

## Attachment A – Bylaw and Licensing Services Comments

Bylaw services has been working with Clarity Cannabis since July of 2021 to bring them in compliance with the Storefront Cannabis Retailer Regulation Bylaw at both their 851 Johnson St. and 603 Gorge St. E locations. As of January 2022, the retailer has undertaken efforts to meet the bylaw's requirement to remove opaque window coverings on the Storefront, both locations appear to be compliant.

There have been no other bylaw related community complaints at either of these locations related to this business. Approval of this application would likely result in limited community impact. It is recommended to move forward.
