

Council Member Motion
For the Committee of the Whole Meeting of May 19th 2022

To: Committee of the Whole **Date:** May 12, 2022
From: Councillor Loveday
Subject: Aligning Go Victoria's Vehicle KMs Travelled Targets to Clean BC

BACKGROUND

The CleanBC Roadmap to 2030 sets a target of reducing distances travelled by personal vehicles by 25% by 2030, compared to 2020. Meanwhile, the City of Victoria's GoVictoria plan sets a target of reducing vehicle kilometres travelled by 20% below 2017 levels by 2030. The Province is a key partner and funder of transportation infrastructure, including active transportation projects.

It is recommended that the City of Victoria aligns its Go Victoria vehicle kilometres travelled target to the Clean BC target.

RECOMMENDATION

1. That Council direct staff to report back at the next update of the Go Victoria plan on aligning the City of Victoria's vehicle kilometres travelled targets with the targets within the Clean BC plan.

Respectfully submitted,
