Scale: 1:200

Page 4
1. The window indicated in the house was a door. In the renovation of 1990, the door was converted to a window. We would like to change this window to one that matches the original windows.

2. Add a new door and entry stairs. This will become the entry to Unit #2.

3. Reconfigure the existing entry stairs. This will be the entrance to Unit #1. The configuration as they exist now is not original to the house but was changed in the 1990 renovation. The curve at the bottom was added in 2012. The new stairs would maintain the original design but would be configured as shown in Drawing #2.

4. Those stairs are not original to the house. With the new interior configuration, those stairs would give access from Unit 1 to the parking area. Therefore, those stairs would be removed.

Plan: As Is
Scale: 1:100

Plan: With Proposed Changes
Scale: 1:100

East Elevation: As Is
Scale: 1:100

East Elevation: With Proposed Changes
Scale: 1:100

All of these changes are on the East side of the house and would not impact the Heritage
designation of the house in any significant way.
1. The existing door in the stairwell under the upper deck will be removed and a window.
2. This window is in the bedroom in Unit #3.
3. The window is removed under the skirt above. Replace the existing window with a standard as
   only in Unit #4.
3. Reconfigure the existing entry stairs. This will be the entrance to Unit #1. The configuration as they exist now is not original to the house but was changed in the 1990s renovation. The curve at the bottom was added in 2012. The new stairs would maintain the original design but would be configured as shown in Housing.

4. With the new location configured, these stairs would give access from Unit #1 to the garden of Unit #3. Therefore, these stairs would be removed.
