Hello, and thank you all for what you do for the City of Victoria. I am writing to state my preference regarding the bicycling plan, which is that City Council:

Adopt the Report's recommendations;

Address the issues raised in the GVCC's Letter to the Mayor and Council; and Conduct a feasibility study for a 2-way cycle track on Pandora Avenue and to present the findings of this study to the public. (An east-west cycle track downtown is likely to be the first priority project implemented by the City and it is important to make sure that the option of a 2-way cycle track is not prematurely ruled out).

Thank you for listening.

Valerie French
