Subject: Cannabis Retail Store 2641 Quadra

Dear City Hall Ambassador,

Sorry for the late response with input for the provincial license application for a cannabis retail store at 2641 Quadra St. As a small business owner in the area, we struggle enough with shoplifters as is. We feel by putting in a cannabis store in the neighbourhood, it will encourage people to get high and come to our store. As we sell a lot of crystals and jewellery and things of that nature, it is very easy to steal from us. Although the people who are stoned and coming in may be good for our business if they are buying things, it can also be bad for our business if people are stoned and stealing things from us. When people are high on a substance, whether it is cannabis, alcohol or other substances, they are more likely to steal things even if they normally might not do such things. We feel it will only cause more problems for us.

Thank you for your time.

Hi there,

I'm responding to the letter I received about Alternative Aromatics Apothecary re-opening. It would be wonderful for Quadra Village to continue including this established business as a member of the community. Before cannabis legalization, AAA offered friendly service without trouble. They've followed the rules in their attempt to re-open with provincial approval and should be rewarded for it. Keeping business local is clearly important to the neighbourhood and I think a cannabis retail store will once again fit in without issue.

I would prefer for my email address not to be included in the public record, thanks.
