

Attachment : Victoria Police Department Comments

The location is a business plaza in a urban residential area. This location should not have a significant impact on the community. Cook St. is already a very busy roadway. The vehicle and foot traffic related to this business should have little impact.

We (VicPD) would rely upon the existing fit and proper results through the LCLB and their background checks through the RCMP, and the community consultation process through the City of Victoria with respect to the applicant. The Victoria Police Department will not be conducting any further background investigation on the application.
