Subject: Project Type:Development Permit with Variance Folder Number:DPV00130

Hello.

I notice that Sakura Developments has applied for a variance in connection with their proposal to build a condo tower at 1150 Cook Street.

Astonishingly, the requested variance would add an additional 50%, 5 stories, to the current zoning. One might be forgiven for wondering if they are trying to avoid the inclusionary housing policy that would accompany a rezoning.

Surely a change of this magnitude would warrant a rezoning application. I urge you do everything possible to steer them down this road.

Thank you for your attention and consideration.
Deborah Yaffe
