I've been very near this proposed development, and have no objection to it. I do have a concern about this, and most of the new buildings being constructed in the downtown area - more excitement on the sidewalk (dog hopefully). When I walk down the streets, but particularly along Quadra north from my home to my gym or my grocery store on Yaes, I dare not lift my eyes up for long, as the danger is everywhere. New buildings have no place for dogs to poop, so it's all done on the sidewalk, and much of it is self-behind. The city, working with developers, needs to do something about it. I suppose a pet-free building is out of the question, but an option I like very much. But at the least provide some green space for the huge increase in dog pee and faeces. An alternative is to use the city of Amsterdam - special vacuums that suck up the sidewalk. Or try something else. Please.

On behalf of Central Baptist Church, we welcome the opportunity to be involved with and provide our support to Towne's Development and Rezoning Application proposal to provide affordable rental housing and street frontage re-activation. With access to robust transportation options like transit, bike paths and generally walkability, we also support the plan for parking density. Central Baptist Church also appreciates Towne's concept of the architecture type, access and rejuvenation of the mansions. We would be pleased to continue to be involved in this project as it progresses.

I live within 100 meters and my condo faces this proposed development. I support the construction of a new mixed-use development at this site, but 20 storeys is too tall. The application should be revised to reduce the height to 14 storeys (or less) so it will be consistent with the skyline of neighbouring tall buildings. Number Of Storeys Of Neighbouring Tall Buildings: 13 - 1630 Quadra 13 - 1400 Quadra 13 - 760 Pandora 13 - 760 Johnson 14 - 834 Johnson Thank you for your consideration.

It would be a much better idea to preserve the well being of residence at 1602 Quadra street if the tall portion of this proposal were to be reversed!!! This way there would be NO invasion of privacy and block the views of greenery lending to the well-being of the residence.
