

**Zoning Bylaw No. 80-159**  
**Schedule C:**  
**Off-Street Parking Regulations**

# 1. Parking Requirements

## 1.1 Application of Requirements

1. The minimum number of parking spaces required for each use must be calculated to the nearest whole number.
2. Where a building contains more than one use, the total number of parking spaces required shall be the sum of the number of parking spaces required for each use, or type of use, calculated separately.

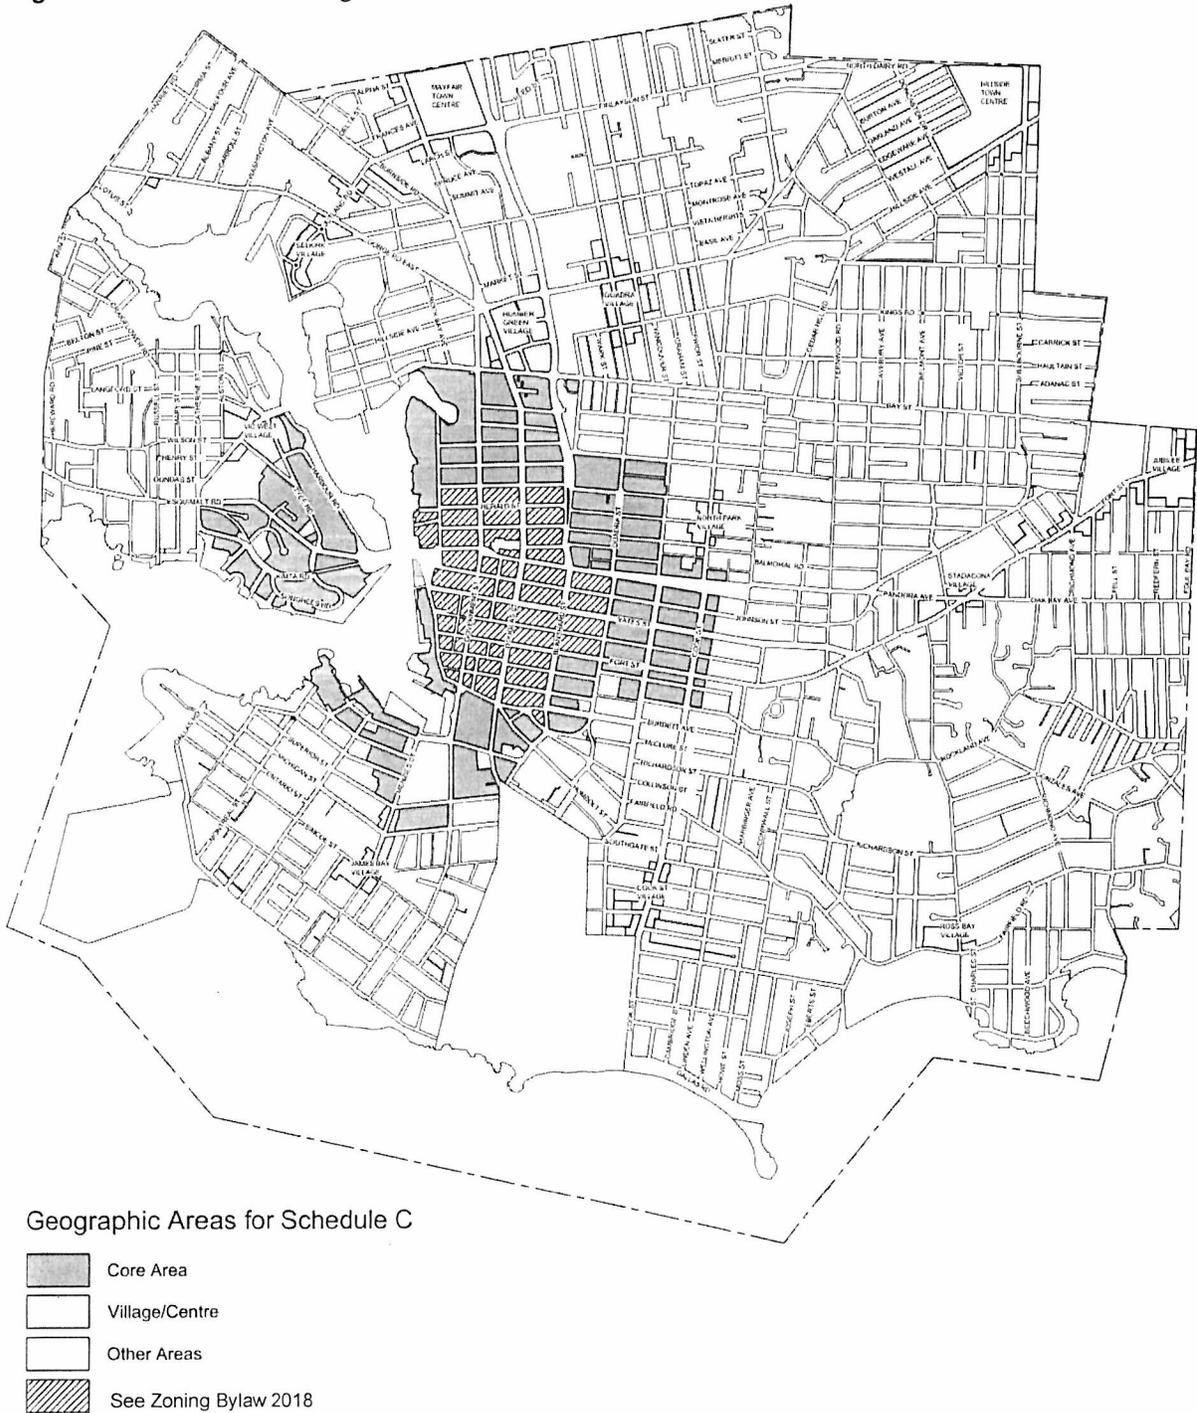

**Example:** Calculating Vehicle Parking Requirements

Type of Building or Use	Units / Floor Area	Parking Required	Visitor Parking Required	Total Parking Required
Multi-Residential, Condominium	8 units between 45-70m <sup>2</sup> in the Core Area	$8 \times 0.8 = 6.4$	$14 \times 0.1 = 1.4$ (1.4 → 1)	$14 + 1 = 15$
	6 units greater than 70m <sup>2</sup> in the Core Area	$6 \times 1.2 = 7.2$  $6.4 + 7.2 = 13.6$ (13.6 → 14)		
Restaurant	155m <sup>2</sup>	3.88 (3.88 → 4)	N/A	4
Office, Health Care	678m <sup>2</sup>	13.6 (13.6 → 14)	N/A	14
<b>Total Vehicular Parking Spaces Required</b>				<b>33</b>

3. If a use is not specifically listed in Table 1 or Table 2 of this Schedule, the number of parking spaces required shall be calculated on the basis of a use or class of use that is most similar to the actual use, based on parking demand characteristics.
4. Unless otherwise stated, all references to "floor area" in this Schedule shall be calculated as gross floor area.
5. For the purpose of calculating parking requirements under this Bylaw, in addition to all internal floor areas, all outside seating and serving areas located on a lot and associated with a Restaurant or a Drinking Establishment use shall be counted as floor area.

- For the purposes of calculating parking requirements, the City is divided into “Core Area”, “Village / Centre”, and “Other Area”, as shown in Figure 1 of this Schedule and more specifically detailed in Appendix 1.

Revisions to the Development Permit Application for the Proposed Starbucks in DoubleTree by Hilton at 777 Douglas St.

### **List of Changes**

#### **Sheets A3.0, A3.1, A3.2 & A4.0 :**

- 1) In terms of materiality the proposed exterior finishes have mainly been changed to silver metallic AL13 panels and wherever concrete is used the concrete is to be painted to match the silver metallic AL13 panels.
- 2) The proposed window mullions have been increased and the windows sill height has been kept same height as the existing windows sill height (24" AFF).
- 3) Upwalls have been added for the two guardrails of the proposed deck to make them aligned with the windows sill height.
- 4) A new AL13 fascia has been proposed above the main entrance stairs facing Burdett Ave.. This would strengthen the continuity of the AL13 fascia defining the roof line and also creates a more promising threshold for the entrance.
- 5) The wall supporting the green wall facing Burdett Ave. has been pushed back 10" away from the property line to allow for the green wall system. The specs of the green wall system has been submitted together with the revised DP plans.
- 6) A new AL13 screen has been proposed on the roof to hide the existing rooftop HVAC units.
