Q1. **What is your position on this proposal?** Support

Q2. **Comments (optional)**

1) Protect and preserve the three mature, acorn bearing trees on Chatham that border the Capitol Iron Parking lot (for the phase one proposal). 2) Provide a water access public amenity at the end of the narrow concourse where it meets the waterside pathway.

Q1. **What is your position on this proposal?** Oppose

Q2. **Comments (optional)**

This height variance is over the top! That's more than 4 times the limit in the community plan! I don't mind adding density but the existing buildings and residents should be considered. Besides, do you really think waterfront towers are going to add the affordable missing middle we really need? Anyway. I would be ok with a variance for more height, but more in line with the ocp like 7-8 stories. Thanks for your time

Q1. **What is your position on this proposal?** Oppose

Q2. **Comments (optional)**

How does this not effect the current buildings of 1950 government? Those are light industrial and will be caused extreme difficulties by the changes and construction. Reliance Properties is a terrible owner in this city and has little regard for its current and future tenants or the city and its vision.

Q1. What is your position on this proposal?

Other (please specify)

Access to water behind Store street for cultural reasons.

Q2. Comments (optional)

As an Indigenous person residing on Chatham street for over 5 years, I have spent a tremendous amount of time using the historic pier at the end of Discovery Street (directly behind the former Capital Iron) to pray and perform ceremonies. I have found no other place within such a short distance from my apartment that is enough distance from others, yet adjacent to the sea. I am hoping your future development will have continued public access to this area, or at the least, public access anywhere between the marina and the gravel yard at Store and Discovery. When I first moved here there was no chain link fence blocking the small southern most dilapidated pier behind 1824 Store, and since its placement I have continued to respectfully practice my cultural traditions, while also cleaning the area once a week. I am also aware the pier is currently not safe for public access, hence the fence along the parking lot side of it, but am merely asking for their to be some consideration for there to continue to be somewhere along the water that isnt on a private establishments property, as basically everywhere on this side of the inner harbour does. Thank you so much for your time in this matter, and I wish you all the best in this exciting development in my neighbourhood!

Q1. What is your position on this proposal?

Other (please specify)

support low-rise (up to 7 stories) development; oppose "tower" (15, 20 stories)

Q2. Comments (optional)

I believe towers of 15 or 20 stories would not be in keeping with the nature of the neighborhood

Q3. Your Full Name

Dan Bruiger

Q4. Your Street Address

#308 409 Swift Street, Victoria, BC

Q2. **Comments (optional)**

This is a large-scale development and my neighbors and I would like to see what developer's non-profit contributions into local community is in terms of at maybe 3-4 art statues or pieces or art that can be considered tourist attractions, park and playground. I live close by and feel this is reasonable to expect from the developer. thank you,

Q1. **What is your position on this proposal?** Support

Q2. **Comments (optional)**

generally, I support your development , it will be nice to have an art gallery and artisans around, but i personally object to hight rise towers , the 17 floors towers will be nicer if it was only 10 or 12 floors high, the one on Chatham should not be taller than the other buildings already built along that street, so the 10 floors tower on Store street should also be only 5 to 6 floors high

Q1. **What is your position on this proposal?** Support

Q2. **Comments (optional)**

I support the proposal, but would like to see traffic calming and pedestrian infrastructure along Store Street, Chatham Street, and Discovery Street. The intersection of Store Street and Chatham should be at least a 3-way stop for traffic.

Q2. **Comments (optional)**

Residential density in this area will be a huge boon to the retailers, restaurants, and other service providers in the area. Non-penthouse 3-bedroom apartments are in short supply, and throughout the city and this location would be a golden opportunity to provide families with an attractive alternative to car-dependent lifestyles. This would also be a perfect setting for an art gallery (and maybe maritime museum!). In its current location, the VAG is desperately underutilized and hard to reach for many without a car. A child-friendly, walkable, downtown location would be a major draw for tourists and locals alike.
