From: David Coppard [**Section 2010**] Sent: May 19, 2018 4:08 PM To: Margaret Lucas (Councillor) Subject: feedback on development proposal at 430 Parry Street

Hello Margaret. I had some additional feedback on the development proposal at 430 Parry Street. I provided my initial feedback to the James Bay Community Association, and they passed it along. That consultation seems to have ended, so I'm not sure who to contact with my follow-up input. I noticed that you were the James Bay liaison, so if you're the person to contact, that's great. If not, I'd appreciate it if you could forward this to the city office that deals with input on development proposals.

The gist of my original input was that next door (440 Parry) and across the street (427 Parry) from this proposed development are two heritage adaptations where an older building was preserved and densified. This developer of 430 Parry should thus be held to the same standards as the previous developers and work with the nineteenth century building that's already there (and for which the property is zoned).

To the original comment, I just wanted to add that both those heritage adaptations also managed to provide one parking space for each household. The company that wants to develop 430 Parry is proposing to add 13 households, but provide only 10 parking spaces (last I checked). Currently, that lot supports two households and includes six parking spaces (at least). So this proposal involves adding a net of 11 households and only four parking spaces. This would greatly increase demand on our already overtaxed street. I would also note that clients of the medical clinic at Parry and Michigan will often use the street spots around 430 Parry, and that's especially true for the mobility impaired ones who find the parking lot cramped. The Capital Park development will also put pressure on those street spots. As a final note, I would also mention that the LINQ development (549 Toronto), which went in at the corner of Parry and Toronto a couple of years ago, also provided parking for each unit. The developers of 430 Parry should be held to the same standard and provide one parking space for each unit.

Thanks for listening to my input,

David Coppard

------ Original Message -----From: "David Coppard" Date: Fri, February 9, 2018 5:54 pm To: jbna@vcn.bc.ca

Hello. I live at 423 Parry Street with my family, and I have a question about the proposed development at 430 Parry Street. I'll have more input when I know what it is, but I wanted to know how they intend to incorporate the existing house (which dates to around 1908, I think) into the proposal.

As you may know, directly across the street from 430 Parry, at 427 Parry, is a house that the Hallmark Heritage Society saved from demolition and restored beautifully in the late seventies. And right next to 430 Parry, at 440 Parry Street, is an old horse barn that a developer very cleverly repurposed as townhouses in 2007. And of course, Jawl didn't destroy a single heritage building as part of its ongoing Capital Park project at the

foot of the street. If they're thinking about destroying or removing the house there, I would hope the city will reject the application altogether.

Thanks,

David Coppard XXX Parry Street

> wrote:

I agree with most of your comments. There should have been only one presentation and we should have had a mic system.

The reason we had the 2 presentations was that ARYZE pushed to have their presentation in February rather than March which would have worked much better and we would not have been as pressed for time. Believe me, I wanted them to come in March, but they insisted and others thought time would permit. They knew there would be severe time constraints on their presentation if they chose to come in February rather than March.

It is very difficult to control meetings of this size without a mic, which also contributed. The roving mic is usually handled by a board member (Wayne when there) and that controls the discussion and limits back and forth. Using louder voices is a necessity to be heard in a large room and in itself brings anger. (when my son went through a period of deafness as a young boy I realized how hard it was hard to speak really loudly without looking stressed.) We hope that mic use will be restored soon. I could barely hear the elderly man who spoke while seated - until I see the minutes I will not know if the secretary caught what he said. A mic system will also help our throats.

And the short time period permitted for meetings adds to the constraints - some neighbourhoods have access to facilities until 11pm or midnight.

It is important to know that people attending most JBNA meetings are not people we know - meaning regular attendees - especially when there is a development. Most with development proposals are people who have a direct interest in the development. What also didn't assist was the meshing of the rental issue, the asbestos, and fear of renoviction, with zoning rights.

My guess is that half of the attendees were not those who bought into the area, but tenants, many being longer-term tenants than many residents who had "bought into the area". Of course, in a real way, these tenants have bought into the area with their years of residency.

And yes, Lisa is a master at her Mayor's Drop-In. I have seen a lot of information exchanged at those meetings with other attendees often providing information/suggestions as the conversation stays focussed even with several different topics being raised. They work very well.

Although it may not have appeared so last Wednesday, JBNA is known to be quite balanced with respect to developments, with a few hundred being developed from 2011-2016 and another 550 units approved in past 2 years, being built/planned now, and more coming. And most of those developments involved little in the way of contentious debate.

Regards,

Marg

#### On 2018-02-17, at 11:12 AM, Valerie Elliott wrote:

Dear Marg

I attended the James Bay neighbourhood meeting for the first time on Wednesday February 14th and was greatly saddened by the anger and abuse directed at the presenters. Whilst I understand the reason to limit speakers to those living within 100 metres I was disappointed that more time was not allotted for all those residents and members of the association who took the time to come to the meeting to voice their concerns. People attend meetings to have input and to glean information from the developers. The developers in turn want feedback for improvements to their development. As a new member of the James Bay community I was embarrassed at the behaviour of grown men and women. It turned into a shouting match. I thought the

developers and architects were respectful and ready to hear constructive ideas for improvement, but they were not afforded the same respect to them. I was particularly interested in the inspiring presentation that Luke from ARYZE gave. He tried to put across the group's intention of blending the new with the old, and the care the group had given to this project to keep the uniqueness of the area. He was abruptly stopped by a very rude member of the audience, and by you. There were others including me who wanted him to continue but he was shut down.

I can understand the residents' frustration regarding more development and noise from construction in the area, and the concerns about parking but what I gleaned was a group of people who were fixed in their ideas and were not at all open to other ways of solving some of the problems faced by the community.

Certainly parking was of high priority and needs to be addressed. Change is the only certainty in this life and in my experience adapting to it and finding ways to solve the problem is much more preferable than resisting it. Both groups had addressed this concern. However the residents were not willing to be open to new ways even though the Shared Streets project compiled by the JBNA itself, were promoting ways of providing safety in the area. What I heard and came away from the meeting with, was their total resistance to change, their anger at having to confront change - and a form of elitism. (e.g.. I bought in this area and want to continue living in this area without making any compromise or having consideration for others wanting to be part of James Bay)

As the president of this group I believe it is up to you to set the tone of meetings and to ask those who are abusive to leave. I believe this would have a great effect on the result of the meetings. However this must be presented to those in attendance in a positive way to allow each person to feel part of the solution. I observed an impatience on your part with your continual need to hurry the presenters and shut down those not within 100 metres. I totally understand that you were influenced by the time constraints but also it seemed that you were being controlled by those who were not interested in finding solutions.

As a new member of the JBNA, I request that you and your committee address my concerns and put into place respectful ways of conducting a meeting. There were two equally important topics on the agenda which needed time for full discussion. Perhaps as there are many projects being put forth to residents at this time, a separate meeting for each project up for discussion could be held to address these concerns. If this were implemented, the meetings would be shortened considerably and the residents would have time to give their concerns, ideas and opinions in a respectful manner. Isn't that what neighbourhood meetings are all about?

I do understand that the presidents's job is a difficult one but by committing to this position I believe you have a duty to those who elected you to provide positive leadership, time for full discussion, and a welcoming environment to guests who are invited to speak. I am quite sure these guests left with a very negative impression of the residents of our neighbourhood.

I do thank you for suggesting the various ways of voicing concerns to council - one of which, was attending the drop-in meetings the mayor provides. I attended the last one and was totally impressed by the way she conducted the meeting. She asked everyone to give topics for discussion and systematically addressed each one of them. Some groups who were quite negative at the beginning went away feeling heard and pleased that she would bring their concerns to council in a positive way allaying their fears. She took all questions and listened to everyone even though she had another meeting immediately after that one. How lucky we have such an open-minded person as the mayor, who has a vision for Victoria, including James Bay, which will eventually serve all residents within the community. I believe that if more people, especially those with concerns from James Bay, attended these meetings they would be pleasantly surprised by the mayor's ability to listen objectively and come up with solutions in creative ways.

I hope my concern is addressed to ensure this does not happen again.

Respectfully

Valerie Elliott

Dear Mayor and Council,

I am writing you because I support a future looking Victoria with amenity rich, diverse, inclusive neighbourhoods that have housing options for everyone.

I believe that well designed infill housing will strengthen our neighbourhoods, provide for a broader range of housing types / tenures and create a vibrant public realm.

I want to live in a Victoria that aspires to the following principles:

- Density: Neighbourhood densification and efficient use of land
- Attainable: Affordable lifestyle and neighbourhood housing options for all
- Car-Lite: A walkable city with multiple modes of accessible transportation
- · Public Realm: A vibrant west coast city with a leafy public realm
- Missing Middle: Well-designed neighbourhood housing types that include: garden suites, plexes, townhouses, and small apartments
- Future City: An equitable city that values the people who do not live here yet as equals to those that do

Please join us in shaping our city.

Sincerely,

Lauren Antifeau

Dear Mayor and Council,

I am writing you because I support a future looking Victoria with amenity rich, diverse, inclusive neighbourhoods that have housing options for everyone.

I believe that well designed infill housing will strengthen our neighbourhoods, provide for a broader range of housing types / tenures and create a vibrant public realm.

I want to live in a Victoria that aspires to the following principles:

- Density: Neighbourhood densification and efficient use of land
- Attainable: Affordable lifestyle and neighbourhood housing options for all
- Car-Lite: A walkable city with multiple modes of accessible transportation
- Public Realm: A vibrant west coast city with a leafy public realm
- Missing Middle: Well-designed neighbourhood housing types that include: garden suites, plexes, townhouses, and small apartments
- Future City: An equitable city that values the people who do not live here yet as equals to those that do

Please join us in shaping our city.

Sincerely,

Mansi Sehgal

Mayor and Council City of Victoria 1 Centennial Square Victoria, BC V8W 1P6

Dear Mayor and Council,

I am writing you because I support a future looking Victoria with amenity rich, diverse, inclusive neighbourhoods that have housing options for everyone.

I believe that well designed infill housing will strengthen our neighbourhoods, provide for a broader range of housing types / tenures and create a vibrant public realm.

I want to live in a Victoria that aspires to the following principles:

- Density: Neighbourhood densification and efficient use of land
- Attainable: Affordable lifestyle and neighbourhood housing options for all
- Car-Lite: A walkable city with multiple modes of accessible transportation
- Public Realm: A vibrant west coast city with a leafy public realm
- Missing Middle: Well-designed neighbourhood housing types that include: garden suites, plexes, townhouses, and small apartments
- Future City: An equitable city that values the people who do not live here yet as equals to those that do

Please join us in shaping our city.

Sincerely,

Ryan Nicoll

Harris Green

Dear Mayor and Council,

I am writing you to show my support for the development proposal at 430 Parry Street.

Sincerely,

Emily Schulz

201-610 Johnson street
