Subject: Input on proposed changes to 2440 and 2448 Richmond Road

Good day,

As neighbours of the proposed zoning changes, we are writing to express our concern over the increase in on-street parking that two multi-unit buildings will cause. These two buildings will need to provide parking for the tenants and we feel it is a safe assumption that the allotted parking will be insufficient for the number of vehicles. There are already ongoing issues with parking on all the side streets and adding additional vehicles while displacing current vehicles will continue to be an annoyance to taxpayers. For this reason in particular we do not support this request.

Sincerely,

Elaine and Jim Hays
1793 Haultain Street
