2024 Operating + Capital Direct-Award Funding Requests

Dear Mayor Alto and Council Members:

The VCHT Board of Directors offers many thanks to Council for its support of Victoria's diverse multicultural and built heritage. We particularly acknowledge the support of our Council Appointee, Councillor Matt Dell.

Our Board and staff are keenly aware that Council must make very difficult budget decisions now and in the next few years to focus valuable tax payer dollars on municipal infrastructure and staffing. We realize Council faces public concern over tax increases, while addressing a housing crisis and rising costs for most City funded entities.

2024 CAPITAL REQUEST INCREASE: Council's Strategic Priorities + Public Benefits

After VCHT's presentation to Council in June 2023, Councillor Dell advised our Board that Council wants heritage programs administered by VCHT expanded to enhance Council's priorities, especially for **downtown revitalization**. VCHT consulted with many downtown heritage property owners (see letters of support) and City heritage staff, along with construction cost research, that resulted in various budget options for Board review.

After much debate the Board voted to ask for an extra increase in Capital funds based on the very strong case that it will create provable business, public, and community benefits that align with many City strategic priorities:

- **Enhance Downtown Revitalization** Conserve more heritage buildings to improve the business vitality and appearance of downtown, particularly on Douglas / Yates / Johnson / Broad Streets and in Chinatown;
- **Sustain Victoria's Tourism Success** Upgrade and maintain Victoria's distinctive downtown heritage buildings and heritage character as an important component of the region's estimated \$1.9 billion dollar tourism industry with over three million visitors annually; see attached tourism info sheets;
- **Economic Return on Investment** Create better occupancies for more real life benefits to businesses, and ensure ongoing private investment through the Building Incentive Program (BIP) currently averaged at \$22.29 in private investment for every \$1 in public funds invested by the City of Victoria for BIP;
- **City Tax Base** Contribute to the City of Victoria's tax base by upgrading downtown heritage properties;
- **Urgent Infrastructure Upgrades** Substantively rehabilitate and complete urgent upgrades to Victoria's irreplaceable commercial, industrial, and institutional heritage buildings to retain their physical, social, and economic infrastructure as a public benefit; this is more urgent than ever due to BC Building Code changes and rising construction costs; delayed response will only result in increased infrastructure costs later on;
- **Increase Public Safety** Improve public safety by: 1) voluntary seismic upgrading of exterior falling hazards on eligible downtown heritage buildings through the Parapet Incentive Program (PIP), and 2) making various Code upgrades and increasing fire protection on eligible heritage buildings through BIP;
- **Develop Community Heritage** Preserve and adaptively reuse Victoria's built heritage as a public benefit to express the city's diverse multicultural heritage and character;
- **More Downtown Housing** Increase downtown residential units in underutilized upper storeys of heritage buildings by assisting the City with its Tax Incentive Program for Residential Uses.

The reasons cited by the VCHT Board for requesting an extra increase in Capital funds are to:

- Align with Council's strategic priorities, especially relating to Downtown Revitalization;
- Meet increased demand in 2024-2026 as identified on pages 2-4 of the attached Expenditure Budget;
- Keep pace with the original incentive value for BIP, which started in 1990 at a maximum of \$50,000.00 and its equivalent value is now \$150,000.00 based on Stats Canada Building Construction Price Index data;
- Keep up with increased construction costs and inflation – see attached Stats Canada data 1990-2024.

2024 OPERATING + CAPITAL REQUESTS

VCHT respectfully submits our **2024 Expenditure Budget** approved by the Board on 6 November 2023. The 2024 Operating direct-award request is for **\$128,600.00** which is the amount received in 2023 plus a 4% cost of living adjustment for 2024. Note: with the amount requested, the VCHT will continue to operate on a deficit basis as it has for a number of years.

The 2024 Capital direct-award request is for **\$950,000.00** as provided in 2023, **plus an additional \$950,000.00** for a total of **\$1,900,000.00** for the purposes of BIP and PIP, and to assist with the City of Victoria's Heritage Tax Incentive Program. The total Capital request will enable VCHT to support downtown revitalization, meet increased demand, and raise the BIP maximum from \$100,000.00 to \$150,000.00 per building to keep pace with the incentive's real value impacted by increased construction costs and inflation.

MULTI-YEAR PROJECTIONS: 2024-2026

Potential applications for 2023 and 2024 are listed on pages 2-4 of the attached 2024 Expenditure Budget. This list includes heritage buildings located mostly in downtown, with many notably in the Douglas Street area and in Victoria's Chinatown National Historic Site, Canada's oldest and most intact Chinatown. VCHT anticipates high demand in 2024 and 2025 based on enquiries to VCHT and the City's Senior Heritage Planner. In 2024 the VCHT projects **\$2,812,276.51** in funding awards based on approximately twenty-seven applications. In 2025 a further **\$2,323,572.53** is projected for approximately twenty-five applications.

VCHT presents the multi-year projections in support of the 2024 direct-award Capital fund request of **\$950,000.00** plus an extra increase of **\$950,000.00** for a total of **\$1,900,000.00** to meet potential demand and to maintain a workable balance in the uncommitted BIP fund.

BACKGROUND

The VCHT was established by the City of Victoria in 1989 as a civic vehicle to administer BIP (now includes PIP) funding for heritage designated commercial, industrial, institutional, and apartment buildings, and since 1998 to assist with the City's Tax Incentive Program, for the conservation and rehabilitation of downtown heritage buildings and to preserve Victoria's community heritage. Modeled on Civic Trusts that are financially supported by the local municipality, the VCHT is a nationally recognized organization that has produced impressive results for the City of Victoria which could not have been achieved without these programs:

- **\$167.95 million** in private investment in **160 eligible heritage buildings** through **\$8,768,929** for **383 BIP + PIP awards** provided by City Capital funds;
- **90 Heritage Designations** directly related to funding applications, resulting in significantly increased protection of heritage buildings and an improved downtown environment since 1990.

The VCHT is proud of our ongoing relationship with the City of Victoria and our record of service on behalf of the City and its residents. We look forward to continuing to work with Council to further its strategic priorities through heritage incentive programs administered by the VCHT. These programs successfully address significant community issues on multiple levels using highly cost-effective resources.

On behalf of the Board, I'd like to express our gratitude again to the City for its ongoing financial commitment to Victoria's excellent heritage programs. It is because of Council's consistent support that the City of Victoria continues to be widely recognized as a leader in municipal heritage conservation in Canada.

We look forward to providing more detailed information if required.

Sincerely,

Suzanne Powell
President

VISION. EXCELLENCE. RESULTS.

January 2nd, 2024

To Mayor and Council,

Subject: Letter of Recommendation for the Victoria Civic Heritage Trust

I am writing on behalf of GMC Projects to share our wholehearted support of the invaluable work and service that the Victoria Civic Heritage Trust (VCHT), provides to the local building and development industry through their administering of the City's various Incentive programs, created in efforts to encourage the conservation of Victoria's heritage buildings.

The Trust's efforts have led to significant business benefits including.

- increased occupancies in preserved buildings thereby enhancing the revenue potential of property owners and contributing to the economic vibrancy in the downtown core.
- increase in public safety through the incentive to upgrade and make safe the building operating systems of heritage buildings, whilst also supporting and encouraging the voluntary seismic upgrading of buildings, especially parapets.
- and supporting the rehabilitation and retention of residential spaces, usually found on the upper storeys of heritage buildings, which are much needed in this supply constraint market.

VCHT was instrumental in our successful rehabilitation and conservation of the Adelphi buildings in downtown Victoria on Yates and Government Street. The incentive program contributed significantly to the viability of our project and their team's deep understanding of the importance of heritage preservation and adaptive reuse was crucial in navigating the complex process of restoring the historic properties. Their involvement ensured that the rehabilitation was not just a renovation but a careful preservation of history, allowing the property to retain its unique character, adding to the market much needed rental housing, while being equipped for future use.

VISION. EXCELLENCE. RESULTS.

We, at GMC, highly recommend that Mayor and Council consider their request for an increase in their contributions to better align with the current construction costs. We believe that every dollar entrusted to them contributes meaningfully to the City's preservation efforts.

Sincerely,

A handwritten signature in black ink, appearing to read "Tony Kiptoo". The signature is fluid and cursive, with a long horizontal stroke at the end.

Tonny Kiptoo
Vice President, Development.
GMC Projects Inc

November 2nd 2023

535 Yates St and the Victoria Civic Heritage Trust

The Victoria Heritage Civic Trust (VCHT) has provided invaluable support and assistance to 535 Yates St Inc in preserving and maintaining the heritage location of 535 Yates Street. The organization's commitment to the preservation of our city's historical landmarks is truly commendable, and the impact of your programs on our recent restoration efforts cannot be overstated.

We support VCHT in their request for a budget increase which would allow them to increase the maximum amount available for eligible property owners through the Building Incentive Program.

An increase in funding would enable us to pursue masonry repointing at 535 Yates St to further enhance façade and longevity of the historical building.

Without the VCHT's guidance and financial support, we would not be able to undertake a seismic bracing upgrade to the building, a crucial step in safeguarding this heritage site from potential seismic risks. The seismic bracing upgrade not only ensures the safety of the building's occupants but also helps in preserving its structural integrity to ensure its preservation for future generations.

Additionally, the installation of a new fire suppression sprinkler system on the 4th floor of 535 Yates Street would not have been possible without the support of the VCHT. This enhancement significantly enhances the fire safety of the building, protecting both the historical building and the surrounding community.

The partnership and collaboration with the VCHT have proven to be instrumental in carrying out these essential projects. The organization's dedication to heritage preservation, along with their financial assistance and expert guidance, has made a significant difference in our ability to protect and maintain the historical integrity of 535 Yates Street.

The VCHT's support has not only benefited 535 Yates St Inc but has had a positive impact on Victoria community by ensuring the longevity of this significant heritage location.

The budget increase would help ensure that the VCHT can continue their excellent work to provide support to heritage buildings and preserve the traditional architecture, charm, and rich history of the Victoria area.

Subject: Letter of Support for THE VICTORIA CIVIC HERITAGE TRUST (VCHT)

Dear Mayor and Council,

As President of Congregation Emanu-El, Canada's oldest synagogue in continuous use, I write to express my support and the support of the entire Emanu-El community for the important work done by Victoria Civic Heritage Trust (VCHT).

Ten years ago, as Congregation Emanu-El approached its 150th anniversary, we became aware that our historic sanctuary needed critical repairs. VCHT came to our assistance, helping us to secure an initial \$2000 planning grant in November 2012 followed by the maximum \$50,000 restoration grant in February 2013.

Those VCHT grants, the first government funding procured, were absolutely critical. The early planning grant helped build momentum by documenting the unique nature of our heritage sanctuary and the restoration work required. The restoration grant provided necessary funds as well as strengthening our applications for further provincial and federal funding. In short, VCHT was essential to the rescue of our heritage sanctuary, ensuring its continuity as a unique historic landmark in Victoria and Western Canada.

Ten years after the structural work and reroofing have been completed, our community is preparing for another cycle of critical renovations – repointing, sealing and restoring our original 19th century exterior brickwork. Due to the age of the sanctuary, and that this work was never done before, there is moisture and water ingress in multiple locations, impacting the integrity of existing plaster, window frames and overall air quality—all of which make interior restoration work a necessity as well. This is a major undertaking for our community due to the rising costs of design and labor, so securing whatever funds are available is essential to this effort.

Congregation Emanu-El believes that VCHT's funding mechanism will be a critical tool in our ability to execute this renovation, and, in doing so, ensure the ongoing integrity of our heritage property. We would like to take this opportunity to thank the City of Victoria and VCHT for past support and urge Mayor and Council to maintain heritage granting to enable future preservation of Victoria's architectural and urban history.

Sincerely,

Ilana Stanger-Ross, RM

Shon Yee Benevolent Association of Canada, Victoria Branch

612 Fisgard Street 3rd floor, Victoria BC V8W1R6

To: Mayor and Council:

On behalf of Shon Yee Benevolent Association of Canada, Victoria Branch. I'm writing to request increase fundings for the Building Incentive Program (BIP) to revitalize Chinatown and Downtown area.

Our Heritage building on 612 Fisgard Street was built in 1910, 113 years old now and it require on-going restoration and maintenance to keep up with the building codes.

Our Board of Directors are planning to restore the facade, replace the windows, secure falling objects, restore rear deck for fire escape, repaint and waterproofing outside walls.

We had been applying the BIP through Victoria Civic Heritage Trust for the last several years, but due to the increasing materials, labour costs, inflation and limited amount of funds available to our building. At this time, we are falling behind on the restoration and repairs.

It is vital that City of Victoria substantially increase additional fundings for the Building Incentive Program to keep up the rising construction costs to assist us to restore the building, so we can contribute to revitalize Chinatown and Downtown area.

If you require additional information, please do not hesitate to contact me directly. I can be reached at (250) 818-3338.

Board of Directors signatures on page 2.

Sincerely,

The Lees Benevolent Association
614 ½ Fisgard Street
Victoria, BC V8W 1R6
November 6, 2023

The Worshipful Mayor of Victoria
Marianne Alto and City Councilors
1 Centennial Square
Victoria, BC V8W 1PG

Dear Mayor Alto & Councilors

The Lees Benevolent Association is the owner of 614 1/2 Fisgard Street, a heritage designated 1911 building & part of Victoria's Chinatown, a Federally designated National Historic Site.

Over the past year, with the generous financial assistance from the Victoria Civic Heritage Trust (VCHT) work on the roof, parapet, masonry & exterior to restore, conserve & improve safety has been done. This was achieved through the Building Incentive & Parapet Incentive Programs (BIP & PIP). Without the support from VCHT our association would not have been able to get all of this work done.

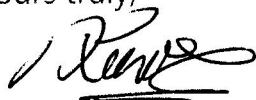

It is our hope to continue to upgrade & improve on the safety & restoration of our building, including the electrical service, plumbing & painting. Support from VCHT will be critical in achieving this.

The east wall facing the parking lot will require work on the parking but with assistance from the City, the Downtown Victoria Business Association (DVBA) & other organizations, our association hopes to repair the parking & have a Chinese themed mural painted on that large wall. As one approaches Fisgard Street from Douglas heading west towards the Chinese school & the Gate of Harmonious Interest, a mural on this wall would enhance our Chinatown as a National Historic Site. This would be similar to the recently completed mural on the wall at 1713 Government Street.

Our Chinatown is unique with historical & cultural significance. The VCHT is critical for the revitalization & preservation of Chinatown as well as Old Town & other century old buildings in our downtown core. Our Association supports the 2024 funding requests by VCHT & DVBA and consideration in the preliminary budget for the City.

In summary, our Association supports 2024 funding requests by the VCHT & DVBA and consideration in the preliminary 2024 budgets for the revitalizations of the City of Victoria.

Yours truly,

A handwritten signature in black ink, appearing to read 'Kent Lee', with a horizontal line underneath the name.

Kent Lee, President

MERCHANT HOUSE CAPITAL

November 8, 2023

City of Victoria,
1 Centennial Square
Victoria, BC V8W 1P6

Dear Mayor Alto and Members of Council:

RE: Letter in Support of Increased Funding Request from Victoria Civic Heritage Trust

The City of Victoria's stock of heritage buildings tell a dramatic tale of a remote frontier camp climbing out of the mud and building at a breakneck pace as the demand for resources fuel economic growth. As rail and steamship arrive, Victoria connects Canada to the far east and becomes a destination for world travelers. While other communities rushed to pull down heritage quality buildings in an desire for progress, part by circumstance and luck, but fully part by intention, Victoria has preserved its storied past and reaped the benefit of praise and admiration for it.

But in this post-colonial environment, Heritage Buildings must be more than emblems of the past. They must function and work for purposes that we need as a modern society. As a City with limited growing space, historic districts with preservation covenants risk falling into stagnation as the costs to maintain such buildings grow over time and renovation plans become more and more expensive as building code changes raise the bar for upgrades. This is particularly important for Victoria, where earthquake risks are among the highest in North America.

Speaking as a person who has managed the renovation of many Heritage Buildings over many years, the cost and constraints of renovating these old buildings has become increasingly challenging. Construction risks exceed those that occur under typical development because so much of the renovation work is unknowable. A dedicated approach to the process with careful planning and a realistic budget are essential, but so too is the need for additional public support for this worthy enterprise.

I write today to emphasize that without the support of increased grants amounts available under the programs guided by the Victoria Civic Heritage Trust, projects for renovation of heritage buildings will effectively cease. It is my growing concern that the gap between the project cost and project value are increasing at a pace that makes renovating Heritage Buildings unrealistic. The City of Victoria and Province of BC must find other meaningful mechanisms to encourage property owners of Heritage Buildings to renovate and restore their buildings. Whether it be more expansive programs for property tax abatements, or programs which cap property taxes for non-seismically upgraded renovations, it is imperative that government stay current with the market forces directing heritage renovations, because as time passes and the

forces of depreciation occur, more and more of these buildings risk passing the point of feasible restoration.

Sincerely,
Merchant House Capital

November 19, 2023

Mayor and Council
City of Victoria
1 Centennial Square
Victoria, BC, V8W 1P6

Re: Proposed Increase of Upper Limit - Building Incentive Program (BIP)

Dear Mayor and Council,

I am writing this letter on behalf of the Strata Council of 1600-1602 Quadra St with regard to the proposed increase of the grants available through the Building Incentive Program (BIP), administered by the Victoria Civic Heritage Trust, from \$100,000 to \$150,000 within a ten year period for eligible conservation work on heritage buildings.

Our strata building is a 110-year old institutional building converted from a church to a condominium complex, named The Palladian. We have used the Building Incentive Program for several projects over the past few years, such as brick repointing (2020/2021), repairing and replacing the roof slope and parapet coping (2019), repainting of exterior windows, doors and railings (2019) - total cost: \$130,000; upcoming repairs include: podium slab repairs and resloping of membrane above (2024) - total estimated cost: \$110,000.

Victoria's historical buildings and sites contribute significantly to the distinctiveness and identity of the city by reflecting cultural, social, economic, political, or architectural history. Therefore, we firmly believe that the proposed increase will be a vital contribution to the retention and preservation of Victoria's irreplaceable historic building stock by assisting owners of Heritage Designated buildings, such as ours which contains housing, with the costs of rehabilitation and maintenance.

Thank you for your consideration,

Yours sincerely,

The Palladian - VIS 6626

Daniel Nowak, President

Catherine Umland
Executive Director
Victoria Civic Heritage Trust
PO Box 8388 Station Central
Victoria, BC V8W 3R9

2023 May 11th

Dear Catherine,

RE: Tax Incentive Program

I confirm that I have been privileged to have been an approved recipient of both funds from VCHT and benefitted from approval of tax deferral under the T.I.P program.

I have been a recipient since the first day of the inception of the T.I.P.

The project includes the following:

1. 536 Herald Street "B Wilson"
2. 532 Herald Street "Biggerstaff"
3. 1312 Government Street "New England"
4. 550 – 552 Yates Street "Oriental Hotel"
5. 1315 – 1317 Waddington Alley "Morley Soda"
6. 534 Pandora & 533 Fisgard Street "Lum Sam & Lee Chong"
7. 524 Yates Street "The Leiser"
8. 2110 Store Street "Powerhouse"
9. 502 Pembroke Street "Admin Building"

Over 180,000 square feet of heritage building regeneration, including seismic upgrades and conversion, to create 153 residential units in existing heritage spaces.

I confirm that the experience that I have enjoyed and cooperation from the VCHT Board and the staff assisting to operate that program from day one has been:

- Exemplary in the extreme
- Helpful in every way
- The grants and follow-up have been timely and met the needs for approval of all project elements, including financing.

I further confirm that the programs have provided a most significant economic "nudge" to the developments. It has provided an incentive to viability, an encouragement of courage to proceed, and, without question, some of the above projects would not have proceeded without the program's help.

The precious heritage elements of the City of Victoria are part of its fabric, and I hope this commentary assists any review undertaken.

I stand prepared to answer all or any questions flowing from this meeting.

Yours,

Chris LeFevre
