Re: Storefront Cannabis Retailer Rezoning Application, 1007 Government Street

Your Worship Mayor Helps and Councillors,

In reviewing the Director of Sustainable Planning and Community Development’s report, we wish to provide additional information for your consideration.

Unlike other applications, our client is presently NOT operating a Cannabis Retail Outlet in this location and no Cannibas Retail Outlet will be opened there before it is legal to do so.

Our proposal is consistent with the Core Historic designation in the Official Community Plan, 2012 and is consistent with the Historical Commercial District designation in the Downtown Core Area Plan.

We are however, not consistent with Storefront Cannabis Retailer Rezoning Policy requiring storefront cannabis retailers to be 400 metres away from other retailers and not within 200 metres of schools measured as a crow flies and not by travel distance.

We understand that the policy has been varied for other Storefront Cannabis Retailers in the recent past. We also understand that this policy is the same for neighbourhoods as well as the Downtown core. Where the downtown core is more dense, and the population in the downtown core increases with workers, tourists and nightlife, we feel the distances between Storefront Cannabis Retailers could be decreased in the downtown core.

There are two independent schools located in Nootka Court on Douglas Street. The Pacific School of Innovation and Inquiry and the Elizabeth Buckley School are located at #100-808 Douglas Street next to the Noodle Box. Although the distance of these schools from property line to property line as the crow flies is only 117 metres, the walking distance from door to door is actually 350 metres.
The configuration and size of both properties creates a distance much closer to each other than the actual distance between the two locations. Nootka Court is a “L”-shaped property with the Bug Zoo on the Courtney side of the property and the Pacific School of Innovation and Inquiry at the Douglas and Humboldt side of the property. The location of 1007 Government Street also is a “L”-shaped property that stretches to 604 Broughton Street where the Ebizo Japanese Restaurant is located. There is no access to 1007 Government Street through the Japanese Restaurant. We understand the principle of protecting students from being too close to the Cannabis Retail Outlets and we feel that the actual proximity of the two locations far exceeds the intent of your policy.

The other policy is the proximity of the Storefront Cannabis Retailer to other Storefront Cannabis Retailers. The intent is to not have a Storefront Cannabis Retailer on every street corner and to not have Storefront Cannabis Retailers concentrated in neighbourhoods. The 400 metre distance between Storefront Cannabis Retailers in neighbourhoods works well and puts a good distance between the retailers. As the density of people in neighbourhoods is less, it makes sense to keep the retailers further apart. We feel that with the density of people in the downtown core, the 400 metre distance may not be as relevant. As the downtown core is very compact, a Storefront Cannabis Retailer location at Douglas and Yates could essentially take in an area from Wharf street to Vancouver and Fisgard Street to Humboldt. This in essence would provide one Storefront Cannabis Retailer for the entire downtown core if you take into consideration the 400 metre proximity. Our proposed location is 270 metres to the Trees Dispensary at 546 Yates Street if you were to take the path that a crow flies. If we were to walk from door to door, we would be 350 metres apart. We feel that this distance for a downtown location would be adequate in separating these retail stores as the downtown core is much denser than the neighbourhoods. A location at 1007 Government Street would meet the needs of locals and tourists alike and would be away from the concentration of retailers surrounding City Hall further north.

Thank you for your consideration of this rezoning application. We trust that you will allow this application to move forward to a public hearing. We understand public hearings are being scheduled for September at this time and by the time this application is heard at Council, we would expect that a decision to legalize cannabis would have been ratified by the federal government.

Should you have any questions regarding this proposal, please contact us at 250-360-2888.

Yours truly,

[Signature]

Committee of the Whole Report
For the Meeting of May 4, 2017

To: Committee of the Whole
From: Jonathan Tinney, Director, Sustainable Planning and Community Development
Subject: Rezoning Application No. 00572 for 853 Cormorant Street

RECOMMENDATION

That Council instruct staff to prepare the necessary Zoning Regulation Bylaw Amendment that would authorize the proposed development outlined in Rezoning Application No. 00572 for 853 Cormorant Street, that first and second reading of the Zoning Regulation Bylaw Amendment be considered by Council and a Public Hearing date be set.

LEGISLATIVE AUTHORITY

In accordance with Section 479 of the Local Government Act, Council may regulate within a zone the use of land, buildings and other structures, the density of the use of the land, building and other structures, the siting, size and dimensions of buildings and other structures, as well as, the uses that are permitted on the land and the location of uses on the land and within buildings and other structures.

EXECUTIVE SUMMARY

The purpose of this report is to present Council with information, analysis and recommendations for a Rezoning Application for the property located at 853 Cormorant Street. The proposal is to rezone from the current CA-3 Zone, Central Area General Commercial District, to a site-specific zone in order to allow for the retail sale of cannabis.

The following points were considered in assessing this application:

• the proposal is consistent with the Core Residential designation in the Official Community Plan 2012
• the proposal is consistent with the Residential Mixed-Use District, 11-15 Storeys designation in the North Park Local Plan
• the proposal is currently consistent with the Storefront Cannabis Retailer Rezoning Policy in that there are no schools or permitted storefront cannabis retailers within 200m; however, there is a separate application advancing to Public Hearing for a storefront cannabis retailer within 200m measured by a straight line from lot line to lot line
• in this instance, a reduced distance from another storefront cannabis retailer may be warranted as both retailers are on separate blocks, separated by two secondary arterial roads, and more than 200m apart if one were to travel between the two locations.
