F. LAND USE MATTERS

F.1 Application for a New Liquor Primary Licence Kwench Culture Club at 2031 Store Street

Council received a report dated December 10, 2019 from the Acting Director of Sustainable Planning and Community Development seeking a Council resolution in accordance with the requirements of the Liquor Control and Licensing Act (the Act), regarding an application by Kwench Culture Club for a Liquor Primary licence.

Committee discussed the following:

- *Concerns that should the application be approved, and Kwench Culture Club eventually vacates the premises that the next tenant could convert the building into a club.*
- *Clustering of liquor establishments in the City.*

Moved By Councillor Alto

Seconded By Councillor Loveday

That Council direct staff to provide the following response to the Liquor Licensing Agency:

1. Council, after conducting a review with respect to noise and community impacts, does support the application of Kwench Culture Club located at 2031 Store Street having hours of operation from 9:00 am to 11 :00 pm daily with a total occupant load of 265 people. Providing the following comments on the prescribed considerations:
 - a. The impact of noise on the community near the establishment was considered in relation to the request and noise impacts are expected to be proportional to existing licence capacity and associated noise levels in the vicinity. Kwench Culture Club's primary business focus is not the service of alcohol. The primary business focus is to provide a one-stop, multi-service work club that provides office space, fitness facilities, creative studio space and food services. Approval of the licence is not expected to result in unacceptable levels of noise in due to the primary focus of business and hours of operation.
 - b. If the application is approved, the impact on the community is expected to be positive economically as the approval supports the business plan to provide a unique interpretation of large-scale office facilities available to small businesses oriented to towards this model of office environment.
 - c. The views of residents were solicited via a mail out to neighbouring property owners and occupiers within 100 metres of the licensed location and a notice posted at the property. The City received two letters in response to the notification that went to 56 owners and occupants. One letter stated opposition and the other was from the Burnside Gorge Residents Association, and they have no objection to the application.
 - d. Council recommends the license be approved.
