Hello!

As long as Victoria is not taking a step backward from pulling the marijuana industry out of the black market by shutting down grey-market marijuana operations and forcing Victorians into the legal industry that has supply and quality problems and back into the black market, then I fully support the decision regarding Storefront Cannabis Retailer Regulation Bylaw, 2019 – No.19-053, should that decision even be not replacing the current bylaw, which I may or may not agree with. Just don't let Victoria go back to the black market, or even a step closer back to it, please.

Sincerely,

-Ryan Willis
