It was moved by Councillor Isitt, seconded by Councillor Alto, that the agenda be approved as amended.

Carried Unanimously

REQUEST TO ADDRESS COUNCIL

1. **Derek Peach re: Sheltering the Homeless**
Commended Council for its initiative in proposing the establishment of a tent city in one of the City Parks, even though he knows it will face opposition.
2. **Beverly Brookman re: Sheltering the Homeless**
Congratulated Council on the motion going forward this morning by framing it as an “outdoor shelter”. She urges Council to keep going, their leadership is important. There are many reasons why individuals choose not to go to a shelter. It is a tragic and difficult situation and everyone needs to be treated with dignity and compassion.

MOTION

1. **Sheltering**
Mayor Helps and Councillor Isitt brought forward a motion regarding sheltering in the City of Victoria.

Motion:

It was moved by Councillor Isitt, seconded by Mayor Helps, that Council consider the following motion:

BE IT RESOLVED THAT Council directs staff to consult the public on options for all forms of sheltering before Council considers any proposal for a designated tenting area or tent city in any park.

BE IT FURTHER RESOLVED THAT Council requests that staff consider forming a time-limited working group to receive advice on implementation of the Action Plan on Housing Supports and City Services for Sheltering in City Parks, engaging street-involved people, neighbourhood representatives and people with expertise in the fields of social services, housing and community development.

Councillor Isitt said that the last two speakers have helped frame the discussion. Council has a mandate and social licence but we need to ensure that the mandate and social licence have been moved. They have clearly heard in the past two weeks there are concerns about moving from an unregulated to a regulated outdoor shelter. There is more work to be done with community engagement. There has also been interest in making an increased investment to focus on building permanent housing with supports instead of interim measures.

Mayor Helps said that the first part of the motion was crafted as they stood in the Topaz Park parking lot where they had a fantastic dialogue with the residents and received many important comments. It needs to be clear that the City will not allow any temporary designated tenting without consultation first.

Councillor Thornton-Joe stated that this has been a difficult situation for her from the beginning. She found it difficult to support a motion that she felt was going in the wrong direction but also recognizing that

this was not the best option, but at least it was moving forward. The City needs to address what the issues are that force people to camp out. She feels that 'temporary' should be added to the original motion.

Amendment:

It was moved by Councillor Thornton-Joe, seconded by Councillor Madoff, that the motion be amended as follows:

1. *BE IT RESOLVED THAT Council directs staff to consult the public on options for all forms of sheltering before Council considers any proposal for a **temporary** designated tenting area or tent city in any park.*
2. *BE IT FURTHER RESOLVED THAT Council requests that staff consider forming a time-limited working group to receive advice on implementation of the Action Plan on Housing Supports and City Services for **temporary** Sheltering in City Parks, engaging street-involved people, neighbourhood representatives and people with expertise in the fields of social services, housing and community development.*

Councillor Loveday stated that the title of the Action Plan has been passed by Council and adding temporary within the title would change the motion that has already been approved. He spoke to the ongoing crisis and that putting temporary in the motion does not change that fact.

Council agreed to divide the question.

Amendment:

It was moved by Councillor Thornton-Joe, seconded by Councillor Madoff, that the motion be amended as follows:

1. *BE IT RESOLVED THAT Council directs staff to consult the public on options for all forms of sheltering before Council considers any proposal for a **temporary** designated tenting area or tent city in any park.*

Councillor Thornton-Joe recommended that the Downtown Service Providers be asked to participate in the implementation of the working group's recommendations. She stated she recently attended a social working group on health and policing and that they would be a good group to consider for the implementation group.

Councillor Madoff said by using temporary in the motion signifies this is a temporary solution. The public have begun to understand the complexities of the problem. The City needs to start by working with those who are already working with the problem. The City also needs to get the information out about what we are doing towards sheltering.

Councillor Young said he is not clear whether we should be implementing the Action Plan as he did not approve it. He will support the motion as it is a step in the right direction by hearing from people about this complex and divisive issue. This is a regional issue and he thinks it is important that all municipalities have similar provisions and bylaws.

Councillor Coleman said he can support the motion with cautions; tenting was one of a suite of options that was put forth and now this motion talks about tenting as the only option. Council should be considering housing in more general terms. He cautioned that Council may be trying to sanitize the motion by adding temporary.

Councillor Alto supports the resolution although she feels that it is important to seek advice and that this is not a retreat from action, but an improvement in how to proceed. She hopes that better ideas will come forward.

Councillor Loveday asked the how engagement would be carried out and if it would include the provision of the City building housing, or just sheltering, or temporary housing such as micro housing.

Katie Hamilton (Director, Citizen Engagement and Strategic Planning): Advised that staff will need time to come back with an interpretation of the motion.

Councillor Loveday asked if there has been any engagement regarding people sleeping in parks.

Katie Hamilton: Stated that there has been none.

Councillor Loveday stated that it has become very clear that more public engagement is needed before there is any movement forward with sheltering. He has concerns that the motion is broad and undefined and not specific to what they are looking for. He agrees there is a need to take action and take a bold step forward.

Councillor Lucas said she was happy to see the incredible compassion and support but now she is worried that everyone will take a deep breath and step backwards. The project needs everyone's anger to keep the momentum moving forward. Homelessness has been going on for a very long time.

Council recessed at 9:00 a.m. and reconvened at 9:07 a.m.

2. Grant Allocation Shortfall

Motion:

It was moved by Councillor Alto, seconded by Councillor Isitt, that Council approve \$36,164 be moved from Council's Strategic Plan Fund to cover the shortfall in the 2015 Strategic Grant Allocation.

Council discussed the motion and the allocation process:

Councillor Young said the current process is not an effective way of allocating money and has become a political decision.

Councillor Lucas said that it was hard not to bring personal feelings to the table. She found it very difficult to choose who would receive money and who would not.

Mayor Helps agreed that in the future there should be changes to the process, including capping the amount that could be requested.

Councillor Thornton-Joe expressed concern with the grant process and thanked staff who had organized the grant applications in the past. There were many applications that she knew intimately and those she knew nothing about. She agreed there should be one request per organization and a review of the overall process.

Councillor Madoff stated she will support the motion to cover the shortfall. She found that reviewing all of the grant information was a time consuming process that made taking a policy based approach difficult. She felt that a better internal process should be looked at. She said that Council needs to defend their choices and by tying decisions to the strategic process was too onerous.

Councillor Coleman agreed the process was very difficult. For many years staff would bring a recommendation forward based on clearly defined criteria. Council's decisions must be defensible. He found there were many difficult choices to make.

Councillor Loveday said he regrets voting for the process of tying grants to the Strategic Plan although he found it interesting to see what each application proposed. He found it hard to weigh one against the other.

Mayor Helps thanked Council for the difficult choices they had to make. She agreed it is Council's responsibility to define the process and that lessons had been learned to improve the process in the coming years.
