Like most developments, it's acceptable, but could be way better.

Likes: -Addition of balconies for every unit -Rooftop space, bike parking etc Dislikes: -Concrete construction -Demolition of a nice structurally sound building that could be built around -Likely unaffordable units, making it pointless in terms of social impact -Lack of high efficiency net zero design.

Q2. **Comments (optional)**

There is not nearly enough parking being provided on the property for the expected number of occupants. Parking provided on the property should support a minimum of 50% of the total building occupants.

Q2. **Comments (optional)**

260 additional rental units in that area constitute a slum in the making. Check the building immediately to the west of this site, also on View. There's a serious problem with the social-assistance housing in the neighbourhood, which police records for frequency of 'call-outs' will verify.
