

Appendix A: 2019-2022 Food Systems Targets and Outcomes

2019-2022 Targets approved by Council in June 2019		
2019-2022 Strategic Plan, Objective 5, Action 25: <i>Look for opportunities to increase food production on public land including increasing community gardens in all neighborhoods in the city and building urban food systems into our parks operations. (Ongoing)</i>		
2019 Benchmark	2022 Target	2021 Current Status
77% of neighborhoods have a community garden. Neighborhoods without allotments include Oaklands, South Jubilee and Gonzalez.	85% of neighborhoods have a community garden (includes orchards, commons, allotments).	85% of neighborhoods have a community garden. Neighborhoods without a garden include Gonzalez and South Jubilee. South Jubilee is currently developing a community garden proposal.
38% of neighborhoods have an allotment. Neighborhoods without allotments include Oaklands; North Jubilee; South Jubilee; Rockland; North Park; Hillside/Quadra, Fairfield, Gonzalez.	75% of neighborhoods have an allotment garden.	46% of neighborhoods have an allotment garden. Summit Park Allotment in Hillside-Quadra is currently being built on private land and will increase this to 54%. Remaining neighborhoods without allotments are: North Jubilee; South Jubilee; Rockland; North Park; Fairfield, Gonzalez.
230 plots in 7 allotment gardens, all fully subscribed.	Double the number of allotment plots from 230 to 460.	Currently there are 230 plots in the City. Once gardens are built in Summit Park and Oaklands, this will increase to approximately 290 plots. 170 plots are needed to meet the target. The City-built allotment should meet this target.
31% of neighborhoods have community food trees (James Bay, Fernwood, Vic West, Fairfield).	100% of neighborhoods have community food trees (community orchard, food forest, or food trees introduced with stewardship program).	61% of neighborhoods have community food trees. Remaining neighborhoods without community food trees are: North Park, Gonzales, Rockland, North Jubilee, and Hillside Quadra.
2019-2022 Strategic Plan, Objective 5, Action 15a: <i>Look for opportunities to increase food production on private land. (2020)</i>		
2019 Benchmark	2022 Target	2021 Current Status
10 producers obtained business licences between 2016-2019	Double the number of producers who obtained a business licence for small-scale commercial urban food production.	From June 2019 to June 2021, 11 new producers obtained a business licence. To date since 2016, a total of 21 producers obtained a business licence.
Not available	Track the number of condos and apartments with gardening space for tenants.	Tracking system is being developed in 2021.
