

Appendix B

Motion with Regard to Staffing for Victoria Transit Commission

Mayor Helps

City of Victoria

Recommendation:

That the Transit Commission direct staff to:

1. Report back on a priority basis with a gap analysis to understand whether the Commission has an adequate level of staff resources in place focused on driving transformational change in public transit in the Capital Region
2. To make recommendations to the Commission based on the analysis outlined in #1.

Rationale:

This motion is related to the previous motion. In order to strategically drive and implement transformational change to rapid transit in the region, the Victoria Transit Commission needs to have adequate staffing resources in place and to have a staff member or members dedicated to and solely focused on the implementation of the Transit Futures Plan and in particular rapid transit.
