Sent from 

Lacey Maxwell

From: Kenneth Mintz [REDACTED]
Sent: April 7, 2018 4:53 PM
To: Victoria Mayor and Council
Subject: Proposed rezoning for brewery in Dockside Green

Dear Mayor and Council:

I would like to express my opposition to the establishment of this brewery in Dockside Green.

(1) According to the media report, the City staff stated that the rooftop restaurant/beer tasting spot would not cause a disturbance to neighbours because the nearest neighbour to the west is 40 meters away. This statement is completely misleading: as the City well knows, the land immediately behind the brewery is zoned for high-rises, which will be built in the very near future. Their balconies will face the brewery rooftop. Noise travels up as well as out. As Councillor Madoff has pointed out, noise from a rooftop drinking establishment can travel a long distance. Bars in Victoria close as late as 2 a.m., thus this brewery would disturb people when they are trying to sleep or, in fact, enjoy their ordinary activities in their homes.

(2) The Galloping Goose Trail extension runs as bicycle lanes in front of this proposed brewery. It is heavily used and will become even more popular because of the new bridge connecting Vic West to downtown and the separated bicycle paths downtown. Many cyclists ride quite quickly. When a patron drives out of the parking lot of the proposed brewery, after consuming a couple of beers, he/she, even if not legally impaired, will have poorer reflexes and awareness, thus the danger of a collision with a cyclist is high. (Despite all the educational messages, most drivers are more aware of another vehicle than pedestrians and cyclists.)

I hope that Council will consider carefully the ramifications of approving this rezoning.

Thank you.

Kenneth Mintz

703-399 Tyee Rd.

Pamela Martin

From: Brian & Elizabeth Elliott [REDACTED]
Sent: July 30, 2018 2:00 PM
To: Public Hearings
Subject: Public Hearing 356 Harbour Road - Rezoning # 00619 & Development Permit #000520

Unfortunately we will not be able to attend the scheduled upcoming hearing on this project. We are in SUPPORT of the application however have expressed one concern to the applicant and wish to also share this concern with City Councillors. Councillors have also expressed, previously, a similar concern. As you are likely aware there are currently a small number of residential buildings in place near the applicants property; in time this will not be the case as many more units will be constructed shortly and they too will be impacted by this issue.

The applicant intends to have a roof top area available for eating, drinks as well as special events. As strata owners within a nearby Dockside Green building we are a bit concerned as to noise (music, voices etc) that may emanate from this rooftop patio area; this is of particular concern in the late evening hours during the summer (when one has their windows open for ventilation). The applicant assured Dockside Green residents attending an April 14/18 information meeting that the patio design was such that it reflected sound away from the residential area of Dockside Green. They further indicated that operating hours were such that late evening events were not anticipated. When asked to assure that there would not be "constant" amplified music and that perhaps the patio could be closed to activity after 10 pm the applicant provided a response along the lines of "neither of these were intended".

Without the applicants firm assurances regarding rooftop noise we would thus request City Council to include a condition within the Development Permit that no rooftop patio usage or events be permitted following 10 pm every day.

Thank you for asking for input, and thank you for listening.

Brian & Elizabeth Elliott

From: D Co [REDACTED]
Sent: July 31, 2018 10:35 AM
To: Public Hearings
Subject: 356 Harbour Rd. neighbourhood input.

In reference to your letter dated July 27, 2018 "the city of Victoria is seeking your input on the proposed changes to 356 Harbour Road".

I do not agree with the proposed change for the following 3 reasons:

- 1- Noise pollution,
 - a. A bar with a roof top terrace will add an unacceptable level of noise to our residential neighbourhood, as we can see from current terrace bars downtown Victoria (ex **Strathcona Hotel roof top patio**).
 - b. Less than 500 meters (5 min walk) there is currently at least 5 breweries or bars (Canoe brewpub, Swans brewery, Spinnaker brewpub, Moon under water pub, Lure restaurant and bar).
 - c. The propose brewpub at Dockside green will deteriorate our quality of life.
- 2- Odor pollution,
 - a. The process of making beer always smells bad, sometime 24 hrs a day.
 - b. Not compatible with our residential community.
- 3- Overall poor architectural concept that does not integrate well with the Dockside green masterplan.
 - a. Currently at Dockside green, all the buildings on Harbour Rd are 2 or 3 stories tall, a 4 stories building almost touching the sidewalk will deteriorate the overall Dockside Green concept.

There is lots of good option for that lot, office building, residential, stores, restaurants, etc. A brewpub with a rooftop terrace, noise and bad odor is certainly one of the worst possible for our residential neighborhood.

As per your letter, please do not disclose my email and phone number.

Subject: Development Permit Application for 356 Harbour Road

Good morning

My husband and I live in a condo at 379 Tye Road. We can sit on our deck and see the lot which is being developed. We live in an area which has industry including the shipyard and the cement factory. However, although these industries do cause noise, this ceases on evenings and weekends. And they do not smell.

These are our concerns for the planned brewery and distillery:

- Will it smell?
- Will it be noisy after hours?

We have no details of the planned use, but have heard through neighbours that it may include a rooftop bar.

If this is true, we assume it will be open after normal business hours, perhaps late into the evening.

We wonder if the hundreds of existing and planned condos for this area will be inconvenienced by the sounds of people drinking late into the night.

Also, although we have no familiarity with breweries or distilleries, we wonder if there will be a smell, for example the smell of beer hops.

We use our outdoor deck 6 months of the year, and keep our windows open all year around.

It would be a great inconvenience if we were forced indoors due to smell or noise.

We plan to attend the meeting this **Thursday, August 9, 2018** and hope that these questions will be addressed.

Jennifer
