Subject: Feedback re proposed changes to 356-360 Bay Street and 2520 Turner Street

Regarding Zoning Regulation Bylaw, Amendment Bylaw (no. 1169) No 18-103:

I work in the region and the reduction in available parking, for a business which will attract significant vehicular traffic is not acceptable.

The region surrounding Bay Street already suffers from a severe shortage of available parking. This will worsen an already significant problem for our business.

I request that the variance for reduced parking be rejected. Any other variances required to operate the business are acceptable – it fits in well with the rest of the neighborhood.

Thank you.

Cris

I request that my email address not be disclosed.

Subject: 356 - 360 Bay st 2520 Turner st - Variance

To Whom it May Concern

My partner Jodi and I are tenants of this building, and business neighbours of Absolute Dispensary. I would like to add my voice of support for this variance permit. Absolute are great neighbours and a positive inclusion to our business community in Rock Bay. Parking has never been an issue, as customers to both our businesses do not park for long, therefore there is always parking available. Further to this, most of their staff take alternate means of transport to and from work which also really helps. In short, Saltchuck Pie Company supports this variance.

Yours Truly
