**Re:** Addition of maintenance float building at Fisherman's Wharf

At JBNA April 8<sup>th</sup> General Meeting, Mike Graham, Chief Technical Officer, GVHA, reviewed the plan to construct/place a second floating washroom adjacent to the existing washrooms at Fisherman Wharf on a float in front of the Harbour Master office.

The presentation was in respect of the GVHA-JBNA Memorandum of Understanding which provides for a consultation process for all proposed buildings for Fisherman's Wharf. The presentation was well received with no concerns raised. This presentation and review conformed to the GVHA – JBNA MOU regarding developments at Fisherman's Wharf. Minutes from meeting are as follows:

**Development: GVHA's Fisherman's Wharf Floating Washrooms:**

Mike Graham, Chief Technical Officer, GVHA

The consultation on this proposal is a requirement under the GVHA-JBNA MOU regarding the development of Fisherman's Wharf. A second floating washroom will be added adjacent to the existing washrooms at Fisherman Wharf. The washrooms are located on the wharf, in front of the Harbour Master office.

Q/A:

C – In favour of additional washroom facilities – need to be doubled not replaced.

A – This is doubling the capacity

C – Good that the washrooms will be doubled. Thank you again for coming

Q – Are there facilities for wheelchair access?

A – Yes

Q – What will be the hours of access?

A – Open throughout year – in winter can be closed – is on a demand basis – have flexibility to open as needed.

Tom Coyle, Land Use Chair, JBNA
