I appreciate the notice sent to those living within 100 metres, of the Victoria Curling Club; I live at 913 Green St. I have no issue with the extension of Sunday hours nor with the change to a Liquor Primary Licence.

I am glad to have the Victoria Curling Club at the top of my street. It is a much-used facility, a wholesome, enjoyable environment.

The notice suggested email contact:

morhart@victoria.ca

The email bounced back hence: permits

Sincerely, Jane Storrier

As a resident of North Park residing within a block of the Curling Club I would like to weigh in on their application to change their liquor license.

As I am sure you know, the residents of North Park shoulder more than their fair share of problems resulting from public inebriation, parking problems, litter, noise, and the other burdens due to the fact that we host many regional facilities.

With that in mind, I wholeheartedly support this change in licensing of the Curling Club. Despite being a regional facility, the Curling Club is an excellent neighbour. The patrons of the Curling Club are never noisy, never tip over my motorcycles, never leave litter behind and are respectful of the neighbourhood. On the contrary, they are frequently seen carrying their own brooms! The activities of the Curling Club are not disturbing. They do not blow air horns long into the evening, they do not endanger residents with rocks leaving the building, they do not harass people on social media. On top of that, they bring economic and social activity to the neighbourhood. To say nothing about their generous outreach activities for local schools.

They provide physical activity for a broad range of ages and economic groups, and they do all of this without being a large burden to the taxpayer!

If they need to help finance all this with a minor adjustment to their licensing, I say yes! A thousand times yes. And thanks.
