit: 5900 - VCC - Administration

**Department:** Victoria Conference **Budget Year:** 2016

Centre

#### Overview:

The VCC is a client facing organization operating in a competitive conference industry environment. As such, this business unit supports the centre in business efficiency and effectiveness as a generator of economic impact for Victoria.

This business unit supports the financial management, business processes, administrative functions and IT support services of the VCC.

#### **Deliverables:**

- · Support the efficiency and effectiveness of all the VCC business processes both internal and client facing
- Provides support to contracted partners (Empress Hotel and Freeman AV) with regard to the centralized VCC accounting and IT systems to ensure business continuity at all times.
- Continue to implement resources in EBMS (Event Business Management System) to streamline and improve business processes.

Business Unit: 5900 - VCC - Administration

Business Unit: 5900 - VCC - Administration

Business Unit: 5910 - VCC - Marketing

**Department:** Victoria Conference **Budget Year:** 2016

Centre

#### Overview:

The marketing of the Victoria Conference Centre to potential clients and attendees is a key support for driving sales and bookings. This has a direct correlation with the number of conferences, delegates and economic impact for Victoria and region.

This business unit supports promotion of the VCC brand, including website and social media, print and electronic advertising, marketing brochures and sales collateral materials. This is done in conjunction with Tourism Victoria, VCON, hotel GM's and local stakeholders.

It also includes association memberships, research and development.

#### **Deliverables:**

- Ensure we maintain our presence in all pertinent conference & meeting publications
- Ensure we continue to be included/listed in all industry related publications that specifically promote Victoria as a conference & meeting destination
- Communicate & promote the advantages of bringing a city wide conference to Victoria
- · Realize a return on investment

Business Unit: 5910 - VCC - Marketing

Business Unit: 5920 - VCC - Sales

**Department:** Victoria Conference **Budget Year:** 2016

Centre

#### Overview:

The VCC is the second largest facility of its kind in BC and is capable of hosting meetings, conventions, conference, exhibits and trade shows. It offers 73,000 square feet of meeting space comprised of 19 multipurpose meeting rooms including a large exhibit hall and a 400-seat lecture theatre.

The VCC business model is to create economic impact by showcasing Victoria as an exciting and viable destination for corporate and association meetings, which directly affects economic impact through the revenues generated by the delegate spending (hotels, shopping, restaurants, attractions)

The primary objective of the sales department of the VCC is to proactively identify and contract City Wide Conferences (350+ delegates) to Victoria which creates economic impact for the Conference Centre and the City.

The Sales Department sells Victoria in market in Canada and the US through participation in industry trade shows and meeting planner conferences and by in market sales calls and events

#### **Deliverables:**

- # of city wide conferences per year (23 in 2014)
- # of delegate (in 2014 there were 91,314 non-resident delegate days resulting in \$43.7 million in estimated economic impact)
- % of repeat business vs. new business (in 2014 48% was repeat business and 52% was new business).
- Number of programmed sales trips per Account Executive (5-8 per year)
- Space rental revenue generated by booked business (in 2014, \$847,990.00 was generated from space rental revenue; Main Bldg = \$720,931.00 Crystal = \$127,059.00)

Business Unit: 5920 - VCC - Sales

#### Expenditures

Business Unit: 5930 - VCC - Event Planning

**Department:** Victoria Conference **Budget Year:** 2016

Centre

#### Overview:

Primary focus is planning and successful execution of all events. This business unit is responsible for effectively planning and organizing events at the VCC, such as conferences, meeting, special events, banquets, trade shows and exhibits to associations, corporations, promoters, event planners, individuals and other potential building users.

Event managers coordinate the event details for all clients, gathering information and articulating the details in an Event Plan.

#### **Deliverables:**

Number of events (181 in 2014 – 55 conferences, 14 consumer and tradeshows and 112 single day meetings and special events)

Business Unit: 5930 - VCC - Event Planning

Business Unit: 5930 - VCC - Event Planning

Business Unit: 5940 - VCC - Building Services

**Department:** Victoria Conference **Budget Year:** 2016

Centre

#### Overview:

This business unit has a proactive role in the management of the VCC as a City asset and as a venue that needs to be highly competitive in the conference industry where other centres are experiencing expansions or new builds. It includes operating expenses required to maintain a clean, safe, efficiently operated building infrastructure. Main conference space, Crystal Garden, 2 pavilions, exterior grounds, retail stores and parking.

The VCC is a national green building certified by BOMA Canada which is based on the internationally recognized and accepted Green Globes TM environmental assessment platform. It is a unique, voluntary, national program designed to assess environmental performance and management of existing buildings and is offered by the Building Owners and Managers Association of Canada (BOMS Canada). The facility has been active with BOMA since 2008. The VCC has achieved Level 4 – the highest accreditation and is 1 of 7 buildings out of 261 certified buildings in BC.

Staff utilize asset management software to assist with equipment management, inventory control, maintenance scheduling, tracking costs, work orders and reporting. Direct digital control software program is also used to assist with automating control of the HVAC system in an efficient manner.

The VCC has reached the mid-point in the life cycle of the facility and as such many mechanical components have reached the end of the life cycle. Feasibility studies are being conducted to evaluate new cost effective technologies.

The VCC has received the highest accreditation – Building Owners and Managers Association – BOMA BESt Level 4 certification which is based on the internationally recognized and accepted Green Globes environmental assessment platform. VCC still remains the only Level 4 facility on Vancouver Island and 1 of 7 buildings in BC.

#### **Deliverables:**

Continue to participate in annual Sustainability Audit to maintain BOMA level 4 rating:

2014 data -

- 10.5% reduction in electricity 2014 which is equivalent to 21 average home's annual use
- 48% water reduction equivalent to nearly 6 Olympic-sized swimming pools
- 68% reduction equivalent to saving 41 trees
- Landfill diversion rate up to 5% to a total of 68%

Business Unit: 5940 - VCC - Building Services

Business Unit: 5950 - VCC - Client Services

**Department:** Victoria Conference **Budget Year:** 2016

Centre

#### Overview:

Client Services staff are responsible for monitoring the service delivery of the event (housekeeping, security, food and beverage, audio visual, trade show, exhibit set up) according to the Event Plan. They also monitor safety and building requirements.

Commissions excluding commission earned from events held at Crystal Garden (Food and Beverage, audio visual, security) are recorded in this business unit.

#### **Deliverables:**

 Customer Satisfaction Survey results (in 2014 Client Services received a 96% average customer satisfaction rating)

Business Unit: 5950 - VCC - Client Services

#### **Changes to Service Area:**

#### Revenues

#### Expenditures

Business Unit: 5955 - VCC - Crystal Garden

**Department:** Victoria Conference **Budget Year:** 2016

Centre

#### Overview:

The historic Crystal Garden provides additional function space as part of the Victoria Conference Centre offering to provide for event facility rentals.

This provides additional layout options for those considering the VCC for their event, and allows Victoria to attract larger conferences.

Additional space provided by the facility contributes to the estimated economic impact for the City of Victoria

#### **Deliverables:**

- Economic Impact
  - 2014: Delegate days 97,827 X \$450\*
  - 2013 \$46.9 Million and 2014 \$44,022,150
    - \*This is the average delegates spend per day during their conference
- Space Rental

2013 - \$163,588 and 2014 - \$104,021

**Department:** Victoria Conference **Budget Year:** 

Centre

#### Overview:

The underground parkade of the VCC offers 377 parking stalls and provides a convenient service to clients of the facility as well as to the Empress Hotel.

2016

Parkade revenues are an integral part of the business revenues of the VCC.

The parkade is managed by Robbins Parking on behalf of the VCC.

Business Unit: 5970 - VCC - Retail Stores

**Department:** Victoria Conference **Budget Year:** 2016

Centre

#### Overview:

The Victoria Conference Centre has 12 street level retail units on Douglas Street in the main VCC building. They are managed by Richmond Property Group (Leasing Agent is DTZ Barnicke)

Retail space revenues are an important revenue stream and part of the self-financing business model of the VCC.

#### **Deliverables:**

- · Maximize tenant occupancy rate
- · Ensure mix of tenants attractive to foot traffic and location of retail units

Business Unit: 5970 - VCC - Retail Stores

#### Expenditures

Business Unit: 5980 - VCC - Event Flow Through

**Department:** Victoria Conference **Budget Year:** 2016

Centre

#### Overview:

This business unit serves as "flow through account" for event services provided through our service partners and suppliers (Empress Hotel, Freeman AV and others), and billed directly to the VCC. This allows for improved customer service and accounting by streamlining the billing process so that customers remit payment for only one invoice.

The VCC receives a commission from the sales of food/beverage, audio visual, and security.

#### **Deliverables:**

· Indicator of commission revenue, general sales and the economic impact of events

# Citizen Engagement and Strategic Planning

The Citizen Engagement and Strategic Planning department monitors and reports on progress made towards achieving organizational objectives to improve the lives of Victorians, while providing opportunities for ongoing public input and customer feedback into those priorities.

The department provides timely and effective two-way communications to support the delivery of high quality services and programs, and provide meaningful opportunities for citizens to understand, participate and access City services and information.

In mid-2014, the department was created, aligning various service areas in one department for greater coordination. In late 2015, parking services was added to the department portfolio, aligning a key customer service, and new in-house parking ambassador model.

#### Core Services:

- Strategic and operational planning: support City Manager in development of new process and development of new plan, quarterly progress reporting and on-going monitoring. Interdisciplinary project team.
- Executive Administration: City correspondence, administrative support to City Manager and Mayor's Office
- Customer Service: front line customer service, victoria.ca, employee communications, and physical customer service areas. Includes all parking services and new parking ambassador program
- Communications: graphic design, communications planning and implementation to support City services and programs
- Citizen Engagement: leadership and implementation of engagement processes, citizen and business surveying, engagement tools and techniques. Great Neighbourhoods Initiative

## Citizen Engagement and Strategic Planning

#### Proposed Initiatives for 2016

- Interdisciplinary leadership on David Foster Harbour Pathway, a new Bike network and Parks Master Planning process
- New project management templates and systems
- Introduce parking ambassador model
- Make capital investments in City parkades, including improve front entrance to View Street parkade and add new "parking counters"
- · Improve parking ticketing software
- Introducing new Wayfinding program
- New Great Neighbourhoods model
- Participatory budgeting pilot
- Youth Engagement strategy
- Enhance strategic planning reporting process, including performance measures
- Measure annual progress towards achieving strategic plan objectives
- Introduce new Open data portal and improved organizational customer service systems
- Implement new public use policy, including weddings and increased public access and events in City Hall

**Department:** Citizen Engagement and **Budget Year:** 2016

Strategic Planning

#### Overview:

This business unit supports the day-to-day customer service and administrative needs of the Mayor and City Manager.

The office provides direct services to the public, senior management and City Council to facilitate responsive communications and services to citizens and taxpayers, as well as important City partners and stakeholders.

The office maintains schedules, acknowledges and coordinates timely correspondence, manages travel, and assists the Acting Mayor in Mayor's absence. The office also prepares proclamations requested by the public.

#### **Deliverables:**

- · manage meeting requests
- · manage invitations to events and speaking engagements
- issue proclamations: 65/year
- · manage letters and correspondence
- 30-50 emails/day (including meeting events and speaking requests)
- Letter writing (congratulatory, related to invites or awards, general): 200/year
- phone calls: 20/day
- · complaints: 15/week
- · greet and address drop- in citizens
- engagements/inquiries a year
- · Mayor's Open Door events
- # of attendees at Mayor's Open Door
- · schedule Acting Mayor commitments: (#/month)

Business Unit: 2070 - Citizen Engagement and Strategic Planning

Business Unit: 2078 - Interdisciplinary Team

**Department:** Citizen Engagement and **Budget Year:** 2016

Strategic Planning

#### Overview:

The Interdisciplinary team was created for a three year term to build in-house project management expertise and horsepower, and lead collaborative projects within the strategic and operational plans. It is also tasked with developing improved project management templates, systems and training across the organization. The three positions started in late August/early September 2015.

Specific projects include: implementation of priority cycling corridors, as well as the Pandora Avenue separated bike lane, David Foster Harbour Pathway, the Crystal Pool and Fitness Centre

#### **Deliverables:**

Deliverables in 2016:

- · New templates and systems introduced
- · Projects delivered
- · Project delivered within budgets and timelines
- Improved consistency to project management approach across the organization
- Increase in interdisciplinary approaches and engagement, resulting in greater coordination and communications

Business Unit: 2095 - Protocol

**Department:** Citizen Engagement and **Budget Year:** 2016

Strategic Planning

#### Overview:

The City of Victoria Protocol function provides guidance and support for fostering meaningful First Nations relationships, Twin City and Friendship City relationships, as well as overall cultural and ceremonial support to Council.

The City of Victoria is located on the traditional territories of the Songhees and Esquimalt Traditional territories.

The Protocol program handles various events, activities and services that benefit, promote, celebrate or enhance the City of Victoria. The program also coordinates the official City delegations to international communities

As representatives of the Capital City, Mayor and Council are often called upon to act in an official capacity to host dignitaries and when interacting with the Governor General of Canada, consulates, First Nations and other levels of government.

#### **Deliverables:**

- · School Group Visits and number of students
- Consul General/Mayor/Other Visits to Mayor's Office
- First Nations involvement and awareness
- Proclamations
- · Half mastings

Business Unit: 4010 - Centennial Square Parkade

**Department:** Citizen Engagement and **Budget Year:** 

Strategic Planning

#### Overview:

Centennial Square Parkade is one of the City's five parkades. Located at 645 Fisgard Street between Douglas and Government Streets, it has 188 parking spaces and is open 24 hours. Lower floors are signed as three-hour maximum parking Monday to Friday from 8 a.m. – 4 p.m., to make it easier for short-term parkers to find parking. Long-term parking spaces are available on the upper levels. Daily and monthly parking are offered.

2016

The parkade provides customers a convenient, affordable and safe place to park their vehicle and enjoy all that downtown has to offer.

Centennial Square Parkade is staffed from 7:30 a.m. to as late as 6:30 p.m. Monday to Saturday. Parkade security is provided 24/7 and a SafeWalk service provides customers the option of being accompanied to their vehicle. To improve the parking experience, staff recently participated in customer service training, parkade rates have been reduced to \$2 per hour payable in 15-minute increments, the first hour of parking is automatically free, with evening parking free from 6 p.m. – 8 a.m. Monday to Saturday and free all day Sunday and holidays. The parkade has also undergone fresh paint and new signage.

#### **Deliverables:**

Manage parkade to ensure parking spaces are available for general use throughout the day and evening. Supplement with commuter monthly parking when space permits.

Priority for parkades is to always have spaces available for short-term parkers. Excess capacity to monthly parking customers. This is managed by adjusting monthly parking and pricing.

Target = 80% to 85% of usage for parkades.

**Department:** Citizen Engagement and **Budget Year:** 2016

Strategic Planning

#### Overview:

Johnson Street Parkade is one of the City's five parkades. Located at 750 Johnson Street between Blanshard and Douglas Streets, it has 232 parking spaces and is open 24 hours. Lower floors are signed as three-hour maximum parking Monday to Friday from 8 a.m. – 4 p.m., to make it easier for short-term parkers to find parking. Long-term parking spaces are available on the upper levels. Daily and monthly parking are offered. There are more than 40 reserved parking spaces, with gated parking on the rooftop for City Bylaw Vehicles and a nearby hotel's valet service. The parkade provides customers a convenient, affordable and safe place to park their vehicle and enjoy all that downtown has to offer.

Johnson Street Parkade is the City's only automated parkade. Customers have the option of paying at a pay station located near the entrance before returning to their vehicle or upon exiting. Parkade security is provided 24/7 and a SafeWalk service provides customers the option of being accompanied to their vehicle. To improve the parking experience, parkade rates have been reduced to \$2 per hour payable in 15-minute increments, the first hour of parking is automatically free, with evening parking free from 6 p.m. – 8 a.m. Monday to Saturday and free all day Sunday and holidays. The parkade has also undergone fresh paint and new signage.

### **Deliverables:**

Manage parkade to ensure parking spaces are available for general use throughout the day and evening. Supplement with commuter monthly parking when space permits.

Priority for parkades is to always have spaces available for short-term parkers. Excess capacity to monthly parking customers. This is managed by adjusting monthly parking and pricing.

Target = 80% to 85% of usage for parkades.

### Expenditures

Business Unit: 4030 - Bastion Square Parkade

**Department:** Citizen Engagement and **Budget Year:** 2016

Strategic Planning

### Overview:

Bastion Square Parkade is one of the City's five parkades. Located at 575 Yates Street between Government and Wharf Streets, it has 361 parking spaces and is open 24 hours. Lower floors are signed as three-hour maximum parking Monday to Friday from 8 a.m. – 4 p.m., to make it easier for short-term parkers to find parking. Long-term parking spaces are available on the upper levels. Daily and monthly parking are offered.

The parkade provides customers a convenient, affordable and safe place to park their vehicle and enjoy all that downtown has to offer.

Bastion Square Parkade is staffed from 7:30 a.m. to as late as 10 p.m. Monday to Saturday. Parkade security is provided 24/7 and a SafeWalk service provides customers the option of being accompanied to their vehicle. To improve the parking experience, staff recently participated in customer service training, parkade rates have been reduced to \$2 per hour payable in 15-minute increments, the first hour of parking is automatically free, with evening parking free from 6 p.m. – 8 a.m. Monday to Saturday and free all day Sunday and holidays. The parkade has also undergone fresh paint and new signage.

### **Deliverables:**

Manage parkade to ensure parking spaces are available for general use throughout the day and evening. Supplement with commuter monthly parking when space permits.

Priority for parkades is to always have spaces available for short-term parkers. Excess capacity to monthly parking customers. This is managed by adjusting monthly parking and pricing.

Target = 80% to 85% of usage for parkades.

### Expenditures

Business Unit: 4040 - View Street Parkade

Department: Citizen Engagement and Bud

Strategic Planning

Budget Year: 2016

#### Overview:

View Street Parkade is one of the City's five parkades. Located at 743 View Street between Blanshard and Douglas Streets, it has 531 parking spaces and is open 24 hours. Lower floors and the basement level are signed as three-hour maximum parking Monday to Friday from 8 a.m. – 4 p.m., to make it easier for short-term parkers to find parking. Long-term parking spaces are available on the upper levels. Daily and monthly parking are offered. The parkade provides customers a convenient, affordable and safe place to park their vehicle and enjoy all that downtown has to offer.

View Street Parkade is staffed from 7:30 a.m. to as late as 8 p.m. Monday to Saturday. Parkade security is provided 24/7 and a SafeWalk service provides customers the option of being accompanied to their vehicle.

To improve the parking experience, staff recently participated in customer service training, parkade rates have been reduced to \$2 per hour payable in 15-minute increments, the first hour of parking is automatically free, with evening parking free from 6 p.m. - 8 a.m. Monday to Saturday and free all day Sunday and holidays. The parkade has also undergone fresh paint and new signage. It is also the location of the Parkade Coordinator's office.

#### **Deliverables:**

Manage parkade to ensure parking spaces are available for general use throughout the day and evening. Supplement with commuter monthly parking when space permits.

Priority for parkades is to always have spaces available for short-term parkers. Excess capacity to monthly parking customers. This is managed by adjusting monthly parking and pricing.

Target = 80% to 85% of usage for parkades

### Expenditures

Business Unit: 4050 - Broughton Street Parkade

**Department:** Citizen Engagement and **Budget Year:** 2016

Strategic Planning

### Overview:

Broughton Street Parkade is one of the City's five parkades but is leased from the Provincial Government. Located at 745 Broughton Street between Blanshard and Douglas Streets, it has 544 parking spaces and is open 24 hours. Located below ground, the parkade's upper floors are signed as three-hour maximum parking Monday to Friday from 8 a.m. – 4 p.m., to make it easier for short-term parkers to find parking. Long-term parking spaces are available on the lower levels. Daily and monthly parking are offered. The parkade provides customers a convenient, affordable and safe place to park their vehicle and enjoy all that downtown has to offer.

Broughton Street Parkade is staffed from 7:30 a.m. to as late as 7 p.m. Monday to Saturday. Parkade security is provided 24/7 and a SafeWalk service provides customers the option of being accompanied to their vehicle. To improve the parking experience, staff recently participated in customer service training, parkade rates have been reduced to \$2 per hour payable in 15-minute increments, the first hour of parking is automatically free, with evening parking free from 6 p.m. – 8 a.m. Monday to Saturday and free all day Sunday and holidays. The parkade has also undergone fresh paint and new signage.

### **Deliverables:**

Manage parkade to ensure parking spaces are available for general use throughout the day and evening. Supplement with commuter monthly parking when space permits.

Priority for parkades is to always have spaces available for short-term parkers. Excess capacity to monthly parking customers. This is managed by adjusting monthly parking and pricing.

Target = 80% to 85% of usage for parkades.

Business Unit: 4050 - Broughton Street Parkade

### Expenditures

Business Unit: 4060 - Parking Meters and Lots

**Department:** Citizen Engagement and **Budget Year:** 2016

Strategic Planning

### Overview:

The Parking Services meter shop ensures that the City's computerized parking pay stations and single-head parking meters are regularly serviced and cleaned, and coins are collected and delivered for processing in a secure and safe manner.

Parking equipment used at the three City-owned surface parking lots is also regularly maintained. The meter shop operates six days a week to ensure pay stations and meters are maintained and are operating efficiently. Revenue from on-street occupancy permits and tour stand leases are included in this business unit.

### **Deliverables:**

The targeted customer complaints response time is same-day response. 95% of customer complaints related to on-street parking meters and City-owned lots are responded to in the same day, with the remaining 5% (more complex issues) forwarded to the Manager of Parking Services. These referred issues are responded to in 2 business days.

260 pay stations are collected, maintained and cleaned in a 13 days rotation (approximately 20 pay stations daily).

200 Single meters and surface lots are collected, maintained and cleaned once a week.

Business Unit: 4060 - Parking Meters and Lots

Business Unit: 4060 - Parking Meters and Lots

### Expenditures

Service Area: Parking Services Administration

**Department:** Citizen Engagement and

Strategic Planning

Budget Year: 2016

### Overview:

Parking Services operates the City's five parkades, three surface parking lots, and oversees nearly 2,000 onstreet parking spaces downtown. It is committed to improving customer service, making parking easier, and supporting the vitality of downtown Victoria.

Parking Services admin staff assist the public with parking concerns, accept payments, manage monthly parking contracts and the City's ticket database, and reconcile daily parking revenues. It also oversees the Park Victoria app which enables customers to pay for on-street parking using their mobile device.

Parking Services is responsible for managing service contracts which include parking enforcement, parkade security, parking ticket collection and parking equipment service agreements.

#### **Deliverables:**

Improve the customer service experience for people parking in the City.

Monitor and adjust parking regulations as needed to ensure parking is available, and that customers have multiple payment options available to them.

Ensure estimated budgets are realistic and achievable, through ongoing monitoring and adjustments.

Customer complaints response target time is same day. 95% of customer complaints are currently responded to immediately, and 5% of complex complaints are forwarded to manager. These are responded to in two business days. Metrics – number of negative calls

Target - improved positive experience of customers.

Service Area: Parking Services Administration

Service Area: Neighbourhoods

**Department:** Citizen Engagement and

Strategic Planning

Budget Year: 2016

### Overview:

The neighbourhoods team oversee neighbourhood based initiatives, and act as a staff liaison to neighbourhoods to provide increased responsiveness for concerns or questions, as well as support for community led initiatives that require City guidance or advice.

Specific focus on youth engagement, place making and grant initiatives within public space. Support for grant programs, anti-graffiti, and late night issues.

#### **Deliverables:**

Deliverables in 2016:

- · Increased understanding internally of neighbourhood opportunities and concerns
- Improved information developed and routinely provided to support neighborhoods and Councillor Liaisons (maps of planned work, earlier notification, consultation on budget prior to approval)
- · Clear points of contact for neighbourhood associations
- New system for tracking questions and concerns
- · Reduced customer service demands on council liaisons
- Stronger relationships between City staff and neighborhoods
- · New, and improved policies as a result of improved dialogue and relationships
- · Improved baseline and measurement of neighbourhood engagement annually

Service Area: Neighbourhoods

### Expenses

Service Area: Parking Ambassadors

**Department:** Citizen Engagement and

Strategic Planning

**Budget Year:** 2016

### Overview:

Parking Ambassadors are advocates for high turnover of parking downtown, and of balancing parking needs within residential areas. They contribute to a positive downtown experience as information ambassadors and customer service representatives for City services and operations.

The objective is to make Victoria's parking experience as easy as possible and to ensure information and regulations are understood and followed to encourage positive parking behavior and turnover to support businesses and encourage parking availability. They also contribute to the overall operations of the City, adding eyes and ears on the street to identify operational needs that can be addressed quickly, such as garbage cans needing attention, graffiti identification and sanitation issues.

#### **Deliverables:**

Measures of Process:

# of parking transactions in parkades

# of transactions on-street

# of tickets

# of tickets cancelled

# of warnings

# of calls for service for operational assistance

# of customer calls, emails and online queries

# of downloads of parking app

# of Safe Walk escorts

# parking ticket reviews

### Measures of Success:

- · Increased transactions on street
- Increased transactions in parkades
- Increased downloads of parking app
- · Increased online transactions
- Decreased parking ticket reviews
- Fewer complaints

### Service Area: Parking Ambassadors

### Service Area: Parking Ambassadors

### Expenses

# Engineering and Public Works

The Engineering and Public Works department is responsible for managing nearly \$2 billion in built assets and infrastructure. This essential infrastructure delivers key services to the public, including water distribution, wastewater collection, garbage collection, transportation systems and public amenities.

### Core Services/Service Areas

- Underground Utilities
- Public Works: Building services, Solid Waste and recycling, Street cleaning, Snow and ice response, Utility, Carpentry shop, Fabrication shop, Paint shop, Tool depot, Fleet operations, Construction coordination, Roads and bridges, Concrete and sidewalks, Signs and road markings, Electrical and signals
- Asset Management and Land Development
- Climate Action and Environmental Planning
- Transportation

### **Budget Summary**

| 2016 Proposed Expenditures | 51,260,228 |

### **SUMMARY**

### Engineering and Public Works

### Proposed Initiatives for 2016

- Pedestrian Master Plan implementation
- Bicycle Master Plan implementation
- Bus Shelter installation
- · Crosswalk installations
- Pathway upgrades
- Major and local street rehabilitations
- Remediate roof of Gate of Harmonious Interest
- LED streetlight conversion
- Dallas Road Seawall Rehabilitation
- Ship Point retaining wall
- Johnson Street Bridge replacement project
- Sanitary sewer mains replacement and rehabilitation
- Sanitary sewer system master plan
- Sanitary sewer inflow and infiltration reduction
- Stormwater quality infrastructure
- Storm drain mains replacement and rehabilitation
- Brick storm drain main rehabilitation
- · Water mains replacement
- Water meter replacement program

## **Performance Metrics – Transportation**

| Measuring Success – Reported Collisions                     |   |                  |               |  |  |
|---|---|------------------|---------------|--|--|
| Performance Measurements                                    | 2014 Actuals  | 2015 Projections | 2016 Forecast |  |  |
| 1. How much did we do?                                      |   |                  |               |  |  |
| Reported Collisions   | 419   | 410              | 400           |  |  |
| 2. How well did we do it?                                   |   |                  |               |  |  |
| Number of reported collisions compared to previous year (%) | Increase 12.6 %   | Decrease 2.1%    | Decrease 2.5% |  |  |
| Story behind the data                                       | Collision statistics vary year to year and are typically looked at over a 5-10 year period to account for fluctuations due to external factors such as weather. The 5 year average of collisions from 2010 to 2014 is 418.  |                  |               |  |  |
| 3. Is anyone better off?                                    |   |                  |               |  |  |
| Story behind the data                                       | Improvements to the street network are intended to facilitate the safe and efficient movement of people, services, and goods. A reduction in reported accidents indicate improvements have been effective in reducing collisions for all users. Collision history is based on many factors including road improvements, safety campaigns, police enforcement and age of population to name a few. |                  |               |  |  |
| Where do we want to go?                                     | Continue to reduce reported collisions annually. Continue to partner with ICBC on capital improvements targeted at reducing conflicts/collisions. Support other safety improvement initiates through other departments or organizations   |                  |               |  |  |

### **Performance Metrics – Public Works Mechanic Shop**

| Measuring Success – Planned N   | laintenance  |                  |               |
|---------------------------------|--|------------------|---------------|
| Performance Measurements        | 2014 Actuals   | 2015 Projections | 2016 Forecast |
| 1. How much did we do?          |  |                  |               |
| Annual Cost                     | \$360,000  | \$316,000        | \$286,000     |
| 2. How well did we do it?       |  |                  |               |
| System Generated Work<br>Orders | 1,170  | 1,018            | 1,000         |
| Story behind the data           | By improving our preventative maintenance program trigger to fuel used (i.e. work done) system as opposed to time based servicing; scheduled maintenance only occurs when asset has completed required work.   |                  |               |
| 3. Is anyone better off?        |  |                  |               |
| Story behind the data           | Fuel based versus time (days) based preventative maintenance program has reduced the amount of down time for many assets, increasing productivity and asset utilisation for operational activity.  |                  |               |
| Where do we want to go?         | Transition all assets in the fleet to a form of fuel based/work complete preventative maintenance schedules. Developing a fluid analysis program to monitor and reduce the amount of fluid changes where possible, further reducing costs and increasing our efficiencies. |                  |               |

### **Performance Metrics – Public Works Mechanic Shop**

| Measuring Success – Unplanne | d Maintenance   |                  |               |
|------------------------------|---|------------------|---------------|
| Performance Measurements     | 2014 Actuals  | 2015 Projections | 2016 Forecast |
| 1. How much did we do?       |   |                  |               |
| Annual Cost                  | \$820,000   | \$712,000        | \$641,000     |
| 2. How well did we do it?    |   |                  |               |
| Repair Work Orders           | 1,907   | 1,820            | 1,800         |
| Story behind the data        | Efficiencies in preventative maintenance program contributes to catching smaller issues earlier (prior to escalation of fault) due to more controlled servicing.  |                  |               |
| 3. Is anyone better off?     |   |                  |               |
| Story behind the data        | Continuous improvements in the corrective repair program to further reduce asset down time will further increase availability of the fleet assets.  |                  |               |
| Where do we want to go?      | Continue to improve customer service and further reduce downtime.  Begin development of failure trend analysis and transition common component failures into the preventative maintenance program – transition 'reactionary repairs' to planned repairs. Develop a Customer Service Index (CSI) survey in 2016 to benchmark workshop performance and measure future improvements. |                  |               |

| Story behind the data                  | Each year the City of Victoria supports National Public Works Week. The event takes place every 3 <sup>rd</sup> week in May. We have seen a steady increase and demand in participation since 1999.  Students in grade 4 and 5, teachers, parents and seniors have attended Public Works Day. Through interactive displays and activities, participants learned about above ground (traffic signals, roads, sidewalks, etc.) and underground (storm water, sewers, wires, etc.) and leave feeling better informed.  It is also a great opportunity for staff to show and explain the work they do on a daily basis. Staff are able to show what they do to ensure a good quality of life, to build safe and beautiful spaces, to support accessibility and mobility, and to build sustainable infrastructures and communities. It is hoped that through the learning at Public Works Day, adults see the value they get for their tax dollars and kids understand what it takes to run a city.  This event also acts as an outreach to students who may consider a career in the Engineering and Public Works profession in the future. |                           |                            |
| 3. Is anyone better off?               |   |                           |                            |
| Story behind the data                  | Attendees have expressed their appreciation and learning through surveys and letters. They have praised the educational and fun components of the event. Students have expressed what they have learned through the Art Contest.  Participants who attend would likely share their experience and information with others in their community.  Students who attended Public Works Day may choose a profession in the Public Sector.   |                           |                            |

| Condition Assessed of Storm Drain Laterals (% of total system – 10,704 service connections) | 100 (.9%)   | 110 (1%)                  | 120 (1.1%)          |  |
| 2. How well did we do it?   |   |                           |                     |  |
| Storm Drain Laterals<br>Maintained (% of laterals<br>assessed)                              | 28 (28%)  | 35 (32%)                  | 42 (35%)            |  |
| Storm Drain Laterals<br>Repaired (% of laterals<br>assessed)                                | 18 (18%)  | 26 (23%)                  | 34 (28%)            |  |
| Story behind the data   | City staff maintain and repair storm service laterals to reduce the number of backups onto private property causing flooding due to blockages in City pipes. This results in reduced claims against the City and a reliable service for property owners. Our goal is to identify problems and deal with them in the most efficient manner before they cause flooding onto private property. |                           |                     |  |
| 3. Is anyone better off?  |   |                           |                     |  |
|   | Our goal is to reduce the number of flooding calls caused by blockages in the City pipes. This will also reduce flooding claims against the City and reduce hardship to homeowners and business.  |                           |                     |  |
|   | Complaints are driven b   | y property owners that ha | ave flooding occur. |  |
| Story behind the data   | We have a lateral maintenance program to inspect and clean known problem laterals as scheduled, and repair when necessary.  |                           |                     |  |
|   | Work is carried out by City staff on storm lateral services to all property owners in the City of Victoria.   |                           |                     |  |
| Where do we want to go?   | Identified areas that require ongoing maintenance or repairs to mitigate future blockages.  |                           |                     |  |

Business Unit: 3870 - Weed Control

**Department:** Engineering **Budget Year:** 2016

### Overview:

Provide weed control on hard surfaces such as curbs, sidewalks, roads, walkways.

### **Deliverables:**

Cleaning downtown core 3 times a year. Cleaning all main streets 2 times a year. Cleaning other areas as needed.

Business Unit: 3870 - Weed Control

Business Unit: 4530 - Graffiti Removal

Service Area: Solid Waste And Recycling

**Department:** Engineering **Budget Year:** 2016

#### Overview:

Solid Waste and Recycling provides collection of garbage and organic kitchen scraps every two weeks from 13,742 households in the city of Victoria.

Over 4,000 metric tons of garbage are transported from the Public Works transfer station to Hartland Road Landfill. In addition, this unit collects and transports 1,625 metric tons of kitchen scraps yearly to composting facility.

Maintenance, repair and replace an inventory of approximately 30,000 wheeled bins.

### **Deliverables:**

- Collection every 2 weeks
- Kitchen scraps diverted from landfill = 1,675 tonnes in 2014
- Tonnes of waste collected form 13,742 households not including kitchen scraps = 3,958 tonnes in 2014

Service Area: Solid Waste And Recycling

### Revenues

### Expenses

Service Area: Fleet

**Department:** Engineering **Budget Year:** 2016

#### Overview:

Fleet Operations maintains 275 vehicles and 90 Police vehicles and provides for the service, repair, and maintenance of all ICBC licensed City and Police vehicles according to Provincial and Federal regulations as per the Commercial Vehicle Inspection Program (provincial) and Transport Canada (federal).

Staff follow and ensure Aerial Device (truck cranes and aerial devices) Non-Destruct and Dielectric Maintenance, testing and certification regulations are current.

Complete all necessary maintenance to ensure safe and maximized performance. Complete all on-demand maintenance requests in order of importance daily. Complete all prep work on new vehicles for service including adding any necessary specialized equipment, fabrications needs, first aid equipment, lighting needs.

Strip and prepare vehicles and equipment for trade-in or disposal through public auction.

Service Area: Building Services

### Expenses

Service Area: Sign Shop Administration

**Department:** Engineering **Budget Year:** 2016

### Overview:

The Sign and Paint Shop manages design, manufacturing and installation of signage and road markings to improve safety for motorists, cyclists and pedestrians.

This unit also maintains and paints lamp standards, maintains street furniture and provides graffiti removal.

Special anti-graffiti signage is created for kiosks, and this unit oversees vehicle decaling. Also provide signage assistance for City buildings and public information events.

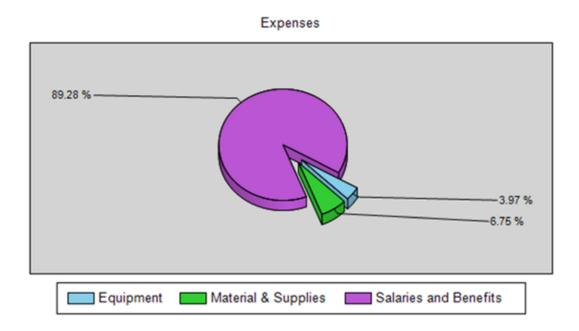

Service Area: Sign Shop Administration

Service Area: Electrical

**Department:** Engineering **Budget Year:** 2016

#### Overview:

Overall management of the electrical work related to City maintenance and construction activities. Electrical systems are essential to the safety of pedestrians, cyclists, and motorists as they it pertains to street lighting, traffic signals and construction sites. The electrical section also maintains and installs ornamental and specialty lighting such as Chinatown, heritage and pathway lighting.

Work involves BC 1 locates for City construction, reviewing drawings, coordinating with other City crews and service areas, and developing job estimates. Staff review and generate maps and asset inventory of the City's electrical infrastructure as it pertains to all city outdoor electrical.

#### **Deliverables:**

- 6900 street lights
- 887 Lamp Clusters
- 62 Power kiosks
- underground vaults/manholes and sidewalk pits
- Specialty Street lighting (China Town Poles, Heritage Poles, Rail Yards Poles, Pathway Poles etc)
- Specialty lighting (Bollards, step, side of building, Art work)
- # of Calls for Service
- Rusty street light and Traffic Signal pole replacement (40/yr)
- BC Hydro Pole change-outs =185. On average 42 banner installations per year

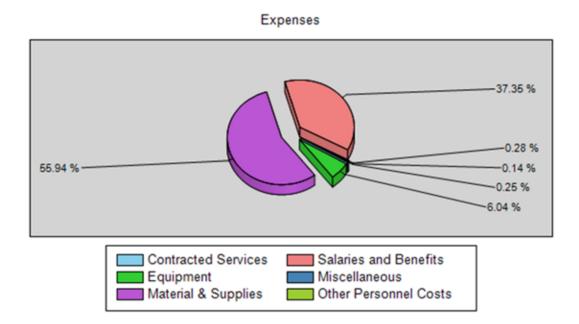

Service Area: Electrical

Service Area: Roads

**Department:** Engineering **Budget Year:** 2016

#### Overview:

Roads provides services to ensure safe travel on roads, sidewalks, pathways, walkways, malls & squares, and bridges. Also provides snow and ice control when needed.

Asphalt for patching on City projects, and for sale to other municipalities, and contractors, is funded through this business unit.

#### **Deliverables:**

Three year averages

- Pothole filling 482 m<sup>2</sup>
- Milling of roads 6070 m<sup>2</sup>
- Crack sealing of roads 29,990 lineal meters
- Skin patching of roads and some sidewalk areas 3026 m<sup>2</sup>
- Bus stop repairs 178 m<sup>2</sup>
- Concrete road base repairs 155 m<sup>2</sup>
- Lane paving 46 m<sup>2</sup>
- Asphalt curb and water control installation 51 lineal meters
- Harbour pathways maintained 339 m<sup>2</sup>
- Asphalt plant production 2,103 tonnes
- Contract paving 1,123 square meters
- Granular road base repairs 137.3 meters

Service Area: Roads

### Revenues

### Expenses

Service Area: Traffic Signals

**Department:** Engineering **Budget Year:** 2016

#### Overview:

This service area is responsible the traffic signals system, including installation, repair and maintenance of intersection traffic signals, cabinets and wiring, traffic signal inspections, and traffic system configuration.

#### **Deliverables:**

- Traffic Controller Cabinet Replacement (about 8 a year, service life of about 20 years)
- 128 Traffic Signal Cabinets on annual maintenance program, including Conflict Monitor replacement as required
- · Annual maintenance program for pedestrian flashing beacons and overhead flashing beacons
- · Annual Un-interruptible Power Supply maintenance and testing
- 3 times per year traffic signal display equipment maintenance
- 2 times per year pre-emption test for all traffic signals (for fire trucks)
- Annually 3 traffic signal rewires replace old wires (30 year. old) to reduce maintenance cost and improve traffic safety
- Annually 1 span wire replacement (traffic signal rebuild replace all overhead cables, install road crossings c/w conduit for signal wires, install new bases and poles for reduced maintenance costs, and improved traffic safety)

Service Area: Carpentry Shop

Service Area: Concrete

**Department:** Engineering **Budget Year:** 2016

#### Overview:

This service area manages and supervises the concrete infrastructure throughout the City related to maintenance and construction activities. It provides safe and accessible sidewalks, pathways, walkways and maintains the existing malls and squares in the City. Specialty work such as rock walls and brick pavers are also maintained by this section.

#### **Deliverables:**

- 460 km of curb and gutter
- 450 km of sidewalk
- 1600 cubic metres of concrete placed and finished
- 600 Calls for Service requests
- 300 complaints response, of these 50 trip and fall complaints response
- 1200 square metres sidewalk replacement and repair
- 360 square metres driveway replacement and repair
- 165 lineal metres of lip grinding (tree root damage)
- Upgrading brick crosswalks on Government Street Mall
- Repair concrete on Broad Street
- · Upgrade bus stops roadway to concrete from asphalt
- 300 square metres concrete pavers and brick pavers replacement and repair
- 360 square metres of driveways replaced (approx. 36 driveways)
- 200 square metres rock wall repairs
- 120 lineal metres of curb and gutter replacement and repair per year

Service Area: Public Works Administration

#### Revenues

#### Expenses

Service Area: Tool Depot

**Department:** Engineering **Budget Year:** 2016

#### Overview:

This service area supports equipment needs of City sections undertaking infrastructure maintenance ensuring tools are available and operating efficiently on daily basis for maximized productivity.

The Tool Depot supplies tools and small equipment (non-licensed) for Public Works and Parks. This includes items such as: small hand tools, saws, jackhammers, small trimmers, weeders, mid-sized tractors.

Service and repair all tools and small equipment for Public Works and Parks. Itemize all asset listings in JDE for tracking of costs and maintenance scheduling.

Build and maintain approximately 100 traffic control barricades annually.

#### **Deliverables:**

- · Barricades built per year
- Track hourly meters for all small equipment
- Track inventory for cost per unit to maintain

Service Area: Streets Administration

Service Area: PW Response

**Department:** Engineering **Budget Year:** 2016

#### Overview:

The City maintains a 24/7 emergency response for unexpected or unplanned events and incidents in the City.

A public works service person can provide traffic control and emergency response after regular business hours.

Unplanned incidents include sewers and water breaks, traffic barricades, and clean up at motor vehicle incidents

This unit coordinates all after hour calls for Public works, and determines who is needed to do the work.

#### **Deliverables:**

Estimated 45 calls per day for Emergency Response and Traffic control combined 16,425 calls annually

Call response = Priority and emergency calls are responded to within 2 hrs. and all calls are responded to within 24 hours

Service Area: PW Response

Service Area: PW Response

#### Revenues

#### Expenses

Service Area: Bridges

**Department:** Engineering **Budget Year:** 2016

#### Overview:

This Service area funds the on-going maintenance and operation of the City's five bridges, including the Johnson Street Bridge, Point Ellice Street Bridge and the Gorge, Burnside, and Hereward (rail) bridges to ensure safe travel by all users.

The two main bridges are Johnson Street Bridge and Point Ellice Street bridges and each are assessed routinely to determine on-going maintenance needs.

The Johnson Street Bridge facilitates 30,000 vehicles trips each day and as well as 3,000 cyclist and 4,000 pedestrian trips between the neighbourhoods of Victoria West and downtown.

Point Ellice Bridge carries Bay Street over Victoria's Upper Harbour. The bridge provides access to 21,000 vehicle trips commuting back and forth on a daily basis.

#### Revenues

#### Expenses

Business Unit: 4305 - T&D - Traffic Order Implementation

**Department:** Engineering **Budget Year:** 2016

#### Overview:

Changes in land use can impact traffic patterns, and demands for on-street parking. Having the ability to respond to public requests/inquiries ensures the ongoing safe operation of traffic for all road users (traffic control devices, such as stop signs), helps contribute to successful commercial areas/urban villages (onstreet parking turnover for customers), and respects/protects the residential integrity of neighbourhood residential areas

This budget is used to fund costs of changes to on-street parking regulations (signs/painting) on an annual basis.

#### **Deliverables:**

Staff process approximately 80 traffic orders, and implemented reduced speed zone restrictions in the downtown core, and on several arterial corridors.

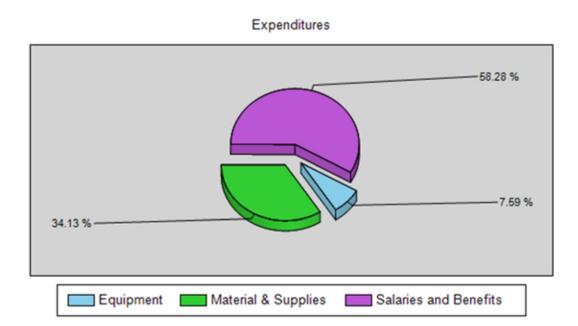

Business Unit: 4305 - T&D - Traffic Order Implementation

Business Unit: 4315 - T&D - NTMP Implementation

Business Unit: 4320 - Transportation, Surveys & NTMP

**Department:** Engineering **Budget Year:** 2016

#### Overview:

Transportation-related data is collected to assist staff in analyzing transportation planning, design, and operational issues, and determine the most appropriate course of action. Information collected includes traffic volumes and speeds, vehicle classification, intersection movements, bicycle and pedestrian-related data, and collision data.

This business unit funds the Transportation Section annual traffic data collection program and collision statistics report. This data is essential for planning, design, and daily operations work conducted by staff.

#### **Deliverables:**

35 manual intersection counts annually (including pedestrian and cyclist movements) 65 volume/speed study data sites studied annually Annual collision reports compiled/produced

## **Business Unit Summary with Service Areas**

Contracted Services Material & Supplies

Business Unit: 4810 - Streets Develop. Cost Sharing

Equipment

Service Area: Transportation Administration

**Department:** Engineering **Budget Year:** 2016

#### Overview:

The Transportation Section manages the design and use of public right of way, ensuring the safe and efficient movement of people, services, and goods, reducing overall fossil fuel dependence, conserving energy, and lowering greenhouse gas emissions.

Transportation staff manage the design of a safe, integrated and convenient transportation network, including roads, sidewalks, curb and gutter, traffic signals, street lighting, and other public right-of-way surface infrastructure, with emphasis on accessible pedestrian, bicycle and transit networks.

Staff in the Transportation Section:

- provide long and short term transportation planning services, to address future growth, develop and recommend transportation-related policies and bylaws
- administer and regulate the use of public streets, permits and applications, on-street parking regulations, and associated bylaws
- administer and regulate access to private property, and evaluate the impact that development (including subdivisions, rezonings, and development and building permits) has on the public right-of-way
- coordinate work with other depts., public works and underground utilities, parking services, parks, fire and police
- liaise with other levels of government, utility companies and community groups on transportation issues
- collect data as needed to evaluate transportation-related issues

#### **Deliverables:**

- 50+ capital projects concept and design drawings produced
- >1,000 street occupancy permits issued
- Responses to general public letters/emails in a timely manner
- 80 traffic order approvals/installations of new/revised parking regulations
- 35 manual intersection counts reviewed/analyzed
- Data from 65 volume/speed study data sites reviewed/analyzed
- All submitted rezoning/development applications reviewed
- All building permit applications with impacts to the public realm reviewed

Service Area: Transportation Administration

#### Revenues

### Expenses

Business Unit: 4330 - Land Development Admin

**Department:** Engineering **Budget Year:** 2016

#### Overview:

The Land Development section administers the approval and processing applications for Subdivisions and strata permits, sidewalks café permits, frontage and right of way construction permits, and encroachment and excavation permits. This ensures applications are consistent with the provincial regulations and OCP, civil standards, land use and City standards are met when constructions occur.

The permit process provides a consistent set of standards for civil works and for public safety.

- Develops bylaws and policies for subdivisions
- Represents the City at Urban Development Institute
- · Liasion for developers and stakeholders
- Over-arching file manager for applications in the City, processed by other depts.
- · Coordinate the Engineering review of the land use process
- · Development of regulations, such as: flood, stormwater

#### **Deliverables:**

Approximate number of applications processed annually: 100 sidewalk cafe permits 80 contractor permits 35 to 40 subdivision and strata permits 3 to 5 specialized encroachment permits

### Turnaround time:

The target turnaround times are identified above. We have not yet implemented reporting out to determine measures of success on target turnaround times.

Business Unit: 4330 - Land Development Admin

#### Revenues

### Expenditures

Service Area: Engineering Support Services

**Department:** Engineering **Budget Year:** 2016

#### Overview:

Provide support for all other departments in the organization through asset and information management services through:

- Operating and maintaining Vicmap and GIS databases, infrastructure databases, engineering info management, mapping requests, open data requests, and land management databases.
- Maintain City's cadastral fabric.
- · Represent the City at a variety of provincial and regional groups (IMGIS, URISA, Tempest).
- For asset management and planning purposes, translating various engineering data into spacial info as requested
- · Surveying and mapping city facilities and infrastructure
- · Responding to requests for utility locates and underground service checks,
- Providing a hub for all asset management functions, performance metrics, strategies, & risk analyses.
- Implementing and operating the corporate maintenance management and asset management software system.
- Linking engineering and finance by developing TCA inventory to meet regulatory financial reporting requirements as well as developing preventative maintenance budgets, asset replacement and renewal schedules.
- · Staffing the Engineering customer service front desk,
- Developing legal and utility agreements and contracts.
- Provide accurate, detailed engineering data to a variety of internal customers and external agencies. (third party utilities, engineering and architectural consultants, etc)
- Providing support and training internally and to the public regarding use of VicMap, open data, and custom online maps, through tutorial videos, presentations, demos, meetings, phone and email
- Installing, maintaining and upgrading Esri and Geocortex software on map servers, troubleshooting and liaising with Esri and Geocortex support
- · Digitizing and mapping city facilities and infrastructure
- Update land title records, BC assessment data and land information changes
- Respond to internal and external inquiries regarding land information, right of ways, addresses and street names
- Administration of outside party billing for cost recovery of infrastructure restoration.

#### **Deliverables:**

- Avg. 120 Digital Mapping Requests per year
- Avg. 75 LTO plans per year (subdivisions, easements)
- · Manage CAD & GIS on 52 computers

#### Metrics we will begin tracking:

- · # GIS Data requests processed
- # CAD file requests to business and community
- # Underground checks
- # GIS data downloads/requests # of Spatial Database layers requested/created o for asset management o for other city departments (not asset related) o for community benefit
- · # of map requests processed
- · # Hard copy maps generated for organization
- # Hard copy maps generated for public engagement
- · # core spatial data layers maintained and current

Internal and external requests are responded to within 24 hours. Basic data/mapping requests provided within 48 business hours. More complicated requests are given an agreed timeline.

Data/mapping and requests are tracked through a variety of mechanisms including email and spreadsheets. Asset management performance metrics will be tracked against a variety of industry standards and standards set by other municipalities to ensure performance. The asset management program also includes biennial auditing to ensure performance standards are being met.

Asset management metrics are under development.

#### Revenues

### Expenses

Business Unit: 2077 - Climate Action Program

**Department:** Engineering **Budget Year:** 2016

#### Overview:

The City of Victoria has committed to the Climate Action Charter to achieve carbon neutrality in its municipal operations. The City must show progress towards this committed goal in order to eligible to continue receiving the CARIP (carbon tax rebate) from the Province of approximately \$100K/year.

Energy savings reap environmental benefits, and additionally effective energy management and investments in energy efficiency can also realize significant cost savings for the City.

The City's Official Community Plan includes a community greenhouse gas reduction target of 33% by 2020 based on 2007 levels. Local governments are seen as the most influential level of government to impact community energy and emissions from land use, transportation, and waste.

The Climate Action program conducts research, provides reporting and identifies opportunities internally and externally to advance municipal opportunities for becoming carbon neutral.

#### **Deliverables:**

Implementation, including monitoring and reporting, of two climate action plans.

These plans include:

- a. Carbon neutral plan to manage and reduce its energy and emissions from its own municipal operations
- b. Community climate and energy resiliency plan, an integrated mitigation and adaptation plan

Business Unit: 2077 - Climate Action Program

Business Unit: 2077 - Climate Action Program

#### Revenues

### Expenditures

Service Area: SD Operations Administration

Department: Engineering Budget Year: 2016

#### Overview:

Stormwater infrastructure includes catchbasins, pipes and mains and rainwater management methods such as rain gardens, cisterns and green roofs. All are in place to sustainably manage the rain that falls in Victoria.

Stormwater management helps ensure the efficient conveyance of rainwater in the community.

This includes maintaining existing stormwater infrastructure and maximizing the lifespan of assets.

Effective management of the stormwater system reduces risk and liability by providing proper drainage to the community and preventing pooling and flooding.

The average age of storm drain pipes is 61 years with the City's oldest storm drain main installed in 1911.

This business unit provides for overall management of the operations work related to maintenance and construction activities for storm drain assets.

This business unit relates to other business units: Waterworks Utility, Sanitary Sewer Utility and Stormwater Utility forms part of the Utilities Operations Group – Utility Construction & Utility Maintenance.

### **Deliverables:**

- 5 Watersheds Bowker creek, Selkirk/Cecelia, Upper Harbour, Inner Harbour, South coast catchment.
- · 6700 catchbasins
- 10,704 service connections
- 259 kilometers of Storm drain pipe
- 3 Stormwater rehab units
- 4 Storm drain pump statins
- 73 Stormwater outfalls

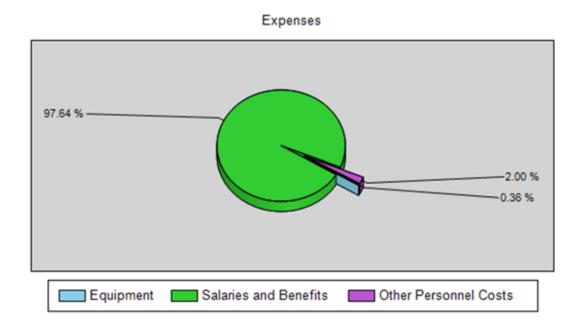

Service Area: SD Operations Administration

Business Unit: 3715 - SD Electronics & Automation

**Department:** Engineering **Budget Year:** 2016

### Overview:

Routine, daily monitoring of the stormwater system is in place for effective planning and issue mitigation. This ensures continuous and effective operations of storm drain pump stations. It also provides historical data for maintenance, operations and engineering purposes and a "real-time" view of station operations for maintenance staff.

This business unit supports the maintenance, installation and operation of the emergency alarm and collection of real-time data and electronic monitoring systems for the storm drain pump stations. This is commonly known as the SCADA system. (Supervisory Control and Data Acquisition)

- 4 storm drain pump stations
- Pump station operations as per design specifications
- · Alarms notification of abnormal operations
- · Historical database
- Interface on internal network for staff to view and download data

### Overview:

This business unit is in place for repairs to storm drain laterals servicing private properties.

Proactive inspection and cleaning reduces the number of backups caused by blockages in City pipes. Regular maintenance and expedited response to customers mitigates impacts and reduces risk to the City in terms of claims.

- 10,704 Storm drain laterals
- Unplugged 6 Storm drain laterals
- 34 Storm drain clean outs installed
- 18 Storm drain laterals repaired
- 5 Storm drain laterals replaced
- 43 Storm drain laterals on monthly maintenance schedule

### Overview:

This business unit funds repair, installation and inspection of storm drain catch basins to minimize or eliminate flooding of roadways, including the subsequent impacts to private property and traffic as a result.

Catch basins prevent contaminants from entering local waterways. This includes garbage, cigarette butts, chemicals and debris.

- There was a reduction in the number of defective catch basins
- 6700 catch basins maintained
- · 20 new catch basins installed
- 4667 catch basins cleaned
- 13 catch basin repairs

Business Unit: 3745 - SD Catchbasin Maintenance

## Expenditures

Business Unit: 3750 - SD Manhole Maintenance

Department: Engineering Budget Year: 2016

#### Overview:

This business unit funds the maintenance, inspection, repair and installation of storm drain manholes to reduce inflow and infiltration issues (sewer and stormwater pipes incorrectly connected)

Priorities are established responsive to customer complaints and information captured by closed circuit (CCTV) monitoring of the system.

- · Reduction in the inflow and infiltration
- · Reduction in the number of public complaints
- 2953 Storm drain manholes
- 2 manhole repairs
- Installed 8 new manholes
- Installed 6 new castings

Business Unit: 3760 - SD Emergency

**Department:** Engineering **Budget Year:** 2016

#### Overview:

This business unit funds a standby person to deal with after-hours emergencies related to the storm drain system.

A qualified standby person is trained and available to provide immediate response to events outside of regular working hours such as flooding events, blockages and backups on private properties.

- Respond to emergencies within 30 minutes
- # of storm drain related emergency callout (3 in 2014)
- # of flooding calls (13 in 2014)

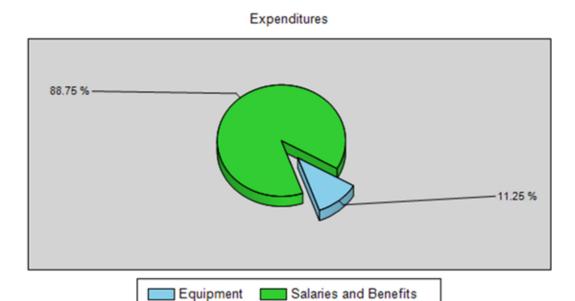

Business Unit: 3760 - SD Emergency

Business Unit: 3760 - SD Emergency

Business Unit: 3800 - SD - Street Cleaning Administration

**Department:** Engineering **Budget Year:** 2016

#### Overview:

This business unit funds street cleaning to prevent street debris (dirt, contaminants, and litter) from entering the stormwater system and the marine environment.

Clean streets, in particular in the busy downtown core, provides a welcoming environment for all users and supports a healthy downtown business community.

This service area provides:

- · Weed control in the roads and curbs throughout the summer
- Sweeping of City parkades
- Collection and disposal of cardboard and recycling for the City facilities
- · Bastion square daily and extra service in summer
- Prepare and cleanup after Special events and Block Parties
- Collection and disposal of bio-medical waste (needles)
- · Clean up after vehicles accidents and oil spills
- · Calls for service from public, police and fire
- Extra maintenance and cleaning needed of bike lanes
- · Additional cleaning for Leaf season for fall

- · Downtown streets are swept daily
- Residential areas swept in 40 day rotation
- Sweep downtown core streets during morning hours, 7 days per week, 364 days per year
- Extra garbage collection and cleaning for Special events
- Extra daily collection for downtown core during the summertime, 5 months
- 3 garbage dumps per 24 hours
- · City parkades swept once per day

Service Area: Stormwater

**Department:** Engineering **Budget Year:** 2016

#### Overview:

This service area supports the overall engineering management of the City's stormwater system.

Effective engineering of the stormwater system aims to maximize the life span of existing assets and mitigate against floods and damage to city infrastructure and private properties. It also plans for impacts of climate change forecasts in sea level rise and increased rainfall intensities and storm durations.

An efficient stormwater system manages run off to reduce contamination and pollution of waters to minimize impacts to marine life. Stormwater management is required by provincial and environmental regulation.

#### Services include:

Daily customer service enquiries and calls for service, emergencies, support to City departments and review of development applications.

It also includes investigations, capital projects, long-term master planning, regular monitoring of stormwater outfalls and video or condition assessment reports.

Planning – infrastructure master planning, development of rehabilitation strategies, hydraulic and hydrologic modeling, coordination of condition assessment program, preparation of conceptual designs, coordination and integration of work with other departments and agencies. Maintenance of stormwater system inventories and databases.

Design and Construction – develop medium and long term capital work plans, prepare detailed design of stormwater projects, prepare tender documents and drawings, prepare construction estimates, construction inspection, monitor project costs, provide contract administration for tendered works. Liaise with and direct the work of consultants and contractors on stormwater projects.

Development Review – provide comments for development projects and building permits as they relate to stormwater. Prepare engineering recommendations and coordinate with other departments to provide stormwater services; review and approve stormwater service applications and engineering designs to ensure conformity to city standards and specifications. Provide technical advice and interpretation to applicants, contractors and consultants on design submissions.

Investigation and Monitoring – Conduct periodic storm water quality samples at outfall locations. Conduct flooding investigations during heavy rain events. Investigate and resolve contamination problems such as oil leaks and spills, spill response and chemical contamination. Investigate and resolve environmental matters such as sewer/storm drain cross-connections. Collect and analyze flow recorder and rain gauge data and install related instruments.

Provide assistance to the public and outside agencies regarding stormwater management practices and policies.

- Annual development of stormwater capital projects
- Number of detailed design drawings, tender documents, and rehabilitation strategies produced
- Number of development applications processed requiring stormwater connections (approx. 180 Building Permits, 100 Subdivision & Rezoning, 15 Misc. Permits)
- · Number of projects reviewed in planning process
- Percentage of system inspected and assessed for condition 15% based on 6.5 year complete cycle
- Number of contamination, leaks and spill investigations completed 10 based on one week turn-around

- Number of cross-connection investigations completed 5 based on 2 week turn-around
- Number of site inspections completed for code compliance 1000 based on 6 per day
- Number of customer service requests completed 5% of staff time in responding to 200 requests with one week average turn-around

### Expenses

Business Unit: 6020 - WW Electronics & Automation

**Department:** Engineering **Budget Year:** 2016

#### Overview:

This business unit funds the installation, maintenance and enhancement of the emergency alarm and electronic monitoring systems commonly known as SCADA, (Supervisory Control and Data Acquisition) for pressure reducing valves and booster pump station.

This ensures the water distribution system is performing to design by monitoring the flows and pressures remotely through the SCADA system. The system allows for collection of data in "real time" for alarm notifications and engineering design purposes.

The City monitors and acquires data and control 11 PRV sites (24 pressure reducing valves) and ONE booster pump station.

- 11 PRV stations
- 1 booster pump station
- Collection of data in real time include, pressure, flow rates, volume,
- Alarms notification of abnormal operations
- · Historical database
- Interface on internal network for staff to view and download data for analysis

Business Unit: 6040 - WW Hydrant Maintenance

**Department:** Engineering **Budget Year:** 2016

### Overview:

This business unit funds the ongoing inspection, maintenance and repair of fire hydrants in Victoria and Esquimalt to deliver fire protection.

- 1,763 hydrants
- Maintained 877 hydrants
- Replaced 19 hydrants
- Inspected 6 hydrants (after fire use)

Business Unit: 6060 - WW Meter Maintenance

**Department:** Engineering **Budget Year:** 2016

### Overview:

Repair and replace water meters of various sizes to ensure accurate meter readings and accurate billing for customers.

This program assists in carrying out a water loss audit to verify billing by CRD for supply of bulk water to the City's system.

The leak detection program helps find and eliminate leaks in the system early, and determine if the leaks are on the private or City side. This reduces water loss.

- 13,534 Single family residential, 2,612 Multi-use residential, and 2,457 Industrial/ Commercial.
- Total water meters are 18,603
- Replaced 10 large meters 1.5" and above
- Replaced 424 ¾ meters
- Reduction in the number of water meters that are broken or not working properly.

**Department:** Engineering **Budget Year:** 2016

## Overview:

This business unit provides funding for a standby person to deal with after-hours emergencies related to the water distribution system in Victoria and Esquimalt.

A standby person, trained within the Environmental Operators Certification program, provides an immediate response to incidents outside of regular working hours.

- Response time to emergency within 30 minutes
- # of water related emergencies (56 in 2014)

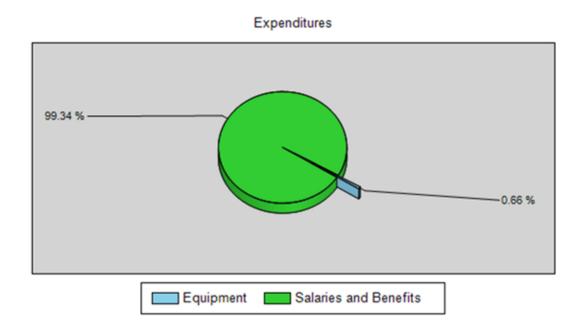

Business Unit: 6070 - WW Emergency

Service Area: Waterworks

**Department:** Engineering **Budget Year:** 2016

#### Overview:

This service area funds the overall engineering management of the City of Victoria and Township of Esquimalt water distribution system.

The water distribution system is essential to provide clean drinking water and meeting fire suppression needs. This service area focuses on maintaining existing infrastructure and maximizing life span of assets for current and future needs.

Lower property insurance rates for residential and commercial properties results from adequate water supply for fire suppression.

The municipality must comply with federal, provincial and municipal regulations and environmental requirements.

#### Services include:

Planning – infrastructure master planning, development of rehabilitation strategies, hydraulic modeling, preparation of conceptual designs, coordination and integration of work with other departments and agencies. Maintenance of water distribution system inventories and databases

Design and Construction Administration – develop medium and long term capital work plans, prepare detailed design of water infrastructure projects, prepare tender documents and drawings, prepare construction estimates, submit designs to Vancouver Island Health Authority for construction approvals, provide construction inspection, monitor project costs, provide contract administration for tendered works. Liaise with and direct the work of consultants and contractors on water projects.

Development Review – provide comments for development projects and building permits as they relate to water. Prepare engineering recommendations and coordinate with other departments to provide water services; review and approve water service applications and engineering designs to ensure conformity to city standards and specifications. Provide technical advice and interpretation to applicants, contractors and consultants on design submissions and required changes.

Investigation and Monitoring – review water quality reports and coordinate additional sampling with CRD Water. Investigate and resolve water flow, leakage and pressure issues. Coordinate fire hydrant flow testing. Track monthly wholesale water usage and annual retail consumption. Conduct cross-connection control program for civic facilities. Liaise with regional district on cross-connection control issues and provide data on civic facilities.

Provide assistance to the public and outside agencies regarding water distribution inquiries. Provide technical assistance to help resolve billing problems.

- · Number of detailed design drawings, tender documents, and rehabilitation strategies produced
- Number of development applications processed requiring water connections, (approx. 180 Building Permits, 100 Subdivision & Rezoning, 15 Misc. Permits)
- Number of projects reviewed in planning process.
- · Number of investigations completed
- Number of customer service/technical assistance requests completed (approx. 200 requests)

Service Area: Waterworks

#### Revenues

### Expenses

Service Area: WW Operations Administration

**Department:** Engineering **Budget Year:** 2016

### Overview:

This service area facilitates the delivery of safe drinking water to the public and sufficient pressure and flow for fire protection. The water service is provided to all property owners in the City of Victoria and the District of Esquimalt.

Federal, provincial and municipal regulations and acts guide the municipality's responsibility to provide access to safe drinking water.

Focus remains on maintaining existing infrastructure and maximizing life span of assets. The oldest asset within the water system was installed in 1891.

Includes operations work related to maintenance and construction activities

- · 1763 Hydrants
- 3361 Valves
- · 330km Mains
- 18603 Services/Meters
- 11 Pressure Reducing Valve Stations
- 1 booster pump station

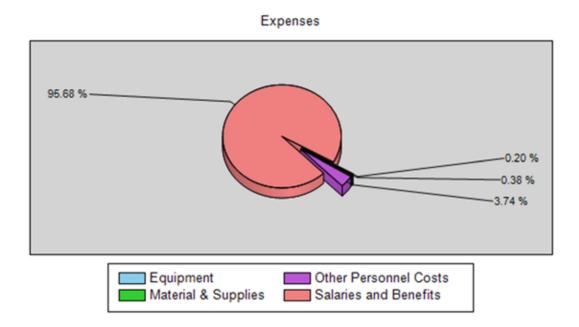

Service Area: WW Operations Administration

**Business Unit: 7002 - SS Operations Administration** 

**Department:** Engineering **Budget Year:** 2016

#### Overview:

This service area provides overall management of the operations work related to maintain and construct the sanitary sewer system activities.

An efficient sanitary sewer system provides a foundation for public health and community well-being.

This service area oversees maintenance existing infrastructure and maximizing life span of existing assets. The average age of sewer pipes in the City of Victoria is 78 years, the oldest pipe was installed in 1891.

Effective management reduces liability and impact to public and environment.

Management of sewer system is regulates by wastewater regulations at federal, provincial and municipal levels.

- 223 kilometers of sewer pipes
- 6 kilometers of force main pipes
- 15.183 service connections for sewer
- 2,747 manholes
- 11 pump stations
- 19 square kilometers service area

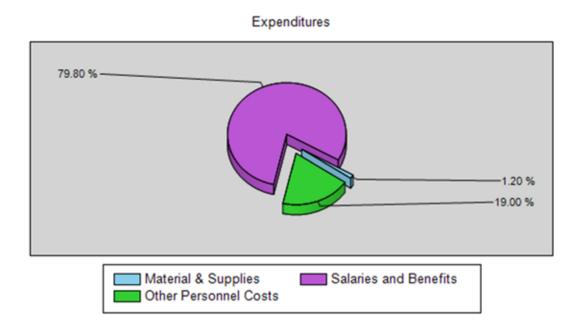

Business Unit: 7002 - SS Operations Administration

**Business Unit: 7002 - SS Operations Administration** 

Business Unit: 7020 - SS Electronics & Automation

**Department:** Engineering **Budget Year:** 2016

### Overview:

To ensure continuous and effective operations of sanitary sewer pump stations, this business unit records historical data for maintenance, operations and engineering purposes. It provides for "real time viewing" of station operations for maintenance staff.

Also provides the maintenance, installation, operations, and emergency alarm. Collects real-time data and electronic monitoring systems for the Storm Drain pump stations. This is commonly known as the SCADA system (Supervisory Control and Data Acquisition)

- 11 sanitary sewer pump stations
- · Pump station operations as per design specifications
- Alarms notification of abnormal operations
- · Historical database
- Interface on internal network for staff to view and download data for analysis

Business Unit: 7020 - SS Electronics & Automation

Business Unit: 7025 - SS Mains Rehab

**Department:** Engineering **Budget Year:** 2016

### Overview:

This business unit funds rehabilitation of existing sanitary sewer mains. Rehabilitation of existing system extends the life of the asset and maintains sewer collection and conveyance while mitigating risk of failure or backups.

- Reduction in the number of disruptions/blockages to the sewer system that may affect property owners
- 242 km SS mains
- 19 SS main repairs
- 14 SS mains unplugged

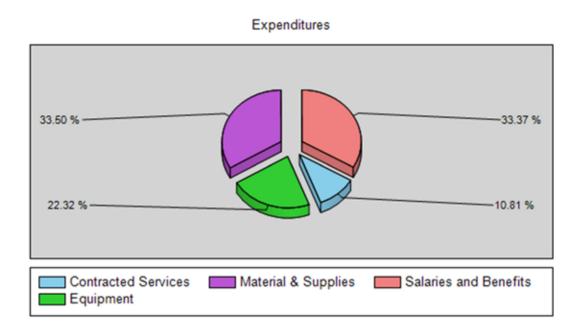

Business Unit: 7025 - SS Mains Rehab

Business Unit: 7040 - SS Lift Station Maintenance

**Department:** Engineering **Budget Year:** 2016

### Overview:

This business unit funds maintenance, repair and operation of the sanitary sewer pump stations to ensure the collection of wastewater is conveyed efficiently to larger diameter sewer mains.

This minimizes or eliminates overflows to the environment.

- 11 Sanitary sewer pump stations
- Wastewater collection service area of 21.5 Sq. km

Business Unit: 7040 - SS Lift Station Maintenance

Business Unit: 7045 - SS Lateral Maintenance

**Department:** Engineering **Budget Year:** 2016

### Overview:

Maintain and repair sanitary sewer (SS) service laterals to reduce the number of backups caused by blockages in City pipes. Reduced backups results in reduced claims against the City.

- Ensure private property wastewater is conveyed efficiently from property line
- 15.221 SS Laterals
- · 185 blockages
- · 204 SS laterals are on monthly service schedule
- · 3 SS laterals replaced
- 65 SS laterals repaired
- · 69 SS cleanouts installed
- · 137 SS laterals unplugged

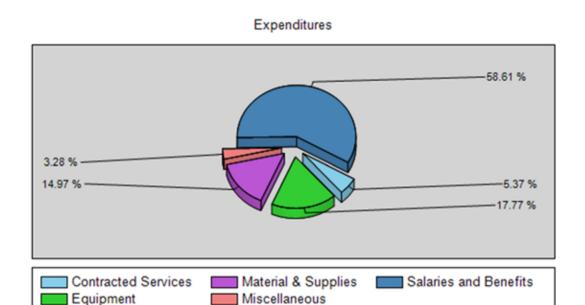

Business Unit: 7045 - SS Lateral Maintenance

Business Unit: 7050 - SS Manhole Maintenance

**Department:** Engineering **Budget Year:** 2016

#### Overview:

Maintain and repair sanitary sewer manholes to provide safe access for inspection and maintenance of sewer lines.

#### **Deliverables:**

- Reduction in the inflow and infiltration
- · Reduction in the number of complaints for noisy manhole lids
- 4618 SS manholes
- 5 new SS manholes installed
- 11 new SS manhole castings installed
- 5 SS manholes repaired

Business Unit: 7050 - SS Manhole Maintenance

Business Unit: 7050 - SS Manhole Maintenance

Business Unit: 7055 - SS Clean and Inspection

**Department:** Engineering **Budget Year:** 2016

#### Overview:

To clean, inspect and assess the condition (using CCTV) of sanitary sewer mainlines. Ensures wastewater collection system is operating efficiently

A proactive maintenance program aims to reduce blockages and backups and subsequently reduce the number of claims against the City. Also minimizes or eliminate overflows

#### **Deliverables:**

- 242 km of SS Mains
- 74 km cleaned/flushed
- 2.7 km root cut
- 16 km CCTV

Business Unit: 7055 - SS Clean and Inspection

Business Unit: 7055 - SS Clean and Inspection

Business Unit: 7060 - SS Emergency

**Department:** Engineering **Budget Year:** 2016

#### Overview:

This business unit funds a trained standby person to deal with after-hours emergencies related to the wastewater collection system. This ensures an immediate response to sewer incidents outside of normal working hours

Qualified staff on-hand mitigates impacts to customers and claims to the City.

Note: This is the same person who is noted as being on standby for afterhours Waterworks events.

#### **Deliverables:**

- Respond to emergencies within 30 minutes
- # of wastewater related emergency call outs (34 in 2014)

Business Unit: 7060 - SS Emergency

## **Business Unit Summary with Service Areas**

Contracted Services Material & Supplies

Business Unit: 7060 - SS Emergency

Equipment

Service Area: Sanitary Sewer

**Department:** Engineering **Budget Year:** 2016

#### Overview:

This service area provides overall engineering management of the City's sanitary sewer system.

This service area focused on maintaining existing infrastructure and maximizing life span of existing sewer assets to protect public health and the environment.

Proactive monitoring and planning reduces overflows and backups and damage to city infrastructure and private properties. It also aims to reduce stormwater inflow and infiltration to the sanitary sewer system.

Municipalities must meet federal, provincial and municipal regulations and environmental requirements in managing sewage within the community.

#### Services include:

Planning – infrastructure master planning, development of rehabilitation strategies, hydraulic and hydrologic modeling, coordination of condition assessment programs, preparation of conceptual designs, coordination and integration of work with other departments and agencies. Maintenance of sanitary sewer system inventories and databases.

Design and Construction Administration – develop medium and long term capital work plans, prepare detailed design of sanitary sewer projects, prepare tender documents and drawings, prepare construction estimates, construction inspection, monitor project costs, provide contract administration for tendered works. Liaise with and direct the work of consultants and contractors on sanitary sewer projects.

Development Review – provide comments for development projects and building permits as they relate to sanitary sewer. Prepare engineering recommendations and coordinate with other departments to provide sanitary sewer services; review and approve sanitary sewer service applications and engineering designs to ensure conformity to city standards and specifications. Review requirements for sewage flow attenuation. Provide technical advice and interpretation to applicants, contractors and consultants on design submissions and required changes.

Investigation and Monitoring – Conduct investigations for sewer main or lateral backups. Review rain storm events, precipitation data, pump station and flow monitoring data. Investigate and resolve environmental matters such as grease contamination and sewer/storm drain cross-connections. Collect and analyze flow recorder and rain gauge data and install related instruments.

Provide assistance to the public and outside agencies regarding sanitary sewer practices and policies.

#### **Deliverables:**

- · Annual development of sanitary sewer capital projects
- Number of detailed design drawings, tender documents, rehabilitation strategies produced
- Number of development applications processed requiring sanitary sewer connections (approx. 180 Building permits, 100 Subdivision & rezoning, 15 misc permits).
- Number of sewage attenuation proposals reviewed (approx.20)
- Number of projects reviewed in planning process (approx. 15)
- Percentage of system inspected and assessed for condition (approx. 15% based on 6.5 year complete cycle)
- Number of investigations for contamination and cross-connections (approx. 12)
- Number of customer service requests completed (approx. 200 requests)

#### SUMMARY

### **Finance**

#### Proposed Initiatives for 2016

- Financial plan process improvements, including metrics, long-range capital planning and further development of the City's budget simulator
- Reserve Fund Policy: calculate target balances for reserves
- Implementation of Stormwater Utility billing
- Provide finance support for:
  - Water meter replacement project
  - Johnson Street Bridge replacement
  - Fire Hall rehabilitation/replacement procurement process
- Technology improvements
  - Development tracker expansion
    - Building, electrical and plumbing permits
    - Heritage alteration permits
  - Business licence eApply
  - Customer service improvements
    - tracking and response for customer enquiries and requests
    - online form for customer requests
  - Open data portal
    - tools for citizens to view and analyze data
  - Sharepoint expansion
    - report and document tracking and sign-off
    - agreement tracking
    - digital plan review
  - Authorization matrix and e-requisition
    - replace manual processes

### **Performance Metrics – Finance**

| Measuring Success – Accounts Payable  |  |                          |   |  |  |  |  |  |
|---|--|--------------------------|---|--|--|--|--|--|
| Performance Measurements  | 2014 Actuals 2015 Projections 2016 For |                          |   |  |  |  |  |  |
| 1. How much did we do?  | 1. How much did we do?                 |                          |   |  |  |  |  |  |
| Number of Invoice Payments  | 47,833 47,800 47,800                   |                          |   |  |  |  |  |  |
| 2. How well did we do it?   |  |                          |   |  |  |  |  |  |
| % of electronic accounts payable payments (EFT and wires)   | 33% 34% 35%                            |                          |   |  |  |  |  |  |
| The City supports movement towards paperless processing (saves trees) and realizing process efficiencies through utilizing technology.  Story behind the data   |  |                          |   |  |  |  |  |  |
| 3. Is anyone better off?  |  |                          |   |  |  |  |  |  |
| E-transactions (Accounts Payab  | ele) – % of invoice paym               | ents made electronically | 1 |  |  |  |  |  |
| Story behind the data  E-transactions result in a reduction of paper and other supplies used to print cheques leading to more efficient and cost-effective payment processing and is consistent with current business practices |  |                          |   |  |  |  |  |  |
| Where do we want to go? Further reduction of paper cheque payment, increase of % of invoice payments made electronically (electronic funds transfers or wire transfers)   |  |                          |   |  |  |  |  |  |

| Measuring Success – Customer Transactions   |                       |                  |               |  |  |  |

| Story behind the data  | The completion of the Business Licence application process provides certainty to a new business that they can start operating their business and are in compliance with City regulations. The turnaround time for processing impacts how quickly a new business can begin operations. |           |           |  |  |  |  |
| 3. Is anyone better off?   |   |           |           |  |  |  |  |
| Average # of days to process new I   | Business Licence appli  | cation    |           |  |  |  |  |
| Story behind the data  | Story behind the data  Reducing the turnaround time for new Business Licence application processing reflects the City's responsiveness to businesses and supports the City's economic vibrancy.   |           |           |  |  |  |  |
| Where do we want to go?  To see a consistent reduction in turnaround time. |   |           |           |  |  |  |  |

### **Performance Metrics – Information Technology**

| Measuring Success – Service Desk T   | Tickets   |  |   |  |  |
|--|---|--|---|--|--|
| Performance Measurements   | 2014 Actuals  | 2015 Projections   | 2016 Forecast   |  |  |
| 1. How much did we do?   |   |  |   |  |  |
| of Service Desk Tickets Received   | 4,100   | 5,200  | 7,000   |  |  |
| 2. How well did we do it?  |   |  |   |  |  |
| % of Service Desk Tickets resolved vithin service level standards  | N/A   | N/A  | 80%   |  |  |
| Historically, not all service requests and incidents were logged an many went untracked due to the informal nature of the requests and/or operational urgency around an incident.  Year-to-year trends in our service desk tickets will continue to be reviewed. We anticipate an increase in overall tickets in 2015 as we apply more discipline to the creation and tracking of all requests. We do not anticipate using the annual trend to measure efficiency as annual volume will ebb and flow based on many factors such as introduction of new technologies, changes to existing technologies and staff changes. |   |  |   |  |  |
| 3. Is anyone better off? ervice Desk Tickets – % resolved w  | rithin service level sta  | ndards   |   |  |  |

| 3. Is anyone better off?   |  |                  |                              |  |  |  |   |
|  | The Information Technology Division is constantly looking for improvements in existing systems, procedures and practices to reduce downtime and increase reliability and availability. Ensuring systems are available to staff and citizens when they need to be increases productivity and improves customer satisfaction.  |                  |                              |  |  |  |   |
| Story behind the data  Story behind the data  IT infrastructure is incredibly complex and is the underlying platform for critical line of business applications. Continual preventative maintenance ensure we are following hardware lifecycle best practices, software upon and security patches all contribute to a stable environment.  Our goal is to keep our line of business systems and productivity system current as practical, being no further than one major release back from current. |  |                  |                              |  |  |  |   |
|  |  |                  |                              |  |  |  | Following change management processes to effectively manage the impact of system maintenance to match business approved change windows, ensure the business is operating when it needs to be. |

#### Where do we want to go?

Better is always possible and we have been working hard to streamline our infrastructure and support systems to keep them stable, simple and efficient. We are introducing preventative monitoring tools of critical systems that will assist us in knowing about potential system issues before they cause business outages. This will ensure our systems are operating at the highest uptime when our staff need them the most.

### **Performance Metrics – Information Technology**

|   |  |                  | 0040 5        |  |  |
|---|--|------------------|---------------|--|--|
| Performance Measurements  | 2014 Actuals   | 2015 Projections | 2016 Forecast |  |  |
| 1. How much did we do   | ?  |                  |               |  |  |
| # of Approved Projects delivered on time  | 11   | 20               | 20            |  |  |
| 2. How well did we do it  | ?  |                  |               |  |  |
| % of Approved Projects delivered on time  | 50%  | 70%              | 80%           |  |  |
| Story behind the data   | At the start of each project the business solutions section will collaboratively develop a project plan with the main business area staff identifying resource requirements, key roles, project sponsorship, major milestones and key delivery dates. Once signed off by the Project Sponsor and CIO progress to timeline will be tracked. |                  |               |  |  |
|   | The Project Manager will be responsible for standard project management practices including project, change, risk, issue and decision management, and regular project status reporting.  |                  |               |  |  |
| 3. Is anyone better off?  |  |                  |               |  |  |
| Story behind the data  Project delivery relies on the required resources being available in a timely manner to effectively deliver their contribution to the project. Significant project delays and the reason behind them will be tracked and raised to the Project Sponsor and/or the CIO by the responsible project manager. All significant (1 week or more) delays will be documented so that an evaluation can be conducted at the end of the project. |  |                  |               |  |  |
| The goal is to improve the accuracy with which project timelines are projected and to ensure that all involved staff are aware of and agree project commitments.  |  |                  |               |  |  |
| Where do we want to go? The goal is also to ensure accountability of all staff and business areas to their project commitments.  Improved project management reporting and controls will increase the   |  |                  |               |  |  |

| 2. How well did we do it   | ?  |                  |               |  |  |  |
| % of Approved Projects delivered within budget   | 70%  | 87.5%            | 90%           |  |  |  |
| Story behind the data  | At the start of each project the business solutions section will develop a detailed budget for the project. Once signed off by the Project Sponsor and CIO, progress to budget will be tracked.  The Project Manager will be responsible for standard project management practices including project, change, risk, issue and decision management, and regular project status reporting.  Any changes that impact project budget must be signed off by the CIO and Project Sponsor                 |                  |               |  |  |  |
| 3. Is anyone better off?   |  |                  |               |  |  |  |
| Story behind the data  The project budget relies on accurate forecasting at the start of the project and tracking that any significant changes to the required budget are appropriately justified, documented and signed off on. |  |                  |               |  |  |  |
| Where do we want to go?  | The goal is to improve the accuracy with which project budgets are developed and to ensure that projects as defined are delivered within the budget forecast.  We want to get to the level where we have some standard metrics for estimating costs and that we implement continuous improvement processes related to budget issues via project reviews and evaluations.  Improved project management reporting and controls will increase the likelihood that project budget targets will be met. |                  |               |  |  |  |

Business Unit: 2200 - Budgets, Financial Planning & Administration

**Department:** Finance **Budget Year:** 2016

#### Overview:

The Finance department is responsible for safeguarding City's financial assets and planning to ensure financial stability and viability.

The department produces information to provide transparency to the City's finances and demonstrate to taxpayers where their taxes are allocated and what services they receive. This provides a foundation for fostering greater understanding and involvement in the financial planning process.

This business unit provides financial reporting and control and is responsible for the implementation of financial management policies. It also provides financial information and advice to City Council, staff and the public.

This business unit directs the preparation of the municipal capital and operating budgets and long-range financial planning and provides routine monitoring and reporting on budget variances.

#### **Deliverables:**

Monthly budget reviews in conjunction with departments Quarterly budget status updates to Council

Business Unit: 2200 - Budgets, Financial Planning & Administration

Business Unit: 2200 - Budgets, Financial Planning & Administration

**Business Unit: 2230 - Accounting** 

**Department:** Finance **Budget Year:** 2016

## Overview:

The Accounting division processes payroll for the City's approximately 1000 full-time and part-time employees, as well as payroll services for VicPD employees. This ensures staff are paid on time and for hours worked.

It also provides accounts payable services, general accounting and financial reporting, oversight of the investment program and cash management practices, as well as debt management.

These services are in place to ensure vendors receive payment for goods and services provided and the City receives expected value by meeting discount deadlines where applicable.

This unit ensures all departments can access accurate financial information on a timely basis to support effective decision making.

The Accounting division ensures taxpayer assets and cash are safeguarded and the City meets all statutory financial reporting requirements.

#### **Deliverables:**

## Payroll:

Bi-weekly payroll payments, T4s, and benefit administration for approximately 1300 employees (1000 City and 300 VicPD) in nine employee groups including six collective agreements.

#### Accounts Payable:

30 day payment turn-around for AP invoices (approximately 40,000 invoices per year).

Administration of approximately 300 purchasing cards (approximately 23,000 purchasing card transactions per year)

General Accounting/Financial Reporting:

4000 journal entries processed

Preparation of annual audited Financial Statements

Annual submission of financial information to Ministry of Community, Sport and Development by May 15, and Ministry of Finance by June 30

Annual submission of Annual Report to GFOA for excellency award to maintain quality standard of report Contribution to Annual Report preparation

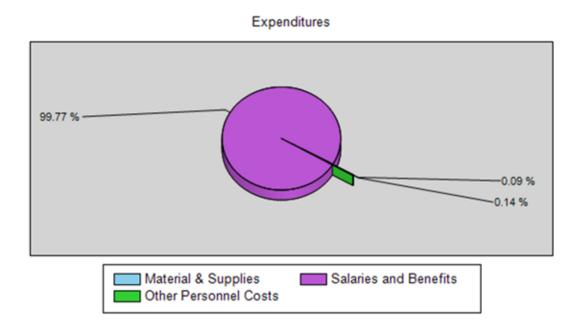

Business Unit: 2230 - Accounting

Business Unit: 2240 - Revenue

**Department:** Finance **Budget Year:** 2016

#### Overview:

The Revenue division oversees the billing and collection of:

- Property Taxes
- Utilities
- Business Licences
- Accounts Receivable

It also provides oversight of the City's busiest in-person customer service centre, the Public Service Centre in City Hall. The Public Service Centre serves approximately 5,000 people each month and 9,000 during tax time in June. They provide in person customer service, general City information, respond to enquiries by phone and email and accept payments.

The division also provides organization-wide cash controls and continues to encourage internal and external customers to utilize technology and support customer needs. This includes e-Billing, e-forms, e- Homeowner Grants and other electronic means.

#### **Deliverables:**

58,000 utility bills; 32,000 property tax bills; 11,000 Business Licences & renewals; 6,500 electronic Home Owner Grants; 9,000 paper Home Owner Grants; 11,000 Deferment applications & Renewals; 120,000 electronic commerce transactions approximately not including Home Owner Grants; Pre-authorized withdrawal program for approximately 4,000 customers. Expecting to issue receive, process, receive payment and issue approximately 1,000 portable sign permits.

71,000 annual transactions at PSC, approximately 20,000 non transactional inquiries at PSC

Sell and/or process approximately 1,000 boxes of compost bags, 110 bags of City Lapel Pins, 1,100 disabled parking permits, 400 dog licences, 1,700 garbage tickets, 2,700 Business Licensing payments, 24,000 parking tickets, 1,300 municipal decals, 17,000 parking smart card reloading, 2500 street occupancy permits.

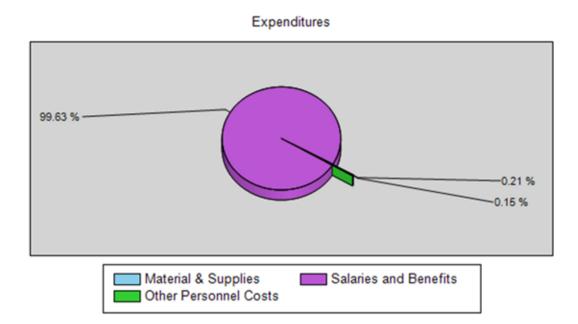

Business Unit: 2240 - Revenue

Business Unit: 2250 - Information Systems

**Department:** Finance **Budget Year:** 2016

## Overview:

The Information Technology division provides for the reliable and safe sharing of City information to provide customers a positive customer service experience and to provide staff the tools needed to effectively deliver services.

The Information Systems division oversees the Help desk, provides technical infrastructure (hardware and software), and organizational business solutions (corporate application delivery and support)

Help desk: support of telephone, personal computers, printers, cell phones, software for City staff. Helpdesk staff provide support to educate staff of how to effectively use technology and troubleshoot errors or issues to reduce disruption for staff or customers.

Technical infrastructure: providing the network infrastructure as required for the City departments; and software maintenance to support stable City networks. Technical infrastructure continues to adapt to business needs and meet industry best practices.

Business Solutions: providing internal resources to user departments to develop and acquire software solutions to meet organizational business needs; enhancing use of current applications; and process documentation to support project portfolio management.

#### **Deliverables:**

Helpdesk - turnaround times for calls: system down is immediate Infrastructure - # of unplanned system outages, length of outages and frequency Business solutions - # of "quick wins" implemented; customer satisfaction in project delivery

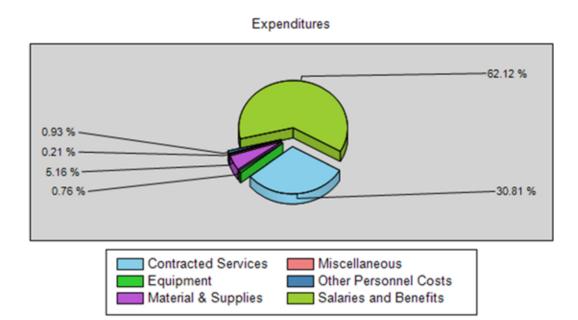

**Business Unit: 2250 - Information Systems**

Business Unit: 2250 - Information Systems

Business Unit: 2300 - Purchasing

**Department:** Finance **Budget Year:** 2016

#### Overview:

Supply Management oversees City purchasing as well as insurance, risk management and claims processing.

The City of Victoria maintains a competitive bidding process in accordance with municipal and provincial laws. Through a competitive bidding process taxpayers receive greater value for money.

The purchasing process provides businesses and suppliers transparent, fair and equal access to business opportunities with the City. Supply Management staff provides purchasing expertise and advice to foster a consistent and standardized approach to purchasing.

Requests for proposals and tenders are posted on an electronic vendor database to provide opportunities to view and bid on City purchasing competitions.

Effective management of insurance, risk management and claims processing reduces the City's and taxpayer's exposure to impacts and financial risks.

Through property appraisals, the business unit maintains sufficient insurance coverage of City owned property and assets and identifies appropriate liability coverage considering industry standards and best practices.

This unit also processes all insurance claims towards the City and provides the administrative support to the Finance Department.

#### **Deliverables:**

Request for Offers turnaround times: 1 week once all information received by departments Request For Proposals and Tenders (simple): turnaround time 2-3 weeks once all information received by departments

Request for Proposals and Tenders (complex): turnaround time varies Number of claims processed

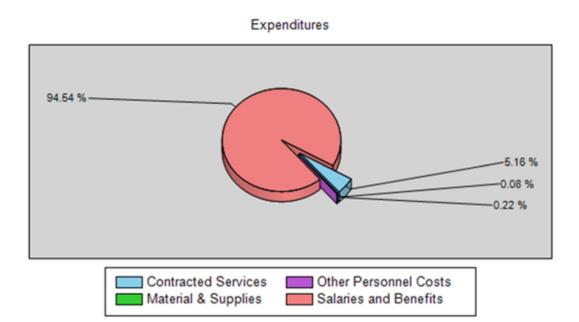

Business Unit: 2300 - Purchasing

Business Unit: 2320 - Stores

**Department:** Finance **Budget Year:** 2016

## Overview:

Having the correct supplies on hand for quick access and achieving economies of scale through volume purchasing is the focus of the Stores unit.

Supplies and products for City projects are inventoried and stored, reducing the uncertainty of supply being affected by outside variables, and ensures City projects can proceed without interruption.

This unit also stores and schedules equipment used to support festivals and special events.

## **Deliverables:**

Annual inventory turnover - supply products as needed by clients

Accuracy of annual inventory counts and level of obsolescence - managing and safekeeping of the inventory

Quality criteria for products stocked - as established in conjunction with end user departments

Cost savings/bulk purchases - with fluctuating pricing, keeping abreast of pending price changes and purchase accordingly

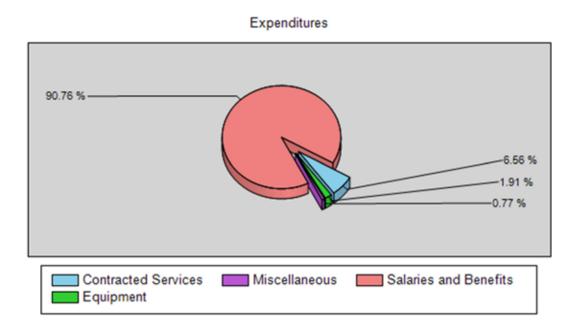

Business Unit: 2320 - Stores

Legal Services provides timely, accurate and practical legal advice and services to assist in the management and mitigation of risks to the City and to assist in protecting the City's legal rights and interests. Services are provided utilizing in-house resources and engaging external legal resources where necessary and appropriate.

## Core Services/Service Areas

- Provide legal advice to Council, City Manager and City staff
- Negotiate, prepare and oversee execution of contracts, leases and agreements authorized by Council
- Provide legal assistance related to land use and development projects
- Assistance with real estate transactions
- · Represent the City in legal proceedings
- Draft, revise and consolidate City bylaws and assist City staff in bylaw interpretation and application of bylaws and applicable provincial legislation
- Monitor changes and developments in the laws affecting the City and provide proactive advice to mitigate impacts on the City

Business Unit: 2350 - Legal Services

**Department:** Legal Services **Budget Year:** 2016

## Overview:

Legal Services provides legal advice, through the City Manager, to Council. It also provides general legal services to the City, using a combination of in-house and external lawyers. This business unit is responsible for provision of legal assistance with negotiation and drafting of contracts, preparation of land title documents and other instruments securing City's legal interests. It represents the City in court and other legal proceedings, and reviews reports to Council for legal implications.

In court proceedings and judicial reviews, this business unit defends the City's position, and ensures that City bylaws are respected and complied with through prosecutions and injunctions.

Decisions are informed by complete consideration of the legal risks, ensuring that these risks and liabilities are minimized, protecting the City and taxpayer's interests.

## **Deliverables:**

- · number and type of matters initiated and concluded each year
- per hour cost for in-house / external lawyers
- annual client survey (initiated in 2015)
- tracking of time matters are with Legal Services to establish and monitor service level standards (initiated in 2015)

# Parks, Recreation and Facilities

The Parks, Recreation and Facilities department manages the inventory of parks, open spaces and buildings that enable diverse opportunities for recreation and sports, arts and culture, as well as City services and administration. Working with residents, the City focuses on initiatives that support strong families and a safe, vibrant and inclusive community.

#### Core Services/Service Areas

#### Parks

- Maintain 191 hectares of park and open spaces, including 70 parks and 72 hectares of natural areas
- Manage and maintain Ross Bay Cemetery
- Manage the urban forest and maintain over 33,500 trees on public land
- Maintain 39 playgrounds, 23 tennis courts, 12 dog off-leash areas, a skate park, bike park
- Maintain 500 flower and shrub beds, 1,500 hanging baskets, and 9 rain gardens
- Maintain 17 public washrooms, litter pick-up and garbage collection
- Maintain 300 km of boulevards
- Plan and design park spaces and features
- Participate in development permit review, and tree permit applications

#### Recreation

- Operation of Crystal Pool and Fitness Centre, and 250,000 visits per year
- Administer the Leisure Involvement for Everyone (LIFE) program for low-income residents
- Deliver community programs at Save-On-Foods Memorial Centre (SOFMC)
- Maintain and administer bookings for Royal Athletic Park and 45 sports fields
- Administer Youth Services and Leaders-in-Training Program
- Partner with Community and Seniors Centre operators in program delivery

#### Facilities

- Oversight of the maintenance of the City's inventory of approximately 100 buildings and parking lots
- Project management for facility related capital investment
- Long-term planning and analysis of building use, structures and systems
- Oversight of the corporate security program

## **Budget Summary**

| 2016 Proposed Expenditures | 18,203,288 |
|----------------------------|------------|
| 2015 Approved Expenditures | 17,255,114 |
| Budget Change              | 948,174    |
| Change by %                | 5.50%      |
|                            |            |
| 2016 Proposed Revenues     | 2,803,344  |
| 2015 Approved Revenues     | 2,304,273  |
| Budget Change              | 499,071    |
| Change by %                | 21.66%     |
|                            |            |
| 2016 FTE                   | 149.48     |
| 2015 FTE                   | 149.48     |
| Change                     | 0          |
| Change by %                | 0.00%      |

## **SUMMARY**

## Parks, Recreation and Facilities

## Proposed Initiatives for 2016

#### Parks

- Design and construction of key elements for David Foster Harbour Pathway – including consultation and construction of Heron Cove and Raymur Point pedestrian bridges
- Parks Master Plan consultation and development
- Renewal of Victoria West Park playground, skate park, and dog off-leash areas
- Development and implementation of the "Growing in the City" urban agriculture program – updated policies and guidelines relating to food production
- Continued implementation of the Urban Forest Master
   Plan including inventory updates, planting and removal strategies, and increased community education
- Resurfacing of Stevenson Park playground

#### Recreation

- Installation of universal washroom/change room in Crystal Pool and Fitness Centre
- Feasibility Study on future Crystal Pool and Fitness Centre and related amenities
- Determine new recreation registration program to replace "end-of-life" system

#### Facilities

- Strategic review of existing facility use and delivery of City services
- Building envelope upgrades at Police headquarters
- Upgrade exterior lighting and replace cabinetry hardware at Burnside Gorge Community Centre
- Install concrete pad and security fencing around dumpster at Fernwood Community Centre
- Install sound dampening panels at Fernwood Community Centre daycare
- Interior wall repairs at Quadra Village Community Centre
- Repair/replace window sealant for Greater Victoria Library Association
- Install backflow preventer at Pandora Administration and Centennial Arcade buildings
- Access control enhancements at Beacon Hill Park Administration Building
- Parkade upgrades (Bastion Square, View Street, Centennial, Johnson Street)
- Fountain condition assessment and maintenance audit

## **Performance Metrics – Parks Arboriculture**

| Measuring Success – Number of Trees | Maintained   |                  |               |  |  |  |  |
|-------------------------------------|--|------------------|---------------|--|--|--|--|
| Performance Measurements            | 2014 Actuals   | 2015 Projections | 2016 Forecast |  |  |  |  |
| 1. How much did we do?              | 1. How much did we do?   |                  |               |  |  |  |  |
| Total number of trees               | 33,564   | 33,576           | 33,676        |  |  |  |  |
| 2. How well did we do it?           |  |                  |               |  |  |  |  |
| Total number of tree limb failures  | 125  | 105              | 180           |  |  |  |  |
| Story behind the data               | There are a number of factors which can contribute to the failure of a tree on public property. Significant failure can have serious consequences to individuals and property. A system of identification, inspection and pro-active measures to mitigate risks associated with failure are key elements to effectively manage a large urban forest. |                  |               |  |  |  |  |
| 3. Is anyone better off?            |  |                  |               |  |  |  |  |
| Story behind the data               | Canopy coverage has important benefits in an urban environment, influencing the level of health and comfort of residents, biodiversity, and the life cycle of other natural assets. As the city grows to meet its OCP goals relating to increased densification, it will be important to monitor changes in coverage across the city.                |                  |               |  |  |  |  |
| Where do we want to go?             | Maintaining and over the long-term growing the canopy coverage beyond the existing level would be beneficial, which would be evidenced by a reduction of tree limb failures.   |                  |               |  |  |  |  |

## **Performance Metrics – Parks Arboriculture**

| Measuring Success – Survival rate of r           | new trees  |                  |       |       |  |
|--|--|------------------|-------|-------|--|
| Performance Measurements                         | 2014 Actuals   | 2015 Projections | 2016  | ecast |  |
| 1. How much did we do?                           |  |                  |       |       |  |
| Total number of young trees<br>(7 years or less) | 1,250  | 1,250            | 1,250 |       |  |
| 2. How well did we do it?                        |  |                  |       |       |  |
| Survival rate (%) of new trees planted           | New metric   |                  |       |       |  |
| Story behind the data                            | The City is beginning to track the survival rate of new trees planted as a measure of the success of the process to establish new trees in the City.   |                  |       |       |  |
| 3. Is anyone better off?                         |  |                  |       |       |  |
| Story behind the data                            | Currently, the City is losing trees nearing the end of the young tree maintenance (watering) program. For years 1-3 on the establishment program, young trees are watered weekly; years 3-5, watered biweekly; and 5-7 years monthly.  This program is designed to help trees establish, without water dependency. Over the course of 5-7 years, the supplemental watering is reduced in order to 'harden off' the tree and support the tree in developing strong roots, capable of supporting the tree. Climate change and water stress is having an effect on our establishment rates. |                  |       |       |  |
| Where do we want to go?                          | Through species selection, a robust watering program and small tree maintenance, our target is for a 95% survival rate of new trees.   |                  |       |       |  |

| Measuring Success – Playground Main                     | tenance  |                  |               |  |
|---|--|------------------|---------------|--|
| Performance Measurements                                | 2014 Actuals   | 2015 Projections | 2016 Forecast |  |
| 1. How much did we do?                                  |  |                  |               |  |
| Total number of playground maintained                   | 40   | 40               | 40            |  |
| 2. How well did we do it?                               |  |                  |               |  |
| Total number of playground inspected                    | 480  | 480              | 480           |  |
| Total investment in playground replacement in thousands | 283  | 207              | 340           |  |
|   | Playgrounds are visited weekly for routine maintenance and inspected monthly in compliance with CSA safety standards.  |                  |               |  |
| Story behind the data                                   | The Parks Master Plan initiated in 2015 will provide the opportunity to determine if the City currently has the correct number of playgrounds to meet user needs.  |                  |               |  |
| 3. Is anyone better off?                                |  |                  |               |  |
| Story behind the data                                   | Playgrounds are an important feature in our communities. Having safe, reliable, fun and creative equipment encourages children and families to be active. Adult fitness equipment is a new feature that has been installed beside or along with new playgrounds, further encouraging whole families to be active together.   |                  |               |  |
|   | The Industry standard for replacement of playground equipment is typically 10-15 years. This would result in 3 playgrounds being replaced each year.   |                  |               |  |
|   | Currently the City is replacing 2 playgrounds per year, which corresponds to a playground replacement schedule of 15 – 20 years. To maintain compliance with safety standards, sections of playground equipment are decommissioned when they become unsafe as determined through routine maintenance and inspection.         |                  |               |  |
| Where do we want to go?                                 | Regular and proactive maintenance is required to ensure that the longer lifecycles are achieved. Capital investment into playgrounds will be reviewed and prioritized based on thorough condition assessments that will be completed as part of the asset inventory and condition assessment that is proposed in early 2016. |                  |               |  |

## **Performance Metrics – Parks Infrastructure, Natural Areas**

| Measuring Success – Natural Areas |   |                  |            |  |
|-----------------------------------|---|------------------|------------|--|
| Performance Measurements          | 2014 Actuals  | 2015 Projections | 2016 ecast |  |
| 1. How much did we do?            |   |                  |            |  |
| Total area of natural areas (ha)  | 72  | 72               | 72         |  |
| 2. How well did we do it?         |   |                  |            |  |
|                                   |   |                  |            |  |
| Story behind the data             |   |                  |            |  |
| 3. Is anyone better off?          | <u> </u>  |                  |            |  |
|                                   | There are over 100 species at risk in Garry Oak ecosystems on Southern Vancouver Island; not all are found in our parks, but rare species can be found across the parks system.   |                  |            |  |
|                                   | Species at risk: Deltoid Balsamroot, Dense-flowered Lupine, Prairie Violet, Purple Sanicle, Howell's Triteleia  |                  |            |  |
| Story behind the data             | Other rare species in our parks system: Fern-leaved Lomatium, Blue Violet, Chocolate Lily, Yampah, Monkey Flower, Satinflower, Shooting Star(s)   |                  |            |  |
|                                   | There are many human and environmental factors that impact species at risk and staff follow the Federal Species at Risk Act in order to help protect these plant species.   |                  |            |  |
| Where do we want to go?           | Actively work to protect and increase the populations of SARA protected and other rare native plants on City of Victoria land. Provide leadership, education and guidance to the public and property owners to preserve and protect rare native plants in our City. |                  |            |  |

| Performance<br>Measurements  | 2014 Actuals  | 2015 Projections | 2016 Forecast |  |  |
|--|---|------------------|---------------|--|--|
| 1. How much did we de  | 0?  |                  |               |  |  |
| Number of program<br>registrants   | 5,223   | 5,500            | 5,700         |  |  |
| Number of drop-in<br>participants  | 15,225  | 15,500           | 15,500        |  |  |
| Number of children who learned to swim   | 1,929   | 2,000            | 2,000         |  |  |
| % of registrants online  | 7.6%  | 26%              | 27%           |  |  |
| 2. How well did we do  | it?   |                  |               |  |  |
| % Increase of program registrants over prior year  | 5%  | 5%               | 5%            |  |  |
| % increase of drop-in participants over prior year (not a lot of change expected for drop-ins) | 0%  | 0%               | 0%            |  |  |
| % increase of online registrations over prior year   | 1%  | 1%               | 1%            |  |  |
| Story behind the data  | The City is developing its programming to increase programs offered and target trends. Demand for swimming is growing, however facility capacity limits the City's ability to meet this demand.  Online registration was launched August 18, 2014. Since that time, revenue from registrations has increased by a very similar percentage. We conclude that initially, the availability of online registration attracted more business, rather than exclusively shifting existing customers from other registration methods. We anticipate this percentage will increase modestly over time as customers shift their preferred method of registration |                  |               |  |  |

|                         | Number of registrants not able to get into a registered program  |                |      |  |  |
|-------------------------|--|----------------|------|--|--|
|                         | 2014   | 2015           | 2016 |  |  |
| Story behind the data   | 215/74 courses   | 300/83 courses | 200  |  |  |
| Story bening the data   | A decline in the data would show an improvement in getting registrants into programs where there may previously have been waitlists, and should correlate to increased participation. A decline in waitlists will indicate suitable levels of service to meet demand. The projected increase in 2015 is a result of a higher than anticipated demand for summer camps. |                |      |  |  |
| Where do we want to go? | Ongoing attention to expanding programs where demand exceeds supply and reducing programs where there is declining interests aligns participant interests with service levels, encouraging a more active community. In particular, the summer camp offerings will be reviewed and adjusted to meet the demand.   |                |      |  |  |

| Measuring Success – I   | L.I.F.E. Program   |   |               |  |  |
|---|--|---|---------------|--|--|
| Performance<br>Measurements   | 2014 Actuals   | 2015 Projections  | 2016 Forecast |  |  |
| 1. How much did we d  | 0?   |   |               |  |  |
| Total Number of Life<br>Participants                                  | 2,979  | 3,000   | 3,000         |  |  |
| 2. How well did we do   | it?  |   |               |  |  |
| Percentage of L.I.F.E. participants of those eligible for the program | 16.4   | 16.5  | 16.5          |  |  |
| Story behind the data   | In 2013, we joined our municipal partners in requiring proof of income and the result was a drop in applicants by an average of 450. Since then the applicant total has stabilized in the 2900-3000 range. |   |               |  |  |
| 3. Is anyone better off   | ?  |   |               |  |  |
| Story behind the data   | Improving awareness and participation contributes to creating a healthy community.   |   |               |  |  |
| Where do we want to go?   | program would indicate suc   | Increase in percentage of eligible individuals participating in the L.I.F.E. program would indicate success of increased awareness of this program to eligible individuals through outreach, advertising and marketing. |               |  |  |

| easuring Success – Horticultu   | re Maintenance   |  |               |  |  |
|---|--|--|---------------|--|--|
| Performance Measurements  | 2014 Actuals   | 2015 Projections                       | 2016 Forecast |  |  |
| 1. How much did we do?  |  |  |               |  |  |
| Total Area of Annual<br>Horticultural Displays<br>Maintained in sq.m. | 2700   | 2700                                   | 2700          |  |  |
| 2. How well did we do it?   |  |  |               |  |  |
| Horticultural Maintenance<br>Cost per sq.m. in \$                     | N/A  | \$ 94                                  | \$96          |  |  |
| Story behind the data   | There are 2700 square metres of annual horticultural displays in the City. Annuals are planted twice/year to create interesting summer and winter displays. All annual plants are grown in the City nursery. |  |               |  |  |
| 3. Is anyone better off?  | ļ.   |  |               |  |  |
|   | Survival rate of annual  | Survival rate of annual plants is 98%. |               |  |  |
| Story behind the data   | The quality of the plant material and the selection of the species are controlled by growing them in city facilities. The result is an exceptionally high survival rate (industry standards are around 88%). |  |               |  |  |
| Where do we want to go?   | High quality plant materials allows for exceptional displays as well as efficiency in labour costs re-planting for failures does not occur.  |  |               |  |  |

Business Unit: 2165 - FAC- Parks Facilities

**Department:** Parks, Recreation and **Budget Year:** 

Facilities

### Overview:

The function of this Business Unit is to provide day to day preventative and corrective maintenance for 42 parks buildings and structures. This unit works to maximize the use and life of City owned parks buildings.

2016

- Maintain, service and operate lighting, plumbing, cross connection control, heating, boilers, building automation systems, asset software, ventilating and air conditioning systems and fixtures by checking and adjusting pressures, lubricating pumps and motors, replacing belts, filters and gaskets and checking temperatures.
- Test and adjust chemical balance in heating system water, test life safety equipment such as emergency lighting, fire extinguishers and back-up generators.
- Coordinate fire alarm preventative maintenance and repair.
- Perform routine repairs and adjustments to building fabric and related systems such as interior walls, ceilings, flooring, furniture, roofing, windows, and overhead/interior/exterior doors.
- Issue and modify electronic staff security card passes; create and print building access activity reports.
- Respond to service request which include such things as malfunctioning light fixtures, temperature adjustments, vandalism, broken appliances (stoves, fridges, dishwashers), and plugged toilets.
- Coordinate the work of graffiti removal contractors.
- Coordinate and review carpentry/painting tasks as well as pest control services.
- Perform routine plumbing and electrical repairs while coordinating larger repairs.

This Business Unit also funds the utility costs associated with the 42 parks buildings and structures. This includes electricity, gas, and alarm monitoring.

### **Deliverables:**

- · Weekly lighting, heating, ventilation and building fabric inspections
- · Weekly graffiti removal services
- · Monthly life safety equipment checks including emergency lighting, exit signage and fire alarm systems
- Monthly back-up generator test and pest control inspections
- Over 50,000 sq/ft. of facilities maintained by 0.6 FTE
- Approximately 75% of maintenance is scheduled/routine maintenance and 25% of the maintenance is reactive (in response to breakdowns)

Facilities

### Overview:

The function of this Business Unit is to provide day to day preventative and corrective maintenance for five Parkades.

- Maintain, service and operate, lighting, plumbing, cross connection control, heating, building automation, asset management software, ventilating and air conditioning systems and fixtures, by checking and adjusting pressures, lubricating pumps and motors, replacing belts, filters and gaskets and checking temperatures.
- Test life safety equipment such as, emergency lighting, and fire extinguishers.
- Perform routine repairs and adjustments to building fabric and related systems such as, interior walls, ceilings, flooring, furniture, roofing, windows, and overhead/interior/exterior doors.
- Respond to service request which include such things as malfunctioning light fixtures, temperature adjustments, vandalism, and plugged toilets.
- Coordinate the work of graffiti removal employees.
- · Maintain and repair five elevators.
- Coordinate and review, carpentry and painting tasks, as well as pest control services.
- Perform routine, plumbing and electrical repairs, while coordinating larger repairs.

This Business Unit also funds utility costs associated with the 5 parkades. This includes electricity and operating permits.

### **Deliverables:**

- · Weekly, lighting, heating, ventilation and graffiti, inspections
- · Monthly elevator maintenance
- Monthly life safety equipment checks including, emergency lighting, exit signage and fire alarm systems
- · Monthly pest control services
- Over 530,000 sq./ft. of parkade maintained by 0.5 FTE
- Approximately 75% of maintenance is scheduled/routine maintenance and 25% of the maintenance is reactive (in response to breakdowns)

Business Unit: 2175 - FAC- Community Centres

**Department:** Parks, Recreation and **Budget Year:** 2016

**Facilities** 

### Overview:

The function of this Business Unit is to provide day to day preventative and corrective maintenance for eight community centers.

- Maintain, service and operate lighting, plumbing, cross connection control, heating, boilers, building automation systems, asset software, ventilating and air conditioning systems and fixtures by checking and adjusting pressures, lubricating pumps and motors, replacing belts, filters and gaskets and checking temperatures.
- Test life safety equipment such as emergency lighting, fire extinguishers and back-up generators.
- Coordinate fire alarm and sprinkler system preventative maintenance and repair.
- Perform routine repairs and adjustments to building fabric and related systems such as interior walls, ceilings, flooring, furniture, roofing, windows, and overhead/interior/exterior doors.
- Respond to service request which include such things as malfunctioning light fixtures, temperature adjustments, vandalism, broken appliances (stoves, fridges, dishwashers), and plugged toilets.
- · Maintenance and repair of one elevator.
- Coordinate and review carpentry/painting tasks as well as pest control services.
- Perform routine plumbing and electrical repairs while coordinating larger repairs.

This Business Unit also funds the utility costs associated with the community centers. This includes electricity, gas, operating permits and alarm monitoring.

### **Deliverables:**

- Weekly lighting, heating, ventilation and building system inspections
- Monthly life safety equipment checks including emergency lighting, exit signage and fire alarm systems
- · Monthly back-up generator test, pest control and preventative maintenance tasks
- Over 75,000 sq./ft. of community centers maintained by 1 FTE
- Approximately 75% of maintenance is scheduled/routine maintenance and 25% of the maintenance is reactive (in response to breakdowns)

Facilities

### Overview:

The function of this Business Unit is to provide day to day preventative and corrective maintenance for three fire halls and one police station.

- Maintain, service and operate, lighting, plumbing, cross connection control, heating, boilers, chillers, cooling
  towers, building automation systems, asset software, ventilating and air conditioning systems and fixtures by
  checking and adjusting pressures, lubricating pumps and motors, replacing belts, filters and gaskets and
  checking temperatures.
- Test and adjust chemical balance in heating system water, test life safety equipment such as, emergency lighting, fire extinguishers and back-up generators.
- Coordinate fire alarm and sprinkler system preventative maintenance and repair.
- Perform routine repairs and adjustments to, building fabric and related systems such as interior walls, ceilings, flooring, furniture, roofing, windows, and overhead/interior/exterior doors.
- Issue and modify electronic staff security card passes; create and print building access activity reports.
- Respond to service requests which include such things as malfunctioning light fixtures, temperature adjustments, vandalism, broken appliances (stoves, fridges, dishwashers), and plugged toilets.
- Maintenance and repair of three elevators.
- Coordinate and review carpentry and painting tasks as well as pest control services.
- Perform routine plumbing and electrical repairs while coordinating larger repairs.

This Business Unit also funds the utility costs associated with protection services buildings and structures. This includes, electricity, gas, operating permits and alarm monitoring.

### **Deliverables:**

- · Weekly lighting, heating, ventilation and building systems checks
- · Monthly life safety equipment checks including, emergency lighting, exit signage and fire alarm systems
- Over 140,000 sq./ft. of facilities maintained by 1.5 FTE
- Approximately 75% of maintenance is scheduled/routine maintenance and 25% is reactive (in response to breakdowns)

Facilities

### Overview:

The function of this Business Unit is to provide day to day preventative and corrective maintenance for City of Victoria corporate offices including City Hall, Centennial Arcade, Centennial Square and 625-633 Pandora Ave.

- Maintain service and operate lighting, plumbing, cross connection control, heating, boilers, building
  automation systems, asset software, ventilating and air conditioning systems and fixtures by checking and
  adjusting pressures, lubricating pumps and motors, replacing belts, filters and gaskets and checking
  temperatures.
- Test and adjust chemical balance in heating system water, test life safety equipment such as emergency lighting, fire extinguishers and back-up generators.
- Coordinate fire alarm preventative maintenance and repair.
- Perform routine repairs and adjustments to building fabric and related systems such as interior walls, ceilings, flooring, furniture, roofing, windows, and overhead/interior/exterior doors.
- Issue and modify electronic staff security card passes; create and print building access activity reports.
- Respond to service request which include such things as malfunctioning light fixtures, temperature adjustments, vandalism, broken appliances (stoves, fridges, dishwashers), and plugged toilets.
- · Coordinate the work of graffiti removal staff.
- · Maintenance and repair of 1 elevator and 1 lift.
- Coordinate and review carpentry/painting tasks as well as pest control services.
- Coordinate the security services for the public washroom and the Centennial Square.
- Perform routine plumbing and electrical repairs while coordinating larger repairs.

This Business Unit also funds the utility costs associated with the corporate offices. This includes electricity, gas, operating permits and alarm monitoring.

## **Deliverables:**

- Weekly lighting, heating, ventilation and building system inspections
- · Monthly life safety equipment checks including emergency lighting, exit signage and fire alarm systems
- Monthly back-up generator test and pest control inspections
- Over 60,000 sq./ft. of corporate offices maintained by 1.4 FTE
- Approximately 75% of maintenance is scheduled/routine maintenance and 25% of the maintenance is reactive (in response to breakdowns)

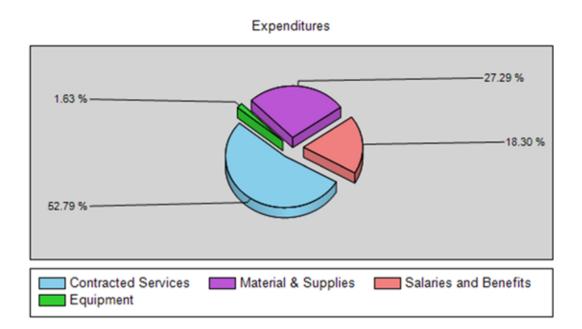

Business Unit: 2190 - FAC-Corporate Offices

### Business Unit: 2195 - FAC-Minor Maintenance Projects

**Department:** Parks, Recreation and **Budget Year:** 2016

**Facilities** 

#### Overview:

Funds from this Business Unit finance the following maintenance projects for over 75 buildings and 10 misc. structures (1.3 million sq. ft.)

- Emergency maintenance repairs and system failures.
- Minor safety related projects (from various City Safety Committees, etc.)
- Minor new, code or legislation, mandated projects.
- · Software licensing.
- · Minor scheduled projects.

#### **Deliverables:**

2016 Projects:

Miscellaneous adds, moves, and changes - \$150,000 - office moves and changes throughout the budget period.

Corporate Signage - \$7,500 - as needed and requested through the year.

Ergonomic Improvements - \$7,500 - as requested from Health and Safety throughout the budget period.

Preventative Maintenance Program Update - \$50,000 - update data in the Cartegraph asset management software.

Fountain Condition Assessment and Maintenance Audit - \$7,500

Review asset condition and determine future work plan.

Beacon Hill Park Administration Building Proxy Card Installation - \$15,000

· Complete the proxy card installation on the administration building.

Public Washroom and Parks Outbuildings Rekey Program - \$13,000

· Hazard assessment for aged flooring.

Police Headquarters Railing Above Elevator Passenger Car - \$13,000

Install safety railing above both passenger elevators to comply with new code.

Firehall 3 Drafting Pit Study- \$7,500

· Determine feasibility and cost for future drafting pit.

Burnside Gorge Community Centre Exterior Lighting - \$15,000

• Upgrade lighting to energy efficient LED.

Burnside Gorge Community Centre Cabinet Hardware - \$2,500

Replace cabinetry hardware.

Fernwood Community Centre Security Fencing Around Dumpster - \$5,000

Install concrete pad and security fencing for dumpsters.

Fernwood Community Centre Sound Reduction in the Daycare - \$5,000

Install sound dampening panels in the daycare.

Quadra Village Community Centre New Urinal Wall - \$3,500

Replace damaged wall.

Pandora Administration Building Back Flow Preventer - \$6,000

· Add a back flow preventer to the main water supply for the building.

Centennial Arcade Building Back Flow Preventer - \$6,000

· Add a back flow preventer to the main water supply for the building.

Greater Victoria Library Association Window Joint Sealant - \$5,000

· Repair/replace structural joint sealants as required.

Miscellaneous Repairs and Projects - \$187,921

- Emergency maintenance repairs and system failures.
- Minor safety related projects (from various City Safety Committees, etc.)
- Minor new, code or legislation, mandated projects.

Business Unit: 2195 - FAC-Minor Maintenance Projects

Business Unit: 5000 - Parks and Recreation Admin

**Department:** Parks, Recreation and **Budget Year:** 

Facilities

### Overview:

The Parks and Recreation Department is responsible for the overall provision of the following services:

• The operation of Crystal Pool & Fitness Centre and community recreation programming (e.g., adult fitness and wellness, children and youth activities, swimming, and child and youth camps)

2016

- The operation and maintenance of Royal Athletic Park (outdoor stadium) and 45 sports fields, 39 playgrounds, 23 tennis courts, 17 public washrooms, 1 lacrosse box, 1 skateboard park, and 1 bicycle park.
- The management and maintenance of over 190 hectares of park land and the operation of Ross Bay Cemetery.
- The management of the urban forest (approx. 32,500 city-owned trees).
- Oversees the operating agreement and manages the community recreation time at Save-On-Foods Memorial Centre.
- Oversees the agreements and funding for community and seniors centres and grant funding for neighbourhood associations.
- Manages 300 kms of city-owned boulevards.
- Operate and develop city trails and greenways program including David Foster Harbour Parhway.
- Maintains over 133 horticultural displays and over 1400 hanging baskets.

This business unit funds the overall administration for the Parks and Recreation Department. Salary, benefits, travel and professional development are included in this business unit as well as costs associated with office supplies, maintenance and operations of the department office.

### **Deliverables:**

Delivers strategic plan priorities and core services as per the department's operational plan and program area work plans.

Provides advice to Council on ongoing and emerging issues and in the development of strategic plan priorites. Responds to the public and Council in a timely manner.

Guide, develop and approve operational plans, work plans and budgets that align with the City's strategic plan.

Develop policies, procedures and standards for the delivery of services.

Respond to and/or assign approximately 4000 calls-for-service

Procurement of contracted services and supplies

Financial Management for the department including preparation of budgets and accurate and timely entry of expenditures and revenues and analysis of expenditures.

Administration for interments, burials and record keeping for Ross Bay Cemetery.

Hiring, training and development of staff.

Preparation and delivery of Council reports.

Responses to public complaints and Council enquiries.

Business Unit: 5015 - Parks Design Admin

**Department:** Parks, Recreation and

**Facilities** 

Budget Year:

2016

#### Overview:

Parks planning and design activities staff develop plans, strategies and policies to guide investment into and use of the park and open spaces in the City, including addressing the demands for new uses and trends in recreation and park use. This unit reviews and provides comment on development and other permit applications as well as City and regional projects that have the potential to impact the City's parks and open spaces.

This business unit is also responsible for overseeing the tree preservation bylaw.

### **Deliverables:**

- Development of plans, strategies and policies as approved in workplans
- Planning and design of two playground replacement projects per year
- Parks Master Plan development
- Planning and design of parks related active transportation projects
- Design of various park upgrades as approved in annual capital budgets
- Review all development related and other various permit applications
- Review trees on private land and issue tree permits for protected trees
- Review other City projects for impacts to park assets (boulevards, trees, etc.)
- Provide parks input into City-led or other jurisdictional planning projects (i.e. local area planning, CRD Regional Trails Planning, etc.)

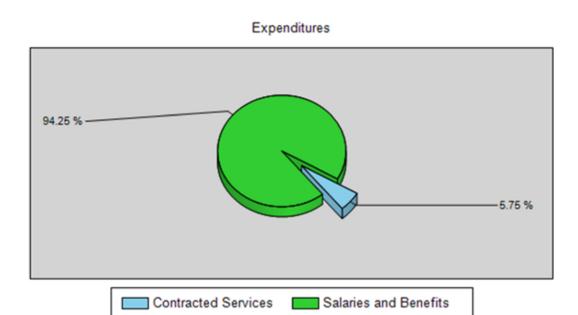

Business Unit: 5015 - Parks Design Admin

Business Unit: 5060 - Arboriculture

**Department:** Parks, Recreation and **Bud** 

Facilities

Budget Year: 2016

#### Overview:

An urban forest includes all of a community's trees, shrubs and groundcover, and the soils in which they grow. Parks, natural areas, boulevards and residential gardens are examples of some of the many and diverse treed areas that make up Victoria's urban forest.

Victoria's urban forest has approximately 150,000 trees. The City of Victoria manages 33,576 of these trees within its parks and boulevards.

This business unit contains all of the activities required to maintain and manage the urban forest, including planting trees, young tree maintenance, pruning, mulching, removals (including stump grinding), branch pick-up and the maintenance of a tree inventory.

Implementation of the Urban Forest Master plan is included as a key activity.

#### **Deliverables:**

Maintain 33,576 public trees in Parks and on streets/boulevards.

Respond to 1000+ calls for service each year, including emergency response.

Plant 250 trees annually; maintain 1500 trees on a young tree maintenance program.

Prune 600+ trees /year

Removal of dead, unhealthy and damaged trees

Maintain the accuracy of the tree inventory

Business Unit: 5065 - Horticulture and Beacon Hill Park

**Department:** Parks, Recreation and **Budget Year:** 

**Facilities** 

#### Overview:

The services provided in this business unit include the overall maintenance, planning and design of the horticultural plantings throughout the City as well as the full maintenance of Beacon Hill Park. Key activities include the hanging basket program, providing a variety of interesting perennial and annual plantings throughout the city, maintenance of city boulevard plantings, and implementation of the recommendation in the Beacon Hill Park management plan and the Heritage Landscape Management Plan.

2016

### **Deliverables:**

Design, planting and maintenance of:

- 133 horticultural displays
- 1400 hanging baskets
- over 200 boulevard shrub plantings
- 35 park shrub beds
- beds and landscaping around City Hall, VicPD, Crystal Pool, VCC, Fire halls and Community Centres

#### Nursery operation

- 99,000 annual plants
- 800 poinsettias
- orca display
- · overwintering of sensitive plants

#### Beacon Hill Park

- · mowing of all turf areas
- · natural areas annual mowing
- maintenance and cleaning of ponds
- maintenance of hard infrastructure
- rose garden maintenance
- planning and design of improvements to the park (Bridges, plantings, bed renovations etc)

Business Unit: 5065 - Horticulture and Beacon Hill Park

### Revenues

### Expenditures

Business Unit: 5070 - Parks Infrastructure

**Department:** Parks, Recreation and

**Facilities** 

Budget Year: 2016

#### Overview:

The Parks Infrastructure unit maintains the hard infrastructure/assets in parks, including fences, playgrounds, outdoor exercise equipment, benches, picnic tables, bleachers, pathways, signage, skateboard park, sports courts & sports equipment (backstops, goal posts, etc).

The primary function is to provide safe amenities for the parks users, sports groups and special event organizers and to maintain parks assets.

Irrigation crews repair and maintain irrigation systems and operational upgrade/compliance upgrades. They respond to 385 irrigation-related calls for service.

Annual start- up and winterization of irrigation systems, water parks and drinking fountains. Draining of Park toilets during freezing weather.

Protecting the City's potable water supply is achieved through the installation and testing of over 614 backflow preventers at over 600 points of connection.

#### **Deliverables:**

Maintain fences, paths, retaining walls, bleachers, benches, picnic tables, backstops, goal posts across

- 2 waterparks
- 40 playgrounds
- 5 outdoor fitness locations
- 40 sports courts (tennis, basketball, hockey)
- 72 parks

### also maintain

- 23 drinking fountains
- 614 backflow preventers
- 601 irrigations systems of varying sizes and complexities

Deliver weekly maintenance and monthly inspections of playgrounds and outdoor exercise equipment.

Department: Parks, Recreation and

Facilities

**Budget Year:** 

2016

#### Overview:

The City offers a maintenance service to mow, trim, fertilize and edge boulevard grass areas. A service fee is applied to a property owner's tax bill as a 'boulevard tax' and it is adjusted annually to cover costs. Dependent upon the size of boulevard that fronts a property, an owner could pay from \$30 up to \$575 per year to have the City maintain the boulevard. Property owners can choose to opt out of this service and do their own maintenance, or opt in to receive this service.

This business unit funds costs associated with care and maintenance of taxed boulevards.

### **Deliverables:**

The Boulevard Tax program includes the provision of:

- Turf cut and trimmed 17 times/year (133 km of frontages)
- Fertilizing 2x per year
- · Leaves blown off and picked up during Fall / Winter
- · Edging every 2nd year
- Top-dressing as required in March/April, 35 m3 of soil annually + seed
- Re-turfing as necessary

Business Unit: 5080 - Natural Resources

**Department:** Parks, Recreation and **Budget Year:** 

Facilities

#### Overview:

Approximately 40% of Victoria's parks and open spaces are managed as natural areas. Natural areas play a significant role in the overall health of the urban ecosystem and provide critical habitat for many wildlife species. The management of natural areas contributes to protecting many "species at risk" that are identified in federal legislation. Natural areas also contribute to the overall management of storm water.

2016

The purpose of the activities in this business unit is to maintain, enhance and restore the natural areas for the enjoyment of the residents and the public. The activities carried out under this business unit include seed collecting, propagating and planting of and threatened native species and protecting their habitats, invasive plant removal, public education and restoration of natural areas.

This work unit also is responsible for working with local municipalities, provincial and federal government staff to coordinate priorities for invasive species management and directly monitors, manages and/or removes known and potential invasive species in parks and private lands.

Work is in part determined by the British Columbia Noxious Weed Act and the Federal Species at Risk Act

### **Deliverables:**

- remove up to 20 different invasive weed species across 72.018ha of natural area
- 900 native plants propagated and planted
- protect 12 plant species at risk
- release beneficial insects to control aphid populations
- deliver up to 10 educational sessions
- treat knotweed on public and private lands

#### Overview:

Ross Bay Cemetery, named for its unique oceanside location at Ross Bay, has been in continuous use since 1872 and is maintained and managed by the City of Victoria.

2016

This business unit funds the care and maintenance of Ross Bay Cemetery, a 28 acre heritage site and working cemetery. The maintenance and investment into the cemetery honors the commitment to the plot owners and preserves the history for the residents and visitors to Victoria

### **Deliverables:**

- Maintain 18 acres of grass, including mowing and edging, pruning 845m of perimeter hedging, collecting leaves/needles from the 1,102 trees within the cemetery, removing invasive plants and maintaining understory of treed area between Cemetery & Dallas Road
- Oversee 16,000 curbs and headstones and undertake annual maintenance involving leveling and replacing aging grave curbing and headstones.
- Perform an average of 25 ash and 5 casket internments annually.
- Provide customer service to funeral homes pre/post burials. Provide customer service to people visiting grave sites (including assisting with water service and/or locating the grave site customers wish to visit).
- Oversee approximately 600 perpetual maintenance plots with support of the Commonwealth War Graves Commission, an organization providing funding for specific levels of care for the 65 burial sites of soldiers and veterans in Ross Bay Cemetery.

Business Unit: 5105 - Parks Master Plan

**Department:** Parks, Recreation and

**Facilities** 

Budget Year:

2016

#### Overview:

The City of Victoria Strategic Plans identifies the need for a parks master plan to guide investment and detailed planning for the parks system. This plan will build off of previous draft plans and will outline the actions and strategies necessary to further the 2015 - 2018 strategic plan actions and outcomes. Key components of the plan will include the development of a vision, goals, objectives, investment strategy and gaps in the parks system. This process will include a comprehensive public engagement process to help shape the outcomes and actions identified through the strategic plan.

### **Deliverables:**

Updated mapping and resource analysis.
Identification of gaps in parks and green space.
Final Parks Master Plan Document including priorities for park planning and investment.
Identification of three high profile projects for further development in 2016.
Engagement plan and summary of public input.

Service Area: Facilities Administration

**Department:** Parks, Recreation and **Budget Year:** 2016

**Facilities** 

#### Overview:

The function of Business Unit 2150 is to cover the Facilities Department's administrative costs. This includes inside and exempt salaries, vehicle rental costs, departmental training, office supplies, cellular phones etc.

- Project development and project management of City facilities capital projects, including contract administration
- Develop and administer the annual construction, renovation and repair program for municipal buildings and structures.
- Administer both the annual program and emergent projects in response to corporate and departmental requests.
- Conduct building assessments, conduct site inspections, allocate and monitor expenses.
- Develop strategic plan and tracking system.
- Providing project management services to other sections and city departments for capital projects (approximately 1 FTE).
- Manage and operate 80 buildings and 10 miscellaneous structures/fountains.
- Administer annual furniture space planning program and emergent projects in response to corporate and departmental requirements.
- Determine Facility Condition Index (FCI)
- Liaises with contractors, and internal support teams (e.g. carpenters and painters)
- Coordinate and administer building maintenance, energy management and environmental programs and related maintenance capital projects.
- Coordinate, assign and review the work of six FTE building maintenance staff and numerous externally contracted services.
- Administer the building maintenance annual operational programs.
- Oversee the operation of building automation systems and the asset management software programs.
- Oversee building energy programs (research innovative technologies, reduce carbon footprint)
- Develop technical plans for office renovations to meet operational needs
- Perform routine furniture repairs
- · Coordinate the security programs including access control and security contracted services
- Fleet rental costs for department: two trucks, two vans, one smart car.

#### **Deliverables:**

Management of over City owned buildings encompassing over 1.3 million square feet

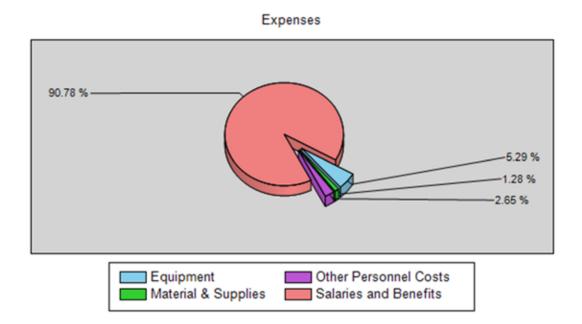

Service Area: Facilities Administration

Service Area: Facilities Administration

Service Area: Park Operations - Turf/Boulevards/Garbage/Caretaking

**Department:** Parks, Recreation and **Budget Year:** 2016

**Facilities** 

#### Overview:

This service area funds the costs associated with maintenance and improvement to all turf areas under the care of the City. Activities include mowing, trimming, fertilizing, regrading, turfing, seeding, top-dressing, root removal and growing support.

Caretaking functons are also undertaken by this work unit, which include public washroom cleaning, sports field change room cleaning, park garbage collection, general park clean up, stocking dog bag dispensers, tennis court and skate park surface maintenance.

Landscape construction work is also undertaken by this group along with operation of the organic material recycle/reuse program in the Parks Yard.

#### **Deliverables:**

During the growing season:

- Sports fields cut 2 times/week.
- Downtown area cut weekly
- Taxed boulevards cut on a 10 day working cycle

16 washrooms cleaned and re-stocked daily 400 garbage cans and 48 in-ground garbage collectors serviced 6,000 to 7,000 cubic meters of leaves picked up annually 1500+ Calls for Service responded to annually

Landscape Construction provides support to PW crews and assists with landscape projects undertaken in Parks.

Service Area: Crystal Pool and Fitness Centre

**Department:** Parks, Recreation and **Budget Year:** 2016

Facilities

#### Overview:

Crystal Pool and Fitness Centre delivers and facilitates a variety of recreation programs and services to the community. These services meet the diverse cultural, recreational, educational and information needs of the community. These programs and services promote community well-being, enhance the quality of life for citizens and support a healthy, vibrant, positive and strong community.

Customer service staff facilitate patron access by aligning program and service offerings with customer interests and goals. The key programs and services offered include both registered and drop-in health and wellness, fitness, personal training and aquatic programs. The LIFE program (Leisure Involvement for Everyone) is offered to low income individuals and families which provides access to drop-in and registered programs. Services are enhanced through providing child minding for people using the facility.

Crystal Pool and Fitness Centre is the home training facility for eight youth, adult and masters swim clubs.

#### **Deliverables:**

- 250,000+ visits annually
- 3000 participants in LIFE program
- 3000 registered participants in 900 aquatic courses
- 1900 children developed swimming skills
- Up to 30 registered dryland fitness and wellness programs delivered each session
- 108 operating hours per week (Sept-June)
- 104 operating hours per week (July/August)
- 24 hours per week of weight room supervision
- 17 drop-in aquatic fitness classes offered per week with annual attendance of 9000
- 21 drop-in aerobic fitness classes offered per week with annual attendance of 6500
- Building and pool system preventative maintenance program implemented according to daily, weekly, monthly and annual schedules

Service Area: Crystal Pool and Fitness Centre

#### Revenues

#### Expenses

Service Area: Royal Athletic Park

**Department:** Parks, Recreation and

Facilities

Budget Year: 2016

#### Overview:

A multi-purpose, fully-lit, natural grass stadium, Royal Athletic Park provides practice and playing space for local and visiting teams, and also hosts major sports and special events.

The purpose of this business unit is to provide the Royal Athletic Park as a premium sports and event venue maintaining excellent customer service, operations, and safe conditions. Provides facility and event coordination, administrative support to events including door staff, ticket staff, and support to major tenants (e.g., Harbourcats).

Concession and bar services are provided to events at Royal Athletic Park to enhance the customer experience.

All field maintenance and concession operations at Royal Athletic Park are delivered by City staff.

#### **Deliverables:**

- 60 sporting events
- 2 special events (Rifflandia 3 days; Great Canadian Beer Fest 2 days)
- 75 days booked (HarbourCats 36)
- 75,000 total attendance (HarbourCats 30,500)
- \$250,000 in food and beverage sales

Service Area: Royal Athletic Park

#### Revenues

#### Expenses

Service Area: Recreation Services

**Department:** Parks, Recreation and

Facilities

Budget Year: 2016

#### Overview:

Recreation services are provided through the delivery of programs and booking of facilities. These programs and services include: child and youth sport development programs, youth leadership development, child and youth summer camps, adult outdoor programs, skating lessons, public skating and facility bookings (sport fields, courts and community ice).

A key function of Recreation Services is the coordination of sports field and community ice allocations with user groups.

Coordination and delivery of recreation services in the region is accomplished through participation in the intermunicipal recreation committee which includes participation from all 13 municipalities in the Greater Victoria region. Some of the key deliverables include the seamless delivery of the LIFE program, the regional recreation pass, marketing initiatives, staff training and youth special events.

#### **Deliverables:**

- 350 sports field and hard court permits issued annually for a total of over 5,000 individual bookings
- 13,350 total hours of sports field use (including Royal Athletic Park)
- 24 ice/arena permits issued annually for community users
- 2000 summer camp participants
- Leadership and job skill training for youth through summer camp internships
- 1500 youth special event participants (Skate Comp., Film Fest., WipeOut)
- 720 hours of supervision at VicWest skate park
- 800 hours of youth volunteer time at community and special events
- Over 500 participants in outdoor adult recreation programs (e.g., kayaking and sailing)
- 3600 participants in skating programs (includes lessons, admissions and free skates)
- 2 Active Living Guides per year: Fall/winter and Spring/summer with a distribution volume 35,000 per edition
- Increased program participation through online registration

## **SUMMARY**

# Sustainable Planning and Community Development

Sustainable Planning and Community Development is key to supporting quality development and economic health of the city. The department is committed to the "triple bottom line" approach – balancing economic prosperity, social development and environmental sustainability in order to address Victoria's future. The department has a broad range of policy, regulatory and program responsibilities including: community and city-wide land use planning; urban design; heritage; planning applications including zoning, development and variance permits; demographic and other planning information services; and permitting and inspection services.

#### · Community Planning:

- City-wide and Local Area Planning
- Heritage Policy, Programs and Applications
- Heritage Alteration Permits, Heritage Designations and Tax Incentive Program Applications
- Urban Design

#### Development Services:

- Zoning/Rezoning including Community Association Land Use Committee processes
- Development and Variance Permits including support to Community Association Land Use Committees, Advisory Design Panel and Board of Variance
- Current Policy and Regulatory Initiatives

#### Permits and Inspections:

 Processing and decisions plus undertaking related inspections for Building Permits, Plumbing Permits, Electrical Permits, Signs; Advancing the proposed Building Bylaw

#### **Budget Summary**

## Sustainable Planning and Community Development

#### Proposed Initiatives for 2016

- Local area plans one for Burnside Gorge, and additional to be determined by Council in fall 2015
- New Zoning Bylaw for the Downtown Core Area
- Updates to Schedule C of the Zoning Bylaw to update parking standards
- Public Realm Plan for the Downtown Core Area
- City-wide building and infrastructure and condition assessment study
- Waterfront plan
- Implement Development Summit Action Plan

#### **Performance Metrics – Sustainable Planning & Community Development**

| Measuring Success –Develo  | pment Applicat   | ions Processing  |                   |   |  |  |
|--|--|--|-------------------|---|--|--|
| Performance Measur   | rements  | 2014 Actuals   | 2015 Projected    | 2016 Forecast                             |  |  |
| 1. How much did we do  |  |  |                   |   |  |  |
| Number of applications pro   | cessed   | 276  | 282               | 282                                       |  |  |
| 2. How well did we do it?  |  |  |                   |   |  |  |
| Development applications will be:  1) reviewed by an interdepartmental staff team (TRG) and coordinated comments will be sent to the applicant 2) presented to a Committee of Council, if no revision 3) presented to a Committee of Council, if some revisions 4) Board of Variance Applications will be presented to the Board of Variance for a decision  | within 4 wks of submission within 8-12 wks after Step 1 within 12-16 wks after Step 2 within 4-5 wks of submission | * Note: 2014 metrics pertained to rezoning applications only and the target was six weeks instead of four.  2014 stats need to be manually derived by reviewing each file – in progress  2014 stats need to be manually derived by reviewing each file | 75%<br>75%<br>75% | 75% or higher 75% or higher 75% or higher |  |  |
| The services provided by the Development Services Division are focused on processing development applications. A key component of the role of this Division is working with developers, CALUCs, the public and other City departments coordinating and managing the many "moving parts" of the development application processes. The metrics provided represent aspects of the process that are largely within City staff's control. Staff are working to further improve and streamline the process, and to better collaborate with applicants and CALUCs to support their contributing roles. |  |  |                   |   |  |  |
| 3. Is anyone better off?  Staff are working to address application timelines in various ways, including monitoring through the Development Tracker, reviewing operations to find efficiencies and exploring additional resources. This work is being undertaken in 2015, therefore, a modest improvement is forecast in the latter part of 2015 with more substantial progress anticipated for 2016.   |  |  |                   |   |  |  |

### Where do we want to go?

The goal is to reduce application processing times in 2016 and beyond, in order to meet customer needs in response to the feedback received at the annual Development Summits and to increase the percentage of applications that meet the reduced target turnaround times. A number of changes have already been implemented that have enabled staff to reduce the initial application review time from six to four weeks.

With the launch of the Development Tracker, data can easily be collected from mid-2015 for Rezoning Applications. As the Development Tracker is expanded in 2016 and onward, data for other application types will be easier to retrieve.

#### **Performance Metrics – Sustainable Planning & Community Development**

| Measuring Success – Perm   | its Processing (Building, E   | lectrical, Plumbing) |               |  |  |
|--|---|----------------------|---------------|--|--|
| Performance<br>Measurements                                      | 2014 Actuals  | 2015 Projected       | 2016 Forecast |  |  |
| 1. How much did we do  | 0?  |                      |               |  |  |
| # of permits issued  | 3452  | 3625                 | 3700          |  |  |
| 2. How well did we do  | it?   |                      |               |  |  |
| Percent of building permits that met target turnaround of 6 days | 92%   | 92%                  | 90%           |  |  |
| Story behind the data  | The services provided by the Permits & Inspections division support anticipated population and economic growth in the city, represented by the total number of permits processed per year. These permits had a total construction value of \$156,221,329 in 2014. This service supports Strategic Plan Objective 5: Create Prosperity Through Economic Development. |                      |               |  |  |
|  | The numbers reported above are based on manual tracking of building permit review times against building code only. There is not an on/off tracking procedure to permit a detailed review of processing times from start to finish. However, the building code review is a good benchmark in the absence of detailed information.                                   |                      |               |  |  |
| 3. Is anyone better off:   | ?   |                      |               |  |  |
| Story behind the data  | At this time there is not an automated and detailed process reporting feature in place. To be responsive to our customers' needs to process permits as efficiently as possible we need to understand where issues occur and where opportunity exists for improvement.   |                      |               |  |  |
| Where do we want to go?  | Implement full building perm times.   |                      | · · · · ·     |  |  |
|  | Where this information is a for permit processing target  | •                    |               |  |  |

Business Unit: 3200 - Permits and Inspections Admin

**Department:** Sustainable Planning and **Budget Year:** 2016

**Community Development** 

#### Overview:

This business unit provides administrative support to the building, plumbing and electrical inspection functions, including processing and circulation of permits.

Staff in this section provide administrative support to the permit and inspections functions, and direct customer service at the Development Centre including providing information related to permits and relevant bylaws. The support allows for an efficient process, ensuring inspectors and the Assistant Director, the Chief Building Officer under the BC Building Code, can focus on their area of expertise and responsibilities.

Permits and Inspections administrative staff book inspections, answer inquiries, conduct permit searches, approve certain sign permits (no variances), submit construction data to Stats Canada relating to building starts, and manage the construction permit records.

#### **Deliverables:**

- · 80% of permit record retrievals conducted within 2 business days, upon request
- respond to 80% of inquiries within 2 business days
- clerk available at all times Monday to Friday 8 to 4:30 at development centre

Business Unit: 3200 - Permits and Inspections Admin

Business Unit: 3210 - Building Inspection

**Department:** Sustainable Planning and **Budget Year:** 

**Community Development** 

2016

#### Overview:

This business unit works with property owners and contractors during the building process to review and approve building permits and (non-outright) sign permits.

The Building Inspection section ensures that construction is consistent with City requirements (zoning, bylaws, business licensing, site servicing, etc), BC Building Code, and health and safety standards. These regulations help prevent legal complications for property owners when trying to sell a home or business, and enable owners to ensure their property is safe for themselves and all occupants.

Staff in this area: carry out inspections of buildings relative to the permits issued; enforce Building Bylaw upon complaint, including stop work orders; and inspect properties to confirm compliance with Building Bylaw.

#### **Deliverables:**

- 75% of streamed building permits (such as blasting, strip-outs) reviewed and, if no outstanding issues, approved within 2 business days from receipt of complete application
- 75% of other streamed building permits for commercial tenant improvements (e.g retail stores or offices) reviewed and, if no outstanding issues, approved within 7 10 business days from receipt of complete application

Business Unit: 3220 - Plumbing Inspection

**Department:** Sustainable Planning and **Budget Year:** 

**Community Development** 

2016

#### Overview:

This business unit works with property owners and contractors during the construction process to review and issue plumbing permit plans and applications.

The Plumbing Inspection section carries out plumbing inspections to ensure compliance, and reviews plumbing and sprinkler installations for building permits.

Staff in this business unit verify that plumbing installations meet the Plumbing Code and the Plumbing Bylaw and, where applicable, are designed by Registered Professionals, and installed by licensed plumbing contractors.

This business units aims to safeguard water supply – improper plumbing installation can contaminate water supply; safeguard plumbing systems from sewer gas – improper installation may introduce sewer gas, which causes odour and safety concerns; and prevent sewer backup.

#### **Deliverables:**

- 75% of all plumbing permits issued within 2 business days of receiving complete application
- auditing 50% of all plumbing inspection requests on site
- 75% of all plumbing reviews for building permits within 2 business days of receiving the permit package during its circulation.

Business Unit: 3230 - Electrical Inspection

**Department:** Sustainable Planning and

Community Development

Budget Year: 2016

#### Overview:

This business unit works with property owners and contractors to review and issue electrical permits.

The Electrical Inspection section ensures that electrical installations are in compliance with permits, electrical bylaw, and provincial safety standards, and that electrical products are meeting safety standards when installed under permits.

Staff in this area carry out inspections of buildings relative to the permits issued. The electrical inspectors are also Local Safety Officers under the Electrical Safety Standards Act and Regulation. This allows them to recommend to BC Hydro to shut off power to a building if deemed unsafe.

#### **Deliverables:**

- 75% of all electrical permits issued within 2 business days of receiving complete application
- · auditing 25% of all inspection requests on site
- 75% of all electrical reviews for building permits within 2 business days of receiving the permit package during its circulation

Business Unit: 3500 - Development Services

**Department:** Sustainable Planning and **Budget Year:** 2016

**Community Development** 

#### Overview:

This business unit's key focus is managing land use change and development in the City. Staff provide clients with effective development approval processes, and professional advice and information to help ensure that land use and development in the City is in keeping with approved regulations, plans and policies. The division is future-oriented, considering the needs of tomorrow as well as those of today. Development Services provides planning and land use regulations and information services as they related to the Zoning Regulation Bylaw, Development Permit Areas, Land Use Contracts and Master Development Agreements. This area coordinates reviews of applications with consideration of items such as site servicing (sewer, water, transportation), landscaping, tree protection, building and fire code compliance, consistency with City policy and regulations.

This area ensures up to date and accurate information is provided in the Zoning Bylaw, Development Permit Areas, Official Community Plan and Neighbourhood Plans; processes Board of Variance (BOV) applications and provides administrative support to the BOV; and provides professional and administrative staff support to Council's advisory committees involved in planning and design processes.

#### **Deliverables:**

Property information, including zoning, development permit area, heritage status, approved use and current application is available 100% of the time Monday – Friday between 8:00 am and 4:30 pm.

The Development Services Division will meet the following application turn-around timelines for 75% of the Rezoning Applications that are complete and accurate upon submission. Note that percentage of applications meeting target turn-around times may be less than 75% if the volume or complexity of applications received in 2016 exceeds the average or if more priority applications (affordable non-profit housing or public health facilities) than usual are received.

- Review and compile comments from Technical Review Committee and provide to applicant within six weeks from the time of submission of complete application. These comments will be "first-time-right" with no "late-hits" added at a later date.
- 8-12 weeks after TRC Comments are provided to the applicant, a report will be presented to a Committee of Council (PLUC) or Council Advisory Committee if no application revisions were required as a result of the TRC Comments.
   12 to 16 weeks after receiving a revised proposal, if application revisions were required as a result of the TRC Comments that did not result in the need for another Technical Review, a report will be presented to a Committee of Council (PLUC) or Council Advisory Committee.

75% of Board of Variance Applications will be presented to the Board of Variance for a decision within four to five weeks of receiving a complete application.

Agenda preparation and administration for every Board of Variance meeting (approx 22 per year). Staff present at each meeting.

Agenda preparation and administration for every Advisory Design Panel meeting (approx 12 per year). Staff present at each meeting.

Business Unit: 3500 - Development Services

#### Revenues

#### Expenditures

Business Unit: 3550 - Community Planning

**Department:** Sustainable Planning and **Budget Year:** 

**Community Development** 

#### Overview:

This business unit works to proactively respond to long range planning challenges and opportunities, contributing to regional growth and prosperity.

The Community Planning division provides direction for decision making through the Official Community Plan, the Downtown Core Area Plan, local area plans including neighbourhood plans, the Heritage Program, planning and engagement related to the harbor, and other initiatives that respond to emerging issues and policy challenges.

2016

Staff in this area provide professional analysis, advice and recommendations related to planning; work collaboratively with communities, businesses, government agencies, and other stakeholders to further the City's planning initiatives; and serve all interested in the community, including customers, through our program, policy, regulatory and information services.

This area also monitors and amends policy plans; reviews and provides input on regional plans; recommends housing policy; provides advice related to housing and other social issues; and administers the City's Heritage Program and Heritage Tax Incentive Program.

#### **Deliverables:**

Deliverables/Metrics per year:

- 2 annual reports produced (OCP/DCAP and Housing Report)
- # of public engagement occasions or events to support planning projects. These may include open houses, public forums, ideas fairs, stakeholder workshops, charrettes, as well as non-event methods such as webbased surveys, etc.
- Agenda preparation and administration for every Heritage Advisory Panel meeting (approximately 12 per year). Staff present at each meeting.

Additional Deliverables/Metrics for 2016:

- 1 public hearing for Downtown Zoning Bylaw
- 1 City-Wide Building and Infrastructure Condition Assessment Study

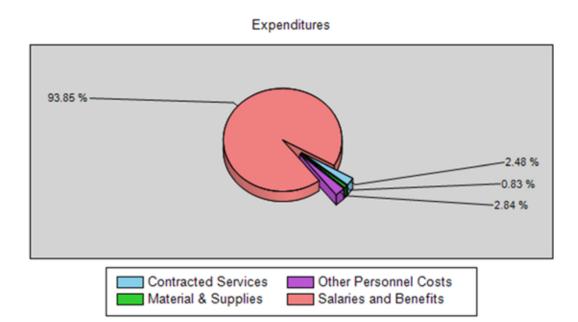

Business Unit: 3550 - Community Planning

Business Unit: 3555 - Official Community Plan Implementation

**Department:** Sustainable Planning and

Community Development

2016

#### Overview:

This business unit relates to public engagement costs to assist with the implementation of the Official Community Plan (OCP).

The Official Community Plan was approved in 2012 and outlines a vision for how the community will grow and change over 30 years. It was developed with a high level of community involvement.

**Budget Year:** 

The OCP projects that will be undertaken/continued in 2016 - 2017 include:

As a means of further interpreting the OCP and providing additional opportunities for resident input and policy definition, new Local Area Plans are planned for each of the city's neighbourhoods.

The Burnside-Gorge/Douglas Area Plan was initiated in 2015 and will continue consultation and plan development into and wrap up in 2016.

Two additional Local Area Plans are planned to commence in 2016 with funds budgeted to support consultation, engagement, technical analysis and consulting costs anticipated in the development of these plans.

Victoria's waterfront is a vital part of the city's livability, economic vitality and sense of place. Currently a number of sites along the waterfront are seeing a range of proposals and new investments related to both City, provincial and private properties. These new investments represent a significant opportunity to facilitate the further development of Victoria's waterfront as an active and vibrant asset for residents and visitors. As such, a more detailed framework is necessary to guide development and investment in a manner that supports a holistic vision for the waterfront going forward, laying out community priorities, partnership opportunities and conceptual directions for the design of new public spaces.

#### **Deliverables:**

New Local Area Plan for the Burnside-Gorge neighbourhood Additional Local Area Plans for two other local neighbourhoods Waterfront Plan

#### Expenditures

Business Unit: 3560 - Downtown Core Area Plan

**Department:** Sustainable Planning and **Budget Year:** 

Community Development

2016

#### Overview:

The Downtown Core Area Plan (DCAP) will guide development in the downtown area over the next 30 years, helping to ensure that downtown remains the heart of the region. The DCAP lays out a vision to encourage and foster the development of an attractive, vibrant, pedestrian-friendly and economically resilient downtown area. Council and staff will look to the 30 year plan as a guide for growth and development for the years ahead. The DCAP includes policies and actions that will lead to the addition of roughly 10,000 - 15,000 new residents in the core area, and approximately 1 million square metres of new development, over the next 30 years. This business unit funds professional and technical services to support implementation of the DCAP.

There are three major DCAP implementation projects identified in 2016/2017.

The Downtown Zoning Bylaw Update will aim to simplify the current range of zones that constitute the bylaw for downtown sites. This will provide more consistency and certainty to land owners and better guide future development with the DCAP area.

The update to Schedule C will support an update to the parking requirements for the City that supports the DCAP and Official Community Plan goals and objectives related to complete streets and support clearer parking direction for existing property owners and for new development.

Victoria residents, community and business groups are showing increasing interest in the development of place-based public realm improvement projects within the downtown core. A public realm plan for the downtown core area will aim to support these efforts while at the same time providing a framework for City investment that supports the beautification of the core area. The plan will support effort to create and define Downtown's various districts and corridors, continue to support a cohesive visual identify for these areas and the downtown as a whole, and create further opportunities for more citizen or business-led placemaking to occur.

#### **Deliverables:**

A new Zoning Bylaw for the Downtown Core Area.
Updates to Schedule C of the Zoning Bylaw to Update Parking Standards.
A Public Realm Plan for the Downtown Core Area.

# Victoria Fire Department

The Victoria Fire Department (VFD) has a proud history of providing exceptional fire rescue services to the citizens of Victoria in an efficient and cost effective manner. The Department's goal is to ensure our citizens are safe, educated on fire safety and provided a highly-skilled professional fire service that is ready to respond when required. The VFD serves citizens out of three strategically located fire stations to ensure optimal response times to incidents.

These efficient operations are supported through seven divisions: Fire Suppression Division, Fire Prevention Division, Mechanical Division, Emergency Management, Communications Division, Training Division, and the Administration Division.

- Fire Suppression: Provides 24 hour emergency response to citizens in support of emergency and non-emergency incidents, including harbour response
- Fire Prevention: Conducts fire inspections, delivers public fire safety education, and provides 24 hour fire investigation response
- Mechanical: Provides professional cost effective and efficient emergency and non-emergency maintenance of all fire apparatus, specialty equipment, marine vessels, and fleet. Regional fleet maintenance facility. Delivery of specialized training relating to vehicle operations, equipment use and marine vessel operations.
- Harbour Response: Provision of 24 hour emergency harbour response with the Fire Boat Protector and Rapid Response Marine vessel for rescue, environmental and inter-departmental responses.
- Communication: Provision of 24-hour emergency and non-emergency communications.
- Training: Responsible for the facilitation and delivery of all training associated with fire department and emergency response to members of the department.
- Administration: Incorporates the Office of the Fire Chief, two Deputy Fire Chiefs and administration clerical staff.
- Emergency Management: Responsible for training City staff and coordinating an emergency response in the event of a disaster. Responsible for facilitation of Emergency Social Services programs in post incident situations.

### Victoria Fire Department

#### Proposed Initiatives for 2016

- Advance options and public dialogue on future of Firehall Headquarters
- Install security ID card system at Firehall #1 and #2
- · Replace and update fire and rescue equipment
- Replacement of Ladder # 2 at James Bay Fire Station
- Enhance fire, life safety and community public educational programs
- Upgrade of Fire Department Manager Software, TeleStaff dispatch and communications upgrading
- Migration to 700 MHz public safety Broadband radio system (CREST)

- Integration of Corporate wide portable radio systems for increased safety and coordination of staff
- Integration of FDM Analytics and analysis of metrics
- Succession Planning Officer and Professional Development
- Provide support to other corporate departments and staff through the Victoria Fire Department Critical Incident Stress Management Program
- Emergency Management initiatives to enhance corporate and regional response coordination, identification of resources and education to community on events related to climate change, power outage and earthquake response, major events that may contribute to community safety

### **Performance Metrics – Victoria Fire Department**

#### Measuring Success

#### 1. How much did we do?

|   |              | T                | T             |
|---|--------------|------------------|---------------|
| Performance Measurements  | 2014 Actuals | 2015 Projections | 2016 Forecast |
| # of Emergency Response to Fires  | 446          | 407              | N/A           |
| # of Rescues (including marine)   | 57           | 60               | 80            |
| # of Calls for Service  | 6645         | 7000             | 7,500         |
| # of hours for Staff Development and Training                               | 14,898       | 15000            | 16,000        |
| Emergency Incident Response Time (NFPA 1710) four minutes or less           | 96%          | 96%              | 97%           |
| # of Public Education Sessions  | 46           | 60               | 80            |
| # of Fire Inspections Completed   | 1586         | 2300             | 2500          |
| # of hours for Specialized Apparatus<br>Maintenance (Internal and External) | 2372         | 2412             | 2450          |
| # Children School Tours/visits  | 474          | 500              | 600           |

| 2. How well did we do it?  |  |                         |   |  |  |  |
|--|--|-------------------------|---|--|--|--|
| Performance Measurements   | 2014 Actuals   | 2015 Projections        | 2016 Forecast   |  |  |  |
| NFPA 1710 (for career firefighters) is as follows: 60 seconds to turn-out, 4 minutes for the first engine company to arrive, and 8 minutes for the full first-alarm assignment for at least 90 percent of all fire calls. The rationale behind this is the fact that a room fire will reach a critical stage in fire development (point of flashover) in about 8 to 10 minutes | 96.8% 97.3%  |                         | 97.8%   |  |  |  |
| Story behind the data  | A fire is directly impacted by early notification, response times, and the effectiveness of highly skilled first responders. Quick containment and extinguishment of a fire reduces the impact or occupants, structural damage, burden on insurance, environment, and the time for recovery. |                         |   |  |  |  |
| Performance Measurements   | 2014 Actuals   | 2015 Projections        | 2016 Forecast   |  |  |  |
| Effective staffing and resources to ensure effective response and capacity to increased calls for service in both local and regional applications. Increase in rescue and emergency response requests.   | 100%   | 100%                    | 100%  |  |  |  |
| Story behind the data  |  | epartment's first respo | nders and apparatus<br>n-emergency response.                      |  |  |  |
| Performance Measurements   | 2014 Actuals   | 2015 Projections        | 2016 Forecast   |  |  |  |
| Effective Internal and External education programs; community education and interaction including tours, public education sessions and supporting community events through volunteer and interactive support. Professional development of Fire Department personnel.   | 4890   | 8000                    | Continued<br>enhancement of life<br>safety educations<br>programs |  |  |  |

| Story behind the data | Life safety education programs are to increase the public's awareness and education related to fire prevention, safety and emergency preparedness. With these programs we can prepare citizens to reduce hazards, increase life safety, and plan for emergency events. |
|-----------------------|--|
|-----------------------|--|

| 3. Is anyone better of  | r?   |
|---|--|
| Effective Emergency<br>Response<br>Management                           | Competent response with sufficient resources to emergency events is key to mitigation of the potential for injury to both person and property. Efficient and effective firefighting resources are required to ensure a safe community.   |
|   | Increased focus on high rise firefighting strategies and tactics to ensure efficient response to increased height, density and occupancy of residential and mixed use buildings. Significant pre-fire planning of commercial and multi occupancy residential to ensure familiarity with heritage and critical infrastructure occupancies including hospital, schools, assisted living and care facilities etc. |
|   | Ensure accurate data, electronic mapping capabilities, emergency route identification and sufficient trained and qualified staffing to ensure capacity in responding to emergency incidents. Increase to "on location" training exercises to increase awareness with hazards and potential issues  |
| Training and Development; Pre- Incident Planning, Hazard Identification |  |
|   | The implementation of the Pre-incident Planning, Hazard Identification, and Company Inspection Programs are to assist in meeting the established frequency of inspection, enhance the familiarization of City of Victoria buildings and multi occupancy high-rises, and increase safety for citizens and first responders.   |
|   | Continue the professional firefighter and officer development programs to ensure the maintenance of essentials skill sets to respond to incidents and mitigate potential environmental impacts.  |
|   | Continue to enhance our pre-incident planning and hazard identification programs to support efficient and effective response.  |
| Property Value Saved  | \$ 98,508,531  |
|   | Highly trained, well-equipped firefighting personnel, accompanied by early notification make an impact on the loss values due to fire.   |
|   | Continued high level effective emergency response with protection of life, property and possessions.   |

Business Unit: 2800 - Fire - Administration

**Department:** Fire **Budget Year:** 2016

#### Overview:

This business unit supports the leadership (Fire Chief and two Deputy Fire Chief positions) and office coordination functions of the Victoria Fire Department.

This business unit provides senior leadership, oversees strategic direction, attendance management, operational issues, payroll, personnel management, labour relations, human resources.

The Victoria Fire Department is a 123 person team and has three fire stations to provide fire, rescue and emergency services, in addition to fire prevention education and emergency management leadership.

#### **Deliverables:**

- · Leadership support to a department of 123 members at three Fire Stations
- · Reduce # of labour relations issues and grievances

**Business Unit: 2820 - Fire Prevention** 

**Department:** Fire **Budget Year:** 2016

#### Overview:

The Victoria Fire Department Prevention Division provides education and awareness programs to prevent fire and impacts of fire.

Prevention programs include: Community Fire Safety education, Free Smoke Alarm Program, Juvenile Firesetter Intervention Program, School Education Program, Car Seat Installation Clinic and HEAT, a multi-jurisdictional hoarding support initiative.

This unit also provides inspections as directed through legislation, fire investigation and fire cause determination reporting. Also acts as a liaison with other investigative services and provincial authorities and oversees fuel and flammable liquid/combustible storage requirements and tracking.

#### **Deliverables:**

- # of properties within the COV for inspections (4,602 in 2014)
- # of Inspections performed (1586 in 2014)
- Support to the suppression commercial inspection program
- # of fire investigations (60 in 2014)
- # of community education sessions (46 with 3190 attendees in 2014)
- # of oil tank permits issued (192 in 2014)
- # of Smoke alarm installations (30 in 2014)
- # of Fire alarm tests and drills (109 hours) (2014)
- # of Hoarding Responses (31, 94 hours allocated in 2014)
- Recovery \$33,740 (2014)

Business Unit: 2830 - Suppression/Rescue

Business Unit: 2840 - Fire - Fleet

**Department:** Fire **Budget Year:** 2016

#### Overview:

This business unit provides mechanical maintenance and servicing of fire apparatus and equipment to the Victoria Fire Department and Regional Fire Department customers on a "fee for service" basis.

Regular maintenance of department power tools and equipment is provided, including oversight of fuel and lubricant use on all equipment and apparatus and maintenance to fire boat to support marine response.

#### **Deliverables:**

- Specialized repair and maintenance to emergency apparatus, fire boats and equipment
- · Onsite maintenance and repair in addition to mobile maintenance requests
- · VFD fleet of 45 apparatus, 2 fire boats,
- External customer fleet of approximately 19 apparatus (ongoing maintenance through agreements on an annual basis)
- · Responsible for education on the operation of specialized apparatus and equipment

| Department:        | Fire              | Budget Year: | 2016 |

### Overview:

This business unit funds general supplies to support 24/7 operations of three fire stations located in the City of Victoria [Fire Hall #1 (Yates), Fire Hall #2 (Michigan), Fire Hall #3 (Bay).

Includes costs for cleaning supplies and routine building maintenance, and decontamination of fire equipment related to toxins and chemicals.

#### **Deliverables:**

- Ensure 24/7 provisions for Fire Stations
- · Maintenance of Fire Stations
- Acquisition of equipment to provide cost effective "in house" cleaning and decontamination for fire-fighter protective gear
- Immediate response to contaminations due to nature of potential risk; blood borne pathogens, carbon particles, etc.

Business Unit: 2870 - Fire - First Responder Program

Business Unit: 2875 - Fire - CISM

**Department:** Fire **Budget Year:** 2016

#### Overview:

Research demonstrates that peer counseling immediately following a traumatic event will reduce effects to attending personnel. Effective and immediate support has potential to reduce absences due to stress and the impacts of high stress events.

This business unit includes the costs associated with providing Critical Incident Stress Management, a peer based intervention and stress management program for fire department members and City staff. It is provided through peer support and training.

The goal is to reduce critical incident stress for personnel attending traumatic events, potentially preventing long term impacts of Post- Traumatic Stress Disorder.

#### **Deliverables:**

Based on number of traumatic events attended

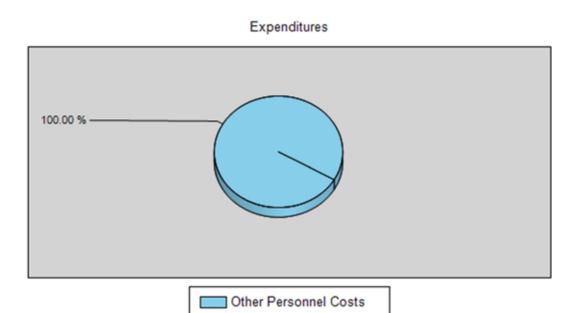

Business Unit: 2875 - Fire - CISM

Business Unit: 2880 - Fire - Steamer

Business Unit: 2885 - Fire-THARRP

**Department:** Fire **Budget Year:** 2016

#### Overview:

This business unit supports the Technical High Angle Rope Rescue Program. Provides support for emergency response in a variety of challenging environments including building exterior / interior/ shafts / construction sites / tower cranes / bridges / slopes and ravines.

The Victoria Fire Department provides regional tower crane rescue response to major development sites in Victoria. Tower Crane and high angle work is required through legislation to provide rescue plan prior to work beginning work.

VFD programs provides efficiency to contractors to meet Worksafe BC legislated requirements. The program is facilitated through BC Construction Safety Association of BC.

#### **Deliverables:**

- # of rescue responses (271 since inception)
- · Tower Crane Inspections; requirement of Worksafe BC
- Deliver 24/7 rapid response service

Business Unit: 2885 - Fire-THARRP

#### Revenues

### Expenditures

Business Unit: 2890 - Fire - Fire Dept Technology

**Department:** Fire **Budget Year:** 2016

### Overview:

The Victoria Fire Department oversees a records management system to record attendance at emergency incidents, Inspections and investigations and subsequent requests for information. These are requests routinely made by insurance companies, Office of the Fire Commissioner and other external agencies.

A systematic records management approach is in place to respond to records requests and ensuring data accuracy in the event of post-event review.

This business unit supports information technology equipment and services to provide consistent records management of all incidents involving the fire department and TeleStaff scheduling software and FDM (Fire Department Manager) software.

### **Deliverables:**

- Records management of over 6,000 incidents per year
- Master records manager of properties within the COV
- Records management of workplace analytics, scheduling, attendance management issues, shift strength, reporting of data
- · Efficient information transfer during the dispatch process
- Efficient information transfer to fire ground operations
- Efficient and reliable tracking of training and qualifications of FD personnel

Business Unit: 2890 - Fire - Fire Dept Technology

Business Unit: 2895 - FIRE - Marine Operations

Fire

### Overview:

Department:

This business unit funds fire and emergency services for working harbour and waterfront locations. Includes operation of Fire Boat 1 "Protector" and Fire Boat 2, Victoria Fire Department's fire boats, provision of fire protection to float homes, aerodrome response, commercial and industrial properties, and COV waterfront.

**Budget Year:** 

2016

Marine response is often needed to ensure protection to areas not easily accessed by apparatus or fire suppression personnel.

#### **Deliverables:**

- · Approximately 20 calls per year request for marine firefighting response
- On water safety for City events such as Swiftsure, Symphony Splash, Classic Boat, Festival, Canada Day festivities
- 1000 vessel movements/day: 235 cruise ship arrivals for 2015; 8 departures daily for Coho and Clipper, 91 take off and landings at aerodrome, 16 takeoffs and landings per day at heliport

Business Unit: 2895 - FIRE - Marine Operations

Service Area: Emergency Management

**Department:** Fire **Budget Year:** 2016

### Overview:

The Emergency Management Division of the City of Victoria Fire Department is a resource for helping the community prepare for an emergency, such as a power outage, wind storm, tsunami or major earthquake. Emergency Management is responsible for coordinating an emergency response in the event of a disaster and educating and empowering Victoria citizens on how to be "emergency prepared." This is accomplished through emergency preparedness training events, exercises, and public education.

Emergency Management is responsible for emergency planning, coordinating emergency exercises for department staff, in addition to volunteer recruitment, training and deployment. Administrative staff promote community participation in the annual Great British Columbia ShakeOut earthquake drill, and host internal and public events to mark National Emergency Preparedness Week each year. They also participate in regional planning committees and liaise with external agencies and stakeholders.

### **Deliverables:**

Emergency Management goals set for the year are:

- Staff readiness across the organization, increased capacity and capability in Urban Search & Rescue, growth in the volunteer base in the 5 volunteer teams, and increase public awareness
- 3 staff who support all Emergency Management: volunteer teams, city staff teams
- Volunteer recruitment and management: # of (current) volunteers 130-140
- # of ads for public recruitment and educational opportunities (including printed materials, ads etc.)
- Manage EOC and exercises and training (2/year)
- Manage corporate and volunteer exercises
- Maintain contact lists
- · Training for staff and volunteers
- Public education
- Manage volunteers: interviews, criminal record checks, evaluations
- Emergency management planning: Corporate Emergency Plan, Tsunami Plan (hazard planning

| Change by %                | -7.18%      |

### Corporate Revenues and Expenditures

#### Payments of Lieu of taxes and Special Assessments

Federal and Provincial properties are exempt from paying property taxes, but must in some circumstances pay a grant in lieu of taxes.

Utility companies are required to pay the City 1% of their previous year's revenues, which is collected as a "special assessment."

Property owners can approach the City to implement improvements on their street which are repaid to the City over time through a "specified area improvement" levy.

#### Fees and Interest

The City earns interest on invested funds, levies interest and penalties on outstanding property taxes, and levies penalties on outstanding business licences.

#### Overhead Recoveries

The City allocates overhead costs, such as building maintenance, payroll services and accounting to the water and sewer utilities as well as VicPD.

#### Miscellaneous

The Miscellaneous category includes a number of revenues such as fees charged for tax certificates, bus shelter advertising, traffic fine and gas tax grants, and expenditures including external audit fees, insurance and economic development.

The City also cost shares the Capital Region Emergency Service Telecommunications that provides radios for the Victoria Fire Department and VicPD.

### Hotel Tax

The City has elected to levy a 2% hotel tax. A portion of the hotel tax is used to offset marketing costs for the Victoria Conference Centre, however the majority is paid to Tourism Victoria for Destination Marketing.

#### Prior Year's Surplus

The City is required to have a balanced budget. A surplus is generated when expenditures are under budget and/or revenues are over budget. Each year, Council makes decisions for the use of the surplus in the following year.

#### Contingencies

This budget includes a base contingency amount for unforeseen or emergency expenditures such as snow clearing or wind storms. Council authorizes any spending from this budget.

#### Transfer to VCC

The City provides funding for the operation of the Victoria Conference Centre.

#### Transfer to Reserve

Each year, the City transfers a portion of property tax revenue into reserves for future capital expenditures. Council makes annual decisions on the use of surplus; a portion of surplus is typically transferred to reserves. The City also allocates interest earned on funding held in reserves.

#### Transfer to Capital Budget

Each year, the City transfers a portion of property tax revenue to the capital budget to fund annual capital investment into infrastructure projects.

Business Unit: 1450 - Payment in Lieu of Taxes

Business Unit: 1500 - Special Assessments

**Department:** Corporate **Budget Year:** 2016

### Overview:

Legislation requires utility companies to pay the City 1% of their previous year's revenues.

The City has also elected to levy a 2% hotel tax. A portion of the hotel tax is used to offset marketing costs for the Victoria Conference Centre, however the majority is paid to Tourism Victoria for Destination Marketing.

Legislation also allows an extra levy to be charged for "specified area improvements" to recover costs for those improvements. These levies are charged on properties that are part of that improvement area.

### Revenues

### Expenditures

Business Unit: 2470 - Fiscal

**Department:** Corporate **Budget Year:** 2016

### Overview:

This business unit tracks revenues for investment interest, property tax interest and penalties, business licence penalties and expenses such as credit card discount fees and debt principal and interest payments.

The City invests operating funds as well as funds from reserves to generate investment income. The City is bound by strict legislation and can only invest in secure investments such as government bonds and the Municipal Finance Authority's pooled investment funds. The interest earned on investments using reserve funding is allocated to the reserve funds.

Penalties are levied if taxes and business licences are not paid on time.

Investment income earned on operational funding and revenue from penalties are used to lower the amount of taxes levied.

This business unit also tracks costs for premiums paid to credit card companies for accepting credit cards as a method of payment. In addition, it tracks debt principal and interest payments for capital project debt.

Business Unit: 2470 - Fiscal

Business Unit: 5800 - Greater Vic. Public Library

**Department:** Corporate **Budget Year:** 2016

#### Overview:

The City is one of ten member municipalities in the Greater Victoria Public Library system. Each member municipality pays a share of the library's operating costs using a formula that is based on each municipality's converted assessed property values and population. In addition, the City pays the majority of the facility costs of the downtown library facility since this is the main branch for the City. All other municipalities pay facility costs associated with any branch within their municipalities.

**Department:** Corporate **Budget Year:** 2016

#### Overview:

The City provides support to a number of non-profit organizations in the form of cash grants.

There are two grant categories: Direct-award grants to organizations that provide service on behalf of the City; and grant programs that are based on the City's Strategic Plan. Through the Direct-Award category, the City's Community and Seniors Centres also receive support for facility-related costs such as janitorial and strata fees.

#### **ACTIVE TRANSPORTATION**

#### **Guiding Principles**

- Encourage human-powered modes of transportation (walking, cycling, skateboarding)
- Provide a connected, safe, comfortable, and attractive network of facilities for people walking, riding bikes, or using other non-motorized forms of transportation

#### **Guiding Plans**

- Official Community Plan
- City of Victoria Strategic Plan 2015-2018
- Pedestrian Master Plan
- Bicycle Master Plan
- Greenways Plan
- Harbour Pathway Plan

#### **CURRENT STATUS OF OUR COMMUNITY'S ASSETS**

| Area   | What We Have   | What We Renewed<br>2013-2015   | What We Added<br>2013-2015  | % In Poor Condition |
|--|--|--|---|---------------------|

Project Number:ENG-022Budget Year:2016Project Title:Active Transportation - Pedestrian Master PlanBusiness Unit:50195

Implementation

Strategic Plan Link: Complete a Multi-Modal and Active Transportation Network

#### Overview:

Originally introduced in 2008, the Pedestrian Master Plan guides construction of new pedestrian infrastructure and reconstruction of existing pedestrian infrastructure. A sustainable community provides the physical and social infrastructure necessary to achieve community well-being. By continuing to examine and improve public transportation options and pedestrian connections, pedestrian mode share growth is encouraged. This investment reinforces and encourages walking as a primary mode of transportation.

The City currently has over 450 km of sidewalk and is working towards constructing approximately 90 km of new sidewalk to provide sidewalks on both sides of all City streets. Projects for new sidewalk are prioritized using the results from the Pedestrian Master Plan. Sidewalk renewal projects are prioritized as part of a complete streets evaluation that includes pavement assessment, condition of underground utilities and trips and falls incidents. The sidewalk repair work is then coordinated with other identified capital improvements..

In 2022, construction of a new sidewalk on the south side of Bay Street from Wark to Quadra is scheduled to facilitate better pedestrian movement along this emergency corridor. Given the topography of the area, blasting/scaling may be required to construct this project. It is estimated that the cost of this project will be \$600,000.

#### **Deliverables:**

+/-500m annually of new or upgraded sidewalk and pedestrian amenities. All projects are tracked and summarized. Length of new and upgraded sidewalk is recorded for all construction projects and summarized in an annual infrastructure report.

#### 2016 Projects:

- 1. Pembroke Street Belmont to Fernwood (Fernwood Neighbourhood) Construction of 250m of new and replacement sidewalk. The existing Pembroke Street pedestrian corridor requires upgrade of existing end of life sidewalks and infill of sidewalk connections where gaps exist. A good connector route through the Fernwood neighbourhood, this pedestrian corridor needs upgrading to provide safe pedestrian facilities. Pedestrian Master Plan ranking High \$200,000
- 2. Niagara Street St. Lawrence to Montreal (James Bay Neighbourhood) Construction of 160m of new sidewalk as identified in the Pedestrian Master Plan. Identified in the Five Year Pedestrian Master Plan priority list, consultation and planning is required prior to design and construction. Pedestrian Master Plan ranking Medium \$150,000

2016 Planning/Conceptual Design Development work - no capital budget required.

- 1. Brighton Avenue Richmond to Bank. Consultation and planning for new sidewalk as identified in the Pedestrian Master Plan. Identified in the Five Year Pedestrian Master Plan priority list, consultation and planning is required prior to design and construction. Pedestrian Master Plan ranking High
- 2. Gonzales Avenue Richmond to Richardson. Consultation and planning for new sidewalk as identified in the Pedestrian Master Plan. Identified in the Five Year Pedestrian Master Plan priority list, consultation and planning is required prior to design and construction. Requests received from public. Pedestrian Master Plan Ranking High
- 3. Higgins Street Hillside to Cook. Consultation and planning for new sidewalk providing a pedestrian link on the greenways route between Hillside Avenue and Cook Street. Provides pedestrian connections to Hillside Park and to residents of Basil Avenue. Provides separated facilities for pedestrians without walking on roadway with motorized traffic. Requests received from public. Pedestrian Master Plan ranking High.

#### 2017 projects:

- 1. Higgins Street Hillside to Cook (Oaklands Neighbourhood) \$200,000
- 2. Brighton Avenue Richmond to Bank (Gonzales Neighbourhood) \$157,000

2018 project:

1. Gonzales Avenue - Richmond to Richardson (Gonzales Neighbourhood) - \$364,000

Strategic Plan Link:

Project Number:ENG-058Budget Year:2016Project Title:Active Transportation - Bicycle Master PlanBusiness Unit:50071

Implementation

Transportation Network

Complete a Multi-Modal and Active

#### Overview:

Originally approved in 1995, the Bicycle Master Plan cycling network map was being updated based on extensive community input in 2014, and is being further updated by consultant in Q3/Q4 2015. The Bicycle Master Plan will have a series of recommendations to improve conditions for cyclists, as part of an integrated strategy to balance the transportation system, and reduce dependence on private automobile use. Since its inception, the program has been effective in increasing cycling trips in the City.

During consultation in 2014, the public indicated the top priority for adding to the cycling network was to complete the Pandora Avenue corridor, by extending existing cycling facilities from the Pandora Avenue/Cook Street intersection, to the Johnson Street Bridge. In 2015, Council approved a two way cycling facility on Pandora Avenue from Cook Street to Wharf Street and a conventional bike lane installation on Johnson Street between Cook and Wharf.

A consultant is reviewing the Bicycle Master Plan priority routes for implementation and a report to Council is expected to be completed by the end of 2015. Adjustments to priority routes will be considered by Council which could result in a revision to the proposed deliverables.

#### **Deliverables:**

#### 2016:

Engineering Design Drawings for Priority Network - \$310,000

Pandora/Vancouver Signal Pole Upgrade - \$30,000 (Harris Green Neighbourhood)

Pandora Avenue between Store Street and Cook Street - \$2.06M (Downtown/Harris Green Neighbourhoods)

Johnson Street between Store Street and Cook Street - \$100,000 (Downtown/Harris Green Neighbourhoods)

#### 2017:

Vancouver Street route (from Park Boulevard, to Fifth Street/Tolmie Avenue, via Graham Street and Fifth Street) - \$1.96M (Fairfield/Harris Green/North Park, and Hillside/Quadra Neighbourhoods)

Wharf Street/Belleville route between Pandora Avenue and Oswego Street- \$1.2m (Downtown/James Bay Neighbourhoods)

Consulting Services Phase 2 Bicycle Lanes = \$23,000

#### 2018:

Off Shelbourne Street Route (Doncaster Drive/ North Dairy to Gonzales Beach) - \$900,000 (Oaklands/Fernwood/ Jubilee/ Gonzales Neighbourhoods)

Off Bay Street Route (Haultain Street/ Kings Road between Richmond Road and Douglas Street) - \$700,000 (Jubilee/ Oaklands/ Fernwood/ Hillside/Quadra/ Burnside Neighbourhood)

#### **Project Forecast**

| Year | Total Expense |
|------|---------------|
| 2016 | 2,500,000     |
| 2017 | 3,183,000     |
| 2018 | 1,600,000     |
|      | 7.283.000     |

Project Number:ENG-059Budget Year:2016Project Title:Active Transportation - Bus Shelter InstallationBusiness Unit:50076

Strategic Plan Link: Complete a Multi-Modal and Active Transportation Network

#### Overview:

This program funds the installation of new bus shelters, either as stand-alone projects, or through cost-sharing partnerships with BC Transit. This program enables the City to install shelters at locations not covered in the City's agreement with Pattison Outdoor Advertising LP. By improving the level of amenities at bus stops, the City promotes greater use of transit, reducing single occupancy vehicle trips in the City.

All priority locations for 2016 bus shelter installs are on the Bay Street corridor. These 3 locations are high priority locations, as identified by BC Transit, making them eligible for BC Transit's Bus Shelter Improvement Program. BC Transit will fund and provide the shelters, and the City will be responsible for all related civil improvements.

Maintenance issues for several transit shelters provided in the first year of the BC Transit Bus Shelter Improvement Program have been addressed - following City/BCT discussions, a different manufacturer is now providing BC Transit with shelters that will avoid the maintenance/materials issues previously identified by City staff.

BC transit has identified the busiest bus stops in the City of Victoria. Approximately 85% of transit activity (passenger boarding and alighting) occur at 25% of transit stops. This budget focuses resources on improving stops with the highest use. General Public requests, development projects, and Engineering capital projects also trigger transit stop improvements.

#### **Deliverables:**

3 new transit shelters and benches, and associated accessibility improvements.

2016 deliverables are:

Bay Street east of Blanshard (eastbound) (Burnside Neighbourhood) - \$9,000

Bay Street east of Cedar Hill Road (eastbound) (Fernwood Neighbourhood) - \$9,000

Bay Street east of Fernwood (eastbound) (Fernwood Neighbourhood) - \$9,000

#### **Project Forecast**

### **Project Summary**

**Project Number:** ENG-060

**Project Title:** Active Transportation - Crosswalk

Installations/Upgrades

Complete a Multi-Modal and Active Strategic Plan Link:

Transportation Network

#### Overview:

In 1989 the City started a program to install new, or upgrade existing crosswalks to Provincial standards. The City has stated its goal to support walking, to increase the number of trips made by walking and to make those trips safer.

The City of Victoria prioritizes pedestrians and walking in the Official Community Plan. It is a City objective to support walking, to increase the number of trips made by walking and to make those trips safer. Upgrading or installing new crosswalks provide better mobility and accessibility opportunities for pedestrians. Crossing distances for pedestrians are reduced and visibility of pedestrians is increased through lighting improvements and intersection bulbs. New crosswalks provide new connections for pedestrians and connect neighbourhoods.

**Budget Year:** 

**Business Unit:** 

Staff use the following criteria to evaluate marked crosswalk requests:

- · Pedestrian volumes
- Demographics (children, seniors, and those with disabilities weighted higher)
- · Main street vehicle volumes and arrival patterns (potential conflicts with people trying to cross the street)
- Vehicle speeds
- · Physical conditions, including, road geometry, stopping sight distance, grades, lighting and intersection layout

Staff also examine annual collision statistics, looking for collision patterns (high activity periods, weather impacts, turning vehicles, night/low light conditions) that can be addressed through engineering improvements. Non-technical issues associated with prioritizing which crosswalk to install/upgrade include cost-sharing partnerships with development. The level of recommended improvement is based on pedestrian volumes, vehicle volumes, gaps in traffic and the physical environment of the crossing location such as road grade, width, vehicle lanes and visibility.

Upgrades can include bulbs, poles, electrical upgrades for contrasting down lighting of the crosswalk. Installations for 2016 - Finlayson/Yew is a multi-lane road crossing, with overhead signing and lighting required to raise the conspicuity of the well-used crossing that accesses Topaz Park. Fairfield/Linden is recommended for improvements in 2016, to shorten crossing distances and reduce pedestrian exposure to traffic, and improve lighting at the intersection so people crossing at night/low lighting conditions are more visible to drivers approaching the crosswalk.

#### **Deliverables:**

Upgrade two crosswalks in 2016:

- 1. Fairfield at Linden (Fairfield Neighbourhood) Upgrade existing crosswalk Fairfield Road at Linden is a busy pedestrian crosswalk with limited sight distance between motorists and pedestrians. This intersection has been identified as a priority in 2016 for upgrades to reduce crossing distance and improve pedestrian mobility, accessibility, visibility, and lighting. \$55,000
- 2. Finlayson at Yew (Hillside/Quadra Neighbourhood) Upgrade existing crosswalk Finlayson Road at Yew Street is a busy location connecting the local neighbourhood to Topaz Park. This intersection has been identified as a priority in 2016 for upgrades to improve pedestrian mobility, accessibility, visibility and lighting, \$53,000

In addition to the two proposed locations for this year, the following outlines the future schedule (2016-2025):

New Installations:

500 block Fisgard - midblock

Government/Herald

Erie Street - midblock

900 block Pandora - midblock

800 block Fort - midblock

800 block View - midblock

500 block Caledonia - midblock

600 block Herald - midblock

600 block Caledonia - midblock 700 block Caledonia - midblock

Project Number: ENG-097

Project Title: Active Transportation - Wharf Street

Revitalization

Strategic Plan Link: Complete a Multi-Modal and Active

Transportation Network

Budget Year: 2016

Business Unit:

#### Overview:

Develop and implement a comprehensive streetscape for Wharf Street between Yates Street and Government Street, working in partnership with property owners. The project would include enhanced pedestrian amenities, and landscaping.

#### **Deliverables:**

Wharf Street is a significant downtown corridor, serving as a valuable transportation link between the Johnson Street Bridge and the Inner Harbour for pedestrians, cyclists, transit, tourism, and general vehicle traffic. Beautification of the corridor would bring Wharf Street more in keeping with other major downtown streets.

#### **Project Forecast**

| Year | Total Expense |
|------|---------------|
| 2019 | 1,000,000     |
| 2020 | 1,000,000     |
|      | 2,000,000     |

Project Number:ENG-050Budget Year:2016Project Title:Active Transportation - Pathway UpgradesBusiness Unit:50484

Strategic Plan Link: Complete a Multi-Modal and Active

Transportation Network

### Overview:

Pathway improvements are to provide the community with safe walk ways and minimize the trip and fall hazards.

Coordinated efforts between departments will occur in 2016 to obtain a full asset and condition grading assessment required to make long term investment decisions. The pathway asset inventory will begin in 2016.

Pathways in Ross Bay Cemetery are in poor condition due to land settling, tree root impacts and the deterioration of asphalt overtime. This project will repair significant trip hazards for 2016 and plan the 2017 path repair at the North East corner of the Ross Bay Cemetery.

The pathways identified for the 2016 capital include the Dallas Pathway, David Foster Harbour Pathway and Ross Bay Cemetery Pathways.

### **Deliverables:**

Improvements to ensure safe pathways.

2016

Dallas Pathway: Below the Yacht Pond in Holland Park repairs and/or replacement of the lower apron and pathway approximately 34m - \$70.000

Existing David Foster Harbour Pathway: In front of the Coast Hotel, repair of plank walkway for 120 square feet of wooden decking - \$5,000 Existing David Foster Harbour Pathway installation of 49m new railing to improve safety - \$30,000

2017:

Path repair at the North East corner of the Ross Bay Cemetery - \$150,000 Other deliverables for 2017 maybe identified with the outcome of the 2016 inventory assessment

Ross Bay Cemetery Pathways: Repair significant trip hazards - \$30,000

Project Number:ENG-182Budget Year:2016Project Title:Active Transportation - Brickwork Rehabilitation - Brickwork

Malls and Squares

Strategic Plan Link: Complete a Multi-Modal and Active

Transportation Network

### Overview:

Major repair and replacement of brickwork areas in squares and malls.

Centennial Square, Bastion Square, Gladstone Mall, and other similar areas have extensive brickwork areas that are not subject to vehicle traffic, however, is deteriorated. Major repair and replacement needs to be conducted to reduce tripping hazards and prolong the life of these areas. Claims for injury, and a risk of more widespread damage as the areas widen. Also can spread to sub-surface materials making future repairs more extensive.

### **Deliverables:**

Repair and replacement of brickwork:

- Centennial Square
- Bastion Square
- Gladstone Mall
- other similar areas

| Year | Total Expense |
|------|---------------|
| 2016 | 35,000        |
| 2017 | 35,000        |
|      | 70,000        |

Budget Year: 2016
Business Unit: 50454

Project Title: Active Tra

Active Transportation - David Foster Harbour

Pathway

Strategic Plan Link: Complete a Multi-Modal and Active

**Transportation Network** 

### Overview:

Design and construction of key pathway elements; Heron Cove and Raymur Point bridges, under Johnson Street Bridge, Reeson Park connection and wayfinding. In 2008, Council approved the Harbour Pathway Plan, a long-term plan for a continuous pathway along Victoria's inner harbor for the enjoyment of the residents, business patrons and visitor's to the City. In 2012, the pathway was named David Foster Harbour Pathway and a series of Special Places concepts were developed.

In 2014, the Trans Canada Trail through the City of Victoria was realigned to follow the David Foster Harbour Pathway route from the Johnson Street Bridge to Ogden Point. Key connections along David Foster Harbour Pathway will be partially funded through a partnership with Trans Canada Trail, Bike BC (Raymur Pt. and Heron Cove bridges) and through donations. The City has committed to match funds received by Trans Canada Trail, which total 1.402 million dollars and BikeBC (\$440,000). Additionally donations have been received by VanCity (\$100,000) and David Foster (\$50,000) to enhance this pathway.

### **Deliverables:**

2016 – Planning, design and tender for Heron Cove and Raymur Pont bridges, under Johnson Street bridge, Reeson Park connection and wayfinding.

2017 - Construction complete (bridges, Reeson Park connection and wayfinding)

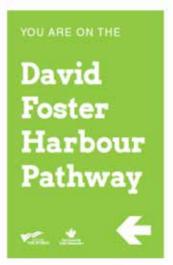

| Year | Total Expense | Grants     | Net City Funding |

| Local Roads                                  | Repave about 3 km of local roads      | Note 1                        |

Note 1: The City of Victoria's road network is completely built out. New road investment is not required.

Project Number:ENG-018Budget Year:2016Project Title:Complete Streets - Major Street RehabilitationBusiness Unit:50511

Strategic Plan Link: Complete a Multi-Modal and Active

Transportation Network

### Overview:

This capital program funds the rehabilitation of arterial and collector streets, including road resurfacing. Rehabilitate arterial and collector streets where road conditions have deteriorated to a point where they no longer can be maintained effectively through regular maintenance measures. Resurface existing roads to improve condition and extend life cycle of roadway. Full scope of projects is tentative and subject to community consultation. The major road network plays a vital role to move people, services and goods, serving local residents, the business sector, the tourism industry, and regional transit providers.

Using a proactive pavement asset management strategy, arterial streets are rehabilitated or resurfaced with the objective of maintaining the current pavement network level of service, and to meet the needs of current and future road users. Each road rehabilitation project is reviewed using a complete streets lens to consider benefits for pedestrians, cyclists, transit users and the mobility impaired. Street-related infrastructure (curb, gutter, and sidewalk) and underground utilities are also evaluated during the preliminary design process, for a coordinated asset management approach.

Complement funding on projects identified for construction with Development Cost Charge funds received through development activity.

### Deliverables:

Rehabilitate or resurface annually approximately 0.5km of the approximately 100 km of existing arterial, collector and downtown roadways. Length of rehabilitated pavement is recorded for all construction projects and summarized in an annual infrastructure report. The amount of roadway rehabilitated on an annual basis is below industry standard and does not sustain life cycle expectancies for arterial roadways

Community consultation on these project may increase the scope of work that could include enhancements of upgraded sidewalks and materials, banner poles, landscaping etc. The project forecasts are based on class D estimates.

### 2016 Projects:

- 1. Cook Street from Pandora to Caledonia paving component (Last paved 1979 thru 1992). (North Park, Fernwood Neighbourhoods). In 2015, a citizen led engagement workshop was led by the community to add in a complete streets perspective to the project. Proposed work includes improvements to sidewalks, medians, a new marked crosswalk, and gateway features for this Urban Village centre. The engagement strategy completed in the fall of 2015, moving most of the planned 2015 work, as well as paving, to 2016. The purpose of completing the road rehabilitation is to replenish the surface, reduce maintenance costs and avoid further deterioration of the road structure. Pavement Management Plan Rank: Between 160th and 270th out of 2100 \$350,000 from 2015 plus \$280,000 for 2016
- 2. Pandora Avenue from Douglas Street to Government Street (Last paved prior to 1978). (Downtown) The proposed Pandora Avenue Bicycle facility project (between Store Street and Cook Street) has a number of areas where the road surface should also be improved, with the blocks from Douglas to Government being the highest priority section requiring full repaving. The purpose of completing the road rehabilitation is to replenish the surface, reduce maintenance costs and avoid further deterioration of the road structure. Pavement Management Plan Rank: 157 out of 2100 \$220,000
- 3. Finlayson Street from Yew to Quadra (Last paved 1979) (Hillside/Quadra Neighbourhood) 220m of road rehabilitation identified in the pavement management program. The purpose of completing the road rehabilitation is to replenish the surface, reduce maintenance costs and avoid further deterioration. Pavement Management Plan Rank: 148th out of 2100 \$380,000
- 4. Bridge Street from Ellice to Hillside (Last paved prior to 1975) (Burnside Neighbourhood) 210m of road rehabilitation identified in the pavement management program. The purpose of completing the road rehabilitation is to replenish the surface, reduce maintenance costs and avoid further deterioration. Pavement Management Plan Rank: 284th out of 2100 \$275,000
- 5. Complete Street Conceptual Design Belleville Street (James Bay Neighbourhood). A complete street project is proposed to integrate with the Belleville Terminal redevelopment that has been announced by the province. This project will be integrated with and be guided by the specification in the Bicycle Master Plan, David Foster Harbour Pathway Plan and special places. The project area is Bellville Street from Menzies to Oswego. Grant opportunities, including Canada 150 opportunities, may assist with financing this project. \$150,000

### 2017 projects:

- 1. Gorge Road Carroll to Harriet (last paved 1982) (Burnside Neighbourhood) \$478,000
- 2. Douglas Street Burnside to Hillside (Burnside Neighbourhood) \$300,000
- 3. Vancouver Street Pandora to Balmoral (North Park Neighbourhood) \$200,000
- 4. Blanshard/Hillside intersection (last paved 1987) (Burnside Neighbourhood) \$200,000

### 2018 projects:

- 1. Vancouver Street Southgate to Fairfield (Fairfield Neighbourhood) \$250,000
- 2. Southgate Street Quadra to Vancouver (Fairfield Neighbourhood) \$250,000
- 3. Bay Street Cook to Quadra (Hillside/Quadra, North Park Neighbourhoods) \$700,000

Project Number:ENG-044Budget Year:2016Project Title:Complete Streets - Local Street RehabilitationBusiness Unit:50198

Strategic Plan Link: Complete a Multi-Modal and Active Transportation

Network

### Overview:

Rehabilitate residential streets where road conditions have deteriorated to a point where they no longer can be maintained effectively through minimal measures. Resurface existing roads to improve condition and extend life cycle of roadway. Projects are tentative and subject to community consultation. The urban street system plays a vital role serving local residents as well as an economic role supporting the business sector and tourism industry. The City has made a significant investment in building its street network which comprises a substantial portion of the city's asset base. Pavement asset management is a strategic approach for the management, operation, preservation and enhancement of the asset to meet the needs of current and future customers.

### Deliverables:

Rehabilitate or resurface annually approximately 1 km of 160 km of existing local roadways. All projects are tracked and summarized. Length of rehabilitated pavement is recorded for all construction projects and summarized in an annual infrastructure report. The amount of roadway rehabilitated on an annual basis is below industry standard and does not sustain life cycle expectancies for local roadways. The forecasts are based on class D estimates.

### 2016 Projects:

- 1. Ryan Street from Roseberry to Asquith (last paved prior to 1978) 200m of road rehabilitation identified in the pavement management program. The purpose of completing the road rehabilitation is to replenish the surface, reduce maintenance costs and avoid further deterioration. Pavement Management Plan Rank: 18th out of 2100 \$450,000
- 2. John Street from Ludgate to Rock Bay (last paved prior to 1975) 100m of road rehabilitation identified in the pavement management program. The purpose of completing the road rehabilitation is to replenish the surface, reduce maintenance costs and avoid further deterioration. Pavement Management Plan Rank: 32nd out of 2100 \$200,000
- 3. Alpha Street from Douglas to Gamma rehabilitation (last paved prior to 1975) 240m of road rehabilitation identified in the pavement management program. This is a continuation of a project in progress. The purpose of completing the road rehabilitation is to replenish the surface, reduce maintenance costs and avoid further deterioration. Pavement Management Plan Rank: 12th out of 2100 \$220,000
- 4. Alpha Street from Burnside to Beta (last paved prior to 1975) 90m of road rehabilitation identified in the pavement management program. This project continues the work on the Alpha Street corridor between Douglas Street and Burnside Road. The purpose of completing the road rehabilitation is to replenish the surface, reduce maintenance costs and avoid further deterioration. Pavement Management Plan Rank: 24th out of 2100 \$250,000

### 2017 projects:

- 1. Alpha Street Beta to Gamma (Burnside Neighbourhood) \$450,000
- 2. Ludgate Street Bay to John (Burnside Neighbourhood) \$300,000
- 3. Meares Street Cook to east end (Fairfield Neighbourhood) \$390,000

### 2018 projects:

Beta Street - Alpha to Delta (Burnside Neighbourhood) - \$450,000 Belmont Avenue - Fort to Regents (Rockland Neighbourhood) - \$410,000 Maud Street - St. Charles to Belmont (Rockland Neighbourhood) - \$300,000

## **Project Summary**

Project Number: CES-001

Project Title: Great Neighbourhoods Fund

Strategic Plan Link: Facilitate Social Inclusion and Community

Wellness

Budget Year:

**Business Unit:** 

### Overview:

Victoria has a population of just over 80,000 residents who reside in 13 neighbourhoods, all with their own distinct identity and features. In 2015, City Council directed staff within the strategic plan to "Create a 'great neighbourhoods initiative' based on Edmonton's model; amended to fit our local circumstances." This proposed approach provides opportunity to take a more holistic approach to supporting neighbourhoods and for improving internal coordination within the City's operations, better communication across City departments and externally, and providing overall better service to citizens.

Projects in public space and placemaking grants for small-scale community projects and participatory budgeting can empower the community to direct investment in neighbourhoods based on community priorities and support neighbourhood character.

This budget is intended to capitalize on opportunities to shift from project and problem based neighbourhood engagement to focusing on place-based opportunities at a neighbourhood level and proposes new participatory budgeting methods, placemaking and animation of public spaces.

### **Deliverables:**

Pilot Participatory Budgeting project

Total Evnence

- Placemaking opportunities
- Public Space grants

| Year | Total Expense  |
|------|--|
| 2016 | 185,000  |

Project Number:ENG-197Budget Year:2016Project Title:WayfindingBusiness Unit:50573

Strategic Plan Link: Complete a Multi-Modal and Active

Transportation Network

### Overview:

A city-wide wayfinding signage plan and implementation strategy is being developed in consultation with community and stakeholder organizations. In 2016, the first phase of the implementation strategy will be undertaken.

### **Deliverables:**

Completion of the (pending) recommendations of the first phase of implementation of the wayfinding signage plan (e.g. pedestrian wayfinding to landmarks, street name signs) - \$100,000

| Year | Total Expense |
|------|---------------|
| 2016 | 100,000       |
| 2017 | 102,000       |

**Project Number:** ENG-106 **Budget Year:** 2016 **Project Title:** Seasonal Animation **Business Unit:** 50113

Strategic Plan Link: Create Prosperity Through Economic

Development

### Overview:

This business unit funds projects related to downtown seasonal decorations and animation. These have included:

- Purchase of Christmas decorations
- Summer banner: design, competition and purchase
   Chinatown lighting and seasonal ornamentation
- Other capital projects that provide seasonal animation and colour to the downtown (e.g. illuminated Valentine's most romantic spots)

### **Deliverables:**

• Christmas Decorations (\$25,000)

## **PARKS**

### **Guiding Principles**

- Maintain and renew existing parks and recreation infrastructure to meet today's needs
- Greenspace, parks and food systems that are enhanced, well-maintained and fully utilized.
- Future investment will be based on a parks master plan (2016)

## **Guiding Plans**

- Official Community Plan
- Strategic Plan
- Beacon Hill Park Management Plan
- Beacon Hill Park Heritage Landscape Plan
- Various Park Management Plan
- Urban Forest Master Plan

## **CURRENT STATUS OF OUR COMMUNITY'S ASSETS**

PRC-075

**Budget Year:** 

2016

**Project Title:** 

Vic West Park Improvements

**Business Unit:** 

50542

Strategic Plan Link:

Enhance and Steward Public Spaces, Green

Spaces and Food Systems

#### Overview:

Vic West Park is the second largest community park in the Victoria West neighbourhood and offers a variety of activities for neighbourhood residents. It also hosts the City's only skate park facility. It is nearby to growing residential areas including Bayview, Dockside and Railyards.

A park improvement plan will address several park infrastructure needs in a single year including improvements to skate park and play structures, and leash-optional dog area. Vic West is a popular leash-optional area and considerations for managing dog-use will be part of the overall improvements. Soft landscape re-development and irrigation renewal will help offset the City's maintenance operations costs.

Vic West Park improvements were planned and designed in 2015. Implementation of phase one: skate park, playground and off-leash area will be implemented in 2016. Additional improvements to pathways, lighting and field will be proposed in the 2017 and/or 2018 capital plan.

### **Deliverables:**

Skate park upgrades - \$500,000 Playground upgrades - \$260,000 Leash-optional fencing - \$40,000

Phase 1 of improvements to skate park, play structures and leash-optional dog area. Concept plan and construction drawings will be completed in 2015; Consultant for design phase of skate park (February); Construction to be complete by Fall.

Upgrades to be included in construction include the skate park, playground, sports field, leash-optional area, pathway, lighting and furnishing. Future upgrades will be identified in the park improvement plan for consideration in future years. A concept plan and engagement strategy will be presented to Council later in 2015.

### **Project Forecast**

Project Number:PRC-099Budget Year:2016Project Title:Park Furnishing ReplacementsBusiness Unit:50501

Strategic Plan Link: Enhance and Steward Public Spaces, Green

Spaces and Food Systems

### Overview:

Replacement of park furnishings that are failing/not keeping up with demand (5 in-ground garbage cans, 3 drinking fountains,). Asset inventory study will inform future budget planning.

On-going repairs ensures there is safe, functional equipment available for park users and prevents potential health and safety risks associated with park furnishing failure.

### **Deliverables:**

5 in-ground garbage cans

3 drinking fountains

## **Project Summary**

Project Number: PRC-109 Budget Year:

Project Title: Dallas Road "Dog Related" Improvements Business Unit:

Strategic Plan Link: Enhance and Steward Public Spaces, Green

Spaces and Food Systems

### Overview:

Improvements along Dallas Rd, to reduce conflict between dog owners/other park users. Fencing of new leash-optional area, updating of all related signage along property. The project benefit is enhanced park experience for dog owners and other visitors.

Design to Council in fall 2015. Consultation in late 2015/early 2016. Construction to start in early 2016, subject to consultation results, weather, ground conditions.

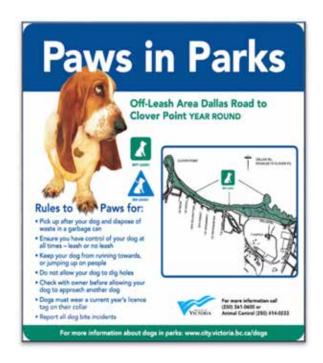

### **Deliverables:**

Construction of fencing and access improvements for leash-optional area.

### **Project Forecast**

| Year | Total Expense |

Beacon Hill Park - Lighting Upgrades

Enhance and Steward Public Spaces, Green Spaces and Food Systems

**Budget Year:** 2016 **Business Unit:** 50501

### Overview:

**Project Title:** 

Strategic Plan Link:

Continuation of critical electrical upgrade and installation of new LED lighting conduit and fixtures. Existing system does not meet electrical code. Existing lighting is from the early 1970s and does not meet current electrical codes. Lighting level is inadequate for the increasing evening use of the park. The current light fixtures diffuse the light rather than provide directional pathway lighting. Total length of pathways for new lighting is 1,325 meters. There are 50 LED lights in Beacon Hill which will be replaced.

The project will be conducted in 3 phases from 2015-2017.

### **Deliverables:**

Electrical wiring and lighting upgrades within "B-Section" of Beacon Hill Park (area between bandstand and Douglas Street) which is characteristically quite dark.

### **Project Forecast**

| Year | Total Expense |
|------|---------------|
| 2016 | 150,000       |
| 2017 | 150,000       |

Project Number: PRC-119 Budget Year: 2016

Project Title: Park Upgrades Business Unit:

Strategic Plan Link: Enhance and Steward Public Spaces, Green

Spaces and Food Systems

### Overview:

Future park upgrades will be contingent on the Parks Master Plan that is scheduled to begin in 2016. The purpose of a Master Plan is to have an overarching document that will guide future detailed park planning and investment that meets the needs of the citizens, businesses and visitors to the City of Victoria. The plan will include priorities that align with the City's strategic priorities that will meet present community needs and provide a legacy for the future.

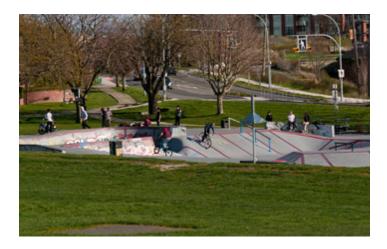

Key components of the plan will include the development of a vision, goals, objectives, investment strategy and gaps in the parks system. This process will include a comprehensive public engagement process to help shape the outcomes and actions identified through the strategic plan.

### **Deliverables:**

Priorities for future park planning and investment.

## STREET INFRASTRUCTURE

## **Guiding Principles**

- Maintain and renew existing surface infrastructure to meet the needs of the public
- Meet safety and industry standards where applicable, for maintenance and replacement of each type of infrastructure
- Ensure that the useful life of the infrastructure is maximized before it must be replaced

### **Guiding Plans**

- Official Community Plan
- Strategic Plan

## **CURRENT STATUS OF OUR COMMUNITY'S ASSETS**

# **Project Summary**

 Project Number:
 ENG-046
 Budget Year:

 Project Title:
 Electrical Kiosk Replacement
 Business Unit:

Strategic Plan Link: Complete a Multi-Modal and Active

Transportation Network

### Overview:

The purpose of this program is to fund the replacement of the electrical distribution kiosks, pole mounted switches and power panels for street and traffic signal lighting. The 2016 budget includes the final 3 underground electrical distribution kiosks that will be moved to above ground kiosks in addition to the switches and power panels replacement schedule.

From 2017 - 2027, the replacement schedule for only the switches and power panels are required. From 2028 - 2034, the electrical distribution kiosks replacement cycle will commence and the budget figures will be a combination of all 3 replacement cycles.

Inventory:

1. Electrical Kiosks

Total Inventory: installing 3 in 2016; total upgraded inventory at the end of 2016 = 54

Lifecycle replacement: 25 to 30 years

2. Pole Mounted Switches

Total Inventory: approximately 850 Lifecycle Replacement: 20 years

3. Power Panels

Total Inventory: approximately 150 Lifecycle Replacement: 20 years

### **Deliverables:**

To replace three underground electrical distribution kiosks with three above ground kiosks and support the annual replacement schedule in 2016.

2016: - \$73,000 3 underground Kiosks 20 pole mounted switches 10 power panels

2017: - \$20,000

20 pole mounted switches

10 power panels

2018: - \$20,400

20 pole mounted switches

10 power panels

Project Number: ENG-115

Project Title: Street Infrastructure - Traffic Controller

Replacement Program

Strategic Plan Link: Complete a Multi-Modal and Active

Transportation Network

Budget Year: 2016
Business Unit: 50557

#### Overview:

This program replaces traffic control cabinets and the controllers, installs un-interruptible power supplies in strategically located traffic signals so they will function normally if BC Hydro power supply fails and upgrades traffic signal detection systems when an existing "in pavement" system is at end of life or the road is in such a condition that we cannot reliably re-install traffic signal detector loops.

The replacement of traffic control cabinets and the controllers program may include replacing the cabinet or the controller, or both. There are 146 units of various styles, with four different models of controllers. The current steel cabinets are at end of life and rusting; the units are designed to be air tight and are failing. This can lead to some intersections malfunctioning due to moisture in the controllers.

The controllers located in the cabinets also need to be upgraded to newer standards and capabilities. The replacement lifecycle for cabinets; 20 years for the external cabinet, and 10 years for the electronics. There is a master inventory list of 146 units that determines replacements. The current rate of replacement is six cabinets per year.

The installation of un-interruptible power program signals are on emergency response routes and on main corridors with Saanich and the Ministry of Transportation. Both of these organizations already have UPS's installed on their portion of these corridors.

The City has installed the following 11 units of which ICBC has funded approximately 40%: Hillside and Douglas, Blanshard and Hillside, Blanshard and Tolmie, Douglas and Bay, Douglas and Burnside, Douglas and Finlayson, Douglas and Tolmie, Hillside and Shelbourne, Blanshard and Bay, Wharf and Johnson, Esquimalt and Roberts. The lifespan of these interruptible power signal units can range between 10 to 15 years, so an average of 12 years has been applied to determine the replacement schedule.

When our existing loops detectors fail in the road, we have a contractor install a new inductive loop into the road surface. Cutting the road surface shortens the life of the asphalt, over time leading to early failure of the detector loop. Most developments and City driven projects near traffic signals typically cause the road to be cut to install services, these same cuts often go through the existing detector loops and they then need to be replaced. If not cut or dug up, an "in road" traffic loop can last up to 10 years, depending on site conditions. Upgrades to the traffic signal detection systems allows for better cyclist detection. These new systems are mounted on the traffic signal poles and not as wire loops in the asphalt.

### Deliverables:

2016 Replacement Schedule:

Installation of 6 Traffic Control Cabinets and Controllers: \$120,500

- Bay at Shelbourne
- Bay at Richmond
- Shelbourne at Haultain
- Banshard at Humboldt
- Esquimalt at Maitland
- Esquimalt at Catherine

Installation of additional 40 un-interruptible power program signal units: \$50,000

- 1. Hillside and Quadra
- 2. Hillside and Cook
- 3. Hillside and Cedarhill
- 4. Hillside and Doncaster
- 5. Blanshard and Caledonia
- 6. Blanshard and Finlayson7. Finlayson and Quadra
- 8. Finlayson and Cook
- 9. Finlayson and Cedarhill
- 10. Hillside and Shakespeare

Installation of Traffic Signal Detection Systems: \$75,000

- 1. Oak and Tolmie (Two of four directions)
- 2. Finlayson and Burnside (Two of four directions)
- 3. Finlayson and Cook (Two of four directions)
- 4. Hillside and Blanshard
- 5. Hillside and Cook

### 2017

Installation of approximately 6 Traffic Control Cabinets and Controllers where locations to be finalized and design drawings done to determine cost for each: \$125,400

Installation of additional 40 un-interruptible power program signal units: \$50,000

- 1. North Dairy and Doncaster
- 2. North Dairy and Wordsworth
- 3. North Dairy and Shelbourne

- 4. Bay and Government
- 5. Bay and Bridge
- 6. Bay and Tyee
- 7. Bay and Quadra
- 8. Bay and Cook
- 9. Bay and Wilson
- 10. Bay and Shelbourne

Installation of Traffic Signal Detection Systems: \$75,000

- 1. Blanshard and Finlayson
- 2. Finlayson and Quadra
- 3. Hillside and Quadra

#### 2018

Installation of approximately 6 Traffic Control Cabinets and Controllers where locations to be finalized and design drawings done to determine cost for each: \$130,500

Installation of additional 40 un-interruptible power program signal units: \$50,000

- 1. Bay and Richmond
- 2. Bay and Fernwood
- 3. Fort and Richmond
- 4. Fort and Lee
- 5. Fort and Oak Bay
- 6. Gorge and Bridge
- 7. Gorge and Jutland
- 8. Esquimalt and Harbour
- 9. Esquimalt and Tyee
- 10. Esquimalt and Catherine

Installation of Traffic Signal Detection Systems: \$75,000

- 1. Finlayson and Cedarhill
- 2. North Dairy and Doncaster
- 3. North Dairy Wordsworth

| Year | Total Expense |
|------|---------------|
| 2016 | 245,500       |
| 2017 | 250,400       |
| 2018 | 255,500       |
| 2019 | 261,070       |
| 2020 | 211,615       |
| 2021 | 215,848       |

2016

50571

## **Project Summary**

 Project Number:
 ENG-172
 Budget Year:

 Project Title:
 Street Infrastructure - LED Street Light
 Business Unit:

Replacement

Strategic Plan Link: Complete a Multi-Modal and Active

Transportation Network

### Overview:

To implement a city-wide conversion of approximately 6500 High Pressure Sodium (HPS) streetlight fixtures to Light Emitting Diode (LED) fixtures phased over 3 years.

Energy consumption from streetlights has remained relatively constant at 4.5 million kWh; representing a 1.2% increase since 2010, while the electricity costs associated with streetlights have increased about 28% due to BC Hydro rate increases. BC Hydro rate increases are expected to continue into the future to fund BC Hydro's capital investments. Electricity costs represent a significant portion of the Streetlight budget at approximately 60%.

The transition from HPS to LED technology is estimated to realize significant energy consumption savings, thereby directly reducing electricity expenses. Additionally, the lifecycle of an HPS streetlight is about 4 years and the lifecycle of the LED streetlight is 15 years. Reducing the frequency of lamp replacement, the City will save on maintenance costs. Currently, BC Hydro provides a rebate program that contributes to offset the cost of the capital outlay.

Aside from the projected operating savings, LED technology is superior to standard HPS lights in many ways such as:

- Reduced energy consumption advances the City's commitment towards carbon neutral municipal operations and greenhouse gas reduction objectives; though modestly since BC has low-carbon hydro-electricity
- Potential improvements in lighting levels and quality, improving the ability for citizens to see and be seen
- Reduction of glare and light wastage through trespass, reducing light pollution

The City is currently completing a detailed inventory of lights and will be using the services of a consultant to develop a lighting strategy to be completed in December 2015 or early 2016. During this phase the City will hold public consultation on the light colour. Based on that information, staff will bring forth a council report between December and February with the recommendations for types of lights to be installed and the locations.

### Deliverables:

- Replacement of 6500 HPS street lights to LED technology
- Energy savings up to 50% or 1.9 million kWh annually; the equivalent of powering 156 homes each year
- Greenhouse gas reductions of 45% or 22 tonnes of CO2 annually; the equivalent to the greenhouse gases produced by approximately 5 passenger vehicles per year
- Improved light levels and quality of lighting, reducing light pollution/trespass

| Year | Total Expense |
|------|---------------|
| 2016 | 1,000,000     |
| 2017 | 1,081,600     |
|      | 2 081 600     |

Project Number:ENG-176Budget Year:2016Project Title:Gate Of Harmonious Interest Chinatown -Business Unit:50567

Remediation

Strategic Plan Link: Enhance and Steward Public Spaces, Green

Spaces and Food Systems

### Overview:

Remediate roof of Harmonious Gate of Interest to maintain structure in intended form.

The gate was erected in 1981 in honour and recognition of the Chinese heritage in Victoria. This project was a joint project between the City and the Chinese community to preserve and revitalize the historic Chinatown. The roof is constructed of ceramic tile, which has replaced once already in the early 90's. The remainder of the structure is steel with painted wooden motifs adorning the structure.

Over the past few years the deterioration of the roof tiles has accelerated. Loose pieces of the roof are routinely removed during maintenance activities and at times pieces of the roof tiles fall to the road and sidewalk below. An inspection carried out in March of 2009 suggests that the deterioration has reached a point where major significant remediation is required to maintain this structure in its intended form and to keep tiles from falling. A study will be undertaken to assess the current tiles and to devise a new roof system that will look similar, but that will not break down in this way. Consultation with the Chinatown community will be part of this study.

If work is not done, the roof tiles will continue to deteriorate, break apart and fall to the sidewalk below, and could injure a passerby.

### **Deliverables:**

To construct a new, more resilient roof system that will look similar to the old Gate roof based on the design study that is currently underway and is expected to be complete by the end of 2015.

| Year | Total Expense |
|------|---------------|
| 2016 | TBD           |
|      |               |

Project Number:ENG-226Budget Year:2016Project Title:Street Infrastructure - Street Light Pole and ArmsBusiness Unit:50464

Strategic Plan Link: Complete a Multi-Modal and Active

Transportation Network

### Overview:

This program is intended to fund the replacement of aging, damaged, rusted or fatigued street light and traffic signal poles including BC hydro pole streetlight arms, new pole and light installations, adding or installing new davits and lights on existing utility poles, new crosswalk downlighting and regular assessments for damage and structural integrity.

The main purpose of lighting roadways and other transportation-related facilities is safety - providing a safe environment for the public to use the road system during periods of darkness. A well-lit public right-of-way reduces motor vehicle collisions, and provides a safe, comfortable environment for pedestrians, cyclists and drivers.

The inspection program helps to reduce liability and maintain the integrity of these assets. Each pole's structural integrity will be tested and rated every 6 years, with a visual inspection each 3 years. The rating system will allow the City to identify and prioritize poles that are of concern to determine future pole replacement.

BC Hydro's accelerated pole replacement program is now extended at a lower level for at least 2016. We are capturing this opportunity to upgrade to LED fixtures and take advantage of BC Hydro's 25% rebate program as when BC Hydro replaces a pole, the City's streetlight fixtures are removed and have to be replaced. Some of the supporting arms may have to be replaced at the same time.

Individual projects have not yet been identified for new installations as typically, this budget is used to respond to emerging public requests in a timely manner, or to complement other Transportation Capital projects where lighting needs to be upgraded.

The City has 3,123 metals poles for street lights and traffic signals and 4,800 hydro pole streetlight arms. The majority of the Street Light Pole system are metal poles, which have an engineered life of 20 years. We are installing new galvanized poles, with a life expectancy of 30-50 years.

### **Deliverables:**

Structural Pole Assessment - \$50,000

Annual Replacement Schedule:

Replacement of approximately 20+ metal poles - \$190,000

Total Expense

Replacement of approximately 150+ hydro pole streetlight arms (BC Hydro routine wood pole replacement schedule) - \$50,000

New Installation of 8 street lights - \$16,500

Project Number: ENG-064

Project Title: Street Infrastructure - LED Signal Head/Ped

Countdown Signal and Audible Ped Signal

Installation

Strategic Plan Link: Complete a Multi-Modal and Active

**Transportation Network** 

Budget Year: 2016 Business Unit: 50031

### Overview:

Upgrade existing pedestrian-related signal displays with displays that include pedestrian countdown signal at the 127 intersections in the City with traffic signals or pedestrian signals. Install audible pedestrian signals at existing signalized intersections. Upgrade existing traffic signal displays with LED signal heads.

Countdown signals provide additional information to pedestrians contemplating a road crossing at a signalized intersection. Audible signals assist persons with hearing disabilities when crossing at signalized intersections.

Priority for the installation of countdown signals is given first to crosswalks at signalized intersections where the road crossing is long (roads with multiple travel lanes; i.e. Douglas, Blanshard, Hillside, Government, Shelbourne), and pedestrians are exposed to traffic for longer periods of time. 58 of the 127 signalized intersections have been upgraded with pedestrian countdown signals to date.

For audible pedestrian signal installation, staff consult with the Canadian National Institute for the Blind (CNIB), who have priority corridors identified by their clients. 68 of the 127 signalized intersections have been outfitted with audible pedestrian signals.

### **Deliverables:**

New countdown signals at 4 intersections. Countdown signals will be added to intersections, in conjunction with other traffic signal upgrades/electrical maintenance activities.

2016 locations are:

Government/ Johnson (Downtown Neighbourhood) - \$8,000 Government/Yates (Downtown) - \$8,000 Bay/Quadra (Hillside/Quadra Neighbourhood) - \$8,000 Bay/Fernwood (Fernwood Neighbourhood) - \$8,000

Project Number: ENG-070

Project Title: Street Infrastructure - New Traffic Safety

Upgrades and Installations

Strategic Plan Link: Complete a Multi-Modal and Active

Transportation Network

Budget Year: 2016 Business Unit: 50073

### Overview:

All new traffic signal work, with the exception of pedestrian countdown signals and audible pedestrian signals, are funded under this program. This includes new traffic signal installations, the addition of signal head required for new phases, overall network enhancements such as transit-priority hardware, and upgrades resulting from changes to Provincial legislation.

Improvements are identified through collision statistics analysis to address trends or patterns.

The 2016 program will focus on the design and installation of new signal pole upgrades at Johnson/ Vancouver and Pandora/ Vancouver.

### **Deliverables:**

Design and installation of a traffic signal pole upgrade at:

- Johnson/ Vancouver

| Year | Total Expense |
|------|---------------|
| 2016 | 30,000        |

**Business Unit:** 

### **Project Summary**

Project Number: ENG-201 Budget Year: 2016

Project Title: Street Infrastructure - Traffic Signal Fibre Optic

Upgrade

Strategic Plan Link: Complete a Multi-Modal and Active

Transportation Network

### Overview:

To install a fiber optic link between strategic traffic signals and our Traffic Operations Center Servers. This will allow the traffic signals to be monitored automatically and remotely. This helps keep the traffic signals all timing together, thus keeping traffic flowing. Notification of issues will then automatically be sent to the right people for an appropriate response (eg. Signal in Flash, power outage).

Working in conjunction with our IT department we will be able to control and monitor traffic patterns, reducing congestion and emission of greenhouse gases by effectively moving traffic and general public throughout the city. Communications can also allow fire department to be integrated into the network to allow fire preemption at signals to reduce response times in the event of an emergency, saving lives and property damage. In the case of large events we can not only change timings to increase the amount of vehicle traffic moving in and out of the city, but we can give VicPD access to our traffic cameras to monitor events and maintain crowd control, or possible attacks on the city.

The City currently has 15 intersections on the network and is scheduled to add 115 to the network by the end of 2019, with room for expansion.

The projects are identified and prioritized based on the following:

- 1 Heaviest volumes of traffic and transit
- 2 Preemption and emergency vehicle corridors
- 3 Areas of poor power conditioning that affect time clocks in traffic controllers

#### **Deliverables:**

Replace existing out of date (not usable) communication cable between about 45% of our traffic signals. 15% of them have already been done under the Transit Signal Priority project.

#### Projects:

2016- Blanshard corridor, Yates corridor

2017- Hillside corridor, Bay corridor

2018- Quadra Corridor, Vancouver and Cook corridors

2019 - Esquimalt and Vic West

# **Project Summary**

Project Number: ENG-216

Surface Infrastructure Program

Budget Year: Business Unit:

Strategic Plan Link:

**Project Title:** 

Enhance and Steward Public Spaces, Green

Spaces and Food Systems

#### Overview:

The Public Works Division is responsible for maintaining most of the surface infrastructure in the City of Victoria. These include: 1525 Fire Hydrants, 900 Cluster Lamps, 1750 Signal and Streetlight Poles, 250 Bollards, 260 Benches, 18km of Railings, and other miscellaneous items that adorn our sidewalks, squares, boulevards, walkways and other civic spaces.

This new program establishes a 5 year cycle for refinishing this infrastructure, and keeps the City of Victoria sparkling and clean looking for our citizens and tourists. Currently there are several pockets of funding, but it is inadequate to fund a proper refinishing cycle. This budget request will add funding to achieve this cycle.

#### **Deliverables:**

All surface infrastructure will be refinished on a 5 year cycle (average for painted surfaces) or as other surface preparations dictate. Annually prep-prime-paint 305 hydrants, 180 clusters, 50 bollards, 350 poles, 52 benches, and 11,600 feet of railings.

Project Number: ENG-223 Budget Year: 2016

Project Title: Replacement of Benches Business Unit:

Strategic Plan Link: Enhance and Steward Public Spaces, Green

Spaces and Food Systems

#### Overview:

Approximately 20 years ago, the City entered into an agreement with Miles Plumbing a local plumbing company that installed benches at various bus stops at their cost. The agreement is no longer in force and the benches are in poor condition. This initiative will replace 13 benches which are no longer serviceable with new wooden painted benches and add 7 new benches in bus stop locations that have nothing.

#### **Deliverables:**

Twenty (20) good quality benches matching inventory standard installed in various locations.

Project Number:ENG-005Budget Year:2016Project Title:Dallas Road Seawall RehabilitationBusiness Unit:50529

Strategic Plan Link: Environmental Sustainability

#### Overview:

This is a continuing project to stabilize the seawall prior to the balustrade (which sits on top at road level) being replaced. Large chunks of seawall have delaminated and have fallen onto the beach below.

A structural evaluation of the Dallas Road seawall and balustrade indicated the balustrade had reached the end of its serviceable life. Further investigation also revealed repairs were required to the seawall structure prior to replacing the balustrade structure. Repairing the Seawall and balustrade will allow continued pedestrian, cyclist and vehicle passage on Dallas Road.

In 2014 the worst sections were repaired, and work will continue until all sections have been addressed - now forecast for 2017 completion. This is a safety concern and also protects the beach, road and sidewalk above. This is also on one of two main transportation routes from the Cruise Ship Terminal. This work will prolong the life of the seawall asset by adding a structural facing to the existing wall. When this project is completed in 2017, the balustrade can then be replaced.

The project was originally anticipated to be complete in 2016, however, as sections of the wall were opened up, it has become clear that the whole wall should be resurfaced, so the project has been extended to 2017 at an additional cost of \$100,000 for the 2016 budget and \$600,000 for 2017 budget.

#### Project Alignment:

This project is in collaboration with Transportation and Development (ENG-186) capital budget to replace the balustrade structure once the Seawall Rehabilitation project has been completed.

#### **Deliverables:**

A structurally sound seawall that protects the existing road, sidewalk and underground utilities on this section of Dallas Road. For 2014, approximately 75m2 of the seawall face was repaired.

2014 - 2017 - detailed assessment and Seawall repair

| Year | Total Expense |
|------|---------------|
| 2016 | 500,000       |
| 2017 | 600,000       |
|      | 1,100,000     |

Project Number:ENG-120Budget Year:2016Project Title:Douglas Street Retaining WallBusiness Unit:50562

Strategic Plan Link: Complete a Multi-Modal and Active

Transportation Network

#### Overview:

This 2016 budget funds the completion of construction for the retaining wall facing BC Transit on 2800 block Douglas Street.

Condition assessment completed in 2013 reports have shown the wall to be in extremely poor condition and unable to withstand a minor earthquake. The retaining wall supports Douglas Street, one of the main arterial streets into downtown Victoria.

A consultant was hired to evaluate various design options, complete a detailed design for the recommended option, and work with City staff to hire a contractor to build a new supporting structure. Detailed design is complete, and construction will begin in 2015 with a project completion date in early 2016.

#### **Deliverables:**

A new supporting structure to restrain and contain a 113m long by 4m high retaining wall.

| Year | Total Expense |
|------|---------------|
| 2016 | 300,000       |
|      | 300,000       |

Project Number:ENG-173Budget Year:2016Project Title:Ship Point Retaining WallBusiness Unit:50567

Strategic Plan Link: Complete a Multi-Modal and Active

Transportation Network

#### What (Description):

Assessments of the existing seawall structure at Ship Point in 2005 determined the wall is in need rehabilitation. Repairing the wall will ensure ongoing use of the upland City property, as a parking lot (current use), waterfront pathway (future David Foster Way), or redevelopment site.

Repairs to the seawall structure at Ship Point:

Stage 1 - a consultant has been retained in 2015 to prepare a design and cost estimate to repair the waterfront seawall at Ship Point. This study will be completed January 31, 2016. The total consulting fee is estimated to be \$75,000 of which \$25,000 is expected to be a carryforward in 2016.

Stage 2 – Detailed design of reconstruction/repairs and construction costs.

#### **Deliverables:**

Design and cost estimate to repair the seawall Construction of seawall

| Year | Total Expense |  |
|------|---------------|--|
| 2016 | TBD           |  |
|      |               |  |

Project Number: ENG-186 Budget Year: 2016

Project Title: Dallas Road Seawall Ballustrade Business Unit:

Strategic Plan Link: Complete a Multi-Modal and Active

Transportation Network

#### Overview:

To replace the balustrade (railing) once the seawall rehabilitation project has been completed. The existing balustrade is failing, has been bolted to hold portions together, and has to be painted every two years to minimize the rust stains. It is constructed from reinforced concrete. A replacement balustrade must be designed, approved and a cost estimate provided.

The budget request for 2016 is for conceptual design only. The original railing is extremely deteriorated, and a replacement railing will be required. A public consultation process will be necessary as design options are developed, and Council approval will be required prior to proceeding with final design.

#### **Deliverables:**

2016 - detailed assessment and seawall repair

2016 - 2017 - design and construction of approximately 500m of railing on top of the Dallas Rd Seawall

The budget for 2016 is design cost only.

Design cost is an estimate and may vary depending on Council direction. Construction cost to be determined upon completion of design.

| Year | Total Expense |
|------|---------------|
| 2016 | 20,000        |
| 2017 | TBD           |

Project Number:ENG-081Budget Year:2016Project Title:Point Ellice Bridge Rehabilitation/PaintingBusiness Unit:50550

Strategic Plan Link: Complete a Multi-Modal and Active

Transportation Network

#### Overview:

The existing Point Ellice Bridge structure is in need of substantial rehabilitation work. The issues of leaking deck joints, causing rusting to the top flanges and ends of the steel members and cracking/spalling in the area of the abutments and approach spans, most likely associated with settlement.

The project involves carrying out larger-scale rehabilitation work on the Point Ellice Bridge, identified through previous condition assessment reports.

#### **Deliverables:**

2017

Design drawings and specifications for construction

2018 - Construction:

Replacing the main expansion joints
Rehabilitating concrete at the abutments
Adding anodes to the bridge structure to reduce future steel corrosion
Removing the asphalt deck to add a waterproof membrane
Resurfacing the bridge deck (asphalt)
Rehabilitating pedestrian handrails and light standards
Rehabilitating the existing steel structure

| Year | Total Expense |

Note: The city is currently undergoing a facilities assessment and a complete facilities forecast will be updated based on that information. The assessment will inventory all City-owned buildings and condition to guide future capital investment and prioritization and a long-term strategy for City's facilities.

Project Number:ENG-009Budget Year:2016Project Title:FAC-Energy ConservationBusiness Unit:50212

Strategic Plan Link: Plan for Emergencies Including Climate Change

Short and Long-Term

#### Overview:

Energy accounting (Priority 2) - \$20,000

Energy accounting, consulting, miscellaneous retrofits and studies for all City of Victoria buildings. To provide assistance with energy accounting in order to deliver the Provincial government with vital and mandatory statistics regarding our energy usage and our conservation efforts

Energy consulting services - \$15,000

To provide assistance with energy grant applications for all applicable facility projects and to keep the Facilities informed of potential energy grants applicable to future projects. The City just completed the Continuous Optimization Program with BC Hydro for 4 of the City's buildings/sites. They included Crystal Pool, VicPD, City Hall and the Public Works Yards. The three year program with BC Hydro resulted in just under \$64,000 in grants over 3 years.

Miscellaneous energy conservation retrofits (Priority 3) - \$15,000

To replace inefficient equipment with high efficiency equipment in conjunction with BC Hydro and Fortis BC energy grants as they develop throughout the year. This includes minor projects like high energy lighting changed to efficient LED lighting or automatic motion switches installed in low usage rooms where lights are often left on. Many projects will be based on previous energy studies. Projects for 2106 include the conversion of propane to natural gas in BHP greenhouse 6, upgrade heating controls in Fire Hall 3 and BHP Service Building.

#### **Deliverables:**

Assistance with energy accounting from an energy consultant.

Assistance with energy grant applications and energy project consultation.

Retrofitting inefficient equipment with high efficiency equipment in conjunction with BC Hydro and Fortis BC energy grants.

#### Overview:

Beacon Hill Administrative Office Building

Seismic and Accessibility Study (Priority 2) - \$10,000 – This study will determine required upgrades to comply with current seismic and accessibility standards

First Floor Washroom renovation (Incomplete from 2015) – (Priority 2) - \$75,000

Project was started in late 2015 and is scheduled to be completed by the end Q1 of 2016

- budget includes contingency for Haz-mat abatement
- safety and accessibility
- to meet Work Safe requirements and accessibility for staff and the public
- currently there is a small men's washroom on the first floor
- the office is the location for commissioning commemorative park benches and access to the facilities is prohibitive no access available for mobility challenged
- previous renovations removed the former first aid station increasing size of washroom allows for inclusion of first aid and clean-up station needs in the project

#### **Deliverables:**

- Accessibility study will address potential concerns for barrier free access.
- Code evaluation will ensure the building is compliant with all the latest codes.
- Seismic study will provide valuable information for future structural work to ensure the building meets the most recent seismic standards.
- 1st floor washroom renovation

Project Number:ENG-149Budget Year:2016Project Title:Lifecycle - Victoria Police Dept HeadquartersBusiness Unit:50468

Strategic Plan Link: Facilitate Social Inclusion and Community

Wellness

#### Overview:

The Victoria Police Department Headquarters will receive repairs to the substructure and roof, phase two of the building heating and air conditioning control system upgrade and will have a design study completed for the boiler system.

Building substructure repairs (Priority 1) - \$875,000

In 2014, mould was discovered inside VicPD. The mould was remediated and a portion of the leaks were repaired in 2015. It was determined that the building integrity was compromised; the membrane was found to have shrunk which water infiltrated. Half of the patios were repaired in 2015. This project will complete the patio repairs. Without the building envelope repaired water will still infiltrate the interior building and cause additional mould.

Cooling tower roof (Priority 1) - \$10,000

Replace the aged roofing which surrounds the cooling tower as leaks are now being detected in the rooms located below.

Installation of new heating control system phase two (Priority 2) - \$30,000

The heating control system (components and controls) is at the end of its useful life and requires replacement. The new system will provide more components to allow better control of heating systems and reduce energy costs. The project is to be phased over three years.

Boiler replacement design (Priority 2) - \$10,000

Design of a new more efficient boiler system to replace the current aged system.

#### **Deliverables:**

Sealed building envelope - roofing membrane will be replaced on the patios during the second phase of the substructure repairs.

Installation of a new Direct Digital Control (DDC) System (phase two of three) Cooling tower roof will be replaced.

The boilers design will be completed providing detailed cost benefit analysis for future replacement.

**Project Number:** FIN-003 **Budget Year:** 2016 **Project Title:** Corp IT Infrastructure **Business Unit:** 50025

Strategic Plan Link: All Strategic Plan Objectives

### Overview:

Annual replacement and maintenance of the City's IT hardware inventory according to the established hardware replacement policy.

To keep the City's IT infrastructure in alignment with industry best practice around lifecycle management a replacement schedule assists in maintaining a reliable and stable IT hardware in the most cost-effective way possible.

Managing computer devices on a schedule ensures that they remain serviceable with downtime due to technology issues minimized.

### **Deliverables:**

Current mix of Desktops 425, Printers 105, Laptops/Tablets 75.

Replace 75 PCs pre-2011

Replace 40 laptops pre-2011 Replace 20 Multifunction and single function printers

Replace 50 Monitors

### Lifecycle Timeframes:

| Device Type        | Timetrame             | Reason for replacement                              |

896 Draft Financial Plan 2016 CITY OF VICTORIA Draft 2016-2020 Financial Plan --S. Thompson, Director of Fi...

Project Number:FIN-006Budget Year:2016Project Title:Corporate Application SupportBusiness Unit:50010

Strategic Plan Link: All Strategic Plan Objectives

#### Overview:

Information systems have an important role in the City's ability to deliver exceptional customer service and expedite processes. Enhanced communication, engagement and accountability are reliant on effective use of technology to engage with the citizens, business and community partners.

Continual enhancement of the City's software applications occur to improve customer service, information sharing and maximize resources in providing service to the community. This includes enhancements to existing functions and introducing new tools and programs that integrate with other corporate systems.

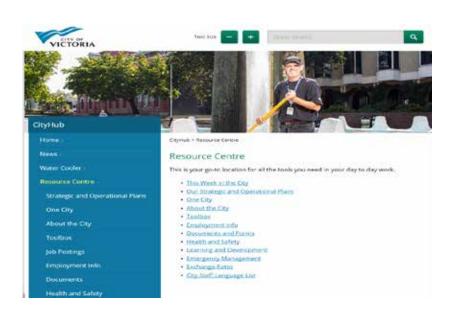

#### **Deliverables:**

### IT projects

- Development tracker expansion
  - Building, electrical and plumbing permits
  - o Heritage alteration permits
- Sharepoint expansion
  - o report and document tracking and sign-off
  - agreement tracking
  - digital plan review
- Customer service improvements
  - o tracking and response for customer enquiries and requests
  - o online form for customer requests
- Open data portal
  - tools for citizens to view and analyze data
- Authorization matrix and e-requisition
  - replace manual processes
- Business licence eApply
- HR training room IT equipment update
- New system for employee performance planning and review
- Yardstick benchmarking for parks

Project Number:ENG-072Budget Year:2016Project Title:Vehicle & Heavy Equip ReplacementBusiness Unit:50028

Strategic Plan Link: All Strategic Plan Objectives

#### Overview:

To fund the ongoing replacement of Vehicle and heavy equipment.

The Fleet section administers the replacement of assets based on the following guidelines:

- The Asset no longer satisfies the Municipal Government criteria
- The Asset is no longer reliable or cost effective to operate
- The Asset is no longer needed by the program
- The Asset has met the end of its useful life (based on life cycle and condition assessments)
- To replace damaged Assets and heavy equipment

The Fire Department has an additional consideration for Asset replacement. According to the NFPA 1901 Annex D standard, and the Fire Underwriters, firefighting apparatus should only be kept in service for 15 years, and then for the next five years it may be held in reserve for major fires or temporary replacement for out of service first line apparatus. At 20 years of age firefighting equipment should be retired from service.

### **Deliverables:**

The 2016 Baseline Replacement Schedule includes a combined of

- Nineteen (25) pickup trucks, cars, SUV's and vans
- · Lease fee payments (MFA loan) on one Fire response truck
- Four (4) pieces of Heavy Equipment

Project Number:ENG-110Budget Year:2016Project Title:Small Equipment and ToolsBusiness Unit:50029

Strategic Plan Link: All Strategic Plan Objectives

### Overview:

This capital budget is to maintain and repair all restricted and non-plated mechanical equipment, barricades and gas monitors for Public Works, Engineering and Parks. This is an ongoing annual program. Equipment is replaced when repair costs are too high and the equipment is too worn to repair.

#### **Deliverables:**

Inventory of all small equipment and tools assets to be completed. Equipment is replaced based on the above criteria and when needed.

The projected 2016 replacement is:

- 1 Hilti Hammer T1000
- 1 2000W Suitcase generator
- 1 Lincoln Welder replacement
- 1 Iron Worker" Hole Punch and Shear + tooling
- 1 AC Machine
- 1 Tool Box
- 1 Band Saw
- 1 Walker Mower
- 1 Blackmore Seeder
- 1 Stump Grinder
- 2 Jack Hammers
- 3 Plate Tampers
- 3 Jumping Jack Tampers
- 1 Trash Pump
- 2 1000 Breakers

Miscellaneous tools - Saws, Trimers for Parks and Tool Depot

Project Number: ENG-222 Budget Year: 2016

Project Title: Vehicle based telematics and data acquisition Business Unit:

improvements

Strategic Plan Link: All Strategic Plan Objectives

### Overview:

To assess the market for options for GPS tracking/fleet monitoring, automated fuel dispensing and illustrate the value of vehicle telematics to the City of Victoria operations. To develop a strategy of recommended technology requirements for the City of Victoria (CoV) vehicle telematics including project scope. Procure and install the hardware onto the fleet and implement a program into the CoV fleet and operations in 2016.

### **Deliverables:**

- Hardware installed on all CoV vehicles including Fire Service Trucks
- Hardware upgrade on the Computrol fuel dispensing system to RFID system
- End user training for office based access to the system
- Vehicle monitoring subscription and service contract
- Communication protocols and policy development for data storage and usage

Project Title: CNG Fuel station refurbishment Business Unit:

Strategic Plan Link: Plan for Emergencies Including Climate Change Short and Long-Term

To perform a CNG compressor station refurbishment program, extending the life of the original asset and maximize future reliability. The refurbishment will include upgrade to the compressor control panel, new heat exchanger unit and a full compressor rebuild including cylinders, seals and bearings.

### **Deliverables:**

Overview:

Replacement of the Compressors electronic control panel /Programmable Logic Control board to a new design that is supportable

- Complete compressor strip down and rebuild including internal inspection, overhaul of all major internal components
- Replacement of the compressor heat exchanger unit including flush of the coolant system
- Non Destructive Testing / Inspection of the fuel storage tanks
- Compressor cabinet refurbishment to include corrosion protection, preparation and re painting of the compressor cabinet assembly (work to be completed by CoV staff)

Project Number: ENG-221 Budget Year: 2016

Project Title: Mechanic Shop - Hoist aquisition & shop Business Unit:

improvements

Strategic Plan Link: All Strategic Plan Objectives

### Overview:

To optimize the mechanic shop layout by removal of the old in ground four post lift, remove and fill in the pit and procure a set of six post wireless hoists. Improvements to the shop layout and introduction of second set of wireless hoists will increase shop efficiency and maximize the space utilization.

### **Deliverables:**

- Removal of the end of life, in ground four post lift assembly

- Removal and fill in of the old no longer required pit (increasing shop floor space)
- Procure a set of six wireless hoists including jack stands

| Year | Total Expense |
|------|---------------|
| 2016 | 100,000       |
|      | 100.000       |

Project Number: ENG-086

Project Title: Parkade Revenue Control System

Strategic Plan Link: Create Prosperity Through Economic

Development

Budget Year: Business Unit: 2016

# Overview:

For the upgrade and replacement on an eight year cycle of the Parkade revenue control system containing ticket spitters, card readers, gates and fee computers.

| Year | Total Expense |
|------|---------------|
| 2017 | 500,000       |
|      | 500.000       |

# **Project Summary**

Project Number:ENG-020Budget Year:Project Title:Parking Equipment/Technology UpgradeBusiness Unit:

Strategic Plan Link: Create Prosperity Through Economic

Development

# Overview:

The Parking Technology Upgrade budget is utilized to improve customer service and overall operations of Parking Services. These improvements can be made to the parkades and on-street parking where the new technology will have a positive effect on either business practice.

### **Deliverables:**

- 1) Replace old failing buttons on nearly 220 pay stations \$25,000
- 2) Install space counters signs at the Johnson St, Broughton St. and Centennial Square parkade \$50,000
- 3) Purchase new supply of parking cards \$50,000
- 4) Pay on Foot stations at Centennial and Broughton \$90,000
- 5) Ticket Writing Program \$30,000

Strategic Plan Link: Facilitate Social Inclusion and Community

Wellness

### Overview:

This is a planned and ongoing program that replaces in accordance to fitness and aquatic equipment lifecycle plans throughout the recreation facility. The equipment purchased is focused on both meeting existing needs and preparing for new trends to ensure that a variety of options are available for the patrons. The planned replacement provides quality service experience for patrons and minimize service disruptions

### **Deliverables:**

2016 Replace cardio fitness equipment: 4 ellipticals, 2 steppers, 6 stationary bikes (2 recumbent, 4 upright).

Strategic Plan Link: Facilitate Social Inclusion and Community

Wellness

#### Overview:

Royal Athletic Park provides recreation and sporting opportunities for citizens, visitors and businesses. Royal Athletic Park provides opportunities for the public to attend or participate in a variety of sporting events and festivals throughout the year and has both baseball and soccer major tenants. Customer experience is important to supporting programming and anchor tenants in the park.

Annual capital investment into Royal Athletic Park and the Cameron Bandshell addresses lifecycle replacement and/or enhancements to key components including lighting, grandstands, bleachers, concessions, change rooms, scoreboards, washrooms, drainage, fencing, tarmac and field set-up.

### **Deliverables:**

2016 Royal Athletic Park

Construction of field level seating to extend the baseball grandstand. Tenant project, City support via cost-sharing (~50%) of construction. The benefit of this improvements is premium seating for sporting events, increased customer service, increased spectator capacity.

Project Number:ENG-035Budget Year:2016Project Title:SS - Inflow & InfiltrationBusiness Unit:30015

Strategic Plan Link: Steward Water Systems and Waste Streams

Responsibly

# Overview:

To address problems of inflow and infiltration to the sanitary sewer system. This program will support pipe rehabilitation, lateral service connection sealing, manhole upgrades, the reconnection of storm connections that are incorrectly connected to the sanitary sewer, flow monitoring to determine priorities and pilot projects to determine the most effective means to reduce inflow and infiltration.

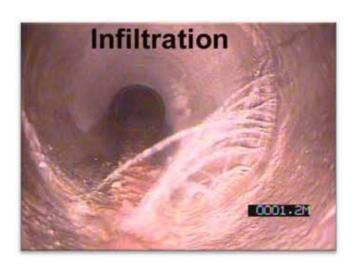

### **Deliverables:**

Flow monitoring Program – \$200,000 Overflow Monitoring & Elimination - \$25,000 Smoke testing follow-up investigations - \$25,000

Lateral Service Connection Sealing & Lining Program - \$75,000 Combined Manhole Replacement Program - \$60,000 Pilot Catchment I&I Reduction Program – James Bay - \$275,000

2016 Mainline Lining Program: - \$400,000 Chester - Fairfield to Hilda Cook – North Park to Grant Dallas – South Turner to Menzies Denman – Shelbourne to east Government – Superior to Belleville John – Bridge to Ludgate Mason – Rebecca to Cook

Project Number:ENG-037Budget Year:2016Project Title:SS - Mains ReplacementBusiness Unit:30011

Strategic Plan Link: Steward Water Systems and Waste Streams

Responsibly

#### Overview:

To replace and upgrade sanitary mains which have been identified as a system deficiency, having inadequate capacity, or having gone well beyond their life expectancy. Rehabilitation efforts include extending the life of existing infrastructure that is nearing the end of its life expectancy, or is in need of repair. This BU also funds the Utility Locator Funding.

### **Deliverables:**

The Mains Construction budget is broken down into some general categories:

2016 Construction Projects:

Wark Street – Hillside Avenue to Market Street, replace approx. 98m of 200mm VCT - \$100,000 Government Street – Toronto, north to #433 Government, replace approx. 115m of 200mm VCT - \$145,000 Fifth Street – Topaz to Vista Heights, replace approx. 174m of 200mm VCT - \$200,000 Fifth Street – Vista Heights to Hillside, replace approx. 174m of 200mm VCT - \$235,000

System Component Funding:

- Laterals \$145,000
- Spot repairs \$52,000
- Manholes \$25,000
- Pump stations \$75,000

Coordination with Paving Projects - \$85,000

Project Number:ENG-039Budget Year:2016Project Title:SS - System PlanningBusiness Unit:30016

Strategic Plan Link: Steward Water Systems and Waste Streams

Responsibly

### Overview:

The development of a Sanitary Sewer Master Plan. The Master Plan will allow for simulation and analysis of the sanitary sewer system using computer software, and the determination of sewage flows, including inflow and infiltration flows, forecasting of future development flows, assessment of the conveyance system capacity, impacts of climate changes, evaluation of upgrade scenarios, and allows staff to make informed, economical decisions about the system for future construction activities. The Master Plan will provide a prioritized, multi-year plan for system wide improvements including a list of priorities and cost estimates. The Master Plan will incorporate CCTV condition assessment data and coordinate upgrades with other master plans.

A request for proposal for specialty engineering services to develop the Master Plan will be prepared and a consultant with expertise in this field will be selected. The consultant will be provided with the existing hydraulic model, infrastructure data, planning and development information. Detailed design criteria and land use information for generation of flows will be developed and incorporated into the Master Plan.

### **Deliverables:**

• Development of Sanitary Sewer Master Plan

| Year | Total Expense |
|------|---------------|
| 2016 | 200,000       |
| 2021 | 200,000       |

Project Number:ENG-030Budget Year:2016Project Title:SD-Brick Main RehabilitationBusiness Unit:50494

Strategic Plan Link: Steward Water Systems and Waste Streams

Responsibly

### Overview:

Most of the brick mains are approaching 100 years in age. Many of these mains are located within easements and under buildings. Brick mains are showing signs of age. Closed circuit TV (CCTV) shows that the portions of the mains are in poor shape – open cracks laterally and at the crown.

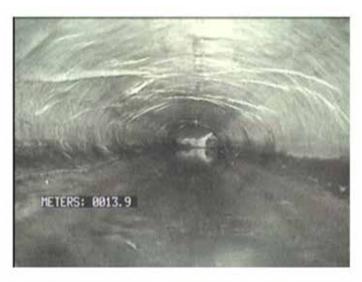

### **Deliverables:**

The projects are listed below: Preliminary design and investigation work has been done in 2015, with the remainder carried over to 2016 for the construction portion

2016 Projects:

Linden Ave - Oxford to May, rehabilitate approx. 223m of brick storm drain main

Project Number: ENG-190 Budget Year: 2016

Project Title: WW - Water Meter Replacement Business Unit:

Strategic Plan Link: Steward Water Systems and Waste Streams

Responsibly

#### Overview:

To replace end of life under-reading water meters with new advanced metering infrastructure. There are over 18,000 water meters and approximately 16,000 of these are residential meters. The remaining 2,000 non-residential meters are currently being replaced under the lifecycle maintenance schedule.

Water meters are an important part of the water distribution system as they measure the volume of water used by customers. The consumption volume is used to bill for water and sanitary sewer fees. Accurate water meters promote water conservation, provide accurate and timely billing, promote customer equity and provide valuable data for system operation, design and maintenance.

Accuracy of the existing meters depends on many factors such as the rate of flow and total quantity of water that has been measured over time. The current inventory of aging meters is due for replacement with the average meter age estimated to be 45 years. Water industry studies have concluded that residential meters should be replaced after 20 years.

Faulty meters under-read the consumption, so customers are not over-charged as all meters the City installs have been engineered to under-read when they become worn-out. In 2009, the City conducted meter accuracy tests at 14 locations. The results of this testing found that on average the meters were only recording 80% of actual water consumption. For 12 of these locations, the meters were considered a failure for low flow accuracy based on American Water Works Association limits.

The City calculates the total un-billed water volume on an annual basis. Un-billed water volume is the difference between CRD wholesale bulk water purchase and the water volume the City's sells to customers and includes system leakage, municipal use and meter accuracy loss. From 2009-2013, the un-billed volumes are approximately 10% of the water volume purchased from the CRD and equates to an average of \$700,000 each year. The un-billed dollar values are not amounts the City has lost in revenue as the water rates are increased to ensure the City collects the required revenue to cover the costs of the utility.

Additional benefits are realized with the installation of new water meters. The City and residents will be able to monitor water consumption in a timely basis and increase the potential for early detection of leaks; reducing the upward pressure on the water rates. Additionally, the City would have the ability to implement a more frequent billing system; increasing the timeliness of billings and potentially reducing the financial burden some residents face due to the current four month billing cycle. Implementing new technology provides options to improve current processes. Should Council wish to explore these opportunities, staff would bring forth a report outlining options and resource requirements.

Currently, the City has \$1,835,000 in the Water Utility Equipment and Infrastructure Reserve for the Water Meter Replacement.

# Deliverables:

Replacement of approximately 16,000 residential water meters in a program phased over five years, starting in 2016.

Project Number: FIN-011 Budget Year: 2016

Project Title: Contingency Fund

#### Overview:

The contingency fund is established to meet capital requirements to address unanticipated and unforeseen events that arise during the year. Events can include unforeseen weather, natural disasters, public safety and health needs. This fund is to provide additional flexibility to capital requirements to ensure the City provides a safe, healthy and sustainable community.

# **Deliverables:**

An uninterrupted capital program that provides safe, healthy, vibrant and sustainable community.

| Year | Total Expense |
|------|---------------|
| 2016 | 350,000       |

# FINANCIAL SUSTAINABILITY POLICY

# Purpose

The purpose of the Financial Sustainability Policy is to guide the City's financial planning to meet financial obligations while providing high quality services.

# **Primary Objective**

The policies shall be designed and structured to develop principles that guide, support and respect the direction of the community so that tax payers can look forward to stable, equitable and affordable property taxation.

# **Policies**

## 1. Growth in Property Tax Base

The City is surrounded by other municipalities and has no ability to expand. However, re-development is occurring that brings in new property tax revenue. This new revenue must be estimated using the best available data. The City recognizes that any new developments or re-developments increase demand on existing infrastructure and may result in the need to expand that existing infrastructure.

#### Policy 1.0

Conservative estimates of non-market change assessment revenue will be included in the budget based on information provided by BC Assessment, the Planning and Development Department and the Finance Department.

# Policy 1.1

To balance infrastructure upgrade needs with ongoing operating funding requirements, the first \$500,000 of assessment growth (non-market change) property tax revenue will be transferred to infrastructure reserves and the remaining balance allocated as determined by Council.

#### 2. Property Tax Increase

Rising costs of existing services at existing service levels must be recognized. One-time revenues or non-renewable reserves should not be used to fund on-going operating expenses.

# Policy 2.0

Each budget cycle, Council will consider the property tax increase required by first covering the projected cost increase for existing services at existing service levels and then considering other enhancements. (Also see Policy 3.)

# New Services and Major Enhancements to Existing Services

The property tax increase established under Policy 2 allows the City to provide the same level of service to the existing tax base. It is not designed to provide for new services or major enhancements to existing services.

#### Policy 3.0

New services or enhancements to existing services will be funded by one or a combination of the following:

- A reduction in the cost of existing services.
   This may include a reallocation of resources from one area to another.
- 2. An increase in non-tax revenues.
- 3. A further increase in property taxes.

# 4. Efficiencies, Demand Management and Service Level Changes

As a sound business practice, departments strive to find and explore efficiencies throughout the City's operations. The City does not have the resources to meet all of the demands that are made. Demand must be managed to make sure that expectations reflect our fiscal realities and the need to contain expenditures. Areas where service level changes may be possible must be identified and brought forward for Council's consideration.

#### Policy 4.0

Business Plans will identify demand management strategies and will include options for service level changes and alternative service delivery models.

# FINANCIAL SUSTAINABILITY POLICY

#### 5. Alternative Revenues and External Funding

To diversify its revenue base, the City continually looks for new revenue sources that are consistent with the City's Five-year Financial Plan and 20-year Capital Plan.

#### Policy 5.0

All departments will make every effort to access external funding from non-City sources including other levels of government. All departments will endeavour to develop partnerships, strategic alliances and shared project funding to assist in the reduction of expenditure to the City. Any additional funding can be used to reduce property tax increases, increase service levels and/or provide new services.

#### Policy 5.1

Grants should be sought for known infrastructure needs or identified priorities in the City's Strategic Plan even if they are not included in the financial plan due to limited funding or pending Council decision.

#### 6. Infrastructure Maintenance and Replacement

Much of the City's infrastructure is at or nearing the end of its life. The City is in the process of creating an inventory and completing a condition assessment of its assets. This will allow the City to develop a plan to keep the infrastructure in a proper state of repair to avoid costly failures.

# Policy 6.0

The City will establish and maintain an inventory of its infrastructure. A maintenance/replacement plan will be developed utilizing best practices, to keep existing infrastructure in an acceptable condition. This program will be included in the Five-year Financial Plan and the 20-year Capital Plan.

#### Policy 6.1

The City will depreciate its infrastructure over the useful life of the assets and a sustainable funding strategy will be developed.

# Policy 6.2

Each year, Council will consider a property tax increase dedicated to increasing capital infrastructure investment.

# 7. Self Financed Programs

The City has several self financed programs: Water Utility, Sewer Utility, Stormwater Utility and Garbage Utility. The costs for self financed programs should be fully funded by user fees. The Water and Sewer Utilities have established reserves. Any surplus or deficit is transferred at the end of each year to or from each reserve.

#### Policy 7.0

The City's self financed programs are to be fully funded by user fees including corporate overhead, equipment replacement, debt financing, transfers to reserves and capital expenditures.

# Policy 7.1

To ensure that programs remain self funded, user fees for each will be adjusted annually to offset any changes in costs.

# 8. Debt Management

The maximum amount that the City can borrow from external sources is set by the Community Charter. Debt should only be incurred for one-time capital expenditures and not for on-going programs. Borrowing for one-time capital expenditures allows the cost of the project to be spread out over the useful life of the asset. This results in the costs being paid by future beneficiaries as well as current taxpayers.

# Policy 8.0

Debt from external sources should only be incurred for one-time capital projects. These projects should be identified as debt-funded projects in the Five-year Financial Plan and 20-year Capital Plan. A separate report, including a business case, to Council is required seeking approval for proceeding with the borrowing process.

# Policy 8.1

Every attempt should be made to keep the debt servicing charges at the current budget level of 7% of the property tax levy by adding new debt only in the years when other debt issues are retired. This will minimize the impact on property taxes as a result of new debt.

# Policy 8.2

Debt for Self-financed entities (Water Utility, Sewer Utility, Victoria Conference Centre, and Parking Services) can be incurred if supported through a business case, without consideration of Policy 8.1 which only applies to projects that impact on property taxes.

# Policy 8.3

As an alternative to external borrowing, funds in the City's Debt Reduction Reserve can be borrowed with a maximum repayment term of 15 years at an interest rate equal to the lost investment interest.

# FINANCIAL SUSTAINABILITY POLICY

# 9. Fees and Charges

Fees and charges are a significant portion of the City's revenues. They will be reviewed on a regular basis to avoid major changes and to provide users with adequate notice of those changes. Any review will include an analysis of the City's costs in providing the service as well as a comparison to other municipalities.

#### Policy 9.0

Fees and charges will be reviewed annually and adjusted where appropriate. Departments should consider a minimum increase equal to inflation (CPI.) The users will be provided with no less than 2 months notice of those changes. Fee bylaws should, when appropriate, include an annual increase equivalent to the Consumer Price Index for Victoria.

#### 10. Surplus

Surplus represents non-renewable savings and should not be used for operating purposes or for on-going capital programs.

The Financial Stability Reserves (Operating Fund, Police Department, Water Utility and Sewer Utility) were established to ensure ongoing financial stability and fiscal health of all City Entities. They are funded from the year-end surplus in each respective fund.

# Policy 10.0

Surplus will only be considered as a funding source for one-time expenditures. Any surplus not used for one-time expenditures will be transferred to infrastructure reserves, financial stability reserves and/or debt reduction reserves. (Also see Policy 11.)

# 11. Reserve Funds

The City has a number of reserve funds established for various purposes. The City strives to develop appropriate reserves to meet future financial obligations with respect to City equipment and infrastructure, fiscal needs and employee benefit obligation.

#### Policy 11.0

Each reserve fund is governed by the City's Reserve Fund Policy that outlines the purpose, the types of expenditures permitted and the desired levels of each reserve.

# 12. Capital Projects and Programs

Capital projects and programs are funded from a variety of sources including a capital property tax levy, grants and reserves. Once the project or program is completed, its on-going maintenance costs need to be included in the operating budget and future upgrade and/or replacement costs need to be included in the capital plan. These on-going and future costs must be clearly understood before a capital project is approved.

# Policy 12.0

Each capital project or program submitted for consideration must clearly state the full initial cost as well as future costs, including operating and upgrade/replacement costs. In addition, the source of sustainable funding for such costs has to be demonstrated.

# 13. Re-budgeted Capital Projects and Programs

Every year, some capital projects and programs are not completed in the year they were budgeted for. In such instances, a request to re-budget the portion of the project or program that is yet to be completed is submitted to Finance.

#### Policy 13.0

Requests to re-budget capital projects underway are granted. However, other capital items may be scaled back or deferred to accommodate the re-budget request.

#### Policy 13.1

Requests to re-budget capital projects that have not been started are not granted. These projects will be considered and prioritized along with all other capital items being put forward.

# Policy 13.2

Requests to re-budget capital programs are not normally granted. However, should such a request be granted, next year's program will be scaled back to accommodate the re-budget request.

# 14. Large Scale Capital Projects

Some capital projects are very large in scale and have various phases.

# Policy 14.0

Large scale capital projects will be budgeted in at least two phases. Phase one is for planning and design. Phase two and any subsequent phases are for implementation/build.

# RESERVE FUND POLICY

# Purpose

The purpose of the Reserve Fund Policy is to provide guidance with respect to the development, maintenance, and use of City Reserve Funds.

# **Guiding Principles**

All Reserves Funds must be established, maintained and used for a specified purpose mandated by this policy, statute, or City by-law.

Annual operating surpluses are to be transferred to the Equipment and Infrastructure Reserve or the appropriate Financial Stability Reserve in each fund and used in accordance with the priorities outlined in this policy.

The City shall strive to develop appropriate reserves to meet future financial obligations with respect to City equipment and infrastructure, fiscal needs and employee benefit obligations.

# **Primary Objectives**

Reserves shall be established and expended to:

# 1. Ensure Stable & Predictable Levies

The City recognizes that unstable and unpredictable tax levies can adversely affect residents and businesses in Victoria. In order to maintain stable and predictable levies, the City will maintain sufficient reserves to buffer the impact of unusual or unplanned cost increases and revenue reductions over multiple budget cycles.

# 2. Provide for Operating Emergencies

The City is exposed to unusual operating emergencies resulting from inclement weather, catastrophic events, law enforcement issues, environmental hazards and so on. It may not be feasible, or cost-effective, to absorb the costs of such emergencies during one budget cycle. The City will maintain adequate reserves to avoid such emergencies, extensive service interruptions, and prevent risks to infrastructure and public safety.

#### 3. Finance New Capital Assets

Use of Reserves for financing new capital assets is an effective means of matching one-time funds to one-time capital projects. In addition, the City requires financial resources to quickly respond to opportunities that could provide capital infrastructure through private sector partnerships, and other alternative service delivery methods.

# 4. Safeguard and Maximize Existing Assets

The City has an inventory of specialized machinery, equipment and technology systems necessary for the efficient delivery of services to the public, which needs to be replaced on well-defined lifecycle standards. The City also has a need to provide insurance against unforeseen losses of these and other assets and claims against its assets where it is found legally liable.

# General Criteria

Reserves shall be established, maintained and used in accordance with the following General Criteria.

# 1. Least Cost to Taxpayers

Reserves should support the least cost alternative in the long-term for delivering standards of service adopted by Council. This means they will be used to:

- Buffer the effects of large cost increases and revenue reductions and allow time to adjust City service costs or revenue generation to avoid unnecessary tax increases, and
- Provide internal capital financing which is more cost-effective than external borrowing or leasing.

# RESERVE FUND POLICY

# 2. Fairness & Equity to Taxpayers

Reserves should serve to balance the impact of the operating costs and capital costs, on both current and future taxpayers by:

- Applying Reserves derived from one-time revenue sources to one-time capital or operating projects.
- Applying Reserve Funds and current revenues in a ratio, which recognizes the appropriate sharing of savings from current taxpayers with contributions from future taxpayers (this will likely require repayment of all, or a portion of, Reserves from future rates or user fees).

# 3. Meets Statutory and Legal Requirements

Reserves must meet the requirements of the Community Charter, Federal statutes, City By-Laws or any other contract or judgment enforceable by law.

#### 4. Meets Accounting Standards

Reserves must meet generally accepted accounting principles (GAAP) and accounting standards applicable to local governments (PSAB).

# Policy Administration

The Director of Finance shall be responsible to:

- Ensure the Reserve Funds are established and maintained in compliance with this Policy.
- Conduct an annual review of the Reserve Funds and report the results to City Council.
- On an "as required basis", recommend revisions or amendments to this Policy, due to changes in applicable statutes, accounting standards, or economy.

# Administrative Criteria

#### 1. Unique Corporate Purpose

Reserves must have a unique and specific corporate purpose. Every effort must be made to:

- Reduce complexity by combining amounts with similar purposes
- Eliminating those with redundant or outdated purposes, and
- Re-focus departmental reserves to corporate purposes and strategic plans.

#### 2. Interest and Calculation Method

All Reserves Funds will earn interest each year. Interest will be calculated based on the audited fund balance at the end of the prior year. The interest rate used will be the determined on an annual basis.

#### 3. Minimum and Maximum Balances

A minimum and maximum balance shall be established for each Reserve Fund. A minimum balance will ensure that each fund is not depleted to the degree that it is no longer able to serve its intended purpose. A maximum balance ensures that it does not grow beyond its intended purpose.

#### 4. Repayment Period

A time period shall be specified for the repayment or replenishment of each Reserve Fund to its specified minimum or maximum balance.

# 5. Business Case Requirements

A business case shall be provided specifying the purpose, benefits and method of repayment for each proposed Departmental use of a reserve fund, except as provided by statute, City by-law or Council policy. A business case will be subject to the applicable budget, ranking or other prioritization process, and Council approval.

# Reserve Funds

City of Victoria Reserve Funds are established under the authority of the Community Charter and are each supported by a bylaw that outlines the purpose and use of each fund.

A description of each of the different types of Reserve Funds covered by this policy is outlined below:

# Financial Stability Reserves

# Description

Financial Stability Reserves are required to ensure the ongoing financial stability and fiscal health, of all City Entities. Each reserve is funded from the year-end surplus from the appropriate entity (i.e. Operating Fund, Police Department). For the Water, Sewer and Stormwater Utilities, 50% of each utility's surplus are to be applied to the respective financial stability reserve until they reach target balances and the remainder to the respective equipment and infrastructure reserve.

- Debt Reduction This reserve was established to provide a source of funds to finance internal borrowings, local improvements and paying down the City's outstanding debt. It is currently being funded from the City's share of surpluses identified in MFA Sinking Funds and payment holidays on debt issues.
- Reserve for Insurance Claims This reserve was established to provide a source of funds for liability claims not covered under our Insurance Policies.

# RESERVE FUND POLICY

# Guidelines for Using Funds

A Council Resolution or an Adopted Budget Bylaw is required for all appropriations from the Financial Stability Reserve Funds.

All appropriations from Financial Stability Reserves are to be considered in accordance with the following priorities.

# 1. Operating and Environmental Emergencies

 These appropriations are the highest priority and are based on public safety and demand nature of the expenditure.

# 2. Revenue Stabilization and Operating Contingency

 These appropriations are intended to stabilize the impacts of cyclical revenue downturns and operating cost increases that are largely temporary and not within the City's ability to adjust in the short-term.

#### 3. Innovation Fund

- As an incentive to encourage creativity and innovation, appropriations may be made to fund departments and/or workgroups that would like to explore innovative and creative solutions directed towards making the Corporation more efficient and effective.
- Business cases requesting use of these funds require that the replenishment methods be specified. These would include future departmental cost or service level adjustments or additional revenue generation necessary to "top up" the accounts over a three-year period.

# Equipment and Infrastructure

# Description

Equipment and Infrastructure Reserves are established to create a funding source for buildings and infrastructure capital projects, new equipment purchases and capital equipment replacement programs. Currently, the city has established equipment and infrastructure reserve funds for the following purposes:

- Police Vehicles, Equipment and Infrastructure This
  reserve is to fund the replacement and purchase of
  Police vehicles and equipment. This reserve is funded by
  annual depreciation contributions included in the Police
  operating budget.
- Police Emergency Response Team Vehicles and Equipment – This reserve is to fund the replacement and purchase of equipment for the Regional Emergency Response Team. The reserve is funded by the annual surplus from the ERT Program.

- Victoria Conference Centre Equipment and Infrastructure This reserve was established to provide a source of funds to properly maintain the Conference Centre building and furnishings. This reserve is also used to fund equipment replacements and new equipment purchases. The reserve is funded by the annual surplus from the Conference Centre.
- City Equipment This reserve is to fund the replacement and purchase of City equipment. This includes equipment replacement programs, computer equipment and software, office furniture, etc. This reserve is funded by annual depreciation contributions included in the City operating budget.
- City Vehicles and Heavy Equipment This reserve is to fund the purchase and replacement of City vehicles and heavy equipment. This reserve is funded by annual depreciation contributions included in the City operating budget.
- City Buildings and Infrastructure This reserve was established to provide a source of funds to properly maintain City Buildings and Infrastructure. This reserve is funded by annual budget contributions that are increasing by \$500,000 per year until the reserve attains an adequate funding level. This increase is subject to annual Council approval.
- Parking Services Equipment and Infrastructure This
  reserve was established to provide a source of funds to
  properly maintain the City parkades. The reserve is also
  used to fund Parking Services equipment replacement
  and new equipment purchases. This reserve is funded
  from annual depreciation contributions included in the
  City's operating budget.
- Multipurpose Equipment and Infrastructure This reserve
  was established to provide funding for equipment
  replacement and maintaining the Multipurpose Facility.
  This reserve is funded by annual depreciation contributions
  from the City's operating budget and RG Properties.
- Recreation Facilities Equipment and Infrastructure This
  reserve was established to provide a source of funds to
  properly maintain City Recreation Facilities. The reserve
  is also used to fund equipment replacement and new
  equipment purchases for City Recreation Facilities. This
  reserve is funded from user fees assessed on tickets to
  events and facility rentals.
- Archives Equipment This reserve is to fund the purchase and replacement of Archives material and equipment. The funding for this reserve comes from grants and donations.
- Artificial Turf Field This reserve was established to provide a source of funds for replacement of the Finlayson field carpet and amenities and for future development of artificial turf fields. This reserve is funded from the fees collected from the rental of the Finlayson field.

# RESERVE FUND POLICY

- Gas Tax The Governments of Canada, British Columbia and the UBCM entered into the Gas Tax Agreement on September 19, 2005. The Agreement is focused on achieving three environmental sustainability outcomes: reduced greenhouse gas emissions, cleaner water and cleaner air. The Community Works Fund provides annual contributions into this reserve.
- Water Utility Equipment and Infrastructure This reserve was established to provide a source of funds to properly maintain the Water Utility Infrastructure. The reserve is also used to fund Water Utility equipment replacement and new equipment purchases. The reserve should be funded by annual budget contributions from the Water Utility and 50% of the Water Utility's surplus until the target balance has been met within the Water Utility Financial Stability Reserve. Once the target balance is achieved, 100% of the surplus will be allocated to the Water Utility Equipment and Infrastructure Reserve.
- Sewer Utility Equipment and Infrastructure This reserve was established to provide a source of funds to properly maintain the Sewer Utility Infrastructure. The reserve is also used to fund Sewer Utility equipment replacement and new equipment purchases. The reserve should be funded by annual budget contributions from the Sewer Utility and 50% of the Sewer Utility's surplus until the target balance has been met within the Sewer Utility Financial Stability Reserve. Once the target balance is achieved, 100% of the surplus will be allocated to the Sewer Utility Equipment and Infrastructure Reserve.
- Stormwater Utility Equipment and Infrastructure This reserve was established to provide a source of funds to properly maintain the Stormwater Utility Infrastructure. The reserve is also used to fund Stormwater Utility equipment replacement and new equipment purchases. The reserve should be funded by annual budget contributions from the Stormwater Utility and 50% of the Stormwater Utility's surplus until the target balance has been met within the Stormwater Utility Financial Stability Reserve. Once the target balance is achieved, 100% of the surplus will be allocated to the Stormwater Utility Equipment and Infrastructure Reserve.

# Guidelines for Using Funds

Use of equipment and infrastructure reserves is restricted to the following types of purchases:

- Major construction, acquisition, or renovation activities as defined in the Capital Asset Policy that add value to the municipal physical assets or significantly increase their useful life. Some examples include:
  - Renovation and construction projects pertaining to new or existing city buildings,
  - Renewal, replacement, enhancement or construction of city infrastructure, sewers, storm drains, water distribution systems, buildings, roads, sidewalks, traffic systems, parks, etc.
- Vehicles and heavy equipment, individual pieces of equipment and ongoing annual equipment replacement programs as defined in the Capital Asset Policy.

**Note:** A Council Resolution or an Adopted Budget Bylaw is required for all appropriations from the Reserve Funds. Further, a Council Resolution is required to create additional reserve fund categories, delete categories or shift funds between categories.

# **Employee Benefit Obligations**

# Description

Reserves for employee benefit obligations will be established where the City is incurring a retirement benefit liability or other employee related liability, which the City is obligated to pay at some future date. Current reserves established include:

- Police Retirement Benefits This reserve is to fund retirement benefits (one months pay and vested sick leave) accrued to retiring Police officers. This reserve is funded by annual contributions included in the Police operating budget.
- Police Employee Pension Buybacks Police employees are entitled to purchase additional pension service time related to their probation period, provided they were not covered by pension. The City is obligated to pay 50% of the cost once the employee retires or reaches 55 years of age. This reserve was established to fund the City's share of costs for employees purchasing pension service for probation periods. This reserve is funded by annual contributions included in the Police operating budget.
- Police Pension Corporation Over Contributions This
  reserve was established to accumulate the City's share
  of Police pension over contributions. These amounts are
  payable to the employee upon retirement. This reserve is
  funded from pension contributions refunded to the City by
  the BC Pension Corporation.

# RESERVE FUND POLICY

- City Retirement Benefits This reserve has been established to help fund retirement benefits (one months pay and vested sick leave) accrued to retiring City Employees. This reserve is funded by annual contributions included in the City's operating budget.
- City Employee Pension Buybacks City employees are entitled to purchase additional pension service time related to their probation period provided they were not covered by pension. The City is obligated to pay 50% of the cost once the employee retires or reaches 55 years of age. This reserve was established to fund the City's share of costs for employees purchasing pension service for probation periods. This reserve is funded by annual contributions included in the City's operating budget.
- City Pension Corporation Over Contributions This
  reserve was established to accumulate the City's share of
  Firefighter pension over contributions. These amounts are
  payable to the employee upon retirement. This reserve is
  funded from pension contributions refunded to the City by
  the BC Pension Corporation.

# Guidelines for Using Funds

Use of funds is restricted to the purpose for which each fund was established. Funds may only be accessed to supplement funding a retirement payout.

**Note:** A Council Resolution or an Adopted Budget Bylaw is required for all appropriations from these Reserve Funds. Further, a Council Resolution is required to create additional reserve fund categories, delete categories or shift funds between categories.

# **Development Cost Charges**

#### Description

This reserve is required by the Community Charter to account for the proceeds from development cost charges levied against new developments. The reserve is funded from the proceeds of development cost charges levied.

# Guidelines for Using Funds

Use of these funds is governed by the Development Cost Charge Bylaw and restricted to the funding approved projects as allowed by that bylaw.

**Note:** An Adopted Budget Bylaw is required for all appropriations from this Reserve Fund. Further, an amendment to the Development Cost Charge Bylaw is required to create additional reserve fund categories, delete categories or shift funds between categories.

# Tax Sale Lands

# Description

The Tax Sale Lands Reserve was established to account for proceeds from any sales of City land and buildings. This reserve is funded from all sales of City land and buildings.

# Guidelines for Using Funds

These funds are available for building and land purchases and capital expenditures required for preparing City properties to sell (i.e. remediation, servicing, etc.)

**Note:** A Council Resolution or an Adopted Budget Bylaw is required for all appropriations from this Reserve Fund. Further, a Council Resolution is required to create additional reserve fund categories, delete categories or shift funds between categories.

# Parks and Greenways Acquisition

# Description

This reserve was established to provide a source of funds for purchasing Park Lands. It is currently funded from 10% of the proceeds of any City land sale.

# Guidelines for Using Funds

These funds are available for purchasing park lands or lands to be developed into a park.

**Note:** A Council Resolution or an Adopted Budget Bylaw is required for all appropriations from this Reserve Fund. Further, a Council Resolution is required to create additional reserve fund categories, delete categories or shift funds between categories.

# **Local Amenities**

#### Description

This reserve tracks and accounts for monies received from a developer, for public amenities related to specific developments (i.e. pathways, parks, docks, etc.). This reserve is funded from contributions by Developers.

# Guidelines for Using Funds

Use of these funds is restricted to the purpose for which each contribution was based on.

**Note:** A Council Resolution or an Adopted Budget Bylaw is required for all appropriations from this Reserve Fund. Further, a Council Resolution is required to create additional reserve fund categories, delete categories or shift funds between categories.

# RESERVE FUND POLICY

# Victoria Housing

# Description

This reserve has been established to provide a source of funds to help fund housing projects including projects that fall under the Secondary Suite Incentive Program. The reserve is funded by annual contributions included in the City's Operating Budget.

# Guidelines for Using Funds

Use of these funds is restricted to the funding of housing projects including those that fall under the Secondary Suite Incentive Program.

**Note:** A Council Resolution or an Adopted Budget Bylaw is required for all appropriations from this Reserve Fund. Further, a Council Resolution is required to create additional reserve fund categories, delete categories or shift funds between categories.

# Dockside Affordable Housing

# Description

This is a reserve that has been established to provide a source of funds to help fund affordable housing projects in Dockside. The Dockside Master Development Agreement outlines certain requirements around affordable housing that the developer has to meet. There is an option to provide cash instead of the affordable housing requirements. Those funds would be put into this reserve. In addition, the reserve is funded by 20% of the building permit fees applicable to the Dockside development.

# Guidelines for Using Funds

Use of these funds is restricted to the funding of affordable housing projects in Dockside.

**Note:** A Council Resolution or an Adopted Budget Bylaw is required for all appropriations from this Reserve Fund. Further, a Council Resolution is required to create additional reserve fund categories, delete categories or shift funds between categories.

# Climate Action

## Description

This reserve has been established to provide a source of funds for funding climate mitigation and adaptation strategies that target energy and GHG reductions associated with facilities or transportation of either City-owned assets or Community public lands and services. This reserve is funded by the Climate Action Revenue Incentive Program (CARIP) grants.

# Guidelines for Using Funds

Use of these funds is restricted to the funding of climate change initiatives.

**Note:** A Council Resolution or an Adopted Budget Bylaw is required for all appropriations from this Reserve Fund. Further, a Council Resolution is required to create additional reserve fund categories, delete categories or shift funds between categories.

# Art in Public Places

# Description

This reserve has been established to provide a source of funds for art in public spaces and expand opportunities for artists and members of the public to participate in the process. The Arts in Public Places policy outlines the funding formula for this reserve.

# Guidelines for Using Funds

Use of these funds is restricted to the funding of art in public places initiatives.

**Note:** A Council Resolution or an Adopted Budget Bylaw is required for all appropriations from this Reserve Fund. Further, a Council Resolution is required to create additional reserve fund categories, delete categories or shift funds between categories.

# Downtown Core Area Public Realm Improvements

# Description

This reserve has been established to assist in funding improvements that tangibly and visibly improve the physical condition, appearance and function of the public realm within the Downtown Core Area and provide a public benefit to the overall surrounding area.

This reserve is funded by monetary contributions provided to the City of Victoria as part of the Density Bonus System described in the *Downtown Core Area Plan*. The *Downtown Core Area Plan* outlines the funding formula for this reserve.

# Guidelines for Using Funds

Use of these funds is restricted to the funding of public realm improvements that support the objectives and policies of the *Downtown Core Area Plan*.

**Note:** A Council Resolution or an Adopted Budget Bylaw is required for all appropriations from this Reserve Fund. Further, a Council Resolution is required to create additional reserve fund categories, delete categories or shift funds between categories.

# **RESERVE FUND POLICY**

# Heritage Buildings Seismic Upgrades

# Description

This reserve has been established to assist in funding a portion of the cost of seismic upgrading as part of the re-use, retrofit and conservation of eligible heritage buildings within the Downtown Neighbourhood.

This reserve is funded by monetary contributions provided to the City of Victoria as part of the Density Bonus System described in the *Downtown Core Area Plan*. The *Downtown Core Area Plan* outlines the funding formula for this reserve.

# Guidelines for Using Funds

Use of these funds is restricted to funding a portion of the cost of seismic upgrading of eligible heritage buildings as described in the *Downtown Core Area Plan*.

**Note:** A Council Resolution or an Adopted Budget Bylaw is required for all appropriations from this Reserve Fund. Further, a Council Resolution is required to create additional reserve fund categories, delete categories or shift funds between categories.

# REVENUE AND TAX POLICY

# Purpose

The purpose of the Revenue and Tax Policy is to outline the proportions of revenue sources, the distribution of property taxes among property classes and the use of permissive property tax exemptions.

# **Primary Objectives**

- To provide tax payers with stable, equitable and affordable property taxation while at the same time providing high quality services.
- To support the OCP and other City plans as well as complement the Regional Context Statement.

# Policies

# 1. Revenue Proportions by Funding Sources

Property taxes are the main source of revenue for the City and pay for services such as police and fire protection, bylaw enforcement, and infrastructure maintenance. Property taxes provide a stable and consistent source of revenue for services that are difficult or undesirable to fund on a user pay basis. Therefore, property taxes will continue to be the City's major source of revenue.

However, it is the City's desire to charge user fees where feasible. Some programs, such as recreation, are partially funded by user fees. The City also has several self-financed programs that are fully funded by user fees. These include Water Utility, Sewer Utility, Garbage Utility, and the Victoria Conference Centre.

In addition, the City has reviewed and updated its DCC bylaw to ensure that developers are paying their fair share of infrastructure required as a result of new development.

# Policy 1.0

User pay funding will be used for such services that are practical and desirable to fund on a user pay basis.

Services that are undesirable or impractical to fund on a user pay basis will be funded by property taxes.

# Policy 1.1

The City will continue to explore alternative revenue sources to diversity its revenue base.

Distribution of Property Taxes Among Property Classes
 Market value changes that result in uneven
 assessment changes between property classes result
 in a tax burden shift to the class experiencing greater
 market value increases unless tax ratios are modified
 to mitigate the shift.

Until 2007, it was Council's practice to modify tax ratios to avoid such shifts. This equalization practice provided an effective tax increase that was equal for all classes. It is important to be aware that this practice only avoids shifts between property classes. There is still a potential for shifts within a property class where one property has experienced a market value change that is greater than the average for that class.

However, starting in 2007, business and industrial tax ratios have been held constant in recognition of the larger tax burden that has been placed on those classes. This resulted in higher tax increases being passed on to the residential class compared to business and industrial.

The pressure continues across the country to reduce the tax burden on the business and industrial classes. In recognition of this, and the desire to support a healthy business environment, Council's goal is to have a business class tax burden that is equitable.

In 2012, a comprehensive review of the Revenue and Tax Policy was conducted to determine if Council's objective of reducing the tax burden on the business class was appropriate and if so, that the mechanism of achieving the objective (reduction of tax ratio) was the most effective mechanism to achieve the goal. The review concluded that additional relief for the business tax class was warranted. However, the tax ratio was not the best mechanism of achieving that goal. As a result, Council approved the following policy objective:

# REVENUE AND TAX POLICY

To reduce the business property tax class share of the total property tax levy to 48% over three years (2012–2014). The redistribution excludes impact of new assessment revenue. The total redistribution of the tax levy was \$1.51 million. In 2015, an update review was completed and based on the findings, policy 2.0 was amended to maintain the current share of taxes among tax classes.

#### Policy 2.0

Maintain the current share of distribution of property taxes among property classes, excluding the impact of new assessment revenue, by allocating tax increases equally. Business and industrial classes will be grouped as outlined in Policy 2.1.

#### Policy 2.1

Tax rates for the light and major industrial tax classes will be equal to the business tax rate to support the City's desire to retain industrial businesses.

# Policy 2.2

Farm Tax Rates will be set at a rate so taxes paid by properties achieving farm status will be comparable to what the property would have paid if it were assessed as residential.

#### 3. Use of Permissive Property Tax Exemptions

The City continues to support local non-profit organizations through permissive tax exemptions. Each year, a list of these exemptions is included in the City's Annual Report.

In addition, the City offers a Tax Incentive Program to eligible owners of downtown heritage designated buildings to offset seismic upgrading costs for the purposes of residential conversion of existing upper storeys. The exemptions are for a period up to ten years.

The City encourages redevelopment of lands within the City and the use of environmentally sustainable energy systems for those developments through revitalization property tax exemptions.

# Policy 3.0

Permissive property tax exemptions are governed by the City's Permissive Property Tax Exemption Policy, which outlines the criteria for which property tax exemptions may be granted.

#### Policy 3.1

Heritage property tax exemptions are governed by the City's Heritage Tax Incentive Program.

# Policy 3.2

Revitalization property tax exemptions are governed by the City's Revitalization Tax Exemption (Green Power Facilities) bylaw.

# Financial Plan 2016 – 2020

# Purpose

- Draft Financial Plan was introduced to Council on October 22
- Each department will present operating and capital budgets today and on November 9 and 20
- Opportunity for Council to review and discuss the draft budget

# Overview

- Council direction for a maximum tax increase of inflation plus 1%; current inflation is 1.4% (September)
- The draft operating budget totals \$221 million and the draft capital budget totals \$51 million
- The overall tax increase based on the draft financial plan as presented by staff is 2.31%
- Factoring in the VicPD request recently approved by the Police Board, the overall tax increase is 2.51%
- Factoring in proposed increases for the Water Utility and Solid Waste, the estimated increase for residential properties is 2.21% and for a typical business is 2.38%
- Total full-time equivalent employee count is 796 excluding VicPD

# Recommendations

#### That Council:

- Direct staff to bring forward the Five-year Financial Plan Bylaw, 2016 for first reading prior to commencing public consultation
- Approve transferring \$500,000 of assessment growth (non-market change) revenue to the Buildings and Infrastructure Reserve and direct staff to bring forward options for the use of the remainder once public consultation has been completed
- 3. Direct staff to bring forward options for the use of 2015 surplus once public consultation has been completed
- Direct staff to bring forward options for funding supplementary budget requests once public consultation has been completed

# Recommendations continued

#### That Council:

- 5. Approve an additional tax increase for capital, if any, and outline for which projects in Appendix A
- Allocate \$2,818,000 of the annual gas tax funding to the Storm Drain Brick Main project and direct staff to bring forward options for the allocation of the remainder once public consultation has been completed
- Approve the direct-award grants as outlined in this report

# Timeline

| <b>Tentative Dates</b>                                     | Task   |
