**Subject:** Provincial Cannabis License Response

Our owners and staff here at Tetra Computers believe that giving access to a source of clean legal drugs is better than the alternative methods. However, it is in our opinion that the last thing this particular area of Douglas Street needs is drugs.

We accept and encourage legally vetted, well-kept and commercially restricted against underage marketing.

Re: Application by UEM Cannabis to operate at 2020 Douglas St., Victoria, B.C.

We are writing in response to your recent letter seeking input in connection with the above noted.

Our company owns the commercial property located at 2000-2016 Douglas St. as well as the adjacent property located at 660-664 Discovery St. in all comprising seven commercial tenants, all located directly within the by law restriction zone for the applicant's type of business.

While we are not necessarily against the concept of a street access cannabis vendor per se, we are strongly opposed to a business of this nature being situated in this particular location.

For example, located directly next door to the south of the applicant is an upstanding, long time family run Victoria business that sells educational and school supplies. Their typical customer base includes teachers, grades K -12, daycare persons, parents of schoolchildren and schoolchildren themselves either accompanied by parents or shopping with their peers.

Locating a cannabis outlet directly next to a business of this nature is totally inappropriate for all the obvious and well documented reasons.

Unfortunately we will not be able to attend the rezoning meeting but are sending this letter as our representation in connection with this matter in our stead.

Yours truly,

  
David Holmes, President
