

Attachment B – Victoria Police Department Comments

I have reviewed this request and based on the information provided this cannabis retail store is moving half a block around the corner from 851 Johnson St. to 1400 Quadra St. Therefore, the neighbourhood will not change. To this point, there has not been a significant number of complaints to police with respect to this location. With respect to the business itself, it appears that the previous business was named Medijuana. Police reports under that name and under the name Clarity Cannabis (current name) are also insignificant. Based on this, the move to the new location should not have a significant impact on the community nor calls for service to VicPD.

With respect to the applicant, VicPD would rely upon the existing fit and proper results through the LCLB and their background checks through the RCMP, and the community consultation process through the City of Victoria. The Victoria Police Department will not be conducting any further background investigation on the applicant.
