Subject: 672 Niagara St. Victoria proposed development

As an independant resident of the Amica Apartments at 685 Niagara St. situated immediately opposite the subject proposed development my interest is in regulations covering noise during construction if and when approval of said development takes place. It is early days yet but I would appreciate knowing how much, if any, consideration of noise-to-neighbours is required by City regulations during on-going construction at this site. Your reply please to

Joan Schultz ([REDACTED]) and thank you.
