

BYOB Victoria - Plastic Bag Ban Bylaw for Victoria - SUPPORT

Dear Victoria City Councillors,

Plastic bags are polluting our oceans, killing tens of thousand of birds and marine animals each year. They are typically used once or twice for a short time before they become waste, and often litter. On Coastal Cleanup Day in 2012, over one million plastic bags were picked up off shorelines worldwide on one day.

For these reasons and many others, as a resident of Victoria, I, the undersigned, am in support of a bylaw to effectively ban the use of single-use plastic checkout bags within city limits.

Sincerely,

BYOB Victoria - Plastic Bag Ban Bylaw for Victoria - SUPPORT

Dear Victoria City Councillors,

Plastic bags are polluting our oceans, killing tens of thousand of birds and marine animals each year. They are typically used once or twice for a short time before they become waste, and often litter. On Coastal Cleanup Day in 2012, over one million plastic bags were picked up off shorelines worldwide on one day.

For these reasons and many others, as a resident of Victoria, I, the undersigned, am in support of a bylaw to effectively ban the use of single-use plastic checkout bags within city limits.

Sincerely,

BYOB Victoria - Plastic Bag Ban Bylaw for Victoria - SUPPORT

Dear Victoria City Councillors,

Plastic bags are polluting our oceans, killing tens of thousand of birds and marine animals each year. They are typically used once or twice for a short time before they become waste, and often litter. On Coastal Cleanup Day in 2012, over one million plastic bags were picked up off shorelines worldwide on one day.

For these reasons and many others, as a resident of Victoria, I, the undersigned, am in support of a bylaw to effectively ban the use of single-use plastic checkout bags within city limits.

Sincerely,

BYOB Victoria - Plastic Bag Ban Bylaw for Victoria - SUPPORT

Dear Victoria City Councillors,

Plastic bags are polluting our oceans, killing tens of thousand of birds and marine animals each year. They are typically used once or twice for a short time before they become waste, and often litter. On Coastal Cleanup Day in 2012, over one million plastic bags were picked up off shorelines worldwide on one day.

For these reasons and many others, as a resident of Victoria, I, the undersigned, am in support of a bylaw to effectively ban the use of single-use plastic checkout bags within city limits.

Sincerely,

BYOB Victoria - Plastic Bag Ban Bylaw for Victoria - SUPPORT

Dear Victoria City Councillors,

Plastic bags are polluting our oceans, killing tens of thousand of birds and marine animals each year. They are typically used once or twice for a short time before they become waste, and often litter. On Coastal Cleanup Day in 2012, over one million plastic bags were picked up off shorelines worldwide on one day.

For these reasons and many others, as a resident of Victoria, I, the undersigned, am in support of a bylaw to effectively ban the use of single-use plastic checkout bags within city limits.

Sincerely,

✓

BYOB Victoria - Plastic Bag Ban Bylaw for Victoria - SUPPORT

Dear Victoria City Councillors,

Plastic bags are polluting our oceans, killing tens of thousand of birds and marine animals each year. They are typically used once or twice for a short time before they become waste, and often litter. On Coastal Cleanup Day in 2012, over one million plastic bags were picked up off shorelines worldwide on one day.

For these reasons and many others, as a resident of Victoria, I, the undersigned, am in support of a bylaw to effectively ban the use of single-use plastic checkout bags within city limits.

Sincerely,
