

SINGLE-USE ITEMS & PACKAGING						
REF	STRATEGY	IMPLEMENTATION			CONSIDERATIONS & DEPENDENCIES	KPI
		Short Term	Medium Term	Long Term		
Eliminate the Unnecessary						
SP1.1	Introduce bans and/or fees for single-use items with proven sustainable alternatives				Additional municipal authority.	Number of infractions
SP1.2	Expand access to public drinking water fountains					Number of public fountains and water bottle refill stations
Make Reuse the Norm						
SP2.1	Facilitate the establishment of reusable container services				Availability of external service providers.	Number of businesses participating in reusable container services
Recycle the Rest						
SP3.1	Require the source separation of recyclable materials across the community					Number of properties with source separation requirements
SP3.2	Improve access to recycling depots					-
SP3.3	Support consumer awareness and improved standards for compostable food and beverage packaging					-
SP3.4	Support programs that reduce waste disposal and litter in public spaces					Public realm waste disposal
SP3.5	Work with tourism industry to promote local zero waste initiatives					-
Cultivate Corporate and Community Leadership						
SP4.1	Ensure the corporation leads the community in packaging and paper reduction and diversion					Corporate waste disposal
SP4.2	Reduce and divert waste at special events					Event waste disposal

BUILT ENVIRONMENT						
REF	STRATEGY	IMPLEMENTATION			CONSIDERATIONS & DEPENDENCIES	KPI
		Short Term	Medium Term	Long Term		
Eliminate the Unnecessary						
BE1.1	Regulate problematic construction products or practices that compromise material reuse and recycling				Improved understanding. Additional municipal authority.	-
BE1.2	Encourage design standards and practices that minimize waste				Improved understanding.	-
BE1.3	Fully use and optimize existing buildings through shared and mixed use				Improved understanding.	-
Make Reuse the Norm						
BE2.1	Encourage circular and adaptable design, and design for disassembly				Improved understanding.	-
BE2.2	Support and enable house moving					Number of structures moved
BE2.3	Require the salvage of reusable materials from building demolitions					Number of demolitions with salvage requirements
Recycle the Rest						
BE3.1	Require the recycling of materials from demolition, renovation and construction					Construction waste disposal
BE3.2	Work with regional partners to plan for the mitigation of waste from disasters					-
Cultivate Corporate and Community Leadership						
BE4.1	Strengthen reuse markets for building materials					-
BE4.2	Avoid disposal and use recycled materials where appropriate for corporate facilities and infrastructure					-
BE4.3	Ensure City operations, roadwork and construction do not produce litter					Environmental risk assessment
BE4.5	Improve regional waste flow data disclosure				Regional waste stream management licensing.	-

FOOD & ORGANICS						
REF	STRATEGY	IMPLEMENTATION			CONSIDERATIONS & DEPENDENCIES	KPI
		Short Term	Medium Term	Long Term		
Eliminate the Unnecessary						
FO1.1	Encourage reduction of avoidable food waste					Avoidable food disposal
Make Reuse the Norm						
FO2.1	Strengthen food redistribution throughout the community					Food rescued Number of households accessing food redistribution
Recycle the Rest						
FO3.1	Require the source-separation of organic materials across the community					Number of properties with source separation requirements
FO3.2	Enhance or introduce municipal services to improve organics diversion					Organics disposal
FO3.3	Support regional organic processing capacity					Regional composting capacity
FO3.4	Work with tourism industry to promote local zero waste initiatives					-
Cultivate Corporate and Community Leadership						
FO4.1	Ensure the corporation leads the community in organics reduction, redistribution and diversion					Corporate organics disposal
FO4.2	Reduce and divert waste at special events					Event waste disposal

DURABLE GOODS						
REF	STRATEGY	IMPLEMENTATION			CONSIDERATIONS & DEPENDENCIES	KPI
		Short Term	Medium Term	Long Term		
Eliminate the Unnecessary						
DG1.1	Encourage the purchase of experiences instead of things					-
DG1.2	Encourage and facilitate the sharing economy				Availability of external service providers.	-
Make Reuse the Norm						
DG2.1	Support reuse and repair to increase the longevity of durable goods					Durable goods disposal
DG2.2	Improve access to textile donation and collection services					Textile disposal
Recycle the Rest						
DG3.1	Improve access to bulky item recycling					Abandoned item collection requests
Cultivate Corporate and Community Leadership						
DG4.1	Establish corporate circular procurement policies					-
DG4.2	Foster reuse and sharing culture in the workplace					-

ADDITIONAL WASTES						
REF	STRATEGY	IMPLEMENTATION			CONSIDERATIONS & DEPENDENCIES	KPI
		Short Term	Medium Term	Long Term		
Eliminate the Unnecessary						
Make Reuse the Norm						
AW2.1	Promote reusable diapers as an alternative to disposables					Diaper disposal
Recycle the Rest						
AW3.1	Promote source separation and recycling options for pet waste				Availability of regional treatment options.	Pet waste disposal
AW3.2	Continue and enhance cigarette butt recycling					Number of cigarette butts recycled and littered
Cultivate Corporate and Community Leadership
