Subject: Proposed changes to 2639-2641 Quadra Street

We oppose rezoning of the above address to Cannabis.

This is a family residential neighbourhood. The community has worked hard to clean up the neighbourhood and maintain a safe friendly neighbourhood for children. This includes building a walk-in and family practice medical clinic in the village. A cannabis zoning and entrenchment of such business will be detrimental to the community image and quality of life for families with school age teenagers and young children..

Please do not disclose our tel, fax and email address. Thanks much.
