

Attachment B – Victoria Police Department Comments

I have reviewed the application for a cannabis retail license for the business Jima Retail Corp., located at 2622 Douglas St. I noted the surrounding businesses are commercial and retail. This location should not cause an increase in calls for service to VicPD, thereby impacting community safety. I have no other site specific comments.

We (VicPD) would rely upon the existing fit and proper results through the LCLB and their background checks through the RCMP, and the community consultation process through the City of Victoria with respect to the applicant. The Victoria Police Department will not be conducting any further background investigation on the application.
