

Attachment A – Victoria Police Department Comments

The location is in the Bay Centre mall at 1150 Douglas St and is only a block away from another Seed and Stone at 901 Gordon St. It should be noted that malls are a popular place for young people for both employment and socialization.

The Victoria Police Department does not have any site-specific comments with respect to this application as we would rely upon the existing fit and proper results through the LCRB and their background checks through the RCMP, and the community consultation process through the City of Victoria, Sustainable Planning and Community Development. The Victoria Police Department will not be conducting any further background investigation on the application, partly due to the lack of information in the application.
