

Appendix B – Victoria Police Department Comments

I have had a review of the information provided. The location is a strip mall in Vic West which caters to a variety of businesses with ample parking. My only concern is the proximity to the park across the street. The park is used by children and families as well as a number of other user groups. Having said that, there are generally very few problems with these businesses once they have received the appropriate licencing.

With respect to the applicant, VicPD would reply upon the existing fit and proper results through the LCRB.
