Subject: NO to the proposed development of 818-827 Fort street

To whom it may concern,

I am Janie Pelletier, resident of Victoria and I'd like to add my voice (and words) to all the residents that say NO to the proposed development of 818-827 Fort street.

A 10-story building is too tall and will drastically alter the feel of our neighborhood. This is already a one-way street and a 2-way bike lane. This is also the main road for the ambulance to get to the Jubilee Hospital. It could also potentially decrease the housing value of condo owners. Heritage buildings should be preserved and I'd be interested to know what "minor changes" entail.

I hope this project doesn't come to completion.

Thank you for considering this message.

Janie Pelletier
