

To whom it may concern,

I'm a student in Victoria and I want to express my support for the BC Housing and Our Place project at 225 Russell street. It's very important to me that the city of Victoria invests in our community and supports those that are struggling financially, mentally, and physically. This project is a great first step in reducing the housing crisis we have been facing for years in Victoria.

Thank you,

Sky Dragushan

Dear Mayor and Council,

I would like to voice my support for the supportive housing facility at 225 Russell Street, and implore the Mayor and Council to approve this project. This type of development is badly needed in the city, and will help house those most vulnerable in our community. I live next to a supportive mental health housing facility in Jubilee, and I can vouch for the fact that this type of housing is needed all over the city and can be built and operate while maintaining the safety and integrity of the surrounding neighbourhood. Permanent and secure housing should be available for all of those living in this city; approving this project is a step in the right direction and will be improve the lives of many who are struggling to find stability in the current housing crisis.

Thank you for your consideration.

Regards,
Ethan Smith
2310 Trent St,

I am in favor of the support housing initiative.

I live in Esquimalt

This is a dire need and the humane thing to do if we want to call ourselves a civilized society.

Thank you

Carsten Kroon
