I am a long-time (40 year) 78 year old cyclist, living in Victoria since 1977. I ride my bike almost daily on Victoria streets, and on the Galloping Goose and Lochside trails. A safe cycling environment in Victoria and area is very important to me, and to other cyclists.

I encourage you to adopt the recommendations contained in the City of Victoria's Bicycle Master Plan Update, and to take into serious consideration the 7 issues raised in the GVCC's letter to the Mayor and Council. I am also requesting that you seriously consider the seven issues raised in the GVCC's Letter to the Mayor and Council; and also to direct City staff to complete a feasibility study for a 2-way cycle track on Pandora Avenue, and to present the findings of this study to the public.

Thank you.

Lorne Harris
