Subject: RE: Sound proofing
To: Yuk Yuks

Hi Dave & Yona,

We accounted for this and had our contractor include provisions for soundproofing as we would like to ensure any activity in the commercial space does not impact the three residential units that sit above the commercial space. Our contractor has provided for the application of a spray acoustic insulation to be sprayed under the roof decking.

If you require additional information or specifics related to this let me know and I can obtain these from our contractor.

Regards,

Grant Knowles | Property Manager
