

To the City Clerk of the City of Victoria

My name is Richard Good and I own a building at 2122 Cook St. On Friday afternoon I received a Notice of Remedial Action Requirement. I'm a little puzzled. The fire pannel was replaced weeks ago and was certified by a Fire protection company as working and up to code. The rot in the back fire escape has been replaced and the stairway is safe to use. I therefore request that council reconsider the remedial action requirement

Richard Good
